THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to DR. C. L. CHEESEMAN, Box No. 4,581, Post Office, New York City, can have them sent to their respective addresses by return of mail.

THE BEST
Planing, Tonguing & Grooving Machine
IN THE WORLD.

PATENTED Nov. 2d, 1854, and Nov. 13, 1855.—These Patents were obtained for improvements upon the celebrated Woodworth Planing Machine, the Patent for which expired, Dec. 26, 1856. By the combination of these several inventions, a machine is produced of *unrivalled excellence.*

A GOLD MEDAL for the invention was awarded by the Mass. Char. Mech. Asso., at their exhibition of 1856.

Machines of all kinds and sizes, from $150 to $2000.

ALL MACHINES WARRANTED to give entire satisfaction, and to be superior to any other machines now in use.

BURDEN'S

ARE well known in the United States, and are conspicuous for their regularity and finish, their unvarying uniformity of size, and for the excellent quality of iron from which they are made, to which may be attributed their rare strength. MONDAY, AUGUST 3, 1857.

SENATOR MASON UPON KANSAS.—Senator Mason of Virginia argues that Kansas was fitted for slaves, and that if she lost to slavery, it will be because of the efforts of the New England Emigrant Aid Society. This overthrows all the Northern arguments against the operations of the Emigrant Aid Society. We were told by their opponents that the Missouri Compromise was not repealed in order to let slavery into Kansas, that the institution never could exist there, and that all the trouble in the matter was the result of organized emigration the free States. But the Virginia oracle of those who make these assertions gives them the direct lie, and proves the other view of affairs, viz. that it was designed to make it a slave state; and that it was possible.

Dr. Tyler, who for thirty years, has occupied the chair of Didactic Theology in the Theological Institute at East Windsor, Conn., has resigned. The infirmities of age present the only motive to this movement. The Doctor is now more than seventy-five years old. He is to receive an annuity of $500 per annum.

Rev. Dr. Bennett Tyler, was formerly president of Dartmouth College, and afterwards pastor of the Church in Portland, Me., which had just been left vacant by the death of Dr. Payson. While at Portland, Dr. Tyler held a long controversy with Rev. Dr. Taylor, of New Haven, Conn. over some subtle point in theology.

A LIBERAL SCOT.—At Chicago, Sylvester Lind gives one hundred thousand dollars to the University, to be paid when called for—the interest of sixty thousand dollars to be applied to educating young men for the ministry, and interest on the remainder for general purposes of the University.—This immense sum will be safely invested, and only the interest thereon used. Mr. Lind also offers to endow one professorship, in addition, provided eleven others will be endowed—six of which are already provided for. Twelve thousand dollars have been subscribed towards erecting the buildings, and plans are being prepared. The proprietors of Lake Forest also donate to the University every second lot of this property as a permanent fund.

The Chicago University, the corner stone of which was laid a few weeks since, will be merely a divinity school, while the college, like Harvard, will be devoted to the general purposes of a liberal education. Mr. Lind, the princely donor, in whose honor the institution will be named, is a little Scotchman, who has made an immense fortune in the lumber business, and by the rise in real estate.

Twenty-five miles from Chicago, on the line of the lake shore, is a beautiful tract of thirteen hundred acres, called Lake Forest. It is seventy feet above the lake level, and is covered with a native growth of fine trees, which makes it quite a rarity for the West. This romantic spot was purchased by a company of stockholders for purposes of speculation. Fifty acres in its centre have been donated to a University which will, ere long, be erected there. Thirty acres are to be devoted to the main University building, and ten acres on either side thereof to a boys' and girls' school respectively.

☞ Professor Woolsey, of Yale College, has an article in the last number of the New Englander, in which he exposes in a masterly manner the ignorance of Judge Daniels, U.S. Supreme Court, who, in his opinion in the Dred Scott case, had undertaken to fortify his positions by a reference to Roman history and law. The Professor shows that the judge has utterly failed to apprehend the meaning of the authorities upon which he relies.

HAIL COLUMBIA!—The colors chosen by Mr. Ten Broeck, for the jockies of his horses in England, are the crimson and white satin stripes of the American flag, with blue cap and white stars. This is "going in" right, at any rate. Dickons, in his American Notes, said—"the stripes of our flag should be laid over our backs." We will try on this occasion to present them in triumph to myriads of English faces.—*Porter's Spirit.*

Mr. Ten Broeck, above named, is the American sporting gent who has three American horses in England, to try speed with Johnny Ball. Two of his horses are entered for a race July 30th, the report of which will be looked for with much interest this side the water.

☞ The New York Post says that a lady who enjoys the luxury of an elegant and pleasant home, remarked, after reading the poem, "Nothing to Wear," "that she had enough *to wear*, but no where to wear it."

DRINKING AT BRIGHAM'S.

We ask the reader to peruse carefully the following police report from a Boston paper of Friday last; especially would we request such careful perusal by any person who doubts whether it is worth while to suppress such dens of vice as the Boston saloons, including Brigham's. Can any one read it, and then wish to have such drugged liquor dens encouraged here?

Charles H. Richardson and Ada Richardson were examined in the Police Court on a charge of abducting Josephine Morolious to a house of ill fame, kept by them for purposes of prostitution. Miss Morolious, the girl alleged to have been abducted, *was* the first witness called and testified to the circumstances substantially as before reported. She had become acquainted with the Richardsons at the saloon of her brother-in-law, Wm. Trainer, Jr., where she is employed. She was out on Washington street on Wednesday afternoon and met the Richardsons, with whom she visited several saloons, drinking on their invitation.

Mrs. Richardson finally left them, and the girl continued to walk the streets in company with the man, who asked her to go to a house on Hanover street and stop all night with him. This she refused, but afterwards went to *Brigham's* with him, and drank whiskey. While there she became partially *insensible* and the remainder of her story is not very clear or connected. She remembers that Richardson left the saloon with her, and that she went to his house. He left her as she thinks at the door. She was admitted to the house by the female defendant, who put her in a room by herself, and soon sent one Huntley, whom she remembered to have seen before, to the room.

She remember little else of what occurred except that the Richardsons finally came to her room and told her she must go, as her brother had come for her. She left the house with Richardson and Huntley, and met her brother who took her away from them, and went with her to the Fourth Station, where she met her mother and sister, with whom she returned home.

Wm. Trainer, the brother-in-law above spoken of, was called, and testified that in consequence of information which he received, he visited the house kept by the defendants in Madison place, twice on Wednesday evening. After leaving the second time, he noticed that Richardson opened the storm door, looked out, and apparently thinking the coast clear, came out in company with Huntley and the girl. The witness followed them, seized his sister and took her to the station house, as above stated.

They were held in $1000 each to answer at the Municipal Court. They were also ordered to recognize in $350 to answer to a charge of keeping a house of ill-fame.

DRUGGING. — The Boston Journal of Wednesday, says:

William H. Glendenin, a somewhat noted character in North street, and a recent graduate from the State Prison, was arrested last night, for robbing Wm. T. Anderson, of $166, and a gold watch, guard chain and breast pin, after the *usual* manner of committing such crimes in North street—by *drugging*, &c. Glendenin was before the Police Court to-day, and in endeavoring to make himself appear innocent in the mind of the Court, stated sufficient to convict himself before any unprejudiced judge or jury. In default of bail in $400, he was committed for trial.

Unconstitutional! is it? to break up the dens, where such monsters congregate and plot such deeds.

LONG JOHN WENTWORTH.—This tall man is Mayor of Chicago. A letter from that city says:

Mayor Wentworth is being shamefully abused by some of our journals. Everything he undertakes is hooted at. Not a single worthy motive is he allowed to have. Descents upon gambling hells are merely made to replenish an exhausted treasury from the accruing fines, and houses of ill-fame are ransacked for the same mean purpose. The fact, however, of his being an energetic, zealous public officer is beyond question—but to offend the blacklegs of Chicago is to offend nearly half of the people.

In truth, long John is a trifle too zealous. He heads his own police—lurks around in suspicious places—pummels refractory lawyers—gets fined for so doing, and indulges in various personal movements which deprive any mayor of that dignity and respect which ought to be inspired by the high position.

ANOTHER MINISTER DRIVEN OUT OF THE SOUTH.—Rev. Henry Cherry, formerly a missionary of the American Board in India, and for several years pastor of a Presbyterian Church in Georgia, has just returned to Rochester, N.Y., where he formerly resided, having been forced to leave the South on account of his political sentiments; which were on the side of freedom, and not of slavery. We are informed that he intends to remove to Michigan. As his pulpit in Georgia is now vacant, we expect soon to hear a call for volunteers. Some minister who has only a small capital of the Gospel will here find an excellent chance to invest it.

☞ A new style of fruit has appeared in New York, from Yonkers; it is called the Cherry Currant, and a branch fifteen inches long contained three-quarters of a pound of fruit.

TRAGEDY IN JOHNSON CO., IOWA.—The Iowa City Republican has a communication from Liberty, Johnson County, in that State, detailing the circumstances of a murder and suicide lately committed in that settlement. A man by the name of Hurt, had been in the habit of maltreating his wife to such a degree that she finally applied for and procured a divorce. Hurt went to Iowa City to ascertain the truth of the report, and returning, attacked her with an axe, knocking her down and mutilating her in the most barbarous manner. He then ran fire to the house and retreated to an adjoining thicket, where he stabbed himself twice with a pocket knife. Being unsuccessful in the work of self-destruction, he crawled to a neighbor's house and procured a shot gun, with which he blew out his own brains. Mrs. Hurt expired the next day.

The papers do not say that Hurt was a drinking man:—but we never heard of a wife-beater who was not.

☞ The two children who died in Philadelphia at the house of their nurse, Mrs. Busch, perished from neglect and bad management. One was three weeks and the other six months old. Last winter, two other babes died in her charge. She keeps a sort of private nursery for the benefit of those who are ashamed to own their children.

☞ Maria E. Hopkins, wife of James H. Hopkins, has been discharged from the lunatic Asylum at Blackwell's Island, at New York, whither she was sent about three weeks ago, as a lunatic, by her husband. She was released at the suit of her brother; the Recorder, before whom the case was brought, deciding that she had been illegally committed. Upon being released, she elected to go with her brother, instead of her husband, who must be a wicked wretch to force his wife into a mad house.

☞ The Boston Post says that a gravestone in Oswego bears the inscription, "JOHN *burns!*"—probably intended simply to record the man's name, but looking marvellously like a noun substantive coupled with a verb in the indicative mood; and affording a sad indication, at that! John burns! There is no hint that "JOHN" deserved the fate to which he appears to have been consigned since his decease, and we could only say, as we read the startling declaration, "we should be sorry to believe it" of anybody.

☞ It is very manifest, says the London Times, that the fashion of turning Roman Catholic, is going out among the aristocracy. The stream is setting in towards Spurgeonism, and it is said that the Duchess of Sutherland is on the eve of uniting herself with that cause, under Mr. Spurgeon's leadership. She and the Duchess of Argyle have been in frequent attendance at his ministrations.

☞ The clergyman of Pittsburg, whose conduct with a young lady on a steamboat on the Ohio river, has been made the subject of much scandal, has, after trial, been acquitted by the Presbytery. Among the witnesses examined was Miss Henderson herself. She testified that Mr. Simpson occupied part of her berth with her, but maintained that she wished his presence to defend her from the approaches of the second clerk of the boat!

☞ Rev. Dr. Sheldon, lately of the Baptist Society in Bath, Me., has written to Dr. Miles, of the Unitarian Association, asking for employment in that denomination, with whom his views now nearly agree. He is at present preaching to an independent society in Bath, composed principally of young men and women, who withdrew from the Baptist Society.

☞ The Richmond papers record the death of a young man in that city on Thursday last, whose wedding was appointed for the very night when he was lying cold and stark in the embraces of death.—A few days before he was in the prime of health, and the cards of invitation to the marriage feast were sent to a large circle of acquaintances. But the night came and he was shrouded in his wedding suit.

☞ When the Western guests reached Baltimore at the recent railroad jubilee, one of the city missionaries stationed himself in the street and showered tracts into the carriages as the cortege passed by.—The guests smilingly received the religious missives and coolly placed them in their pockets, under the impression that they were bills of fare!

☞ A young woman died in Newburyport last week of dropsy, from whom, in eleven operations, within a year and a half, between four and five hundred pounds of water had been drawn.

"RAT PETER" IN A TRAP.—This individual, who has recently caused so great a sensation in Cincinnati, was paraded on the prisoners' bench in the Police Court on the morning of the 27th.—His name is George P. Goddard, although universally known as "Rat Peter." He is a little, dark, keen-looking man, about fifty years of age, and but for his craving appetite for whiskey, would have probably made his way in the world in a more reputable manner than by peddling rat poison. The only charge preferred against him was vagrancy, the officer testifying that he was continually drunk in the streets, and during the winter more than one half his nights were passed in the Bremen street station-house. One of the watchmen stated that he had undoubted evidence that "Rat Peter" had distributed the poison which had caused such melancholy results; whereupon the little man, raising his hand, upon one of the fingers of which he sported a big ring, indignantly exclaimed—"Dash ish not so. I has got a dousand proof I no do him."

Peter, however, could not prove that he was not a vagabond, and the Mayor accordingly sent him to the city prison to be taken care of for 90 days, the longest term in the power of the Court to bestow.

MORE WAR.—Two Missourians, bringing two slaves, lately arrived at Terre Haute, Illinois, and commenced laying out a race course. They soon made themselves disagreeable, one of them grossly insulting the wife of a respectable citizen. The Supervisor of the road gave notice that he should plow up the track, and the Missourians swore that the first man that attempted it they would shoot. The Supervisor ordered out his men, who completely armed themselves and went to work upon the road. The Missourians approached them, but, after giving them a survey, concluded that discretion was the better part of valor, and cleared out. Hadn't the U. S. troops better be ordered out to put down this rebellion against the divine right to hold slaves, race horses, and insult women?—*Traveller.*

SPECIAL NOTICES.

HAIR RESTORATIVE.—Every one will, we think, agree with us in the opinion that the human hair is the greatest natural ornament that is possessed either by a gentleman or a lady.—Just meet an apparently good looking man, for instance, in the street; you admire his features, whiskers, and general bearing; but lo! he lifts his hat in recognition of your bow, and the charm has vanished, for falsehood is written on his bald head, and the glory has departed with the flowing locks that once flourished luxuriantly there. In the case of a lady, the matter is, if possible, worse—such cases reminding one of the circumstances on which the following epigram is founded:

"O! give me, fair Emma, a lock of your hair,'
A bashful young lover took courage and sighed:
"'Twas a sin to refuse such a modest request,
So take the whole wig,' the dear creature replied.

Now, to prevent such a catastrophe, is within the power of every lady and gentleman; for, by using Prof. O. S. Wood's Hair Restorative, hair is not only prevented from falling off or turning gray, but the article will restore hair to bald places; and even if it has changed color and become gray, it will bring it back to its pristine beauty and luxuriance. Those who are acquainted with the anatomy, physiology and pathology of the hair, must be well aware that certain substances have a specific action upon it; and it is by judicious combination of these that Professor Wood has succeeded in compounding a mixture possessed of remarkable virtues.—[Waverly Magazine and Literary Gaz.

IF ALL OUR READERS

Who are troubled with liver complaint, Jaundice, or Dyspepsia, will read the advertisement in another column of Dr. Sanford's Invigorator, and then do as we have done—get a bottle, we should not see so many sickly, half-dead, despairing people as now meet our gaze at almost every corner, for certainly there never was a remedy invented of which so much is said, and that performs so nearly what its proprietors say it will do. It came to us so highly recommended that we could not fail to try it, and a trial has convinced us, without a doubt, that it is the best family medicine in use. We take it for Headache, Sour Stomach, Billiousness, and any of the little bodily ills that are common, and it does produce a pleasant state of feeling to the sick, and what is better, after using it a few times, these little ills grow less and less, and there is a prospect of being entirely free from them by a continuance in the use of the Invigorator. THE DRUNKARD'S CHOICE.

"O come, sign the Pledge," said my good neighbor Grey,
"Sign the pledge to let liquor alone;
Your wife will rejoice when she hears the glad news,
And the Angels will sing round the Throne."

I told him I could not keep the pledge,—
He told me I could if I'd try;
And he urged me to sign, for he said I'd repent
If I let the occasion go by.

I thought of my wife who was toiling at home
For bread for our children three;
And I thought of the patience and love she had shown
For a poor brutish drunkard like me.

When others forsook me, she pleaded and wept,
And begged me to leave my sad ways;
The promise oft made, but alas! never kept,
Stood out in relief to my gaze.

I glanced at my rags, and with trembling I cried,
"Can I yet be a man among men?"
Still holding the pledge, my friend calmly replied,
"Such has been, and may be again."

"God help me!" I cried, "if I could be set free,
O, how would my poor wife rejoice!
Most gladly I'd dash the dark poison away,—"
"Do it now,—" said Friend Grey, "make your choice!"

"But what if I fall? so degraded am I,
That the tempter, I fear will succeed,
And draw me again in his terrible chain,—
O that would be dreadful, indeed!"

"Even then," said Friend Grey, "we would not give you up,
But would beg you to try it once more;
Look to God for your strength,—put your trust in His might,
And His aid in temptation implore."

"You're a tried friend and true, neighbor Grey,"
I replied;
"I will pray to my maker for aid;
The Pledge I will sign, and endeavor to keep,
Till the earth on my coffin is laid."

I signed, and God helping, that pledge has been kept;
My rags from that day disappeared;
My beggared estate soon grew better, and I
By my wife's glad approval was cheered.

Now I would not go back to my filth and my cups,
For Earth's highest treasures of gold;
The abstinence Pledge my salvation has proved,—
I thank God that my name I enrolled.

Then come, sign the Pledge, one and all, I entreat;
My poor fellow-drunkards, come, sign!
You are not worse than I was, and now I am free!
Sign, and *your* lot will brighten, like mine!

LOCAL.

☞There was an unusally heavy thunder shower in this city and vicinity, on Saturday evening—as most people in this region are doubtless aware. The lighting was the "sharpest" we recollect to have ever heard, and the thunder proportionally heavy—seeing very near. Two claps, especially, seemed to strike on or near Church Hill—as we stood, with several others, in a store on Bow street. All were thrust back from the door, ass it were, and their eyes blinded for an instant.

It afterwards appeared that the house of Messrs. John and A. T. Goodrich, on Linden street, near Daniel, was struck, though no great damage was done. The rod on the western end on the house conducted the fluid down nearly to the eaves; where, owing probably to a defect in a joint of the rod, the lightning divided into at least two streams, and run down through the house. A lady's thumb was numbed for a while, a cat lying under a stove was killed, a few shingles rent, &c., but providentially no person killed.

How is it?—A New York correspondent of the Portsmouth Journal, writing his impressions after a visit to this city, his home, says:

It is a lamentable fact, not to be disguised, that morality in our esteemed town is at a very low ebb, at least among the growing portion of the community; and nothing but prompt and energetic *action* on the part of the authorities will save it from the condition of lawlessness which marks our larger cities. You have the elements in full strength which go to make 'Dead Rabbits,' 'Plug Uglies' and 'Bowery Boys,' only wanting quantity and combination; and the best investment of a few hundreds a year that could be made, would be to employ a number of *efficient, fearless police*, till a well-dressed man or woman can go round a square, without a strong probability of exciting audible uncomplimentary remarks at each corner, and a tomb stone has a tolerable chance of remaining unbroken in the Cemetery.

From Kansas.—*Lawrence, K. T., July* 21.—Things yet remain "*in status ante bello*," bating only the sprinkling of Massachusetts street by the city authorities, and vast amounts of whiskey consumed by Walker's troops, in which service one poor fellow lost his life on the first day of the engagement. No more proclamations.

It is rumored that the next hostile move will be against our churches and religious societies, which, with rebellious temerity, have been organized without the sanction of territorial enactment or the organic law. We had a quiet Sabbath day before yesterday in the city limits, and the churches were well attended. But in the vicinity of the camp it appeared, I am told, like the reign of Pandemonium. The cabins of the settlers were beset by the drunken soldiery, so they were compelled to remain at home from church, and were subjected to many insults. These things are borne with the utmost patience. No excitement prevails. The people go about their usual business, and the talk is of the weather, the crops, &c., with an occasional joke on the last invasion, just as though we were not on the brink of an awful precipice and about to go over into the gulf below, with the wreck of the Union and all that sort of thing, as we have been informed by our wise and gracious magistrate. Nothing rash will be done,—nothing of treason; and yet the city organization will be sustained, and all the purposes for which it was framed will be prosecuted; and that may be done without any overt act of collision with the powers that be. Such, I believe, is the general purpose and expectation of the people of Lawrence.—*Trav.*

Property Running off with Property—*Underground Railroad Accident.*—A Southern gentleman, Mr. Charles Parlango, who was staying at the Girard House, accompanied by two ladies and a negro valet, was robbed yesterday afternoon under the following circumstances: He had designed going to New York by the 5 P. M. train. With this view he dispatched the negro valet with his more valuable baggage to the foot of Walnut street. Among the baggage were two tin boxes, containing a lage amount of money. The negro received them, and wended his way; but, knowing the contents of the boxes, his devotion to his dearly beloved Massa succumbed to the temptation, and he eloped with them. He was seen afterwards in company with another negro, and it is altogether probable that, being a slave, he is already on the underground railroad bound north. We are informed that this man Jim, as he is called, has hitherto proved the possessor of entire integrity, and has repeatedly traveled North without evincing the desire to abandon his master. Mr. P. would have done better had he intrusted his baggage in the care of the proprietors of the Girard.—*Philadelphia North American, July* 27.

Wealth of Organ Grinders.—The tribe of street musicians who daily grind "that endless barcarole of 'Poor Dog Tray,'" although often receiving more maledictions than pennies, nevertheless contrive to make a very respectable saving from their earnings. Many of them manifest a commendable frugality, and put their money out at interest. The Sicilian Consul at this port, Mr. Reggio, has now upwards of $15,000 entrusted to him by that portion of his countrymen resident in Boston, who gain their livelihood by street music, and for which he allows them interest at the legal rate.—*Boston Advertiser.*

Not Bad.—Four professional gentlemen, the other night, drove several miles up the river to an eligible spot for bathing. The night was fine, they were in fine spirits, and having left their clothes in the carriage were shortly laving their fine persons in the river, with sensations peculiarly fine. So absorbed were they in the pleasures of the river bath, that they had wandered to some distance, when one of them exclaimed, "The horse is running off!" They ran, but the horse would not stop; for though he had nothing in the carriage but their clothes, he felt under the imperative necessity of conveying them home! It was about one o'clock when the servant of one of the gentlemen heard "massa's carriage coming," and went out to put it up. What was his horror to find no massa in the carriage, but only certain suits of clothes! With chattering teeth he ran to inform missis that massa was murdered or drowned. Missis sagaciously surmised the truth, and dispatched him back with the carriage. After a half hour's drive, Sambo distinctly saw a ghost ahead, of whose fleshy nature he was suspicious. The apparition now swiftly and stealthily approached till nearly opposite, when it sprang from the road-side and grasped the horse's head, crying, "Whoa!" Sambo was glad it was massa, and the two returned to the disconsolate party. They were in bed—the bed—of the river debating whether it were better to await the doubtful return of the carriage, or abash the virgin moon by running to their several places of abode, at the imminent risk of being knocked down by the watchmen. The carriage relieved them; and having dressed, they sped to their anxious wives in great glee, and with many mutually exchanged oaths that not a syllable of the night's adventure should be breathed to a human being—least of all to a reporter for a newspaper.—*St. Louis Democrat.*

A large bridal party, including two couples of matrimonial candidates, recently visited LaCross, Wis., "to see the minister." One pair were made happy as easy "as falling off a log;" but the game was blocked with the second couple, by the bride's refusing to be married in such warm weather! The groom pleaded—he would "deed her all his land, and she needn't do a stitch of work." The girl was obstinate; "she "wouldn't be married no how before next October."

Contentment is the best Fortune. The above is an old, wise, and true saying, as our readers are no doubt well aware of, but the question is often asked, "Who is contented?"

Nine-tenths of mankind are paralyzed by pecuniary troubles. In the majority of cases they require but a very small amount of money to raise them from a state of apathy, which is brought upon them by the consciousness of not having quite money enough to supply their wants. There certainly is no reason why a large portion of those should suffer when they may so speedily improve their condition by the successful investment of small sums in a well-organized, legitimatized, and fairly-drawn lottery, wherein the State sanctions, protects, and controls the whole transaction. We mean the Jasper County Academy Lottery, of Georgia, that of which Messrs. Anderson & Son, of Macon and Savannah, Georgia, are managers, the drawing of which takes place in public, under the supervision of W. R. Symons and J. M. Prentiss, Esquires, on the 17th day of August inst. The scheme is undoubtedly one of the greatest and most magnificent ever gotten up in the United States, on the Havana plan of single numbers, and embraces capital prizes of $60,000, $20,000, $10,000, $5,000, $4,000, $2,000, and so on, down to 3,000 prizes of $30 each, making one prize to every nine tickets. Any person wishing to obtain a small increase of means, with the possibility of a large fortune by drawing the capital prize, can remit money to these gentlemen, and they may rest assured they will be promptly answered. A whole ticket can be purchased for ten, a half ticket at five, and a quarter at two and a half dollars, according to disposition of the buyer. Think of a fortune for that insignificant investment! Small schemes are drawn every Saturday. Tickets are from one to four dollars.—*Exchange.*

Knife Cleaning. Native Talent.

MR. JOHN HANSON enters the kitchen to show us his apparatus for scouring knives. Our knives pass under his skilful manipulations and come forth all that the most fastidious housekeeper could desire.

But our knives were not black enough to satisfy him or suitably to show his art. "Hev'n't you a knife as dirty as sixty?" asks Mr. Hanson.—Having none that approximated to that scale of dirt, we were content to see our own ordinarily clean knives receiving a beautiful polish, which quite satisfied us that Mr. Hanson's machine was a machine worthy of a place in the kitchen cabinet. "How long will it take to scour a dozen knives?" is a question propounded. "Half that number of seconds," replies the artist.

Mr. Hanson also prepares a bottle of liquid, which, for cleaning silver, is quite unsurpassed. As he is a native of Portsmouth, everybody with a laudable desire to encourage native talent, will certainly be glad to receive a call from him and patronize his new knife scourer. aug2

AYER'S Cathartic Pills,

(SUGAR COATED,)

ARE MADE TO

CLEANSE THE BLOOD AND CURE THE SICK

Invalids, Fathers, Mothers, Physicians Philanthropists, read their Effects, and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach

PITTSBURG, PA., May 7, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to rise from a foul stomach, which they cleanse at once. If they will do others as they do me, the fact is worth knowing.

Yours with great respect, ED. W. PREBLE,
Clerk of Steamer Clarion.

Bilious Disorders and Liver Complaints

DEPARTMENT OF THE INTERIOR,
WASHINGTON, D. C., 7 Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot testify to my they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of the organs. Indeed, I have seldom failed to cure cases of bilious *dis ease* so obstinate that it did not readily yield to them.

Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Relax, and Worms.

POST OFFICE, HANTLAND, LIV. CO., MICH., NOV. 16, 1855

DR. AYER: Your Pills are the perfection of medicine They have done my wife more good than I can tell you She had been sick and pining away for months. Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had it bad, and my wife cured him with two doses of your Pills, while others around us paid from five to twenty dollars doctors' bills, and lost much time, without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be prized here.

GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in discharge. To regulate the organs of digestion and purify the blood they are the very best remedy I have ever known, and I can confidently recommend them to my friends.

Yours, J. V. HIMES.

WARSAW, WYOMING CO., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountain of life and health.

JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and eruptions on her skin and by her hair. After our child was cured, she also tried your Pills, and they have cured her. ASA MORGRIDGE

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hinkle, of the Methodist Episc. Church.

FULTON HOUSE, SAVANNAH, GA., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until, by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them I am now entirely well.

SENATE CHAMBER, BATON ROUGE, LA., 5 Dec., 1855.

DR. AYER: Your Cathartic Pills have effectually cured my gout. Pills of Rheumatic Gout—a painful disease that had afflicted me for years. VINCENT SLIDELL.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a Dinner Pill, they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, and even Deafness, and Partial Blindness, have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a pill, from the dreadful consequences which frequently follow its incautious use. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, IN CIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it widely known. Nay, few are the families in any civilized country on this continent without some personal experience of its effects; and fewer yet the summer months any where within reach of medical aid, from some living trophy of its victory over the subtle and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared. We have abundant grounds to believe the CHERRY PECTORAL saves more lives by the consumptive it prevents from falling victims, than it lays by you, and cure your colds while they are curable, nor neglect them until no human skill can master the immortal conqueror that, fastened on the vitals, sears your life away. All know the dreadful fatality of lung disorders, and as they know too the virtues of this remedy, we need not do more than to assure them it is still made the best it can be. We spare no cost, no care, no toil to produce it the most perfect possible, and thus afford those who rely on it the best agent which our skill can furnish for their *ease.*

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FRANCIS & Co. are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The price of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from $20 to $20,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published in the Baltimore Commercial, in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C. Address T. H. HUBBARD & CO.,

No. 39 Fayette st., or box No. 40,

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that one can fill to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $50,000; every prize being drawn, and result of drawing published in Savannah papers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. Write your address plainly, and direct to S. SWAN & Co., Atlanta, Georgia

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m18 1y

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that MORE SUCCESSFUL BUSINESS AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he believes and can reasonably expect to prove, that at no other office of the kind are the charges for professional services so moderate.—The immense business of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of the mechanical arts, and full and accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent solicitors in the United States, and have no hesitation in recommending inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them any rights they may claim. All know the dreadful fatality of lung disorders, and as they know too the virtues of this remedy, we need not do more than to assure them it is still made the best it can be. We spare no cost, no care, no toil to produce it the most perfect possible, and thus afford those who rely on it the best agent which our skill can furnish for their *ease.*

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,

Commissioner of Patents.

A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.
INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—has but ONE AIM—accomplishes but ONE THING, to wit: SUBDUES INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. Every *form of inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. Is it asked, *how* it does this?—simply by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely what adheres to the point of a quill dipped into a solution of it, to affect the entire system.
☞ *Of its intrinsic value, the enlightened community, and not the discoverer, must be the judge.*

Lawrence's Carminative,
—OR—
CHILD'S PAIN-KILLER.
THIS invaluable preparation is a favorite scientific prescription of one of the most eminent of the Medical Faculty in New England, and one who has been successful as any other in the treating of
DISEASES OF CHILDREN,
and has been used with never-failing success.
The Carminative is emphatically
A CHILD'S MEDICINE,
and is the *only* Child's Medicine in this country; intended to do away with the excessive and injurious use of *Paregoric*, a remedy sure to be followed by a "dose of physic."
The ingredients of which the *Carminative* is compounded, are known to the Medical Faculty, and it is now extensively used, and approbated by the physicians living in the vicinity of the Laboratory, where opportunity has been had to test its virtues.
The *Carminative* is offered in full confidence for the rapid cure of
Colic, Pain in the Bowels, Wind in the Stomach and Bowels, Green Stools, Diarrhea, Nervous Affections, Sore Mouth, Restlessness,
and other disorders incident to Weaning and Teething; sure to regulate derangements of the Stomach and Bowels, which often afflict young children; correct debilitated and sour Stomachs, relieve pain and give tone, energy and strength to the whole system.
Due regard has been taken to have the price of the Carminative so low as to be within the reach of all. Price *only 25 cents.*
Parents who value rest should not fail to buy a bottle, as they may depend upon its giving relief to "worrisome children."
Sold by country traders and all Apothecaries throughout the United States and Canada.

Manny's Celebrated Mower
—AND—
MOWER AND REAPER.
IMPROVED.
Built expressly for the New England States.
THE MANNY MOWER has been extensively used for the past two years in New England, and more than six years at the West.—Its success is beyond that of any other Mower or Reaper ever constructed. Over 150 1st *Premiums* have been awarded it, including the *Grand* 1st *Class Silver Medal* at the WORLD'S FAIR, PARIS, 1856.
With the two past years' *experience*, we have been enabled to make a number of very *important improvements*. We find New England farmers require a different Machine from other sections—the fields generally being small. It must be *light*, at the same time possess *great strength*; *portable*, with facilities to *raise the cutters to pass obstructions*, and to remove from field to field. A perfect cutting apparatus, to cut the fine grasses without clogging, and so constructed as to *start* in the grass *without backing*, easily adjusted to cut high or low, and have a Reel to cut equally well with or against the wind, and to be worked with ease by a light team, and so easily managed and simple that any one of common ability may operate it successfully, and to be built in the most thorough manner.
With this knowledge of the farmers' requirements, and with the determination to build a *better* Machine than has ever before been constructed in this country, we offer the **Manny Mower** of 1857 with confidence, as combining the qualities enumerated above, and as one particularly adapted to meet the wants of New England farmers.
Price of Mower, $110; with Reaper attachment, $15 Extra. Delivered on board the cars at Worcester, Mass. JOHN P. ADRIANCE & Co., *Manufacturers.*
One of the above Machines can be seen at the store of the Subscriber.

THE BEST MOWING MACHINE.
ALLEN'S Patent Improved Mowing Machine, and combined Mower and Reaper; Bore of the palm at the great National Trial of Mowers at Syracuse, N. Y., and a larger number of them have been sold than of any other patent. Strong, Simple in Construction, not liable to get out of Order; Compact, Light, Easy of Draught; perfectly safe for the Driver, and may be worked at a slow gait by Horses or Oxen; no clogging of Knives; works well on rough ground, also on side hills—salt and fresh meadows, &c., and in any kind of lodged grass and clover.
Warranted to give perfect satisfaction, and to be the BEST Mowing Machine sold in New England, to prove which we challenge any other Mowing Machine to a trial in any kind of grass and on any kind of land—One can be seen in operating order at the farm of the subscriber. For Sale by JAMES HILL & SON, Agents.

AMERICAN HOUSE,
BOSTON.
Conducted on the European Plan.
LEWIS RICE, Proprietor, respectfully announces that in compliance with the very general preference expressed for the European system of hotel management, that the American House will hereafter be conducted solely on that plan. Well furnished parlor and sleeping apartments will be let by the day, or for longer periods. Meals served at the gentlemen's hall at all hours of the day and evening. The ladies' dining hall will be opened in like manner for ladies, and gentlemen accompanied by ladies. The accommodations and conveniences of the house are unsurpassed, and the recent improvements and alterations leave nothing to be desired. Suburban residents will find the arrangement specially convenient. Large or small parties provided with dinners, suppers, &c., at short notice.

IMPORTANT DISCOVERY.
DR. CHEESEMAN'S PILLS FOR FEMALES.
Prepared by an old Physician of 40 years experience
THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular: and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhea, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health.
These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to DR. C. L. CHEESEMAN, Box No. 4,531, Post Office, New York City, can have them sent to their respective addresses by return of mail.

Morning Chronicle.

TUESDAY, AUGUST 4, 1857.

CAN NEGROES PRE-EMPT LANDS?—Isaiah Lawrence, a colored citizen of New York, being desirous of settling upon a quarter section of government land in Minnesota, wrote to Mr. Marcy, when that gentleman was Secretary of State, inquiring if there was anything in the laws of the country or the regulations of the Territory, to prevent his acquiring the right of pre-emption. To this Mr. Marcy replied that there was no legal hindrance. Mr. Lawrence thereupon proceeded to Minnesota to settle, but the Register of the Land Office at Stillwater gave an opinion that he was not entitled to the right of pre-emption. On the 27th of June last Mr. Lawrence communicated these facts to Mr. Thompson, Secretary of the Interior, and requested that the decision might be confirmed; but no answer has yet been returned.

NEWBURYPORT POLICE.—The Herald informs us, that on Saturday evening, between 10 and 11 o'clock, Marshal Westcott, assisted by Constable Welch, made a descent upon that "hell" of drunkenness, gambling and crime, that stands out with its "lone star," almost opposite the house of God, on Pleasant street, which he found to be full of gamblers, some of them the most notorious blacklegs of Essex county; and added to them was one of the same kidney from Boston, and another from New York. They were engaged in their game at the time of the descent, thirty or so being in the room. The marshal attempted to carry their castle by surprise, but the signal bell was rung as he entered, and there was a mighty scampering of the bipeds, among whom were several men of good cloth about town, some rushing for the doors and tumbling one upon another, and some leaping from the windows at the peril of heads and limbs. The marshal made for the tools and seized a portion of them—a faro bank, &c.,—valued at $200, and then clutched the man nearest him. Constable Welch was like a wolf among sheep, and succeeded in securing four others, while many just escaped him, in one instance leaving a good lock of hair as a memento to the officer, and in another the broadside of a coat and a piece of shirt big enough to cover all the wounds and bruises that might be made.

We have not yet learned who is the owner of that building, but whoever he is, he has often enough been warned that he was liable under the statutes of the commonwealth, to a fine of $1,000 and imprisonment, for letting the building for a nuisance, and if it is not now stopped, we hope the force of that law will be tried. It has stood a standing disgrace to the city, in the most public thoroughfare, long enough; and it should now be done with.

APPLES IN NEW HAMPSHIRE.—The Manchester American says:

Last year apples were unusually scarce, and we are sorry to find that so far as New Hampshire orchards give evidence, there is no better prospect for the apple crop of 1857. In the valley of the Merrimac, from Nashua to Franconia, and in fact in every part of the state, the full product will not exceed that of last year.

The same is the prospect of the apple crop around Newburyport. The canker worm did the work.

DEATH IN THE CARS.—Mr. George Lewis, of Halifax, N. S., just after the cars had left the depot at North Berwick, on Saturday while in conversation with a fellow passenger, fell back and expired immediately of heart disease. The deceased, who had arrived in Boston on the same day in the St. John boat, and was on his way to Quebec, to effect the sale of a cargo of sugar, had got out at the North Berwick station and had partaken heartily of refreshments, and was in cheerful conversation when the event occurred. The occurrence took place about 6 : 40 P. M. on Saturday.

Mr. Akerman, the gentlemanly conductor the cars, did everything in his power on the occasion—stopping the train as the point where medical aid could be *immediately* procured, and in the meantime applying such remedies for the resuscitation of life as were thought proper. This is the third case of death in the cars which has come under his attention, and all from the same cause—disease of the heart.

PENNSYLVANIA.—General Packer, the Democratic candidate for Governor of Pennsylvania, has declined the invitation of Judge Wilmot, the Republican candidate, to discuss political affairs with him on the stump.

THE QUESTION SETTLED.—The authorship of the poem, Nothing to Wear, which Dr. Butler published as his own, has been claimed by a Rev. Mr. *Peck*, for his daughter, who, he says, lost the manuscript of the greater part of it. Now, the Rev. Mr. *Bushel*, in the New York Evening Post, comes forward, and claims it for his aunt, in the words following:

Dearly Beloved Public: Recent developments impel me to impart to you, in strict confidence, the fact that my aunt, Mrs. Hi-Betty Martin Bushel, is the true author of the whole of that famous poem, "Nothing to Wear," excepting only the thirty lines written by Miss Peck. The idea was suggested to my aunt by a new teapot, which I purchased and brought home about a year ago, and which, after examination, she pronounced a very good one, but, compared with the old one, "it was nothing to wear." It immediately occurred to her to write the middle of a poem on the general subject of "Nothing to Wear," which she did, making some use, she said, in its composition, of Gouraud's system of *Farma mnemotechny* (I believe this is it, but I can't find the word in the dictionary). * * * About six months months after she read it in Harper's Weekly, my aunt discovered that it was her own production, and she has had fits ever since. You must know that poetry runs in our family, though we have generally confined ourselves to *dry measure*. It is not surprising that Miss Peck claims less than my aunt, as it is well known that it takes four of that family to make one of ours.

STRANGE CAUSE OF FIRE.—In a house in 29th street New York, an explosion attracked the attention of the resident, who rushed down into his cellar and found his gasmeter and the wood burning furiously. By shutting off the main stop-cock, and a free use of water, the fire was extinguised. The accident is thus accounted for:

"About a fortnight or three weeks ago, the resident had some repairs made to his gas apparatus. The man who was employed for the purpose lighted a candle with a match which he rubbed upon the gasmeter, upon which he also set the candle. It is conjected that, either in rubbing the match or in passing the candle around the gasometer, he lighted an imperceptible stream of gas which was leaking through the gasmeter, and left it burning, and that that imperceptible jet of flame continued to burn from day to day and week to week, constantly making the hole a little larger and the discharge of gas greater, until finally the heat melted the solder and occasioned the general explosion which occurred yesterday morning.—This explanation, which is quite plausible, is also adopted by the officers of the gas company."

☞ Some families at Haverhill, Mass., wishing to be "at home," near "the deep, heaving sea," have erected a neat cottage on Plum Island, three miles below Newburyport, for their own accommodation during the "watering" season. The Herald thinks some of the Newburyport people will soon be following the example, and would not wonder to see a whole row of cottages along that shore within a half dozen years.

☞ Lucy Stone and her husband own a cottage and live at Orange, N. Y. Rev. Antoinette Brown Blackwell and husband reside at Newark, N. J.; she has not retired from public life. Mrs. Lydia Jenkins of Port Byron has commenced preaching, after a regular course of study.

☞ A fellow at Mullica Hill, N. J., whipped his wife most unmercifully the other day. That night, a mob waited on him, rode him on a rail to a mill race, and tumbled him in. He crawled out and went home something the worse for wear.

MINUTE GUNS.—According to orders from the Department, minute guns were fired at the several Navy Yards on Saturday, on account of the decease of Commodore Newton.

FORNEY'S $25,000 CONSULSHIP.—The Pennsylvanian says that an attempt was made to appease Col. Forney by the office of the Liverpool Consulship, which should be *made to him* worth $25,000 per annum, $10,000 to be paid in cash. The sum beyond the legal salary of the office was to be modestly veiled under the name of compensation for newspaper correspondence. This would make $100,000 for the four years of Mr. Buchanan's administration, and it was refused.

Let it be noted, this statement does not come from the opponents of the administration; it is the confession of his friends. What are the services for which this enormous sum are offered to compensate one man? What are the secrets that were to be silenced by this bribe? Why is there such an alarm felt through the whole party, because the man who did so much for the nomination of Mr. Buchanan, who managed the election in Pennsylvania, which secured his triumph, who was very generally designated as the leading supporter of his administration, and his confidential, personal and political friend, now proposes to start a newspaper? Colonel Forney knows how Pennsylvania was carried, against the sentiment of the people. He cannot disclose that without confessing his own agency in it; but a disappointed man will sometimes commit a suicidal act in revenge for the injuries which he has sustained.—*Providence Journal.*

DOVER POINT, August 2, 1857.

Messrs. Editors.—Not that there is anything of peculiar interest in this location, but because I like to see courtesy appreciated, I write you from Dover Point. A short drive over a good road, and a pleasant trip across the river on the ferry-boat, bring one to this place from Portsmouth. At the house Mr. Hanson will be found attentive and anxious to please, and various means to prevent time hanging heavily on visitors. The situation is delightful, at the junction of the Piscataqua and Cocheco rivers. Looking down the river, one sees Frank's Fort, Long Reach, and Eliot; up the river, old Piscataqua Bridge adds greatly to the beauty of the scene. On this river immense quantities of brick are made. Near the Point are the brick-yards of three Pinkhams, the central yard being considered one of the finest in the country.

I am sorry your pugnacious correspondent, who writes from Rye Beach, under date of July 25th, should have misconstrued my meaning in regard to our adventure on Wallis' Sands. I told the story as a warning: that none should leave their garments at the mercy of a horse not fastened.

I stated that the ladies of the first house rushed to the door to see us as we passed by. This excites his ire, but still he substantiates it. In regard to being glad "to have called at that hospitable roof, for clothes to cover them with," in case the horse had run away, it might be possible; but I had rather run the guantlet to Portsmouth (under cover of night) than seek admittance there, if the occupant should happen to be as willing to kill Seals as he is to murder the King's English. Neither do I think I should have chosen the roof as a place of entrance, but would rather have tried the door.

Our irate friend goes on to state his opinion in regard to weather, &c. He has an idea that there "is water enough now in the brooks and ponds by the wayside, to drown any blockhead who don't know enough to carry some kind of weight to his horse's halter, to keep him from walking off with his breeches, or to cover a Seal." Does he mean to insinuate that horses wear breeches? if they do, why may they not walk off with them? And if he wants a weight to "cover a Seal," he will probably want a span to draw it. If, however, he would intimate there is any danger of the early decease of "Seal" by drowning, we can inform him that we have visited the Sands several times since, and having at present no idea of discontinuing our baths there, he will probably have several opportunities to gratify his bellicose "propensities" by assisting the watery element in its endeavors to "cover a SEAL."

☞ "Dead Rabbit Shirts" are worn in New York. The Philadelphia North American saw one of them on a rowdy, and thus describes it:—"The article had a white ground and was embellished all over its surface with prints of dead rabbits hanging by the heels. The rabbits wore done in vermillion. The garment was suggestive, and went to show that our calico printers are wide awake. The man who wore it looked as though a sort of cross between a 'Plug-Ugly' and a 'Hydraulic Ram.'"

A PERSEVERING LOVER.—A young lady possessed of beauty, accomplishments, and having $45,000 in hard cash on deposit at St. Louis, started recently on a trip to New York in company with her aunt. She took passage on the steamer Tennessee Bell from Keokuk to Cincinnati. On the same boat was a young man who had plenty of everything but money; he had importuned her at home, and kept up his ardent courtship on board the boat. The lady, however, was hard-hearted and refused to give him the least hope. The boat stopped awhile at Carrolton, Kentucky, and the lady and her aunt concluded to take a stroll on shore; as she was going down the gangway plank, it tilted, and the lady fell into the water. She was drawn by the current under the wharf boat. The suitor jumped in, went under the boat after her, succeeded in catching her, and finally rescued her. In two hours, she was perfectly restored, and sending for her deliverer, and a clergyman being on board, they were married forthwith.

Nicholas Longworth, the Catawba wine maker at Cincinnati, has compromised his difficulty with Dr. Cox, the official inspector of liquors, and allowed him to test his sparkling Catawba; and such was the effect upon the venerable official that he is said in his hilarity to have resembled Anacreon in his old age, and to have sung a stave (in the original Greek) in the praise of Bacchus, after the true Pindaric style.

Having been summoned by the Queen to appear at Windsor Castle, and enact with the corps of literary Thespians, the new play of Wilkie Collins, of the "Frozen Deep," Charles Dickens replied, that he was ready to do so if the Queen was willing to receive himself and his companions as guests, on the same footing with other visitors to the castle, but that he declined to go under any other circumstances.

SONG FOR THINKERS.

BY CHARLES SWAIN.

Take the spade of Perseverance,
Dig the field of Progress wide;
Every rotten root of faction
Hurry out and cast aside;
Every stubborn weed of Error;
Every seed that hurts the soil;
Taxes, whose very growth is terror—
Root out all, 'twill pay your toil.

Give the stream of Education
Broader channel, bolder force;
Hurl the stones of Persecution
Out, who'er they block its course;
Seek for strength in self-exertion;
Work and still have faith to wait;
Close the crooked gate to fortune;
Make the road to honor straight!

Men are agents of the future;
As they work so ages win,
Either harvest of advancement,
Or the products of their sin;
Follow out true cultivation;
Widen Education's plan,
From the majesty of Nature
Teach the majesty of Man!

Take the spade of Perseverance,
Dig the field of Progress wide;
Every bar to true instruction
Carry out and cast aside;
Feed the plant whose fruit is Wisdom;
Cleanse from crime the common sod;
So that from the throne of Heaven
It may bear the glance of God.

VERMONT.—Vermont is a model State—one among thirty-one, and very lovely.—One of its papers says of it:—

There is but one city in this State, and not a soldier. We have no police; and not a murder has been committed in this State for the last ten years. We have no Museums or Crystal Palaces; but we have homes, genuine homes for which the father works, votes and talks—where the mother controls, educates, labors and loves—where she rears men, scholars and patriots.

HAIR RESTORATIVE.—Every one will, we think, agree with us in the opinion that the human hair is the greatest natural ornament that is possessed either by a gentleman or a lady.—Just meet an apparently good looking man, for instance, in the street; you admire his features, whiskers, and general bearing; but lo! he lifts his hat in recognition of your bow, and the charm has vanished, for Ichabod is written on his bald head, and the glory has departed with the flowing locks that once flourished luxuriantly there. In the case of a lady, the matter is, if possible, worse—such cases reminding one of the circumstances on which the following epigram is founded:

'O! give me, fair Emma, a lock of your hair,'
A bashful young lover took courage and sighed:
'Twas a sin to refuse such a modest request,
So take the whole wig,' the dear creature replied.

Now, to prevent such a catastrophe, is within the power of every lady and gentleman; for, by using Prof. O. S. Wood's Hair Restorative, hair is not only prevented from falling off or turning gray, but the article will restore hair to bald places; and even if it has changed color and become gray, it will bring it back to its pristine beauty and luxuriance. Those who are acquainted with the anatomy, physiology and pathology of the hair, must be well aware that certain substances have a specific action upon it; and it is by judicious combination of these that Professor Wood has succeeded in compounding a mixture possessed of remarkable virtues.—[Waverly Magazine and Literary Gaz.

IF ALL OUR READERS

Who are troubled with liver complaint, Jaundice, or Dyspepsia, will read the advertisement in another column of Dr. Sanford's Invigorator, and then do as we have done—get a bottle, we should not see so many sickly, half-dead, despairing people as now meet our gaze at almost every corner, for certainly there never was a remedy invented of which so much is said, and that performs so nearly what its proprietors say it will do. It came to us so highly recommended that we could not fail to try it, and a trial has convinced us, without a doubt, that it is the best family medicine in use. We take it for Headache, Sour Stomach, Billiousness, and any of the little bodily ills that are common, and it does produce a pleasant state of feeling to the sick, and what is better, after using it a few times, these little ills grow less and less, and there is a prospect of being entirely free from them by a continuance in the use of the Invigorator. HOTEL-LIVING IN NEW YORK.—These palace-like hotels are, indeed, complete colleges for the teaching of extravagance.—They are to women what a museum of rare fossils is to a enthusiast in geology.—They enflame their strongest and least governable desires, namely, to possess those things which are rarest, and have the greatest attraction; and though it may possibly be unobserved by themselves, there is, perhaps, hardly a family in the United States, which, if they commence furnishing, would not have the rooms of some palace-like hotel in view, or the gorgeous trappings of a luxurious steamboat, and which might not be led into extravagance by the examples. And the worst of the evil is, that it belongs to that ineradicable class which is called fashionable.—It is fashionable to go to hotels, where the carpets are a species of reproach upon anything like a decently-soled shoe; where the curtains are death upon a calico dress; and where a useful herring-back tweed coat would be a little short of fashionable sacrilege. Until it becomes fashionable, therefore, for respectable people in New York, and elsewhere in the States, to go to places where they will not have to pay for dirty-nosed cupids, three and even four dollars a day will yet be expended for learning extravagance, and for seeing vulgarity strutting its little hour upon moss carpets.—*Toronto Colonist.*

POLICE COURT.

MONDAY, August 3.

Justice Bennett presiding.—One Thomas Palmer, with Hibernian proclivities, having imbibed too much "mountain dew" Sunday afternoon, kicked up a row generally in Water street. The warrant being read, Thomas pleaded "not guilty," and proceeded to draw a nice distinction between the different stages of intoxication, affirming that he was "not drunk, but a little set up." Taking this as a basis of defence, with Irish volubility he began to argue his side of the case before the testimony for the prosecution was got in, which proceedings were slightly out of order.—Moreover, Thomas' actions on Sunday were found to have been out of order; and he out of money, too; for being unable to pay $5 fine, he was sent up to the House of Correction for the haying season.

☞ On Sunday, August 2, twenty-one persons were admitted as members of the Universalist Church in this city, receiving the right hand of fellowship from the pastor, Rev. A. J. Patterson, agreeably to the usage of the church. A large congregation were present. The sermon on the occasion was by Rev. Mr. Maxham, of Medford.

☞ The ordinance of baptism by immersion was administered to a young lady, at Noble's Island, on Sunday last, immediately after the morning service, by Rev. Jonathan Hall, of the Methodist Episcopal Church.

☞ The Fremont Light Guards are requested to meet at Washington Hall on Wednesday afternoon at 3 o'clock. A full attendance (with equipments) is requested.

☞ The Universalist Society of this city are to hold their annual Pic Nic this day, at New Market, leaving the station here, at 9 A. M.

☞ We learn that Mr. Edwin N. Mathes, of this city, has received the appointment of Occasional Inspector at the Custom House, (recently vacated by the resignation of Mr. Samuel J. Dodge,) and entered upon the duties of his office on the 1st inst.

☞ A gentleman on an evening of last week, had the curiosity to count the number of persons that passed a point on Congress street, and found the number to be twelve hundred.

☞ A notice headed "Chicago, &c.," will be found in another column, worthy the attention of all travelling to the West from this section. Tickets can be purchased in this city cheaper than in Boston; and by buying where the parties are known, all risk of imposition is avoided.

☞ The Fire Company from Newmarket, which was expected to visit our city on Monday, we learn have postponed their trip till Thursday of next week, 14th inst. They are to be the guests of "Laconia" Company No. 2; who will parade with them, accompanied by the Portsmouth Cornet Band. The trip made by the Laconia boys to Newmarket, on the Fourth of July, was the first instance of a Fire Company leaving Portsmouth in a body, we believe; and we think not more than one such Company from abroad has been received here. The 2s are a capital set of fellows, always up to their business, and not slow on a good time.

ATTEMPTED VILLAINY.—As Rev. Wm. P. Merrill, of Biddeford, was returning home from Wells, where he had been to deliver a temperance lecture on Sunday evening about eleven, when within about three miles from the village on the Kennebunk road, two men jumped from the woods and endeavored to seize his horse by the bridle, and failing to do this, one of them fired a pistol at Mr. Merrill. On examining his hat, after arriving home, Mr. Merrill found that a ball had passed through its upper part, near the top of the crown, and near where the top of his head must have been. Mr. Merrill was in a buggy wagon, and he probably owes his escape to the fleetness of his horse. The man who fired the pistol is described by Mr. Merrill, as having been a tall man, dressed in a frock coat. Nothing was said by the men and Mr. Merrill does not know whether it was their object to rob him, or to murder him out of personal malignity.—*Biddeford Journal.*

HONEY JARS.—Mr. B. A. Manchester, of this city, has probably the most accommodating family of bees that are known in this vicinity. He places over a hole in the top of his hives large glass tumblers reversed. The bees come up through the holes and fasten their comb and honey in the inside of the tumblers in the most ingenious manner possible, beautifully clear and white. When each glass is filled, the bees go below, the tumbler is taken off, and there is a nice jar of honey already put up for family use by the bees themselves. We saw two or three of these "family jars" at Mr. Manchester's office this morning, and nothing can be more perfect. They are well worth examination.—*Buffalo Republic.*

GREENVILLE, Texas, July 6.—A terrible affair took place about 8 miles East of this place, on the 3d inst., between a school teacher by the name of Jesse Howard, and his four sons. Moore undertook to chastise Howard's son, who was about twelve years old, for writing indecent language in a young lady's book. He had struck the boy but four or five blows with a switch; when the boy's brothers came into the school house with clubs, and one of them struck the teacher with a heavy club on the forehead and felled him to the floor. The other struck the teacher several times while down, but the teacher recovered himself and got out his pocket knife and drove them out of the house. But at this juncture, the old man, two other sons, and two sons-in-law arrived, and the old man rushed into the house with a large dirk pocket knife.

Moore begged Howard to spare his life, telling him he was then nearly dead. At this time, Moore had a severe contusion on the forehead and was covered with blood. But Howard, disregarding his entreaties, rushed upon him and plunged his long knife into him twice on his right side, both of which wounds entered the cavity. Moore broke from him, when Howard cut him on the right shoulder, making a fearful gash four inches long and to the bone. With all his wounds, Moore broke from the house and ran twenty rods. The boys outside threw clubs at him as he ran, one or two of which hit him.

It is generally supposed that the boy was urged to provoke Moore to chastise him, and no doubt they expected it that morning, for they all arrived at the school house in a few moments after Moore began to whip the boy, and the two oldest brothers were secreted close to the house, for they got to the door before Moore had struck the boy six blows. The Howards lived half a mile from the school house. Such are some of the facts of the horrible affair, as appears from the evidence on examination.

The old man's bail bond was fixed at $4000; the oldest son's at $2000, and the other three sons at $250 each. But they have not yet, and probably cannot give bail. The public feeling is against them, and it is hoped they will get their deserts.

MURDER IN NEW YORK HARBOR.—*New York, Aug.* 1.—A young man named Alfred F. Moses, barkeeper in the Sea View House, at the Highlands, had his throat cut at about 5 1-2 o'clock this morning, while in bed. He lived about three hours. On the ante mortem examination, he stated the to book-keeper of the house, one Donnelly, cut his throat, and then robbed him of a considerable sum of money, part of which had been won in gambling from Donnelly last night. Donnelly is in custody. Part of the money was found in the outhouse.

FIRE—FATAL ACCIDENT.—*St. Louis, Aug.* 1.—The scale and safe factory of Beard & Brother, was destroyed by fire last night. The loss is about $20,000.

The front wall of Work & Ghis' liquor store in this city, fell yesterday, burying five persons in the ruins; and two of them, named Christopher Ghis, and Jackson, will probably not recover.

SPRINGFIELD, MASS., August 2.—A pleasure boat, containing five Germans, was accidentally capsized on the Connecticut river on Saturday evening, when two of the party were drowned. They were employed in Rumrill's gold chain factory. One of the drowned men leaves a family to mourn his loss.

ARREST OF A FUGITIVE FROM JUSTICE.—On Sunday afternoon, the police of the first station in Boston, arrested a man named George Walker, a fugitive from justice from Portsmouth, N. H. He will be sent back to that place.—*Trav.*

MOTHERS! MOTHERS!! MOTHERS!!!
AN OLD NURSE FOR CHILDREN.

DON'T fail to procure MRS. Winslow's Soothing Syrup for Children Teething. It has no equal on Earth. No mother who has ever tried Mrs. Winslow's SOOTHING SYRUP for Children will ever consent to let her child pass through the distressing and critical period of teething without the aid of this invaluable preparation. If life and health can be estimated by dollars and cents, it is worth its weight in gold.

Millions of Bottles of MRS. WINSLOW'S SOOTHING SYRUP are sold every year in the United States. It is an old and well tried remedy.—None genuine unless the fac simile of "Curtis & Perkins" is on the outside wrapper.

PRICE ONLY 25 CENTS A BOTTLE.

The Great English Remedy.
SIR JAMES CLARKE'S
Celebrated Female Pills.

Prepared from a prescription of Sir Jas. Clarke, M.D., Physician Extraordinary to the Queen.

THIS invaluable Medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject. It moderates all excess, removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES

It is peculiarly suited. It will, in a short time, bring on the monthly period with regularity

Each bottle, Price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

CAUTION.

These Pills should not be taken by females that are pregnant, during the FIRST THREE MONTHS, as they are sure to bring on Miscarriage, but at every other time and in every other case they are perfectly safe.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Fatigue on slight exertion, Palpitation of the Heart, Hysterics, and Whites, these Pills will effect a cure when all other means have failed, and although a powerful remedy, do not contain iron, calomel, antimony, or any thing hurtful to the constitution.

Full directions accompany each package.

BUFFALO, August 3.—A piece of rock, weighing 100 tons, fell from the precipice of Goat Island, Niagara, yesterday, about 300 feet below the British falls. Three persons underneath were badly injured—G. W. Parsons of Cleveland, it is feared fatally; F. G. Williams of New Haven had an arm broken, and a boy a leg broken.

John Jacob Astor once observed that a man with $500,000 might begin to feel comfortable. The son of that millionaire has now an income of $3000 a day, or $1,095,000 a year; but is not comfortable by any means, for he has the gout, it is said, so bad that he has to diet himself on Graham bread. Perhaps $500,000 is the comfortable means, when past difficulties having been conquered and future anxieties provided against, an individual can afford to enjoy the present.

Knife Cleaning. Native Talent.

MR. JOHN HANSON enters the kitchen to show us his apparatus for scouring knives. Our knives pass under his skilful manipulations and come forth all that the most fastidious housekeeper could desire.

But our knives were not black enough to satisfy him or suitably to show his art. "Hav'n't you a knife as dirty as sixty?" asks Mr. Hanson—Having none that approximated to that scale of dirt, we were content to see our own ordinarily clean knives receiving a beautiful polish, which quite satisfied us that Mr. Hanson's machine *was* a machine worthy of a place in the kitchen cabinet. "How long will it take to scour a dozen knives?" is a question propounded. "Half that number of seconds," replies the artist.

Mr. Hanson also prepares a bottle of liquid, which, for cleaning silver, is quite unsurpassed. As he is a native of Portsmouth, everybody with a laudable desire to encourage native talent, will certainly be glad to receive a call from him and patronize his new knife scourer. aug2

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. Franck & Co are the managers, are chartered by the state of Maryland, and is consolidated under oath of the legislature, is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send money for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is ordered, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Tickets are sent for any amount from $20 to $100 00. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Herald, American, & Gazette of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn to faithfully and fairly to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes are from $50 to $20,000; every prize being drawn, and result of drawing forwarded to all purchasers.

A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Nashville *Union*, Savannah *Courrier*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. Write your address plainly, and direct to S. SWAN & Co., Atlanta, Georgia.

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m18 1y

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,

(*Late Agent of U. S. Patent Office, Washington, under the Act of 1837.*)

No. 76 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers in Drawing for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors can obtain more of the kind of patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS is the best TEST OF PROFICIENCY AND ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the general professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of Specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Foreign countries, give him special facilities for obtaining patents.

The necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most efficient Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,

Late Commissioner of Patents."

From the present Commissioner.

Agency 17, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,

Commissioner of Patents.

WILL REMAIN OPEN TO VISITORS
DURING THE SEASON.
Refreshments served at all hours.
Stratham, July 25th 1857. dlm H. DIMAN.

Coggswell's Medical Salt,
A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.
INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—has but ONE AIM—accomplishes but ONE THING, to wit: SUDDEN INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. Every *form of inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. Is it asked, *how* it does this?—simply by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely what adheres to the point of a quill dipped into a solution of it, to affect the entire system.
☞ *Of its intrinsic value, the enlightened community, and not the discoverer, must be the judge.*
PRIME COST, $1,50 per drachm—PRICE $2 per drachm.
A few boxes of this popular and extraordinary medicine for sale by J. H. THACHER,
jy13 *Cor. of Pleasant and State Sts.*

Lawrence's Carminative,
—OR—
CHILD'S PAIN-KILLER.
THIS invaluable preparation is a favorite scientific prescription of one of the most eminent of the Medical Faculty in New England, and one who has been successful as any other in the treating of
DISEASES OF CHILDREN,
and has been used with never-failing success.
The Carminative is emphatically
A CHILD'S MEDICINE,
and is the *only* Child's Medicine in this country; intended to do away with the excessive and injurious use of *Paregoric*, a remedy sure to be followed by a "dose of physic."
The ingredients of which the *Carminative* is compounded, are known to the Medical Faculty, and it is now extensively used, and approbated by the physicians living in the vicinity of the laboratory, where opportunity has been had to test its virtues.
The *Carminative* is offered in full confidence for the rapid cure of
Colic, Pain in the Bowels, Wind in the Stomach and Bowels, Green Stools, Diarrhœa, Nervous Affections, Sore Mouth, Restlessness,
and other disorders incident to Weaning and Teething; sure to regulate derangements of the Stomach and Bowels, which often afflict young children; correct debilitated and sour Stomachs, relieve pain and give tone, energy and strength to the whole system.
Due regard has been taken to have the price of the Carminative so low as to be within the reach of all. Price *only 25 cents*
Parents who value rest should not fail to buy a bottle, as they may depend upon its giving relief to "worrisome children."
Sold by country traders and all Apothecaries throughout the United States and Canada.

Manny's Celebrated Mower
—AND—
MOWER AND REAPER.
IMPROVED.
Built expressly for the New England States.
THE MANNY MOWER has been extensively used for the past two years in New England, and more than six years at the West.—Its success is beyond that of any other Mower or Reaper ever constructed. Over 150 *1st Premiums* have been awarded it, including the *Grand 1st Class Silver Medal* at the WORLD'S FAIR, PARIS, 1856.
With the two past years' *experience*, we have been enabled to make a number of very *important improvements*. We find New England farmers require a different Machine from other sections;—the field generally being small. It must be *light*, at the same time possess *great strength*; *portable*, with facilities to *raise* the *cutters* to *pass obstructions*, and to remove from field to field. A perfect cutting apparatus, to cut the fine grasses without clogging, and so constructed as to *start* in the grass *without backing*, easily adjusted to cut high or low, and have a Reel to cut equally well with or against the wind, and to be worked with ease by a light team, and so easily managed and simple that any one of common ability may operate it successfully, and to be built in the most thorough manner.
With this knowledge of the farmers' requirements, and with the determination to build a *better* Machine than has ever before been constructed in this country, we offer the **Manny Mower** of 1857 with confidence, as combining the qualities enumerated above, and as one particularly adapted to meet the wants of New England farmers.
Price of Mower, $110; with Reaper attachment, $15 Extra. Delivered on board the cars at Worcester, Mass. JOHN P. ADRIANCE & Co.,
Manufacturers.
One of the above Machines can be seen at the store of the Subscriber.

THE BEST MOWING MACHINE.
ALLEN'S Patent Improved Mowing Machine, and combined Mower and Reaper;
Bore off the palm at the great National Trial of Mowers at Syracuse, N. Y., and a larger number of them have been sold than of any other make.
Strong, Simple in Construction, not liable to get out of Order; Compact, Light, Easy of Draught; perfectly safe for the Driver, and may be worked at a slow gait by Horses or Oxen; no clogging of Knives; works well on rough ground, also on side hills—salt and fresh meadows, &c., and in any kind of lodged grass and clover.
Warranted to give perfect satisfaction, and to be the BEST Mowing Machine sold in New England, to prove which we challenge any other Mowing Machine to a trial in any kind of grass and on any kind of land.—One can be seen in operating order at the farm of the subscriber. For Sale by JAMES HILL & SON, Agents.
Greenland, N. H., July 21.

AMERICAN HOUSE,
BOSTON.
Conducted on the European Plan.
LEWIS RICE, Proprietor, respectfully announces that in compliance with the very general preference expressed for the European system of hotel managements, that the American House will hereafter be conducted solely on that plan. Well furnished parlor and sleeping apartments will be let by the day, or for longer periods. Meals served at the gentlemen's hall at all hours of the day and evening. The ladies' dining hall will be opened in like manner for ladies, and gentlemen accompanied by ladies. The accommodations and conveniences of the house are unsurpassed, and the recent improvements and alterations leave nothing to be desired. Suburban residents will find the arrangement specially convenient. Large or small parties provided with dinners, suppers, &c., at short notice.

IMPORTANT DISCOVERY.
DR. CHEESEMAN'S PILLS FOR FEMALES,
Prepared by an old Physician of 40 years experience
THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular: and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics. &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.
These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to DR. C. L. CHEESEMAN, Box No. 4,581, Post Office, New York City, can have them sent to their respective addresses by return of mail.

BURDEN'S
Pressed Boat, Ship, Brad & Countersunk Railroad Spikes
ARE well known in the United States, and are conspicuous for their regularity and finish, their unvarying uniformity of size, and for the excellent quality of iron from which they are made, to which may be attributed their rare strength. They are everywhere considered far superior to the hand made spike of common English iron, and inferior to nothing of the kind yet introduced to the public.

WEDNESDAY, AUGUST 5, 1857.

PORTSMOUTH NAVY YARD.

On a recent visit to the Navy Yard near this city, we were very much gratified to observe the many important improvements which were rapidly progressing in various parts of the Yard. Prominent among these may be mentioned a large brick building, three stories high, of good proportion, and excellent architectural design, which is to be used for the storage of government property in charge of the Ordnance Department. The first floor will be devoted to the Gunners' use; the second to the reception of books, charts, &c.; and the third story is to be used for an armory, having a floor forty feet wide by eighty feet in length, where will be arrayed guns, pistols, carbines, boarding-pikes, and other naval weapons.

This building, which is nearly completed, and is located on the south-easterly side of the Yard, is a great improvement and a credit to the Navy. There are but few if any buildings in the vicinity, of its size, of neater style or more permanent structure. It is built in the most thorough manner, the operations of frost in the winter season requiring its foundation to be dug many feet below the surface of the ground.

On the north-easterly side of the Yard is being constructed a spacious fire-proof magazine, to contain loaded shells. The walls have been built nearly to the proper height, and the construction of the vaulted arches will soon commence. Preparations are also being made for the immediate erection of a brick structure for the use of the ordinary seamen; the old quarters near those of the warrant officers of the Yard having been found altogether inconvenient for the use of the seamen.

The Gun Park is undergoing a great change. New skids, for the large cannon, are laid on solid foundations of hammered granite, which is a great improvement upon the old skids, both in point of beauty and utility; while the Park is being graded and neatly gravelled. The unsightly ledge which have so long marred the appearance of the Yard, are being removed, and the surface graded. Among the improvements in this section of the Yard, is the splendid iron fence, some eight hundred feet long, which is rapidly replacing the coarse wooden palings in front of the officers' quarters. It is a fine piece of workmanship, resting on solid granite foundation, and is richly and appropriately designed with naval emblems. The castings for the same are from the foundry of Ira Hazelton, Esq., of this city.

The dredging in front of the Dry Dock, for a deep basin, is nearly completed. This interesting process, notwithstanding it is a difficult work, has been very successfully prosecuted. An uneven surface, three hundred and sixty feet long by one hundred and fifty wide, has been reduced to a depth of thirty-two feet below ordinary tides!—To accomplish this result, steam power has been applied to remove the earth, gravel and sand, while the diving bell and galvanic battery have removed the ledge, hundreds of cubic yards of which have been blasted and taken away. The result of those herculean labors will now allow the Dock to be lowered to any depth that will be necessary to take in the largest class of naval ships. The walls of the Dock basin are also being taken up, and relaid in a more thorough and complete manner.

These and other works necessary for Government purposes are in active progress, giving employment to a large number of men, at a season when labor in other localities in and about our city is not in demand; and at the same time the public funds are judiciously and economically expended. All the buildings upon the Yard plainly show that proper regard is had for their careful preservation by seasonable and judicious repairs.

We called upon the Civil Engineer of the Yard, Benjamin F. Chandler, Esq., under whose superintendence and direction all of the foregoing labor of construction and repairs is rapidly progressing; and found him, with his assistants, deeply immersed in plans and estimates for new objects of improvement of the Yard, for which appropriations will be solicited at the next Congress. Capacity, talent and foresight are particularly requisite to carry on this branch of the Navy department; and the most casual observer cannot fail to see, when considering the vast and important changes that have taken place in the permanent construction of the Yard, and which have done so much towards making our's a first class Yard, that the Government have here, in this branch of their service, a competent and efficient officer.

We were highly gratified in examining the plans of buildings for which appropriations have already been made, and which will soon be commenced. Among them is a large and tastefully designed building for officers and muster room. This will be an elegant structure, surmounted by a tower which will contain a bell, clock, &c. It will be erected upon the area where the grading is now progressing, and will be much more convenient for the business of the officers of the Yard than the small and uncomfortable rooms which are now used.

We also saw plans of a coal house, to be constructed of stone, to contain six hundred tons of coal, the second floor for coppersmiths' and plumbers' shops; a tank house for the storage of ships' tanks, fifty by one hundred feet in length;—and also of an additional story to the engine house, for machinery for the joiners' use.

Few people, unless they visit the Yard frequently, can have any idea of the extent and character of the improvements made there during the last few years; and it is highly gratifying to see that the Government appreciate the character of our naval station, and the efforts of those who desire to have it become second to none in the United States. OLD IRONSIDES.

ASSAULT ON MR. WM. S. BAILEY.—Another gross and shameful outrage has been committed in Kentucky, on the person of the editor of the Newport (Ky.) News.—He is a man fifty years of age, of a peaceful disposition, but bold and earnest in the expression of his opinions. On the 27th ult. he went to Alexandria, where for several hours he was assailed by a party of young ruffians with abuse and profanity, and blows, till the Sheriff was compelled to interfere. He was repeatedly threatened with death if he ventured to give publicity to their ruffianism.

THE NATIONAL MONUMENT AT PLYMOUTH. We are glad to learn from the New York Evening Post, that Billing's projected statue in honor of the Pilgrims is meeting with favor. The subscriptions for it are said to be rapidly increasing. Its cost will not be far from $300,000.

A FABRICATION.—A statement has very generally appeared to the effect that Rev. Dr. Ross of Alabama, the earnest defender of the institution of slavery, was of African origin. The statement is without foundation in truth, and arose from the fact that his father, a man of great wealth in Virginia, when a young man, paid the passage of a beautiful Portuguese girl to America, and afterwards married her, she being the mother of all his children. The fabrication, however, long since gave way to the truth, and has only been revived by his enemies at the North, since the Rev. gentleman has assumed so prominent a position on the slavery question. Few men have been more courted or admired for their talent and social position than the object of these misrepresentations.—*Portsmouth (Va.) Trans.*

We are glad to hear and make the correction, as we presume every opponent at the north will be. It seems bad enough, that a cross between Portugal and Virginia, should deify slavery—but far worse that a mulatto should defend a negro chattel slavery. The correction relieves the negro race from a great odium.

☞ A new and spacious Foundry is to commence operations in Newburyport forthwith. The proprietors, Messrs. Blood of Newburyport, and Nichols and Holmes of Taunton, anticipate doing an extensive business, and will employ at the commencement, about forty hands. They have already a large contract from government, for the castings for iron houses for California, and other work.

LIQUOR TROUBLES AT MILFORD, MASS.—A man named Costello, recently arrested in Milford, Mass., charged with furnishing and transporting liquors for dealers in that town, escaped from the lock-up, and has not since been seen. On Thursday night the enclosure of Deputy Sheriff Hunt was entered, his rose bushes cut down, and a fine willow tree girdled.

ARREST OF A THIEF AND BIGAMIST.—On July 23, Foster Bates, formerly of Cohasset, went to Scituate, Mass., where he stole a fat ox. After a number of the owner's friends had spent much time in searching for the stolen ox, he was found in possession of Mr. Austin Luther, in North Bridgewater, who paid Bates $76 for him. With the funds thus wrongfully obtained, Bates immediately left for Denmak, Me., where he was married to a lady of that town. A Sheriff traced Bates to Manchester, N. H., and on Monday, Bates and his young wife were found at a hotel, and taken to Boston. He has a wife and two children now living at Cohasset; also a wife and one child residing in East Bridgewater, and a third wife he married last Thursday.

HURT, THE MURDERER.

In publishing lately, a brief mention of one Hurt, in Iowa, who killed his wife, after abusing her for years, we hazarded the guess that he was a drinker, as we never knew a total abstinent to be a wife-beater. Now the thing is confirmed and explained, by an eye witness, who writes a terrible tale, full of moral lessons.

LIBERTY, Iowa, July 19, '57.

You have undoubtedly heard rumors of a terrible outrage committed in our settlement on Friday evening last. Living as I do, near the scene of slaughter, I think it best to give you a short sketch of the same. About a mile north of me, there is (or was) living a family by the name of Hurt, consisting of Hurt, his wife, his wife's mother, and four children. Friday morning, Hurt went to the city for the purpose of ascertaining the truth of the report in circulation, which was, that his wife had succeeded in obtaining a bill of divorce. He came home a little before sunset, went to the well, got a drink of water, then picked up an axe and drove his wife from the house. Overtaking her in the yard, he struck her with an axe on the back of her head.

She fell to the ground and he then hacked her up in the most shameful manner; cut her right arm nearly off, and sunk the bit of the axe several times in her back and sides. He then left her for dead, and took after his mother-in-law, who was running through the field to one of the neighbors. She had got so far off that he left her, went into the house, took some fire, went up stairs and set the beds on fire. In half an hour, the house and everything in it was in ruins. Two of his sons, young men, were present at the time, but dared not make the least resistance.

While the house was burning, Hurt was seen going through the fields towards a thicket. About dark, some thirty of the neighbors collected around the burning ruins. Mrs. Hurt was found in a potato patch, senseless. She was carried to a neighbor's house, and it was arranged to meet at daylight the next morning, to hunt for Hurt. The search was short. He went about twenty rods, to the edge of a thicket, and stabbed himself twice with a pocket-knife. He was heard crying and moaning all night by the neighbors.—He had lost his knife in the grass, and had no other weapon with which to finish the work of self-destruction. One man was dispatched to the city for a doctor. He had a double barrel shot gun with him, and, in leaving for the city, he left the gun standing under the shed. Hurt left the thicket in the night, came to the house, or where it stood, pulled off his right boot, fastened it to a pole with his handkerchief, and got water from the well to drink. As soon as it was light, he saw the gun, and placing the muzzle to his left ear, he discharged the piece, as is supposed, with his toes. He was found lying upon his back, with his left arm around the gun.

Hurt was a drinking, shiftless, and evidently a desperate man. His wife was a hard-working, industrious woman. The family were left without shelter, or a change of clothes. Mrs. Hurt had lived in constant fear of her life for the last four years, and suffered a thousand deaths.

The family formerly lived in the northern part of Ohio. Some fifteen years ago, Hurt killed a neighbor of his in a drunken affray, and fled to Canada. She received a letter from him from Michigan, stating that he had land there, and wanted her to sell out and join him. Her children being anxious to come West she did so. Hurt was in debt for grog and board bill when she found him. She paid for it, for she had about $1600 with her. She bought a place here, and not seeing any reformation in the man, she secured the title in her own name. They lived together as man and wife but a short time. He came near killing her two years ago. She swore her life on him and applied for a bill. He has been living in the family since, a terror to them all. She employed Clark & Brother to get a divorce. At her request, I wrote them once or twice in her behalf. Knowing her, as I did, (she having worked for us several times, when compelled to flee her own home,) I informed them of her troubles, and they procured the divorce, and her right to the little property she possessed. But she is not here now to thank them for it; for I have just learned that she died last night. Hurt was buried yesterday, and she will be this evening. Thus ends the tragic scene.

☞ The Portsmouth, Virginia, Transcript, of July 30, fairly and honorably copies our article contradicting the statement that "52 political parsons" had been convicted in New England of certain crimes, within two years. By this it is shown that no intent to deceive was indulged by the editor. We would really like to know who *made* the lie.

DEDICATION OF THE "HOUSE FOR THE FALLEN" IN BOSTON.—This institution, which is to be devoted to the reformation of inebriates, was dedicated on Monday evening. Two rooms at the corner of Richmond and Fulton streets have been fitted up, one as a lodging room and the other a sort of reception room, are placed under the charge of Mr. William Ruby. It is proposed to care properly for drunken men, and to induce them, if possible by kindness to reform.

TO MAKE LAGER BEER.—Take a barrel, fill with water, put in one pair of old boots, a head of last fall's cabbage, two short sixes, a sprig of wormwood, and a little yeast.—Let it work, and when clear, you'll have excellent Lager Beer!—*Boston Post.*

HOW TO DO BUSINESS: a New Pocket Manual of Practical Affairs, and Guide to Success in Life; embracing the principles of business; advice in reference to a business education; choice of a pursuit; buying and selling; general management; manufacturing; mechanical trades; farming; book and newspaper publishing; miscellaneous enterprises; causes of success and failure; how to get customers; business maxims; letter to a young lawyer; business forms; legal and useful information; and a dictionary of commercial terms.—Fowler and Wells, Publishers, No. 308 Broadway, New York. Price, prepaid by mail, 30 cents, paper; 50 cents, cloth.

"How to Do Business" is the most complete and thorough manual of practical affairs that has yet appeared. It contains, in a condensed form and methodically arranged, an immense amount of information on business in all its varied aspects—mercantile, manufacturing, mechanical, agricultural, etc.,—a great deal of sound and wholesome advice, valuable hints, timely words of warning, and points out very clearly *the means of avoiding failure and securing success.* To the merchant, the manufacturer, the mechanic, the farmer, the clerk, the apprentice, the newspaper canvasser, the book agent, and the student, it is alike invaluable. It teaches how to choose a pursuit, how to educate oneself for it, and how to pursue it with certain success. It deals with principles as well as with facts, and shows that failure and success are not mere matters of chance, but that both have their easily ascertained causes. It is eminently a *practical* work, and adapted to the wants of all classes. No young man should be without it.

SPECIAL NOTICES.

HAIR RESTORATIVE.—Every one will, we think, agree with us in the opinion that the human hair is the greatest natural ornament that is possessed either by a gentleman or a lady.—Just meet an apparently good looking man, for instance, in the street; you admire his features, whiskers, and general bearing; but lo! he lifts his hat in recognition of your bow, and the charm has vanished, for Ichabod is written on his bald head, and the glory has departed with the flowing locks that once flourished luxuriantly there. In the case of a lady, the matter is, if possible, worse—such cases reminding one of the circumstances on which the following epigram is founded:

'O! give me, fair Emma, a lock of your hair,'
A bashful young lover took courage and sighed:
"'Twas a sin to refuse such a modest request,
So take the whole wig!' the dear creature replied.

Now, to prevent such a catastrophe, is within the power of every lady and gentleman; for, by using Prof. O. S. Wood's Hair Restorative, hair is not only prevented from falling off or turning gray, but the article will restore hair to bald places; and even if it has changed color and become gray, it will bring it back to its pristine beauty and luxuriance. Those who are acquainted with the anatomy, physiology and pathology of the hair, must be well aware that certain substances have a specific action upon it; and it is by judicious combination of these that Professor Wood has succeeded in compounding a mixture possessed of remarkable virtues.—[Waverly Magazine and Literary Gaz.

THERE ARE HUNDREDS OF REMEDIES Sold at every Drug Store, purporting to cure all diseases nameable, each advertised as the very best ever known, till we had lost all faith in them all, but there is one exception.

We speak of Dr. Sanford's Invigorator, which came to us recommended as a cure for Liver Complaints, and all diseases arising from a Diseased Liver. The testimonials of so many of our Physicians in its favor, induced us to try it, and now conviction is certain that it is one of the greatest blessings ever given to Dyspeptics, for it made a complete cure before the first bottle was taken, and now we can say anything eatable without trouble, while before, nothing but the lightest food would digest, and often would digest, and often that gave pain. Now what we want to say to all our readers is, if Liver Complaint or Dyspepsia trouble you, do not fail to try this, the greatest remedy in the world.

LOCAL.

☞ The Universalist Pic-Nic at Newmarket Junction, on Tuesday, was very largely attended. Eight cars full of men, women and children went over the P. & C. Railroad; besides a number in carriages, and others who gathered from the vicinity. They had a good time, of course.

☞ The Fremont Light Guards are requested to meet at Washington Hall this, Wednesday, afternoon at 3 o'clock. A full attendance (with equipments) is requested.

☞ A full attendance is requested, at the Y. M. C. A. this evening.

☞ We learn there is to be a free "Hop" at the Surf House, (formerly Union House,) Rye Beach, this (Wednesday) evening. Music by the Ocean House Band.

CIRCUS.—The Lowell Vox Populi thus complimentarily alludes to the Chinese Circus, which lately exhibited in that city. Flaming bills, about our streets, announce that their "sublime artistes" will give one of their "brilliant displays" in this city, on Thursday next:—

The Chinese Circus is a shabby humbug. The capital of the company, if they ever had any, has evidently been spent in *show-bills*, whereby to "gull the flats"—*Lowell Vox Populi.*

We have a worthy, industrious individual in our establishment, who is desirous of constant employment. His name is MR. JOB TYPE, and his euphonious appellation has enlisted our sympathies. Those who desire his services, will always find him at this office, prompt to accommodate them. —*Charlestown Advertiser.*

We have a relative of that same "individual, in attendance at the Chronicle Office; and his facilities for business are constantly being increased and improved. Call and see him.

NEWBURYPORT POLICE COURT.—On Monday, the persons arrested as gamblers at the "Lone Star Saloon" on Saturday evening, were brought into court, together with the instruments for gaming seized on the spot. Three of them were severally convicted of being present at the playing of unlawful games, and fined $5 each and costs, which is the extent of the law. They appealed, and gave bonds for their appearance. A fourth pleaded guilty to the same offence, and paid his fine.

Horace Dodge, from New York, who was in possession of the Faro bank, though it is the property of a noted gamester, Mead, of Boston, who was in court, was convicted of keeping instruments for gaming, to be used in a manner contrary to the statute, and fined fifty dollars and costs. He appealed.

James Pentland, the keeper of the "Lone Star," was arrested on Monday, under the nuisance act, and held in the sum of $1000, to answer on Thursday next.

We understand on Monday, that the proprietor of the building had taken legal measures to oust her tenants; and an insurance agent in this city, upon hearing the use it was put, notified the owner that he should discontinue the policy. These measures closed the doors; and yesterday noon, as we passed a junk of ice, which the ice man had not forgotten to leave, lay melting on the steps, while some littte boys were breaking off pieces, and singing —"no more egg nog, no more brandy smashers, no more prop-shaking"—the props and their shakers are down together —and no more drink for "poor uncle Ned!"—Marshal Westcott is entitled to great credit for "dousing" the glimmer of the "Lone Star."—*Herald.*

On Sunday morning last an interesting and lovely child a little over a year old, of Mr. Paulus Thyson, grocer, on 7th street, Washington, died, after a few days illness. The nurse, a negro slave, who was devotedly attached to her little charge, was present when its angel-spirit took its flight to happier realms, and was so completely stricken down with grief and anguish that she had to be borne away from the chamber of death almost in a state of insensibility. Every care and attention was immediately lavished upon this faithful slave, that a good master and mistress could bestow. A physician was called in and all the relief his art could render was united to the tenderest solicitude of her master's family. It was in vain, however, for, before the infant's corpse was removed from the house, the spirit of the nurse had taken its flight from this earth. The remains of this devoted slave were, on Tuesday, followed to the grave by the members of the family she had so faithfully served, with every suitable demonstration of respect and sorrow. The deceased was not over 30 years of age.—*Washington Union.*

Rev. Mr. Ainsworth of Jaffrey, N. H., attended church on Sunday, the 19th inst., the same being the centennial anniversary of his life. An anniversary sermon was preached by the officiating clergyman.

SHAWL PRINTING.—The present method of impressing designs on shawls is known to be an expensive one, having to be performed by single plates. But it is announced that a German manufacturer has devised a new plan, by which he produces in a single day thirty shawls, printed in ten colors, with the aid of one man and a juvenile assistant, thus diminishing by some 2000 per cent. the cost of the operation of impressing.

NEW YORK, Aug. 4.—U. S. steam frigate Roanoke arrived to-day from Aspinwall, bringing 200 of Walker's men, 27 of whom were sent to the hospital immediately on her arrival. Geo. W. Turner died on the passage.

The Herald's Vera Cruz correspondent of July 20, says: "We learn here that yesterday, the 19th, a tumult occurred in Puebla, in which several Spaniards were stoned and beaten, and the Spanish flag, which one of the Spaniards had taken in his hands to protect him from the popular fury, was wrested from him, trodden upon, and torn to pieces.

Mrs. Cunningham was arrested to day on a charge of felony connected with the birth of an heir to the Burdell estate.

FIFTY BODIES RECOVERED.—*St. John's, N. F., Aug.* 3.—The barque Monasco, (before reported) lost off Burin, 21st ult., belonged to Warren, Me., and had a cargo of iron, and 60 passengers, 55 of whom were drowned. Fifty bodies have been recovered and buried.

INTERESTING LAW CASE.—*Philadelphia, Aug.* 3.—Passmore Williamson instituted legal proceedings on Saturday, against Chief Justice Lewis, of the Supreme Court of Pennsylvania, for illegally refusing to grant him a writ of habeas corpus during the period when he was detained in prison by Judge Kane.

KENTUCKY ELECTION.—*Louisville, Aug.* 3.—In this city, Humphrey Marshall for Congress, and Jones for State Treasurer, both Americans, have about 1100 majority. The election passed off quietly.

THE DECLINE IN SUGAR.—The stock of sugar in New York, as we learn from the New York Post, is not less than 100,000 hhds., besides from 15,000 to 30,000 hhds. Melado. The Post states that the decline in price on this stock since July first, including reduction of duty, is at least two and a half or three millions of dollars. The fall is fully 1½ cent per lb. on general qualities, and the market remains depressed. Recent importations from the West Indies, costing 11½ cts., have been sold in lots at 9 1-2 cts. As we stated some time since, the Eastern and Western States have produced largely from the maple tree, and the decrease of demand on the New York market from that quarter is enough of itself to affect prices seriously. Every table in the West is supplied with maple syrup and sugar of home make. We think that the price of sugar has reached the highest point, and from the present time a rapid decline may be looked for.

STONING A BEAR OUT OF THE ROAD.—The Bangor Whig says one night last week, as the stage from Calais was passing along beyond Aurora, a big bear was discovered sitting very composedly in the middle of the road, and as he declined to yield the right of way, the driver and passengers turned to and stoned him off the track.—Bruin growled his disapprobation of that mode of proceeding; but finally gave way to superior numbers.

PROLIFIC.—The Grenada (Miss.) Republican understands that there is a lady, not one hundred miles distant from that place, who has *blessed* her husband with eighteen heirs since God joined them together as man and wife. She has had twins five times, and a few weeks since gave birth to a trio, who are said to be remarkably fine looking and doing well.

Rev. T. J. Simpson, pastor of a church in Alleghany City, Penn., has been tried by the Presbytery on the charge of improper intimacy with a Miss Henderson on board a steamboat, and has been suspended from the ministry. Simpson will probably be proceded against for seduction unless he marries Miss H.

A lady fixed the following letters in the bottom of her flour barrel, and asked her husband to read them: O I C U R M T.

MOTHERS! MOTHERS!! MOTHERS!!!
AN OLD NURSE FOR CHILDREN.

DON'T fail to procure Mrs. Winslow's Soothing Syrup for Children Teething. It has no equal on Earth. No mother who has ever tried Mrs. Winslow's Soothing Syrup for Children will ever consent to let her child pass through the distressing and critical period of teething without the aid of this invaluable preparation. If life and health can be estimated by dollars and cents, it is worth its weight in gold.

Millions of Bottles of MRS. WINSLOW'S SOOTHING SYRUP are sold every year in the United States. It is an old and well tried remedy.—None genuine unless the fac simile of "Curtis & Perkins" is on the outside wrapper.

The Great English Remedy.
SIR JAMES CLARKE'S
Celebrated Female Pills.

Prepared from a prescription of Sir Jas. Clarke, M.D., Physician Extraordinary to the Queen.

THIS invaluable Medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject. It moderates all excess, removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES

It is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

Each bottle, Price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

CAUTION.

These Pills should not be taken by females that are pregnant, during the FIRST THREE MONTHS, *as they are sure to bring on Miscarriage, but at every other time and in every other case they are perfectly safe.*

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Fatigue on slight exertion, Palpitation of the Heart, Hysterics, and Whites, these Pills will effect a cure when all other means have failed, and although a powerful remedy, do not contain iron, calomel, antimony, or any thing hurtful to the constitution.

Full directions accompany each package.

Sole Agent for the United States and Canada,
JOB MOSES,

FASHIONABLE CALL, AND ALL THEY SAID. "How do you do, my dear?" "Putty well, thank you." (They kiss.) "How have you been this age?" "Putty well; How have *you* been?" "Very well, thank you." "Pleasant, to-day." "Yes, very bright; but we had a shower yesterday." "Are all your people well?" "Quite well, thank you. How are yours?" "Very well—I'm obliged to you." "Have you seen Mary B——, lately?" "No; but I've seen Susan C——." "You don't say so! Is she well?" "Very well, I believe." (Rising.) "*Must* you go?" "Yes, indeed; I have seven calls to make." "Do call again, soon." "Thank you; but you don't call on me once in an age." "O, you should not say so! I'm sure I'm very good." "Good bye."

Knife Cleaning. Native Talent.

MR. JOHN HANSON enters the kitchen to show us his apparatus for scouring knives. Our knives pass under his skilful manipulations and come forth all that the most fastidious housekeeper could desire.

But our knives were not black enough to satisfy him or suitably to show his art. "Hav'n't you a knife as dirty as sixty?" asks Mr. Hanson.—Having none that approximated to that scale of dirt, we were content to see our own ordinarily clean knives receiving a beautiful polish, which quite satisfied us that Mr. Hanson's machine *was* a machine worthy of a place in the kitchen cabinet. "How long will it take to scour a dozen knives?" is a question propounded. "Half that number of seconds," replies the artist.

Mr. Hanson also prepares a bottle of liquid, which, for cleaning silver, is quite unsurpassed. As he is a native of Portsmouth, everybody with a laudable desire to encourage native talent, will certainly be glad to receive a call from him and patronize his new knife scourer. aug2

LAWS OF NEW-HAMPSHIRE.

Passed June Session, 1857.

AN ACT authorizing the town of Mason to elect Trustees of the Boynton Common School Fund.

Whereas, John Boynton, Esq, of Templeton, in the State of Massachusetts, has given to the town of Mason the sum of ten thousand dollars in trust, the income of which is to be appropriated for the maintenance of common schools in said town of Mason; and whereas, by the provisions of the grant, the said fund is to be under the control of five trustees, to be elected by said town of Mason; therefore:

Be it enacted, &c.

Sec. 1. That said town of Mason shall, on the second Tuesday of March, A. D. 1858, choose by ballot and by a major vote, five trustees, to be called trustees of the Boynton common school fund, one of whom shall hold the office for the term of one year, another for two years, another for three years, another for four years, and the other for five years, and until some other person is chosen and qualified instead of each; the term of office of each to be determined by lot at their first meeting, and a record thereof made in the office of the town clerk of said town. One such trustee shall be chosen annually at the annual meeting of said town after said second Tuesday of March. 1858, by ballot and by a major vote, to fill the vacancy which will annually occur by the expiration of the term of office of one of the incumbents.

Sec. 2. The said trustees shall have the entire control and management of the Boynton common school fund, and shall invest the same in a safe and prudent manner, and shall annually pay to the treasurer of said town of Mason, in the month of January, the income of said fund, to be divided among the several districts or common schools in said town, in proportion to the number of scholars, between the ages of five and fifteen years, in said districts or schools.

Sec. 3. The trustees shall, at each annual meeting of said town, make a report of the state of the fund and the income of the same; and the town may require of them bonds for the faithful discharge of the duties of the office.

Sec. 4. In case of the death or resignation of either of the trustees, or in case either of them, by sickness or otherwise, be disqualified for the discharge of the duties of the office, the town may, at the annual or at a special meeting called for that purpose, elect another person for the unexpired term. Approved, June 26, 1857.

AN ACT to raise seventy thousand dollars for the use of the State.

Sec. 1 *Be it enacted, &c.* That the sum of seventy thousand dollars shall be raised for the use of the State, and shall be assessed, collected and paid into the treasury, on or before the first day of December, in the year of our Lord one thousand eight hundred and fifty-eight, and the treasurer is hereby directed seasonably to issue his warrants to the selectmen of the several towns and places within this State, according to the apportionment of public taxes made out at the June session A. D. 1856, and the selectmen and assessors of such towns and places are hereby required to assess the sums specified in said warrants, and cause the same to be paid to the treasurer on or before the first day of December, in the year of our Lord one thousand eight hundred and fifty-eight, and the treasurer is hereby authorized to issue extents for all taxes which shall then remain unpaid.

Approved, June, 27, 1857.

AN ACT to change certain terms of courts.

Be it enacted, &c.—Sec. 1. The term of the Court of Common Pleas for the county of Merrimack, now by law required to be held at Concord on the second Tuesday of October in each year, shall hereafter be held at Concord on the third Tuesday of October in each year.

Sec. 2. All acts and parts of acts, inconsistent with the provisions of this act, are hereby repealed.

Approved, June 27, 1857.

AN ACT allowing the town of Somersworth further time to adopt a city charter.

Be it enacted, &c.—Sec. 1. That the town of Somersworth, at any legal meeting called for that purpose before the first day of November next, may adopt the act entitled "an act to establish the city of Somersworth," approved July 9th, in the year of our Lord one thousand eight hundred and fifty-six; and said act, after such adoption, shall be in full force, as if it had been adopted by said town prior to the first day of November last; and all acts therein mentioned, required to be performed during the year eighteen hundred and fifty-six, shall be done in the same months of the year eighteen hundred and fifty-seven, and all acts therein mentioned, required to be performed during the year eighteen hundred and fifty-seven, shall be done in the same months of the year eighteen hundred and fifty-eight.

Sec. 2. The third section of said act is hereby amended, by striking out the word "southeasterly," mentioned as the last course in the boundary line of ward two, and inserting the word "southwesterly."

Sec. 3. The twenty-first section of said act is hereby amended, by inserting at the close of said section: "The by-laws, rules and regulations established by said town for the management of the cemetery, called 'Forest Glade Cemetery,' and for the conveyance of lots therein, shall be in full force in said city until altered, amended, or repealed by the city council."

Sec. 4. All acts and parts of acts, inconsistent with the provisions of this act, are hereby repealed.

Sec. 5. This act shall take effect from and after its passage. Approved, June 27, 1857.

AN ACT in amendment of chapter 176 of the Revised Statutes.

Be it enacted, &c.—Sec. 1. That in making the list of jurors as provided in said act, the number shall not be less than one half the number fixed as the highest number for the several prescriptions of towns specified in the second section of said act.

Sec. 2. Whenever, from any cause, the number of names in the jury box of any town shall be reduced below the number specified as the smallest number in the preceding section of this act, the selectmen of such town before the day appointed for drawing such jurors, may proceed to revise the jury box of such town in the same way and manner as is now provided to be done in the month of December.

Sec. 3. All acts and parts of acts, inconsistent with the provisions of this act, are hereby repealed.

Approved, June 27, 1857.

AN ACT relating to voting by proxy.

Be it enacted by the Senate and House of Representatives in General Court convened:

Section 1.—No person shall, at any meeting of the stockholders of any corporation in this State, vote by proxy on any share or shares in the capital stock of such corporation; *provided, however*, that this act shall not affect the right of female stockholders to vote at such meeting in the way and manner provided by existing laws; nor the right of any stockholder who is unable, by reason of sickness, infirmity or old age, to attend such meeting, providing such stockholder shall make, subscribe and attach to his proxy, a statement under oath, addressed to the presiding officer of such meeting, that he is unable to attend such meeting for the reason aforesaid.

Sec. 2.—All acts and parts of acts, inconsistent with the provisions of this act, are hereby repealed.

Sec. 3.—This act shall take effect and be in force from and after its passage.

Approved June 27, 1857.

AN ACT in amendment of Chapter 83 of the Compiled Statutes, relating to Teachers' Institutes.

Sec. 1. *Be it enacted, &c.* That a sum equal to two per cent. of the amount required by law to be raised for the support of common schools in each town, shall be appropriated by said town for the support of teachers' institutes in each county.

Sec. 2. Section two, the chapter of which this is in amendment, is hereby repealed.

Approved, June 27, 1857.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FRANCIS & CO are the managers, are authorized by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Tenary combination. Prizes vary in amount from $20 to $100 000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have now commissioners appointed to superintend their drawings, and certify that everything connected with them is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same come to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. Whole tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $50,000; every prize being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, to the following papers:—New Orleans Delta, Mobile Register, Charleston Standard, Nashville Gazette, Atlanta Intelligencer, and New York Weekly Herald. Write your orders plainly, and direct to S. SWAN & Co., Atlanta, Georgia

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

All communications strictly confidential. ml8ly

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,
(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

No. 76 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Models from America and Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the name of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty past years, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full documents of proceedings in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more ability, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration of their claims.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1856.—*During the time I have held* the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

City Hotel, Portsmouth, N. H.

BY WM. S. HADLEY.

THE SUBSCRIBER has the pleasure of announcing to his old patrons, and the travelling public generally, that he has leased this well-known, commodious and pleasant House, and would invite travellers and others to make "themselves at home" on the premises—promising to spare no reasonable effort which may conduce to the comfort and satisfaction of visitors.

While returning his thanks for liberal patronage with which we have been so long favored, in our old quarters; we would solicit a continuance, now that our accommodations are so much increased and improved. WM. S. HADLEY.

ISLES OF SHOALS,

IS now open for Public Accommodation.

The schooner SIBYL, (one of the beautiful yachts built by the late Geo. Steele,) will run daily to this island from Pier Wharf, in Portsmouth, immediately after the arrival of the morning train of cars from Boston, and return in the afternoon.

The Sibyl is commanded by Capt. RUFUS A. PREBLE, a thorough seaman, who will give every attention to the comfort and enjoyment of his passengers.

The Sibyl has a magnificent cabin, water closets, tanks, and every accommodation which a first class Packet requires.

The advantages this purely Ocean Retreat possesses over all others are well known. Resting on the broad bosom of the Atlantic—free from heat, dust and noise—it is peculiarly fitted to restore health to the invalid, and rest to the careworn and weary. j22 THOMAS B. LAIGHTON.

ATLANTIC HOUSE,

Wells Beach, Me.

AS THE season for summer travel and recreation has arrived you will allow us to suggest this Beach, as one which for healthfulness, extent and variety of scenery, is unrivalled on the New England Coast.

This House, located on its most prominent and picturesque part, has been thoroughly refitted and furnished, and is now open for the reception of Visitors. Rare inducements are offered for GUNNING and FISHING. Hacks, Carriages and Boats are subject to order. Visitors may be assured that nothing shall be wanting on our part to make their stay agreeable and satisfactory.

A Coach running from the House will connect at Wells Depot, with every train on the Portsmouth, Saco and Portland Railroad. Rooms can be engaged for any length of time by letter addressed to either of us at *Wells Depot Post Office.*

A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.

INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—has but ONE AIM—accomplishes but ONE THING, to wit: SUBDUES INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. Every *form of inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. Is it asked, *how* it does this?—simply by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely what adheres to the point of a pin dipped into a solution of it, to affect the entire system.

☞ *Of its intrinsic value, the enlightened community, and not the discoverer, must be the judge.*

Lawrence's Carminative,

—OR—
CHILD'S PAIN-KILLER.

THIS invaluable preparation is a favorite scientific prescription of one of the most eminent of the Medical Faculty in New England, and one who has been successful as any other in the treating of

DISEASES OF CHILDREN,

and has been used with never-failing success.

The Carminative is emphatically

A CHILD'S MEDICINE,

and is the *only* Child's Medicine in this country; intended to do away with the excessive and injurious use of *Paregoric*, a remedy sure to be followed by a "dose of physic."

The ingredients of which the *Carminative* is compounded, are known to the Medical Faculty, and it is now extensively used, and approbated by the physicians living in the vicinity of the Laboratory, where opportunity has been had to test its virtues.

The *Carminative* is offered in full confidence for the relief and cure of

Colic, Pain in the Bowels, Wind in the Stomach and Bowels, Green Stools, Diarrhœa, Nervous Affections, Sore Mouth, Restlessness,

and other disorders incident to Weaning and Teething; sure to regulate derangements of the Stomach and Bowels, which often afflict young children; correct debilitated and sour Stomachs, relieve pain and give tone, energy and strength to the whole system.

Due regard has been taken to have the price of the Carminative so low as to be within the reach of all. Price *only 25 cents.*

Parents who value rest should not fail to buy a bottle, as they may depend upon its giving relief to "worrisome children"!

Sold by country traders and all Apothecaries throughout the United States and Canada.

AMERICAN HOUSE,

BOSTON.

Conducted on the European Plan.

LEWIS RICE, Proprietor, respectfully announces that in compliance with the very general preference expressed for the European system of hotel management, that the American House will hereafter be conducted solely on that plan. Well furnished parlor and sleeping apartments will be let by the day, or for longer periods. Meals served at the gentlemen's hall at all hours of the day and evening. The ladies' dining hall will be opened in like manner for ladies, and gentlemen accompanied by ladies. The accommodations and conveniences of the house are unsurpassed, and the recent improvements and alterations leave nothing to be desired. Suburban residents will find the arrangement specially convenient. Large or small parties provided with dinners, suppers, &c., at short notice.

Knife Cleaning. Native Talent.

MR. JOHN HANSON enters the kitchen to show us his apparatus for scouring knives. Our knives pass under his skilful manipulations and come forth all that the most fastidious housekeeper could desire.

But our knives were not black enough to satisfy him or suitably to show his art. "Hav'n't you a knife as dirty as sixty?" asks Mr. Hanson.—Having none that approximated to that scale of dirt, we were content to see our own ordinarily clean knives receiving a beautiful polish, which quite satisfied us that Mr. Hanson's machine *was* a machine worthy of a place in the kitchen cabinet. "How long will it take to scour a dozen knives?" is a question propounded. "Half that number of seconds," replies the artist.

Mr. Hanson also prepares a bottle of liquid, which, for cleaning silver, is quite unsurpassed. As he is a native of Portsmouth, everybody with a laudable desire to encourage native talent, will certainly be glad to receive a call from him and patronize his new knife scourer. aug2

IMPORTANT DISCOVERY.

DR. CHEESEMAN'S PILLS FOR FEMALES,

Prepared by an old Physician of 40 years experience

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain in restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that must always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. CHEESEMAN, Box No. 4,581, Post Office, New York City, can have them sent to their respective addresses by return of mail.

Pendulum Curtain Fixtures.

J. F. SHORES, No. 1 Congress Block, has just received

One Box of Belcher's Curtain Fixtures.

These Fixtures are a decided improvement on any other in the market. The arrangement is very simple, the curtain rising or falling as you wish, with a slight movement of the cord on the side;—and the cord cannot get over the end as it often does with "Putnam's."

One in operation can be seen at my store.—Price 37½ cents each, including cord and tassel.

THURSDAY, AUGUST 6, 1857.

THE OLD MEN.—A letter writer for the Boston Courier, describing the late Commencement scenes at Dartmouth College, speaks honorably of the old men.

Rev. Laban Ainsworth of Jaffrey, N. H., is the oldest living graduate on the catalogue, being of the class of 1778, which is the ninth in the history of the College. He has been seventy-five years pastor of the church in Jaffrey, and completed his century of years July 27, 1857. On that day, which was Sunday, he walked from his dwelling to the church and listened to a discourse from his colleague.

At this Commencement was present another aged graduate—a minister—Rev. James Hobart of Berlin, Vt. He is of the class of 1794, and will be ninety-one years old in a week or two. He is still active, preaches every Sabbath, and gives promise of passing his hundredth year in this mortal life. At the close of the services, he took up his carpet bag and walked half a mile to the depot as smartly as any other, old or young. Moreover, he always makes it a point to compliment his Alma Mater with his presence at her great festival, having failed, I believe, but two or three times.

Another prodigy of age and vigor in this vicinity, not a graduate, but loving the College as if he were, is Capt. Joseph Wood of Lebanon. He is ninety-seven, and has never failed of attending a Commencement since the first in 1771. He then partook of Gov. Wentworth's barbecued ox, and now vividly describes the festivities of that inauguration of Commencements. He is still vigorous in mind and body, doing a smart day's work in his garden. With such examples of extreme, yet vigorous longevity, the honorary degree conferred on Father Sawyer well comports; and seems more than "extreme unction."

The degree of Doctor of Laws, conferred on Col. Rawlinson, of England, was complimentary for his liberal courtesy in presenting six Nineveh slabs to the College.—These slabs, similar to those in the Boston Athenæum, are erected in Reed Hall, in a room by themselves, and constitute a very interesting appendage to the College.—Each presents in relief a king or a eunuch, or other great personage, with doubtless a full history, in the abundant arrow-headed character which covers them, of each, and which will by and by be revealed.

The College is unquestionably in a highly prosperous condition; and in general it is sustaining its well-deserved reputation. It is worthy of remark that the venerable President, notwithstanding some rude attacks from abroad, retains the confidence of the Trustees and the Faculty, and the universal affection of the students.

President Lord is deservedly respected, as a scholar and a gentleman. The "attacks from abroad" do not undertake to deny this. They attack his theology and his sagrology, (if we may make a word.) And in both these respects his views differ so widely from those of almost every body else, that the points of divergence are felt to be harmless.

Father Hobart is well remembered and respected by many persons in this region.

DR. CHALMERS' LECTURE HERETICAL AND ABSURD.—A correspondent of the Springfield Republican relates a recent case, that must have been as discomfiting, as the appearance of a five-barred gate at too short notice for a Tallyho to take the leap.

A clergyman in the vicinity of Auburn, N. Y., was lately suspected by his clerical brethren of preaching heresy. The Presbytery came together to investigate his case. The suspected brother asked that he might have the privilege of setting forth his views in a sermon, which was granted. The sermon was preached, and thereupon every member of the Presbytery proceeded to pronounce it heretical, and much of it absurd. After a whole day had been spent in condemning him and his sermon, the poor man arose, and remarking that he saw they were determined to find him guilty, said, "I have a disclosure to make which will be most painful to you. That sermon which I read to you was *Dr. Chalmers' thirty-second lecture on Romans!*"—The Presbytery immediately adjourned *sine die.*

☞ The Charleston Mercury makes the astonishing statement that Southern weakness and decay is owing to the fact that "the Southern people have looked more, in their political efforts, to the general welfare of the whole country, than to the peculiar prosperity of their own section." We beg our Southern brethren not to sacrifice themselves in this way any longer.

THE QUEEN'S DINNER.—A late writer, who has been looking round in the tower of London, says:

"In one of the cases is a beautifully printed bill of fare, on white satin, bordered with a heavy gold fringe, which was used by the Queen at an entertainment given to her by the city of London in 1837. It is said, that after looking over the whole list of carefully prepared meats and confections, the Queen asked for some boiled potatoes and plain bread, articles which the *cuisine* could not furnish.

That is to say, the queen, like a sensible, healthy women as she is, preferred good common victuals to all their holiday trash.

FROM KANSAS.

LAWRENCE, K. T., July 30.—An apportionment for the October Territorial election has been made:—13 counties have 3 Representatives, and 14 counties have 30. Troops are to be detained to guard the bogus officers at the election. The emigration of this year is not to vote.

Governor Walker has turned over the job of making appointments to the President and Speaker of the first bogus Legislature.

The Traveller says:

The way Gov. Walker is arranging matters for the October Territorial election in Kansas, does not look as if that Territory was to be "pacified" in a hurry. He has clearly succumbed entirely to the old border ruffian leaders. The Free State people have indicated their purpose to vote in October, their tyrant rulers have gone to work to disfranchise them. The slavery party has evidently no idea of giving up the Territory, if unjustice and fraud can retain what rascality and butchery won. The pro-slavery press everywhere denounced the people for refusing to vote in June,—what will they say now, that the people proposing to vote, (under the Territorial government, be it remembered,) Gov. Walker either denies them the privilege outright, or cuts down their representation so that the border counties can outvote them?

The people of Topeka are taking steps for a town organization, as are also those of Wyandotte and Sumner township, near Lawrence where the troops are now encamped. They are not frightened by the bugbear of treason. The Leavenworth Times has a column of burlesque dispatches from the U. S. camp at Lawrence that are highly refreshing. We take a few specimens:

Lawrence, Saturday night.—Walker pale and thoughtful—perspired freely all night—said "d—n" once in my hearing. It created fearful excitement. Troops full of enthusiasm—Walker read his proclamation to them, and then got under the influence of beverages.

Sunday morning.—The Governor had a restless night. Troubled with bad dreams. Lawrence quiet. Troops expect an attack from the citizens.

10 o'clock, A. M.—No attack has been made. Walker rode into the city. Took a sherry cobbler and called for a straw. Took a little water and sugar, with some whisky in it—muttered something—went out to the troops. Terrific excitement in camp.

Noon.—Walker indulges in beverages frequently. Crowds seen in the streets. Troops ordered to form. Crowd discovered to be persons coming from church. His Excellency takes a little gin.

Night.—Whisky been working. Governor tight. Troops grumble. Walker wants to raze Lawrence. All go to sleep.

Monday Evening.—Walker dispatched 793 dragoons this morning, to arrest an audacious youngster who was selling pea nuts in violation of the organic act and our beloved Constitution. Boy to be tried by court martial for high treason. Governor somewhat boozy.

Tuesday Evening.—Walker said he'd be gol darned if he ever sweat so in his life. Says he has put on a clean shirt every day—willing to make sacrifices for the peace of the country and the Union. Little boy discharged. Walker imbibes too much.

FRANK FORRESTER ON THE HORSE.—Henry William Herbert, the most accomplished writer in the English language, perhaps, on animals and field sports, is now bringing out a really superb work on "The Horse." It is to be published by subscription only, at $10 a copy, and to consist of two volumes, imperial octavo size, of 1100 pages. It will embrace every species of information relating to the Horse history, description, care, &c., and will contain steel engravings of sixteen of the most celebrated horses, of this generation. Everything about the work is to be of the very best; a pair of more elegant volumes was never issued from the American press; and it is safe to prophesy for its wide sale. Phillips, Sampson & Co., of Boston, are the general agents for the New England States, and it can be had only of them or their special agents.

☞ Fowler & Wells, of New York city, have just published a little book of 80 or 90 pages, entitled the "Demands of the Age on Colleges." It is the admirable speech of Horace Mann, before the Christian Convention at Cincinnati, Oct. 5, 1854. It treats of the proper connexion of Science with Religion—and is well worth a careful perusal, as the subject is handled with great ability.

AMERICAN DENTAL CONVENTION.—The third annual meeting of the American Dental Association was commenced in Boston on Tuesday, at Tremont Temple.—The attendance was good, there being present nearly two hundred members, who represent nearly every State in the Union. As a body the Convention is highly intelligent. The dental profession is represented by some of the first practitioners in the country.

Among those present, we notice the name of Dr. Frank Fuller, of Portsmouth, who is always on the lookout to gain information concerning his profession.

THE MURDERED POLICEMAN, ANDERSON.—Eugene Anderson, of New York, the policeman who was murdered by the burglar Cancemi, having left a young brother and a sister who depended upon him for support, the leading marketmen are receiving subscriptions for them. The Board of Metropolitan Police Commissioners occupied the principal part of their session on Thursday in considering whether, under the provisions of the act constituting the Metropolitan Police District, the boy and girl were not entitled to the sum of $2000. The law says.

"If any member of the police forces in the performance of his duty, shall be killed or die from the effect of any injury whilst in such performance, and there shall be any person absolutely interested, pecuniarily, in the continuance of his life, a sum of two thousand dollars may be chargeable against the last mentioned, to be paid to the person so interested."

As this case will form a precedent under the act, being the first which has arisen, it was deemed politic to refer it to a committee for a careful investigation.—Mr. E. A. Willoughby, the young man who so bravely pursued and captured Cancemi, the murderer of Anderson, was on Thursday night presented with a fine gold watch and chain, by a number of citizens, as a token of appreciation of his conduct.

MRS. CUNNINGHAM'S BABY.—*New York, Aug. 4.*—In relation to the Cunningham affair, it is charged that Mrs. Cunningham, otherwise Mrs. Burdell, last night pretended to have given birth to a child, in order to obtain all the property of the late Dr. Harvey Burdell.

Dr. Catlin, her physician, and the nurse, name unknown, were arrested, and Mrs. Cunningham is confined to her house at 31 Bond street, under surveillance of the police.

It is alleged that Mrs. C., at the time of her imprisonment in the Toombs, sent for Dr. Uhl, who had been for some time her physician, and requested that he should prescribe for her. The Dr. was again sent for to make an examination, that he might ascertain and report her condition. Mrs. C. claimed to be *enciente*, and the Doctor refused to make the desired examination without being accompanied by other physicians. Mrs. C. refused to have other physicians, and insisted on his evidence alone. Dr. Uhl again refused, and he intimated to one of Mrs. C.'s counsel he thought the request suspicious; but he insisted that Mrs. Cunningham was in the condition she claimed to be. Dr. Uhl then had another interview with Mrs. C., and he alleges that she then told him she was not *enciente*, but was, nevertheless, determined to procure a child.

This information Dr. Uhl gave to District Attorney Hall, who laid plans to expose the whole fraud, and bring the conspirators to justice.

The services of Dr. Catlin, of Court street, Brooklyn, the physician of Mrs. Cunningham's first husband, were subsequently procured. Dr. Uhl was advised to comply with Mrs. C.'s wishes in the matter, in order to bring her to justice.—She requested him, as he alleges, to procure a new-born child for her, and manage the affair so that it would appear she gave the child birth.

This he did by consent of the District Attorney. The child was last night sent to No. 31 Bond Street, where Dr. Catlin and the nurse were in attendance. The police, too, were on the qui vive. Inspectors Dilkes, Hopkins and Speight were in readiness to attend to the closing ceremonies. The child was conveyed to the door at 10 o'clock, in a carriage, and Mrs. C. received it with rapture.

The police finally walked in and arrested Mrs. C., Dr. Catlin and the nurse. The two latter were locked up in the 15th ward station house, while Mrs. C., still acting her part, persisted in her sickness, and had to be left in her room. A posse of police was on hand to guard the premises and prevent ingress or egress.

Mrs. C. persists in avowing that she has given birth to the child, and is held closely confined, awaiting the investigation, which will be had this afternoon.

ARREST ON SUSPICION OF MURDER AND ARSON.—On the 9th of June last the house of James Shepherd, situated in Fifty-third street, New York, was burned, and the charred remains of Mrs. Shepherd were found in the ruins. Shepherd has lately been arrested on suspicion of killing his wife and setting fire to the house, and after a partial examination of the case, has been committed. The evidence against him, thus far, does not seem to be sufficient to convict him of the crime.

☞ Parts 31 and 32 of Spencer's History of the United States are received. The latter has a portrait of John Adams, while the former contains a splendid engraving of "Decatur's Conflict with the Algerines at Tripoli," at the moment when Reuben James interposed his head to save the life of his commander.

☞ The new Collector at New York, notified more than sixty patriots in the Custom House, on August 1st, that the public good demanded no further sacrifices on their part, and others had volunteered to relieve them of the duties and emoluments of their offices. He has another list of martyrs for the 15th. So they go—good democrats all.

SUICIDE OF SENATOR RUSK, OF TEXAS.—*New Orleans, Aug. 4.*—Advices from Texas say Senator Rusk committed suicide at his residence on the 29th ult., by shooting himself through the head with a rifle. No cause is assigned.

Mr. Rusk has been a Senator from Texas ever since the annexation, and stood high in the Senate. The Boston Traveller says he "was about sixty years old; and we know of nothing in his private affairs or habits that should have induced the insanity under which he destroyed himself, unless it be his free use of intoxicating liquors. It was understood his weakness lay in that direction."

☞ Gen. Zollicoffer, of Tennessee, lost his wife a few days ago. He was a candidate for Congress, and in the midst of a canvass. His competitor generously proposed that they should close their appointments to speak, and let the sovereigns do as they pleased. This proposition was, of course, accepted.

☞ At Portland, on Tuesday afternoon, as two lads named James McGlinchy, Jr., and Charles Dehan, were returning from a berrying excursion in Cape Elizabeth, McClinchy fell through an opening in the Western Railroad bridge, just beyond the draw, and the other lad jumped in to his rescue, and both were drowned.

NEW MEDICAL SALT, *A perfect substitute for the Lancet, Leeches and Blisters!*—Another editor, by letter, says:—"One of our compositors has taken it for Pleurisy and Heartburn, and is loud in its praise."

The Agent in Portsmouth is Jos. H. Thacher. See advertisement.

SPECIAL NOTICES.

At Babylon, in ancient times, the sick when first attacked with a disease, were left in the streets, for the purpose of learning from those who pass—what practice or what remedies others had found of assistance when afflicted with a similar disease; but the celebrated Carminative will cure all diseases of children.

HAIR RESTORATIVE.—Every one will, we think, agree with us in the opinion that the human hair is the greatest natural ornament that is possessed either by a gentleman or a lady.—Just meet an apparently good looking man, for instance, in the street; you admire his features, whiskers, and general bearing; but lo! he lifts his hat in recognition of your bow, and the charm has vanished, for Ichabod is written on his bald head, and the glory has departed with the flowing locks that once flourished luxuriantly there. In the case of a lady, the matter is, if possible, worse—such cases reminding one of the circumstances on which the following epigram is founded:

'O! give me, fair Emma, a lock of your hair,'
A bashful young lover took courage and sighed:
'Twas a sin to refuse such a modest request,
So take the whole wig,' the dear creature replied.

Now, to prevent such a catastrophe, is within the power of every lady and gentleman; for, by using Prof. O. S. Wood's Hair Restorative, hair is not only prevented from falling off or turning gray, but the article will restore hair to bald places; and even if it has changed color and become gray, it will bring it back to its pristine beauty and luxuriance. Those who are acquainted with the anatomy, physiology and pathology of the hair, must be well aware that certain substances have a specific action upon it; and it is by judicious combination of these that Professor Wood has succeeded in compounding a mixture possessed of remarkable virtues.—[Waverly Magazine and Literary Gaz.

THERE ARE HUNDREDS OF REMEDIES Sold at every Drug Store, purporting to cure all diseases nameable, each advertised as the very best ever known, till we had lost all faith in them all, but there is one exception.

We speak of Dr. Sanford's Invigorator, which came to us recommended as a cure for Liver Complaints, and all diseases arising from a Diseased Liver. The testimonials of so many of our Physicians in its favor, induced us to try it, and now conviction is certain that it is one of the greatest blessings ever given to Dyspeptics, for it made a complete cure before the first bottle was taken, and now we can eat anything eatable without trouble, while before, nothing but the lightest food would digest, and often would digest, and often that gave pain. Now what we want to say to all our readers is, if Liver Complaint or Dyspepsia trouble you, do not fail to try this, the greatest remedy in the world.

THE ADVANCE WAGES MOVEMENT.—In reference to the new movement in New York, as modified, the Sun says:

"The plan now adopted by the merchants, namely an increase of pay, say from two to four or five dollars per month to those who will ship without advance wages, cannot well fail to attain the object in view. The experiment thus far has been successful. For instance the ship Rhine, for Liverpool, offered $20 without, and $16 with, one month's advance.—Two of the crew took the highest wages and no advance; the rest went for $16 and received one month's advance. The ship Silas Holmes, for New Orleans, shipped the whole of her crew without advance, while the Manchester paid $18 per month and no advance. The Lucy Thompson for Liverpool, paid $17, and the Devonshire, for London, gave $16 and one month's advance. A great saving accrues to the ship by the advance pay system; but this narrow view cannot prevail. Many of the captains, in view of the difficulty of obtaining seamen, with or without advance wages, recommend the employment of paid apprentices, as the sure method of increasing seamen, and relieving the merchants."

☞ Lord Ellenborough, former Governor General of India, says of two of the revolting regiments disbanded in India, that they were the finest regiments in the Indian army. They had seen much service in conjunction with English soldiers, and equalled them in courage and devotion. He adds: "It must have been a long continued course of mismanagement—a course of misconduct which he could not comprehend—to have so changed the very nature of the soldiers who composed those regiments."

The Boston Post, alluding to the late spiritual investigation in Boston says:—

"We were in hopes that the various investigations, from the days of Franklin to the present time, had settled this question—but such is not the fact: therefore we offer a reward of five dollars a day to any rappers, who will, *not* move our table in the dining room, but cover it with dinner for five persons at three o'clock P. M., each day in the week, and then quietly withdraw while we and our interesting family devour it. This shoving round *empty* tables does no good. Meat—meat, is the thing."

New York furnishes a variety of murders this week, and that is about all the news moving. The usual causes—rum, gambling, licentiousness—are given; and it is not worth while to go into the details.

LOCAL.

INDUSTRY MUST PROSPER.—Thirty or forty boys were at work on Wednesday afternoon, cleaning bricks in Warren street, where they had been thrown in demolishing the north wall of the old Piscataqua House. It would be an excellent thing to set our hundred loafers to work cleaning bricks or doing something. There used to be an old law about "finding out" vagrants and idlers, to labor for farmers and others. The city farm has superseded this in part;—but we think more men and boys should go there to labor for 30 days, or 15 days, than are commonly sent there at present.

When Mr. Morrison was keeper there, he did not, as we learn, lose a single runaway. The 15 days' men served out their time.

DROWNED.—On Wednesday afternoon, a boy about 7 years of age, grand-son of Mr. John Carroll, was drowned while bathing near Salter's Island. His object was to swim from the Island to the shore, but when about half way across, he was drawn under by a whirlpool, and sank immediately.

DEATHS IN PORTSMOUTH.—The number of Deaths in this city, in June, is reported by the Superintendent of the City Hearse, as five—of the following ages:

Males, two—aged 47 and 83 years.

Females, three—aged 19, 20, and 77 years,

In July, there were eleven deaths—as follows:

Males, three—aged 14 years, 24, 48.

Females, eight—aged 2 mos., 3 years, 4, 5, 8, 30, 59, 82.

Thus the total bill of mortality for the past two months, has been but sixteen—a small number, two of a population of about ten thousand, and we think unusually small even for one of the most healthy months in our healthy city.

HARMONY GROVE CEMETERY.—The Portsmouth people, it appears, have given the name of "Harmony Grove" to their new cemetery. A wandering son of Portsmouth writing from New York to the Journal, and commenting on things at home, says, "To the New Cemetery—Harmony Grove, I have but one objection to make; its borrowed or stolen *name*. Was there not originality enough to select or invent something, without appropriating that of the charming cemetery in Salem, one of the earliest and most beautiful in New England?"—*Salem Reg.*

Our citizens had better plead guilty and beg pardon of the Salem people. By the by, we noticed a few days ago, that a proposal has been made to publish a plan of Auburn Street Cemetery, giving the location of each lot, the name of its proprietor, &c. "Harmony Grove" is in the rear of the Proprietors' Ground, and is not yet in a fit state for its plan to be taken. We saw the subscription paper for the above plan in a bookstore yesterday, but it was wofully *minus* of names. Would it not be better to wait until the new ground and all can be embraced in the same plan? A.

If the plan is wanted for use, and the means raised, by all means have it now, and the other when it is ready.

☞ The N. H. Patriot contains the speech of Hon. Abner Greenleaf of this city, on the Dred Scott decision. It supports Judge Taney's view, and makes five columns of small type. It is, perhaps, as good a defence of slavery existing by law, as could be made by any one man in New England.

N. H. GAZETTE FOR SALE—This old Democratic organ is offered for sale. It is the oldest paper in the State, and enjoys a good reputation and a liberal patronage, and in the hands of a prudent, industrious and competent manager, it can be made to pay *well*.—*N. H. Patriot.*

Is the Patriot prepared to back all these statements?

☞ The following are the appointments for camp meetings among the Methodists in New England:—Eastham, Mass., Aug. 11; Monticello, Me., August 12; Martha's Vineyard, August 20; Wilbraham, Mass., August 24; Glastenburys, Conn., August 24; Kennebunk, Me., August 24; Sterling Junction, Mass., August 31; East Poland, Me., Sept. 1; Northport, Me., Sept. 7; West Killingly, Conn., Sept. 7; Newmarket Junction, N. H., Sept. 7;—East Livermore, Me., Sept. 7; Bethel, Me., Sept. 22.

AN OLD FAMILY.—John Bannister, the comedian, was presented to an old lady proud of ancient and noble blood. The lady asked a wit of the day, who was present, "Who *are* the Bannnisters? Are they of a good family?" "Yes," said the wit, "very good indeed; they are closely connected with the *Stairs*." "Oh," said the lady, "a very ancient family of Ayrshire—dates back to 1450; I am delighted to see your friends."

LATER FROM EUROPE.

ARRIVAL OF THE STEAMER CLYDE.

QUEBEC, August 4.—Steamer Clyde, from Glasgow July 22, passed River du Loupe this morning.

The following despatch was landed, but bears neither date nor locality:

"Wheat, 3d per bushel lower; Flour, 6d a 1s per brl. lower; Indian Corn at previous rates."

The Clyde brings a paper of the 22d. It contains Liverpool and London telegraphic messages of Tuesday.

The Liverpool Cotton market was firm on Tuesday, with sales of 10,000 bales, including 1500 on speculation and for export. Of the sales 6900 were American, at 6 a 9 3-4d.

The Liverpool Corn market was quiet. In the London Corn market if large sales had been pressed, prices would have fallen more than 5s per quarter.

Mr. Carlwell is elected to Parliament from Oxford, over Thackeray.

Nowall & Co.'s operations for storing their portion of the cable on board the Niagara were drawing rapidly to a close, and it is expected she will leave Liverpool on or before the 25th.

Liverpool letters state the suspension of Henry Schavaber & Co., with liabilities of about £60,000.

PARIS, *Monday.*—The funds closed at 67f. 60c. a 67f. 65c. One of the Italians now in custody, has made a full confession of the details of conspiracy.

Telegraphic advices from Spain announce an extraordinary decline from the recent high prices of wheat.

NEW YORK, August 5.—The royal mail steamship Persia, Capt. Judkins, arrived at this port at 8 o'clock this morning.—She left Liverpool on the morning of the 25th ult.

Cotton had advanced 1-8th of a penny per pound. In London markets, Wheat was 5s lower.

In the Liverpool Breadstuffs market, Flour dull, and 1s lower. Corn steady for mixed and yellow, but white had advanced to 42s a 44s.

At the dinner of the Royal Agricultural Society of England, Mr. French, Vice President of the Agricultural Society of the United States, was introduced as a guest. Mr. French was warmly received, and addressed the audience at some length.

The shipment of the Atlantic Telegraph cable was completed. The laying down is now to be begun, at Valentia Bay, Ireland, by the Niagara,—and when she, with other vessels, gets to the middle of the ocean, the Agamemnon will fasten on its cable, and begin to pay out.

On Thursday, in the House of Lords, the Queen's answer to the address upon the subject of emigration of free negroes into Western Africa, was received. It merely gives an assurance of an earnest desire to discourage all schemes, for the emigration of free negroes, that are calculated to promote slavery.

A Lady said the other day, that seven women out of eight, were mere household drudges, and she asked us if she could state her grievances in the Home Journal. We told her, certainly she could, if she would write a *short article*. Shade of the patientest man! what shall we do? She wrote *twenty-three* pages of *foolscap*.—Whew!—*North-West Home Journal.*

NOTHING TO WEAR.

'Nothing to wear!' Well, well, I suppose
Some ladies quite truly declare it;
For their habitual disuse of clothes
Above the waist, sufficiently shows
That there, at least, so far as that goes,
They've 'nothing to wear'—and *they wear it.* —*Springfield Repub.*

☞ The Louisiana sugar crop promises to yield 250,000 to 300,000 hogsheads the present year, against 78,000 last year.—Good.

"What is the shape of a kiss?" "Round, I suppose." "Not exactly; it is elliptical (a-lip-tickle)."

—MANUFACTURERS OF—

Melodeons, Organ Melodeons,

—and—

PEDAL BASS MELODEONS,

No. 511 Washington St., Boston.

The first premium over all competitors, at the Fair of the Mass. Charitable Mechanic Association, of the National Fair, Washington, D. C., also at the Ohio State Fair, held at Columbus, Ohio, was awarded to these Manufacturers.

By means of a new method of Voicing, known only to themselves, they have succeeded in removing the harsh and buzzing sound which formerly characterized the instrument, and rendering the tones full, clear and organ like. The action is prompt and reliable, enabling the performer to execute the most rapid music without blurring the tones. The swell is arranged to give great expression.

THE PEDAL BASS MELODEONS,

Are designed particularly for Churches, Lodges, Halls, &c. It is arranged with two manuals, or banks of Keys, the lower set running an octave higher than the other, and may be used separately, and thus get in one case two distinct instruments; or by use of the coupler, the two banks of keys may be played at the same time by use of the front set only. This connected with the Pedal Bass, will produce the effect of a large organ, and is sufficiently heavy to fill a house that seats from 1000 to 1500 persons.

THE ORGAN MELODEON

Is designed for parlor and private use. The construction is similar to the Church Instrument, being arranged with two banks of Keys, and when used together, by means of the coupler, is capable of as great volume of power as the Church Instrument when used without the pedals. Also, every variety of MELODEONS for Parlor use.

Purchasers may rely upon instruments from our Manufactory, being made in the most complete and thorough manner. Having removed to the spacious Buildings

511 Washington Street,

We have every facility for manufacturing purposes, and employ none but the most experienced and skilful workmen. In short, we will promise our customers an Instrument equal, if not superior, to any Manufacturer, and guarantee an *entire and perfect satisfaction.*

Music Teachers, Leaders of Choirs, and others interested in musical matters, are respectfully invited to visit our Rooms at any time and examine or test the instruments on exhibition for sale at their pleasure.

As a still further guarantee to the public as to the excellence of the MELODEONS from our Manufactory, we beg leave to refer, by permission, to the following

Piano Forte Manufacturers of Boston,

who have examined our Instruments, and will give their opinion when called upon:

Chickering & Sons, Hallett & Cummon,
T. Gilbert & Co., Wm. F. Emerson,
Brown & Allen, A. W. Ladd & Co.,
George Hewes, Woodward & Brown,
Newhall & Co.

MELODEONS RENTED.

Persons who wish to hire Melodeons with a view of purchasing at the end of the year, can have the rent credited as part payment of the purchase money. This matter is worthy of special note, as it enables those who desire a fair test of the instruments before purchasing, to obtain it at the expense of the manufacturers, to the extent at least of a year's rent.

Orders from any part of the country or world, sent direct to the manufactory in Boston, with cash, or satisfactory reference, will be promptly attended to, and as faithfully executed as if the parties were present, or employed an agent to select, and on as reasonable terms.

AYER'S Cathartic Pills,

(SUGAR COATED,)
SEE MARK TO

CLEANSE THE BLOOD AND CURE THE SICK
Invalids, Fathers, Mothers, Physicians Philanthropists, read their Effects, and Judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach

PITTSBURG, PA., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Cathartic Pills. It seems to arise from a foul stomach, which they cleanse at once. If they will do others as they do me, the fact is worth knowing.

Yours with great respect, ED. W. PREBLE,
Clerk of Steamer Clarion.

Bilious Disorders and Liver Complaints

DEPARTMENT OF THE INTERIOR,
WASHINGTON, D. C., 7 Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is prompt and decided, consequently they are an admirable remedy for derangements of the organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them.

Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Relax, and Worms.

FORT OTTICE, HARTLAND, LIV. CO., MICH., Nov. 16, 1855

DR. AYER: Your Pills are the perfection of medicine. They have done my wife more good than all the rest. She had been sick and pining away for months. Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody dysentery, a disease which many others had had, and my wife cured him with two doses of your Pills, while others around us paid from five to twenty dollars doctors' bills, and lost much time, without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be prized here.

GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with unmistakable success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WARSAW, WYOMING CO., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent cathartic, to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been greatly afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her. ASA MORRINGER

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawkes, of the Methodist Episc. Church.

PULASKI HOUSE, SAVANNAH, GA., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not promptly cure to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until, by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them I am now entirely well.

SENATE CHAMBER, BATON ROUGE, LA., 5 Dec., 1855.

DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that had afflicted me for years. JOHN F. SLIDELL.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a Dinner Pill, they are agreeable and efficacious.

Fits, Suppression, Paralysis, Inflammation, and even **Deafness**, and **Partial Blindness**, have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, INCIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it already known. Nay, few are the families in any civilized country but what can remember some personal experience of its effects; and fewer yet the communities any where which have not among them some living trophy of its victory over the subtle and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared. We have abundant reason to believe the CHERRY PECTORAL saves more lives by the consumptives it prevents than those it cures. Keep it by you, and cure your colds while they are curable, nor neglect them until no human skill can reach the incurable canker that, fastened on the vitals, sets your life away. All know the dreadful fatality of lung disorders, and as they know too the virtues of AYER'S CHERRY PECTORAL, we need not more than to assure them it is still made the best it can be. We spare no cost, no care, no toil to produce it the most perfect possible, and to place it beyond doubt that it is the best agent which our skill can furnish for their cure.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FRANCIS & CO are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and see that everything connected with them is done in a strictly honorable manner, and that the interests of parties who confide at a distance are properly protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from $20 to $100'00. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The Lottery laws of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Clipper, Baltimore; Sun, National Intelligencer and Union, of Washington, D.C.

Address T. H. HUBBARD & CO.,

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that parties have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $1u; halves, $6; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the popular purgatory on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $50 to $30,000; every prize being drawn, and remit of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount of each prize is certified to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Mercury*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. Write your address plainly, and direct to S. SWAN & Co., Atlanta, Georgia

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m18 1y

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

No. 76 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents not accorded by the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges more moderate, or no more moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents, which besides the extensive library of legal and mechanical works, and full accounts of patents granted in the United States, enables him to offer, in one whole, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity who had more business transacted at the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr. Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more skilful in securing their rights; application in a form to secure for them as early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

August 17, 1855.—During the time I have held the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

A WOMAN MURDERED BY HER HUSBAND. The murder *mania*, which seems to be pervading all parts of the country, reaches within the borders of our own county.—Mary Heagny was murdered in the most brutal manner at her residence at Hobart on Tuesday night of last week, by her *husband*, as is charged, an Irishman, engaged in the blacksmithing business in that village.

It seems that Heagny became enraged at his *wife* for not having his supper ready at a given time on Tuesday evening, she giving as a reason that she had no wood with which to prepare it; when he kicked her, and pounded her in a terrible manner with his fist, and afterward with a heavy patent pail and with a cudgel, during which she was several times knocked down.

The brute then went to bed, leaving his victim upon the floor. In the morning he arose and resumed the assault upon his wife, and after beating her about the head in a terrible manner, left the house, and did not return until in the afternoon just before his wife expired from the effects of his demoniac treatment. She was discovered by some neighbors that went into her house in the afternoon, and medical aid called, but the fractures upon the skull proved to be fatal, and she died in the evening, having just before her death, and while apparently in the full possession of her senses, charged her husband with the awful assault upon her.

We learn that the principal witness against Heagny was his own son, a lad thirteen years of age, who witnessed the whole transaction, but who was probably deterred from giving an alarm through fear of his father.—*Delhi (N. Y.) Express, July 29.*

There is one remarkable characteristic of this *mania* for *wife-murder*, viz. that the wife-beaters are all drinkers, and not total abstinents. Can such a thing as this,—such a fact,—be kept too constantly or too prominently before the people?

And is not this single consideration sufficient to outweigh all the poor medical, political, and fashionable quibbles, by which tippling is kept in countenance?

STRAWBERRY BEDS.—The American Farmer at Baltimore says that in Anne Arundel county, Maryland, 600 acres of land are planted in strawberries. A portion of the ground is newly planted, but it yields a thousand quarts to the acre, and in the total aggregate 20,000 bushels are raised in that county, which employs during the season 1200 hands to pick, and over forty two-horse wagons are constantly running to the Baltimore and Philadelphia steamboat landings, making two loads each a day. The largest strawberry grower has one hundred acres of vines in bearing; and others have from fifty to eighty acres. It is such business, and the growing of early vegetables for the markets of the great cities, that is creating a large class of small farmers, non slaveholders, all along the shores of Virginia and Maryland, and even down as far as North Carolina.

CHARITY.—Rev. Dr. Nott, President of Union College, N. Y., who is now between 80 and 90 years of age, in a public address delivered a short time since, said:

I have been young, and now am old, and as I stand before God to-night I declare that nothing I have ever given in charity is regretted. O no! it is not the riches we keep, but that which we give away, which abides with us forever; it impresses itself in our characters and tells in our eternal destiny; for the habit of character formed in this life will accompany us to the next. The bud which begins to open here will bloom in full expansion hereafter, to delight the eyes of angels and beautify the Paradise of God. Let us then, now, and on every occasion hereafter, practice that liberality which in death we shall approve, and reprobate the parsimony we shall then condemn.

WHERE THE MONEY GOES—AND FOR WHAT.—The total imports at New York, since January 1st, amount to $147,616,723; which is an increase of more than nineteen millions over the same months in 1856, and of sixty-six millions over the same time in 1855.

Among the imports in the last week of July, were $42,455 for cigars; 20,000 for licorice paste; 26,000 for currants; $52,000 for furs; $529,000 for spirituous liquors and wines: $61,000 forwatches: $140,000 for molasses, and $618,000 for sugar; besides other large sums for what should be the produce of our own country.

The Patriotic Fund subscribed by British subjects in different parts of the world, for the benefit of the soldiers who suffered in the Russian war, and their wives and children, amounts to over seven million dollars, and is the largest of that character ever collected.

EARLY IMPRESSIONS.—N. P. Willis, in a letter from Boston to his N. Y. Home Journal, says:

After leaving my friend, I strolled slowly up School street. Curiously enough, my more remote memory of it is stronger than my more recent one—the boy memory of thirty-five or forty years ago, fresher than the maturer memories of adolescence. I came to a stand-still in front of a new brick building, full of lawyers' offices—the spot where once stood a stable; and where I stopped daily on my way to school, to see Stackpole, the handsomest man in Boston, showing off his famous stud horse, "OLD BLUE."

And right opposite, in the same street, stood, in those days, the Universalist Church, whose great, tall, vehement preacher, was an equal wonder for me. Spite of being told that "Rev. Hosea Ballou was a very wicked man," I stole off on Sunday nights, to hear his wonderful eloquence upon the naughty theme of our all going to Heaven; and, as the Apostolical looking old gentleman often patted me on the head when he passed me in the street, it was still more natural that I should speak of him with a certain affection—though why these two School street wonders were forbidden topics, was a puzzle to me; and, that I was not to express my enthusiastic admiration for that magnificent stud-horse and that powerful Universalist preacher, gave me, I remember, my first sceptical feeling as to parental infallibity.

THE FORM OF CONTINENTS DETERMINED BY THE SUN—PROF. PIERCE'S DISCOVERY.—The scientific circles at Cambridge have been recently interested in an observation of Prof. Pierce, not yet published, upon the form of the Continents. If we elevate a terrestrial globe until the Arctic and Antarctic circles are tangent to the wooden horizon, and then cause the globe slowly to revolve, we shall find that a majority of the lines of elevation in the earth's crust—*i. e.*, coast lines and mountain ranges—will, either as they rise or as they go down, coincide in passing with the horizon. For example, the main coast of the United States tending northeast will, if carried on in a great circle, graze the Arctic circle, and the coast of Florida and Labrador tending northwest will graze it on the other side. The same is true of the east coasts of South America and Africa, the coasts of the Red Sea, of Italy, of the Black Sea, of Hindostan, of New Zealand, &c. The Arctic and Antarctic circles are also coast lines, being always tangent to the horizon.

It is almost impossible to exaggerate the importace of this fine discovery, providing it proves, by geological facts, that the oblliquity of the ecliptic has been essentially unchanged since the dawn of creation, and that solar heat was the agent to carry out the command on the second day to let the dry land appear. The line of separation between light and darknes, between solar heat and the coolness of night, travelling daily for two months in summer, and again for two months in winter, in such a position as to coincide in passing with the lines of upheaval, indicates unmistakeably that it was connected with the determination of those lines; the slight expansion and shrinking being sufficient to determine the line of rupture of the crust. From a comparison of the forms of the continents, Prof. Pierce also draws the order of their upheaval; showing for instance, that the Western Continent is older than Europe, and that the Gulf Stream, during the second day of creation, caused the great variety of outlines in that continent.

TEMPERANCE TOUR.—The Manchester (England,) Alliance News says:

The Hon. Neal Dow, on Friday, July 10th, addressed a large and influential soiree, held in the Rotunda, Dublin, the Right Hon. the Lord Mayor in the chair; and on Monday evening, Mr. Dow, the Rev. W. Reid, and the Hon. Judge Marshall, addressed a public meeting of nearly 2,000 of the citizons of Dublin, in the round room of the Rotunda. The audience gave Mr. Dow and the other gentlemen a most hearty reception, and cordially voted in favor of a prohibitory liquor law.

On Tuesday, Mr. Dow and other gentlemen of the deputation held a meeting in the Music Hall, the mayor in the chair.—On Thursday, they were to attend the Carnarvon Castle gathering.

On Monday next, Mr. Dow, with Mr. Pope and Dr. Dees, will attend the great Midland counties Maine-law demonstration at Leamington. This is to be Mr. Dow's last meeting in England, and a large gathering is anticipated.

Henry B. Hirst, of Philadelphia, has written a *poem* on Mr. Buchanan, in which he invokes him, in settling Kansas and other difficulties, to

"Arm! Go forth naked to the fight!"

We hope Mr. Buchanan will not do any such ridiculous thing. Let him at least adopt the Texan costume—shirt collar and spurs.—*Portland Adv.*

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhoea, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.
These Pills are put up in square, flat boxes. Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to DR. C. L. CHEESEMAN, Box No. 4,581, Post Office, New York City, can have them sent to their respective addresses by return of mail.

FRIDAY, AUGUST 7, 1857.

THE BURDELL BABY.

Mrs. Cunningham, *alias* Burdell, of New York, is certainly a most unmitigated humbug, whatever else she may be. Many persons have all along believed her to be only a *counterfeit* wife and widow of Dr. Burdell; while others, more credulous or more charitable, thought she *might* be what she professed. Now, by her own attempt, and by the craft of the District Attorney, she stands convicted before the public, of being a *counterfeit mother*.

This attempt shows her willing to adopt any means, to get hold of Burdell's property,—and throws back the shade of falsehood on all her other claims and statements.

The trap set for her, is one well understood by sheriffs, lawyers in criminal cases, mail agents, &c.—and is, in principle, precisely like the purchases of liquors by witnesses for prosecutions,—though there has been a hypocritically sanctimonious howl set up over some of these latter cases.

The farce, in Mrs. Cunningham's case, was admirably played out.

Mrs. Cunningham's cries from her pretended suffering, were so alarming as to attract the attention of the neighbors, but in a short time, they were reported to be over. Mrs. C. was convalescent, and there was the joyful announcement of a daughter born to the estate of Dr. Burdell. The farce was too bare-faced even to the passers by, and the police, posted on the programme of arrangements, consisting of Inspectors Speight, Dicks and Hopkins, and Sergeant Smith, and officer Walsh, rushed in and concluded the piece by arresting Mrs. Cunningham, Dr. Catlin, Mrs. Jane Bell the nurse, and Ann Burns, Mrs. Cunningham's sister. The latter three were immediately locked up in the 15th ward station house, to await an examination. Mrs. Cunningham, although with her attendants thrown into great consternation, still persisted in being sick, and claimed the child here by birth. She acted her part admirably. The police did not insist on her going to the station house, as she was claimed to be so seriously indisposed, but a posse of officers was placed in custody of the bedroom and the entire premises, with orders to neither permit ingress or egress until such time as the matter could be investigated. Mrs. Cunningham is reported to have said, after the pretended birth of the child, "I have put my trust in God, and he has favored me; and I shall now be revenged upon my persecutors."

When the police entered she pretended to be very indignant, and claimed the child. The police told her the child was not hers, and they would take it away, when she screamed, "Don't take my dear little innocent baby, my darling little daughter." They persisted, however, and sent the child back to Bellevue to its mother, who was anxiously awaiting its return, and was delighted to find the child in a very rich dress. The mother expressed hergreatly obliged to Mrs. Cunningham, for dressing her child so gaily.

The Boston Courier remarks:

It is now, however, upon very apparent grounds, seriously doubted whether the offence was actually consummated. It has been suggested that the legal definition of the word "produce," as used in the statute, means the formal production of a child in Court in connection with a claim in its behalf as an heir. But the *attempt* to *produce* a false heir before the Surrogate's Court, with intent to obtain by means of the fraud the whole of the Burdell estate, cannot fail to have the effect of deciding against her the question of her marriage with Dr. Burdell, now pending in the same court. She is represented as much depressed in spirits. Her case is being tried by the motley crowds in the streets, and at every corner popular verdicts are being rendered that she has made a false move. In various forms, she has been made the object of grotesque and fantastical ridicule. The police arrested a drunken Irishman, who allowed himself to be dressed up in female attire to represent Mrs. Cunningham, and to be dragged through the streets in a handcart, followed by a large crowd of women and children, hooting and screaming.

☞ In the State of New York, Mrs. Cunningham's felony is a great crime.—Should she be convicted, the penalty will be very serious, as will appear by the following section of the Revised Statuss, applicable to her case:

Every person who shall fraudulently produce an infant, falsely pretending it to have been born of parents whose child should be entitled to a share of any personal estate, or to inherit any real estate, with the intention of intercepting the inheritance of any such real estates, or the distribution of any such personal property from any person lawfully entitled thereto, shall, upon conviction, be punished by imprisonment in a State Prison not exceeding ten years.

BOWDOIN COMMENCEMENT.

At Brunswick, Me., Aug. 4, before the literary societies, the orator was the Rev. Dr. A. P. Peabody of Portsmouth, N. H. His theme was the identity of Art and Nature. He contended that man, in his mechanical inventions, had done nothing for which he had not found a model in Nature. He had found out no new principles, he had made no new materials; he had only applied principles already existing to the materials furnished him by God, and had, in this application, aided Nature rather than contravened or transcended her, and in all the operations of machinery he had striven to imitate what he saw in Nature. So the telegraph and the crystal were alike God's work, and alike proofs of His power and knowledge. These propositions the orator illustrated by reference to natural agencies.

The Poet was the Rev. H. W. Parker of New Bedford, Mass. After a punning opening, in which the diet of a minister's Pegasus and his habits were humorously alluded to, Mr. Parker proceeded to enforce breadth and universality of culture in preference to depth in one exclusive department.

Among the persons who were present at the exercises was the chemical instructor of the College, Professor Parker Cleaveland, who, notwithstanding his advanced age,—and he has been a Professor since 1805,—boasted to one of his old pupils that for two years he had not missed a recitation or a lecture.

One of the alumni pointed out to me this afternoon, a short elderly man, with a pale face and a generally wan look, whom he introduced as Curtis. Whether he have any prefix or affix to his name, or whether, like the heroes of old, one name suffices for him, I do not know. He has been here a number of years, and gathers a hard-earned support from menial services for the students. He blacks their boots, builds their fires, &c., and works early and late. He lives in a sort of hut alone, and prepares his own food. His expense for board amounts in summer to 13 cents per week, and in winter is but a few cents more. All his money is devoted to the purchase of books. He is a large and retentive reader, and is well informed on almost all subjects. I am informed that in his little hut he has some thousands of volumes stored away, which he announces his intention of bequeathing to the College. His Cockney pronunciation shows him to be English, but of his early life no one knows but himself, and he is wholly reticent. He is one of those mysteries, which abound in our country—a country of which fifty-cent postasters and story-tellers complain that it lacks subjects for romance.

So says the correspondent of the Boston Courier.

QUIBBLES OF INSURANCE COMPANIES.—A correspondent of the Boston Transcript, tells a story of a "Mutual Insurance Company having issued a policy for several thousand dollars, to a firm in Boston, with certain restrictions as to cargo, which the assured had overlooked, and thereby cut themselves off entirely from any *legal* claim for loss,—but with proper explanations on their part, the very liberal-minded President and Directors of this company promptly settled the loss." This is right—but we fear is a rare instance. When a man pays for an insurance premium, he wants to know that he is secured against loss from fire, without dodging round a long list of quibbles and quirks. For instance, when the Chronicle Office was damaged by fire, last winter, we supposed our policy secured us from loss. But, on examination,—to the surprise of ourselves and the agent who insured us, the word "stock," of which we lost, say $100 worth, was not in the policy—so we had to whistle for that. And then the distinction between "tools" and "machinery" are so nice that it is almost as much trouble as a policy is worth, to attempt to settle it.

A common sense view of the matter would suggest that insurance be made against *loss* by fire in certain premises, and be honestly paid when met—whether every cents' worth were specified in detail or not. We are not speaking of nor for ourselves, in this matter—we are sure the word "stock" *is* in our policy now, and a pretty complete list of articles, too.

SCYTHE FIGHT.—The Princeton (Ind.) Clarion tells a story of a scythe fight near Oakland, in that county. Some of the hands in a wheat field got into a row, and used their ugly weapons so effectually that two men were wounded, if not more dangerously, certainly more fearful to look at, than any we have ever heard of, who survived. One man received a wound in the thigh *eighteen inches* long by two inches deep, and another was wounded quite as badly in the chest.

AMERICAN DENTAL CONVENTION, BOSTON. Wednesday a debate as to who were properly members of the association, resulted in admitting all practical dentists. This is right. We don't know what the debate was, but probably it must have been on the question whether any but "regularly educated" practitioners should "come in." We are glad that it is settled as it is—and that *all* dentists can enjoy the benefits of the Association. If quacks and bunglers take advantage of this membership, to bolster themselves up; why, the people must be their own judges of merit and ability.

Dr. Baker of Portsmouth, read an article which he had cut from a newspaper, showing the bad effects of saleratus upon the teeth. The article in question considered that the main, if not the sole cause of defective teeth, was the use of saleratus and cream of tartar in the manufacture of bread; and Dr. Baker fully agreed with the facts which it stated, and gave the results of some experiments which he had made by soaking sound teeth in a solution of saleratus. The teeth were destroyed in fourteen days.

A long and interesting debate ensued—many speakers making remarks, disagreeing with the idea advanced respecting the injurious effects of saleratus. Among the rest, Dr. Fuller of Portsmouth, thought the great effect ascribed to saleratus and alkalies was all a humbug. It was true that if teeth were soaked in a solution of the substances, they would soften and decay; but who ever soaked their teeth in soda or saleratus? He believed that when the bread which is thus made to contain saleratus or soda, is baked, all the acid portions of the article are thus thrown out, only a small portion of Rochelle salts remains. He believed that if we had more of this, it would do us no harm. The great causes of decay, in his opinion, were want of cleanliness, and an undue preponderance of acids.

The dentists of Boston took their brethren from abroad on an excursion down the harbor, on Thursday.

☞ Stephen P. Steele, one of the oldest and most prominent members of Hillsboro' county Bar, died recently at Peterboro', N. H., aged 73.

☞ Lola Montez has delivered another lecture in Buffalo, on the "Origin and Power of the Church of Rome," to the intense rapture of her editorial friends in that city.

☞ The Boston Daily Bee, which some months since assumed the quarto form, announces its purpose to return to the folio.

NEVER TOO LATE.—Many just within the grasp of Consumption are saved every year by the faithful use of Dr. Wistar's Balsam of Wild Cherry. Its success in allaying and curing severe protracted coughs, is remarkable.

FILLIBUSTERS FROM NICARAGUA.—The United States steam frigate Roanoke, Capt. J. B. Montgomery, arrived at New York on Tuesday, in fourteen days from Aspinwall, with two hundred and four fillibusters on board, twenty-seven of whom are diseased, and one of whom, Geo. W. Turner, died on the passage.

A meeting of Walker's men was held on board the frigate, for the purpose of passing resolutions of gratitude to Capt. Montgomery, his officers and crew, and particularly to Dr. Harlan, for their unremitting kindness and consideration, in their destitute condition. The general feeling towards Gen. Walker appears to be widely different from that expressed by those of his party who came by the Cyane. Those were unanimous in his favor; these condemn unqualifiedly his course, denouncing him as cowardly, tyranical, and unequal to the task he had undertaken. Generals Henningsen and Saunders were spoken of with respect.

DEATH OF CORONER PRATT.—Jabez Pratt, who as a coroner has long been known to the Boston public, died on Wednesday evening about six o'clock at the Lunatic Hospital, South Boston, whither he had been conveyed a few days previous on account of an attack of insanity. Mr. Pratt was about fifty three years of age, and leaves a wife and son.

☞ Loefner, the Cincinnati murderer, who, until recently, has appeared to be rapidly recovering, is now growing worse, and his death is expected. The danger arises from an internal effusion of pus in the cellular tissues of the throat, likely to produce strangulation.

☞ Rev. W. C. Brooks will preach in Sandown, N. H., next Sunday, and Rev. E. G. Brooks will preach in Kingston.—Rev. A. A. Miner will preach in Amherst, N. H., a week from next Sunday.

HAIR RESTORATIVE.—We are pleased to record the satisfaction of our patrons, after trial of an article advertised in our columns. We have the satisfaction to know several of our readers who have used Prof. Wood's Hair Restorative, and pronounced it to be just what the advertisement says it is. We have several personal acquaintances, too, who were gray-headed, they have tried it, and now their hair is restored to its original color, and they willingly add their testimony to its efficacy, and will give further information to others desiring it. This speaks well for the article, and we advise all who do not wish to appear gray-headed, to use Wood's Hair Restorative.—[Western Patriot.

THERE ARE HUNDREDS OF REMEDIES Sold at every Drug Store, purporting to cure all diseases nameable, each advertised as the very best ever known, till we had lost all faith in them all, but there is one exception.

We speak of Dr. Sanford's Invigorator, which came to us recommended as a cure for Liver Complaints, and all diseases arising from a Diseased Liver. The testimonials of so many of our Physicians in its favor, induced us to try it, and now conviction is certain that it is one of the greatest blessings ever given to Dyspeptics, for it made a complete cure before the first bottle was taken, and now we can eat anything eatable without trouble, while before, nothing but the lightest food would digest, and often would digest, and often that gave pain. Now what we want to say to all our readers is, if Liver Complaint or Dyspepsia trouble you, do not fail to try this, the greatest remedy in the world.

AMERICAN HOUSE,
BOSTON.

Conducted on the European Plan.

LEWIS RICE, Proprietor, respectfully announces that in compliance with the very general preference expressed for the European system of hotel management, that the American House will hereafter be conducted solely on that plan. Well furnished parlor and sleeping apartments will be let by the day or for longer periods. Meals served at the gentlemen's hall at all hours of the day and evening. The ladies' dining hall will be opened in like manner for ladies, and gentlemen accompanied by ladies. The accommodations and conveniences of the house are unsurpassed, and the recent improvements and alterations leave nothing to be desired. Suburban residents will find the arrangement specially convenient. Large or small parties provided with dinners, suppers, &c., at short notice.

LOCAL.

MUNICIPAL.—*Thursday evening, Aug. 6.* In the Board of Aldermen, the committee who were appointed to investigate the matter relative to the purchase of the old South Church, reported that it was inexpedient to have anything to do with it. The report was accepted.

A few citizens presented a petition for grading that part of State street between Mason's Hill and Cabot street. Referred to Committee on Streets, Roads and Bridges.

Francis Jarvis presented a petition for repairing sewer near his residence. Voted that the drain be put in good repair.

The subject relative to the bad condition of the engine houses was presented, and it was voted that the Committee on the Fire Department and the Chief Engineer be instructed to make the necessary repairs.

The members of the Portsmouth Cornet Band asked for an appropriation of $200, provided a like sum could be raised by subscription. Referred to joint standing Committee on Finances.

IMPROVEMENTS.—Among the numerous alterations, of late, in and round Exchange Buildings, the new front and other fittings in the Book and Music Store of Mr. Chas. C. Harvey, render it at once lighter and more pleasant to those within, and add considerably to the exterior appearance. Mr. Harvey has now a very spacious and elegant store, well supplied with a variety of Books and Stationery, Pianos, Melodeons, and other Musical Instruments, and Music Books, Sheet Music, &c.,—a large and good assortment.

He has the agency of Chickering's world-renowned Pianos—with the advantage of a considerable assortment of these superior instruments in store to select from; as well as those from various other makers.

Mr. Harvey also has the agency for Prince & Co.'s excellent Melodeons—of which he has sold large numbers within the past two or three years; and always keeps a good assortment on hand.

His stock of music and musical instruments is probably larger and more varied than was ever before offered in Portsmouth; and is well worthy the attention of purchasers. Mr. H. P. Crane, the well known teacher of music, whom he announces as an assistant in this department of his business, is well versed in such matters, and must prove a valuable acquisition to the establishment.

It may not be out of place here, to say that to Mr. Harvey is due the credit of originating the Portsmouth Mercantile Library Association, which has been and must be the means of much good among our young men: and also the starting of the Portsmouth Cornet Band, which if rightly encouraged, will be the source of great gratification at least, to the mass of our citizens. We state these facts as not without interest to many of our readers, and as an evidence that our neighbor is up with the times.

OLD IRONSIDES.—The Constitution was taken into the Dry Dock for repairs, on Thursday afternoon.

MELODEON AND SERAPHINE INSTRUCTOR.—In these days, when Melodeons are becoming so plenty, it is desirable to have the best book to play from. The "abridged edition of Howe's New School for the Melodeon, &c.," is a neat and cheap work.—Price only 25 cts. For sale by Chas. C. Harvey, Exchange Buildings.

"The Tears of Love," a ballad sung by Miss Adelaide Phillips, — composed by Walter Maynard, for sale as above; with a host of other music.

TROUBLE AT LEAVENWORTH.—*St. Louis, Aug. 5.*—Advices from Leavenworth state that excitement exists there, growing out of the robbery and murder of a man named Stevens. Two men, named Baines and Quarles, were arrested, charged with the murder; and their confessions disclosed the existence of a regular organized band of robbers and murderers. Baines and Quarles were hung under Lynch law.

KENTUCKY ELECTION.—*Louisville, Aug. 5.*—Marshall, American, is certainly elected to Congress, and Underwood, American, probably. Clay, Mason, Stephenson, Jewett, Burnett, Peyton and Elliott, Democrats, are also elected, and probably Talbot, Dem.

The Democrats have elected their State Treasurer by 10,000 majority, and have a large majority in the lower house and on joint ballot.

DECLINE IN WHEAT. — The Rochester Democrat of the 4th says:

We are informed that a Buffalo firm has just closed a contract for the delivery of 100,000 bushels of Chicago spring wheat at a decline of 50 cents from present prices. A decline in breadstuffs is inevitable.

MOBILE, Ala., Aug. 5.—The whole Democratic State ticket is elected by a large majority. Smallwood is elected to Congress.

RICHMOND, Aug. 5.—The late Secretary of the Navy, Mr. Dobbin, died at Fayetteville yesterday.

MAD WOMAN'S ATTEMPT TO KILL HER CHILDREN.—*Rochester, Aug. 5.*—A shocking affair occurred in Clarkson yesterday. Mrs. Marshall, who has been for some time deranged, being left alone for a time yesterday noon, with her children, attempted to murder three of them, by pouring hot water into their ears. One is a boy of 7 years, who, after the attempt was made upon his life, made almost superhuman efforts to escape, and was successful. He broke away from his mother, forced open the door of the room where he was confined, and made good his escape. The youngest child was an infant, about three months old, and could make no defence.—When taken up by his father, it appeared to be dead, but it was discovered to exhibit some signs of life. Its recovery is considered hopeless. We have not heard the age or the sex of the other child. After this shocking attempt, to murder three of her own offspring, Mrs. M. went and hung herself, and when discovered was entirely dead.

RAILROAD TRAIN SMASHED UP.—*Petersburg, Va., Aug. 4.*—A train going south this afternoon, over the Washington road, was thrown into the swamp nine miles below Goldsboro', The brakeman and a negro woman were seriously wounded: also eight or ten others. They were all taken back to Goldsboro'. The whole train is a total wreck.

NEW YORK, Aug. 5.—Steamship Asia sailed to-day for Liverpool. She took out 44 passengers and upwards of $900,000 in specie.

Mr. Alexander Boyd, a merchant in West 18th street, was fatally shot this morning, by burglars, whom he caught on his premises.

Judge Ingraham this morning discharged Mr. Devlin, the Mayor's appointee to the Street Commissionership, who was under arrest for contempt of Court, in the matter of the contested claims to the office of Street Commissioner.

The Police Commissioners had 230 unsuccessful ballots to-day, for the Commissioner to fill the vacancy.

ST. LOUIS, Aug. 5.—Later advices from Kansas state that Gov. Walker was still encamped at Lawrence, and that his forces had been increased. The Legislature apportionment gives 11 members to 50 counties, and 42 members to 17 counties.

The Election.—The nearly complete returns of this county give Rollins (Independent), for Governor, between 1800 and 1900 majority; and Maurice, (Emancipationist) is elected to the Legislative.

In Cooper county Rollins's majority is 275. Howard county, it is reported, gives Stewart (Dem.) for governor, 500 majority. Cole county (official) gives Stewart 285 majority.

POLITICAL.— The Richmond Enquirer makes an open broast and declares: "For our own part, we have no hesitation in expressing the opinion that every Governor who has been sent to Kansas has been instructed to act always with especial partiality to the South."

The following item is from the Washington correspondent of the Philadelphia Press:

There is a very strong Union feeling growing up in South Carolina. The exclusive business of secession is about over. There is a decided movement in favor of national and conservative notions. South Carolina is like the rest of mankind, and by no means disposed to fight her best friend, which is after all the Union.

☞ John L. Dampney has been committed to Salem jail, in default of bail for $1500, to take his trial at the Court of Common Pleas in October, for setting fire to the building of John Raddin, in West Lynn, July 21st.

☞ The United States Annual Convention of Universalists, will be held at Chicago, Ill., Sept. 15.

Musical Notice.

HAVING made extensive alterations and repairs on my Store, I would announce that in future I shall keep a much more
EXTENSIVE & COMPLETE ASSORTMENT
—of—
SHEET MUSIC,
Musical Instruments & Merchandise,
than heretofore.

The services of the talented musician MR. H. P. CRANE, have been engaged, who will more particularly superintend the Musical Department of the establishment.

A large assortment of all new and popular music constantly on hand. New Music received from Boston and New York daily. Any music not on hand, procured at a few hours' notice, without additional expense.

A large variety of Musical Instruments may always be found at reasonable prices.

Chickering & Sons' Piano-Fortes.

Having received the agency for the sale of Chickering's Piano-Fortes, for Portsmouth and vicinity, an assortment may be found at all times, which will be sold at the same prices as can be purchased at their Ware Rooms.

All of Chickering's Piano-Fortes, whether purchased at this Agency or at their Ware Rooms, will be delivered at the residence of the purchaser, and be tuned one year, as often as required, without additional expense.

PRINCE'S & CO'S MELODEONS.

The large number of these Instruments that have been sold in this city for the past two years, are a sufficient guarantee of their excellence and superiority over any other Melodeons.

Those who wish to Hire, with a view of purchasing, can make arrangements to have the rent go towards the purchase money.

Piano-Fortes Tuned & Repaired.

MR. H. P. CRANE having had several years' experience in tuning Piano-Fortes, offers his services to his friends and the public. All orders promptly attended to, and satisfaction guaranteed.

OLD PIANO-FORTES taken in exchange for new. Second-hand Pianos for sale at low prices.

☞ Piano-Fortes to Rent, on reasonable terms.

Lawrence's Carminative,
—OR—
CHILD'S PAIN-KILLER.

THIS invaluable preparation is a favorite scientific prescription of one of the most eminent of the Medical Faculty in New England, and one who has been successful as any other in the treating of
DISEASES OF CHILDREN,
and has been used with never-failing success.

The Carminative is emphatically
A CHILD'S MEDICINE,
and is the *only* Child's Medicine in this country; intended to do away with the excessive and injurious use of *Paregoric*, a remedy sure to be followed by a "dose of physic."

The ingredients of which the *Carminative* is compounded, are known to the Medical Faculty, and it is now extensively used, and approbated by the physicians living in the vicinity of the Laboratory, where opportunity has been had to test its virtues.

The *Carminative* is offered in full confidence for the rapid cure of
Colic, Pain in the Bowels, Wind in the Stomach and Bowels, Green Stools, Diarrhœa, Nervous Affections, Sore Mouth, Restlessness,
and other disorders incident to Weaning and Teething; sure to regulate derangements of the Stomach and Bowels, which often afflict young children; correct debilitated and sour Stomachs, relieve pain and give tone, energy and strength to the whole system.

Due regard has been taken to have the price of the Carminative so low as to be within the reach of all. Price *only 25 cents.*

Parents who value rest should not fail to buy a bottle, as they may depend upon its giving relief to "worrisome children."

Sold by country traders and all Apothecaries throughout the United States and Canada.

Coggswell's Medical Salt,
A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.

INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—has but ONE AIM—accomplishes but ONE THING, to wit: SUBDUES INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. Every *form of inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. Is it asked, *how it does this?*—simply by restoring the vital balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely what adheres to the point of a quill dipped into a solution of it, to affect the entire system.

☞ *Of its intrinsic value, the enlightened community, and not the discoverer, must be the judge.*

PRIME COST, $1, 50 per drachm—PRICE $2 per drachm.

LAWS OF NEW-HAMPSHIRE.

Passed June Session, 1857.

An Act authorizing the trustees of the House of Reformation to sell and convey property bequeathed by James McKeen Wilkins, and in amendment of chapter 1660 of the pamphlet laws.

Be it enacted, &c., Sec. 1. The trustees of the House of Reformation for Juvenile and Female Offenders against the Laws, are authorized to sell at public or private sale, with the approval of the governor and council, the whole or *any* part of the real estate bequeathed to the institution by the will of James McKeen Wilkins, and to give good and sufficient deeds for the same, and apply the proceeds for the use and benefit of the institution.

Sec. 2. No person above the age of seventeen years shall be sentenced to said House of Reformation.

Sec. 3. So much of section 4, chapter 1660, of the pamphlet laws, *as* is inconsistent with this act, is hereby repealed.

Sec. 4. This act shall take effect and be in force from and after its passage.

Approved, June 27, 1857.

An Act to disannex certain lots of land from the State Grant and annex the same to the town of Carroll.

Sec. 1. *Be it enacted, &c.*—That the following lots of land, numbers 8, 9, 10, 11, 12 and 13, in the first range of lots, as surveyed by M. Snow, by order of the State Committee, and known as the State land or grant, lying on the south line of Carroll, be disannexed from the said tract or grant, and annexed to and made a part of the town of Carroll, as fully and amply as if said lots had formed a part of the original grant, charter or incorporation of said town of Carroll.

Sec. 2. This act shall take effect and be in force from and after its passage.

Approved, June 27, 1857.

An Act relating to the payment of promissory notes and bill of exchange.

Be it enacted, &c.—Sec. 1. All notes, bill, orders and drafts, which shall be hereafter made, which shall become due by their terms on any Sunday, 4th day of July, or on the day appointed by the governor and council as the day of general fast or thanksgiving, shall be due and payable on the day preceding such Sunday, 4th day of July, fast, or thanksgiving.

Sec. 2. This act shall take effect on its passage.

Approved, June 27, 1857.

1. *Resolved by the Senate and House of Representatives in General Court convened*, That the great power vested in the Supreme Court of the United States, and the permanent tenure of office by which it is removed from the direct control of the people, require that its action should be the object of constant and vigilant observation; that an influence upon it can be exerted only by public expressions of censure upon any attempt of the Court to transcend the limits of its authority, and that it is especially the duty of the Legislatures of the several States to expose and denounce such attempt.

2. *Resolved*, That the decision of the Court in the case of Dred Scott *vs.* John F. A. Sanford, as pronounced by Chief Justice Taney, contradicts the facts of history, is repugnant to the Constitution, and is subversive of the rights and liberties of the people.

3. *Resolved*, That we are compelled to believe, from the misstatements and perversions of historical facts in the opinions delivered by the Court, that the decision was the result of pro-slavery sympathies, and an improper desire to favor and strengthen the slave holding interest.

4. *Resolved*, That every person born within the limits of this State, and owing allegiance to no foreign government is a citizen thereof, and by the Constitution of the United States entitled to all the privileges and immunities of citizens in every other State; and the denial to him of the rights guaranteed by the Constitution, is a wanton violation of that instrument.

5. *Resolved*, That the assertion that the Constitution regards slaves as property in a general sense, beyond the range of local municipal regulations, or stipulated agreements, is an unwarrantable assumption, to which no free State can with honor submit.

6. *Resolved*, That the doctrines maintained in those opinions, that Congress has no power to legislate concerning slavery in the Territories, and that the effect of mere possession of Territories by the United States is to establish slavery there, are contrary to the express provisions of the Constitution, obnoxious to the laws and sentiment of civilization, and odious to the people of the free States.

7. *Resolved*, That the expression of extra judicial opinions from the Supreme Bench on subjects agitating the public mind, is undignified and unbefitting the position; and the use made of such position to propagate political doctrines, tends directly to destroy confidence in the integrity of the Court and respect for its decisions.

8. *Resolved*, That in undertaking to decide those questions, which according to its practice, were not in issue, the Court evinced a desire illegally to control the action of Congress; that such course justifies the apprehensions entertained by the framers of the Constitution of that there might be danger from the too great latitude left to the discretion of the Court; that a repetition of and persistence in such action, would confirm the belief that there was a design and purpose on the part of the Court to usurp the functions of the legislative department.

Approved June 27, 1857.

Resolved, &c. That the governor and council are hereby authorized to appoint some suitable person to remove and dispose of the building immediately south of the State House, now used as water closets, and belonging to the State, and to make such and furnish, under the direction of the governor and council, in the basement of the State House, water closets suitable for the proper accommodation of the State, and to pay into the State treasury the proceeds arising from the sale of said building.

Resolved, That His Excellency the Governor be and hereby is authorized to draw his warrant upon the treasury for an amount not exceeding three hundred dollars, to defray the expenses of said removal, and the making of said accommodations in the basement of the State House as aforesaid.

Approved June 27, 1857.

Resolved, &c. That the sum of fifteen hundred dollars be and the same is hereby appropriated for the education of indigent deaf and dumb persons in this State, at the asylum in Hartford, and the sum of five hundred dollars for the purpose of educating indigent blind and partially blind persons of this State, at the institution for the blind at Boston; that the said sums be respectively expended and applied for the benefit of such and so many of those persons as His Excellency the Governor shall elect and approve; and the Governor is hereby authorized to draw said sums from the treasury by warrant.

Approved June 27, 1857.

Resolved, &c. That the sum of three thousand dollars be and the same is hereby appropriated, out of any money in the treasury not otherwise appropriated, for the purpose of making the necessary repairs at the New-Hampshire state prison; and that two thousand dollars be and is hereby appropriated out of the earnings of the New-Hampshire state prison for the purpose of making the necessary repairs of said prison, to be expended by the warden of said prison; and that His Excellency the Governor be authorized to draw his warrant on the treasury for that amount.

Approved June 27, 1857.

Resolved, &c. That whereas the State Treasurer has deceased during the past fiscal year, His Excellency the Governor be and hereby is authorized to appoint three persons to examine into the affairs of the treasury; settle with the estate of the late treasurer; institute a mode of keeping the treasurer's accounts; and report their doings to the next Legislature, together with the indebtedness of the State in detail, specifying the date, character and amount of each item.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. Franck & Co are the managers, are chartered by the state of Maryland, and are conducted under the eye of the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Tersey combination. Prizes vary in amount from $20 to $100 000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is drawn.

☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: The Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Managers do more specifically call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $50,000; every prize being drawn, and result of drawing forwarded to all purchasers.

The drawn numbers in all lotteries are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers: New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. Write your address plainly, and direct to SAM'L S. SWAN & Co., Atlanta, Georgia

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m13 1y

(*Late Agent of U. S. Patent Office, Washington, under the Act of 1836.*)

No. 76 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished on remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL, AND NEVER HAS BEEN SO. The subscriber, and SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can assure those who prefer to use the kind and charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate the best collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, are kept constantly at his office, which is visited states and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were then, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they can employ no more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

Agency U.S. Patent Office, Jan. 1, 1856.—Dear Sir, I have held the Office of Commissioner of Patents, R.H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

TREES AND THEIR USES.—The article with this title in the North American Review, by Rev. Charles H. Brigham of Taunton, Mass., is exciting much attention in different parts of the country. The article recommends that on every farm of respectable size there should be a season for the annual planting of trees. Unlike other crops, they enrich rather than impoverish the soil. Moreover, trees preserve the snow (the "poor man's manure") and by breaking the wind secure a more even covering of snow to the ground. The sudden alternations of freshet and drought are also prevented.

The French government, which has done more than any other in the cultivation of forests, rather favors this theory, and encourages the separation of kinds, where large returns are expected. In the departments of Landes it has chiefly replanted pines; on the slopes of the Pyrenees the box is the favorite variety; while in Brittanny and Normandy the linden abounds.

In Scotland the *larch* has been most extensively cultivated, and more than ten thousand acres, with more than fourteen millions of trees, were planted in less than a century by the single family of Athol.—This example has been copied in other parts of Europe, and one is often surprised to find, in secluded places, like the region of the Tegernese, in Southern Bavaria, beautiful artificial forests of larches. In Greece the prepossession seems to have been for plain trees, and on the hills of Laconia a recent traveller, M. About, has remarked the wanton and wasteful destruction of these noble monuments of the Turkish dominion.

The writer says: "If the rate of disappearance goes on for the next half century as it has for the last, the child is now living who will see the soil of New England everywhere as bare as the soil of Attica, and its noble rivers shrunken in summer, like Achelous and Cephissus, to shallow brooks."

☞ A writer refers Henry Ward Beecher, in the Independent, to an instance in Roman history, where a tragedy by Timotheus procured the abolishment of a cruel and debasing tax; reasoning from this that the theatre does good. The following paragraph from Beecher's reply cuts to the bottom:

This is all very well. We can imagine a state of society so corrupt, that even the theatre could do it some good. Where the church is dead to religion and alive only to avarice; where the state is dead to justice, and vigilant only in corruption; even the theatre might be a better pulpit than the one, and a better centre of justice than the other. But what must be the state of community when the theatre is on a higher moral ground than the courts or the church?

WATERING PLACES.—It appears from the following paragraph, which we copy from the N. Y. Herald, that the season at Newport and other fashionable watering places has proved a failure:

The hopes entertained that the approach of August would bring the usual number of visitors, have proved unfounded. The season for each and all of those places is now an irredeemable failure, and there is reason to believe that the pecuniary losses incurred from it will prove the ruin of many of the establishments which have not the good fortune to be backed up by capital.

REMOVING THE REMAINS.—A gentleman, who had recently vacated a house on State street, Portland, leaving behind his chandeliers and other gas fixtures only, calling there last week for the purpose of looking after them, and preparing for their removal, found that he had been superceded by some rogue or rogues, who had taken them all down, and as he then supposed had removed them; but on looking further, on a subsequent visit to the premises, for the missing articles, found them broken up and snugly stowed away in a basket in a back room of the house, preparatory, as he supposed, to being removed and exchanged for less cumbersome metal, by the perpetrator of this villainous act.

CONGREGATIONAL NOTICES.—General Association of New Hampshire at Keene, Aug. 25, 26, 27. New Hampshire Mission Society and Bible do. same time and place.

Hopkinton Association at West Boscawen, Tuesday, Aug. 11; Union Association, Hancock, same day; Monadnock, at Troy, same day.

PERSONAL. Among the passengers who arrived at Boston in the Europa, on Thursday last, was P. T. Barnum, the showman, who immediately proceeded to New York, via Fairfield, Connecticut.

BE GENTLEMEN AT HOME.—There are few families, we imagine, in which love is not abused as furnishing the license of impoliteness. A husband, father or brother, will speak harsh words to those he loves best, and to those who love him best, simply because the security of love and family pride keeps him from getting his head broken. It is a shame that a man will speak more impolitely, at times, to his wife or sister, than he would to any other female, except a low and vicious one. It is thus that the honest affections of a man's nature prove to be a weaker protection to a woman in the family circle than the restraints of society, and that a woman usually is indebted for the kindest politeness of life, to those not belonging to her own household.

Things ought not so to be. The man who, because it will not be resented, inflicts his spleen and bad temper upon those of his hearth stone, is a coward, and a very mean man. Kind words are circulating mediums with true gentlemen and ladies at home; and no polish exhibited in society can atone for the harsh language and disrespectful treatment too often indulged in between those bound together by God's own ties of blood, and the still more sacred bonds of conjugal love.—*Life Illustrated.*

A ROMANTIC MARRIAGE AND ITS END.—Young ladies of a romantic turn of mind may derive some wholesome experience of the misery which awaits ill assorted marriages, from the case now before the Paris tribunals, in which a Madame Chabre seeks to be divorced from her husband, Monsieur Chabre, alias "Lightning."—The lady, it appears, is the daughter of a noble Belgian family, and was some years ago possessed of beauty, youth, and £7200 sterling. It happened while visiting the famous circus of M. Dijeau, at Brussels, she fell desperately in love with the clown of his establishment, surnamed Lightning, probably from the marvellous manner in which he blazed away. She followed the interesting object of her passion to Paris, where she and Lightning were united in the holy bonds or matrimony. But the ungrateful clown, after spending the money brought to him by his romantic wife, deserted the latter, and flashed away with a young lady connected with Franconi's, whose talents in jumping through paper hoops captivated his practical mind.

BAD SERVANTS.—This everlarsting subject of complaint involves two parties, one of whom seems always to be forgotten in its consideration. To make a house servant, there must be a house mistress, and, to get a good servant, and more especially to keep one, the mistress must be good beyond a peradventure.

Some of your lady readers may be surprised, and perhaps a little offended, to learn that their own character requires a certificate among servants, quite as much as the servants' among them; but it is even so. A *good home* is what a good woman wants; the term is well understood among those who seek service: and the *good home* is as well and extensively known among them as the church, and nearly as sure to have devoted, if not devout attendants.

The very first requisite for such a home is that the mistress shall acknowledge the Declaration of Independence in the feminine gender,—"All women are created equal." No abatement of self-respect is involved in this, and no change of place in the household, or sacrifice of dignity on the part of the mistress; but she must not occupy her post by the divine right of the Queen—assume airs and domineer accordingly.—*Boston Trans.*

A passenger by the Michigan Central Railroad finding that the train did not stop at a particular station, rushed for the rear car, carpet bag in hand, and jumped off. The train was passing at a speed of forty five miles an hour, and of course he struck the ground at some little distance from the starting point. One foot struck the ground first, and so heavily did he come down that the heel of his boot was torn off. His second foot struck twelve feet distant from his first track, and the boot heel was ripped from his other boot. The man continued his rapid movements—being thrown into all sorts of positions—for some distance beyond. He finally "brought up" no less than seventy four feet from the spot where he left the rushing train. On picking himself up, he was asked if he had been hurt, when he answered that he did not know; and immediately seizing his watch and a number of his buttons which had been scattered by the shock, and his carpet bag, he started off with his dinner tolerably well settled.

RAPE AT DEERFIELD.—On Tuesday afternoon three girls were berrying on Greenfield mountain, when Wells Fisk of Greenfield, an old jail-bird who has but recently finished a term in the State Prison, rushed upon them, and seized the oldest of the three, a girl of fifteen, whose person he proceeded to violate. Her two younger companions immediately fled and gave the alarm, when the whole village turned out and the scoundrel was caught at Grout's corner, Montague, upon the Vermont and Massachusetts railroad track.

IMPORTANT DISCOVERY.
DR. CHEESEMAN'S PILLS FOR FEMALES.
Prepared by an old Physician of 40 years experience
THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.
These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to DR. C. L. CHEESEMAN, Box No. 4,581, Post Office, New York City, can have them sent to their respective addresses by return of mail.

SATURDAY, AUGUST 8, 1857.

BEAUTIFUL BLUNDERS. — Some blunders are dreadful; others only laughable. In this latter class belongs a typographic *lapsus*, by which we were made to say, speaking of loafers, "there used to be an old law *finding* out vagrants and idlers." We wrote, *binding* out vagrants and idlers; and this meant something, for it made the varlets work for their living, like other people. But it don't take much of a law to *find* them out. They can be found lurking round the groggeries and idling at corners, almost any day.

A blunder of a more serious kind was made in the late session of the legislature, in which a bill purported to be passed, destroying the office of Bank Commissioner, by a simple repeal clause, which was understood only by a few persons, and looked somewhat like a trick.

Some papers have been quite distressed over the event, in which distress we could not share. But now it seems from the Independent Democrat that the bill is no law at all, and so nobody is killed. The Democrat says:

The Constitution provides in what mode a *bill* may become a *law*; that is, by the concurrent action of both branches of the Legislature. Of course, any bill failing to receive such concurrent action, fails to become constitutionally a law. And this we understand to be precisely the condition of the bill defining "the duties of Cashiers of Banks," which was amended in the Senate so as to abolish the board of Bank Commissioners. That amendment *never went to the House at all*. Therefore it is not a law within the purview of the Constitution, and the Supreme Court must so decree whenever this fact shall be properly brought before their notice and verified.—The journals of both branches of the Legislature, together with the original bill itself and amendment, will be the very testimony, and the only testimony, required to establish the failure of that bill to become a law.

EMANCIPATED.—Geo. C. Mendenall, Esq., of Guilford county, N. C., recently carried a company of ten slaves into Ohio, to be liberated.—This is the third company he has liberated.—He originally owned about eighty slaves, worth seventy thousand dollars, and has already liberated fifty of them. The balance he designs setting free at an early day, and will locate the whole number on farms in Logan and Morlow counties, Ohio.—*Eastern Argus.*

Agitation has put back emancipation 50 years! has it?—And then, what will these poor creatures do, when they have nobody to take care of them? And above all, what a hypocritical, fanatical, black republican this Mendenall must be, to push away these people from the blessedness of slavery, into the dreadful condition of free negroes. Why don't somebody go into fits and dissolve the Union?

MISS CATHARINE BEECHER.—The Congregational Journal says:—"This woman has written a book in which she has attempted to bring the doctrines of revealed religion to the test of "common sense;" i. e. *her* common sense. It seems from the examination of some of our cotemporaries, (we have not seen the book,) that Calvinism or the old Orthodoxy of her venerable father, and of New England Congregationalists, does not stand the trial, but is obliged to give place to the common sense doctrines of Pelagius, and of the Unitarians. The Quarterly Unitarian Journal is jubilant over this new evidence of the progress of liberal Christianity."

The Congregational Journal adds this remark:—"We predict the same destiny for this book which has befallen the "Conflict of Ages"—to be known only as a vagary, and to be respected only by its author and her adopted theological friends."

BOWDOIN.—The Commencement exercises of the graduating class of Bowdoin College took place on Wednesday. Edward A. Rand and Joshua J. Laighton, of this city, each delivered a fine poem (substituted for an "oration"—the highest "parts" assigned.) In the evening, President Woods gave a levee, which was very fully attended; and a ball was given by the graduating class, Dodworth's Band furnishing the music.

On Thursday morning Prof. Samuel Harris, of the Bangor Theological Seminary, delivered the oration before the Phi Beta Kappa fraternity; and in the afternoon Hon. Edward Everett delivered his oration on Washington to a large audience.

No honorary degrees were conferred at this Commencement.

NO ADVANCE WAGES.—The packet ship Saranac, which left Philadelphia on Saturday for Liverpool, shipped a crew without difficulty or delay, although no advance wages were given. A report to the effect that the advance wages were given, is erroneous.

DREADFUL NEWS FROM ENGLAND.—The Richmond, Virginia, Dispatch says:—

Five-sixths of the soil in England is divided among scarcely thirty thousand proprietors. There are twenty-nine bankers in London, whose transactions yearly embrace seven hundred millions sterling. This is one side of the picture. The struggles between capital and labor are fearful—the rich always becoming richer, and the poor poorer. Three hundred thousand persons die of famine in a year (?) and three hundred thousand voluntarily emigrate, to escape the same dismal doom.

Our English friends will be astounded to hear of this wholesale starvation, especially those of them who receive and read regular files of English papers. But seriously, what sort of reliance can be placed on papers that make statements so utterly destitute of truth?

A WESTERN TRADER TWICE ROBBED.—Mr. William Stevenson, who belongs in Chicago, now in Boston on business, called at the first station on Tuesday night, and stated that he had been robbed at a house in North street, of $240 in gold. He left soon after, to search for his money, but returned and stated that he had been a second time robbed, having been induced to enter another house, where a woman seized and made off with his gold watch and chain, valued at $140. For this second robbery, a woman named Ellen Mahoney was arrested and committed for trial, but none of the missing property has been recovered. Mr. Stevenson was also committed as a witness in the case in default of bail in $100.—*Boston Adv.*

Mr. Stevenson must either be very green, or else he must have been partly drunk, to think of going into houses in North street. Truly, he is a "very unfortunate man."

NOT ADAPTED TO THAT LATITUDE.—The Trustees of Mississippi College, at a late meeting, adopted resolutions condemning the teachings of Wayland's Moral Science on the subject of African Slavery, and requesting the Faculty to discontinue its use as a text book.

Exactly so: the Moral Science of Slavery is very nearly of the same value with its poetry and eloquence—viz. all *minus quantities.*

THE ILLUSTRATED GYMNASIUM.—This is the title of a new book by R. T. Trall, M. D., now being published by Fowler and Wells, New York. The work comprehends considerably more than the title expresses; for it contains not only an exposition of Gymnastics proper, but also the applications of Gymnastic, Calisthenic, and Vocal Exercises to the development of the whole body, the proper training of weak and defective organs, and to the cure of disease. Brief instructions are given in the various "manly exercises," as Swimming, Sailing, Rowing, Riding, etc.; and not the least valuable part of it is the analysis of the rudimental sounds of the English language, with the instructions predicated thereon, to enable the student to obtain full command of the respiratory apparatus, and acquire fluency and power of voice and speech.

All departments of the work are profusely illustrated with engravings. Price for the work complete, $1 25. Address Fowler & Wells, 308 Broadway, N. Y.

THE WHIG PARTY.—The Lawrence Courier (straight whig) is glad there is to be no Whig Convention, if it is to declare for Gov. Gardner, saying:—

We want no convention that offers to sink the party any lower than it is. We would like even to be whipped at the polls under the leadership of either Winthrop, Ashmun, or any other man whose skirts are clean of the latest mammon of unrighteousness."

BRIGHAM YOUNG.—The Washington correspondent of the Baltimore Sun says:

The apprehension of difficulties with the Mormons has subsided. No opposition will be made by Brigham Young to the execution of the laws by the federal officers. Brigham Young has not written a letter to the President, as was stated, but he sent him a Mormon newspaper, with an article, official of course, marked on the margin, in which Brigham's policy is set forth as entirely peaceful and subordinate to the United States laws.

REWARD OFFERED.—The Selectmen of Orono, Me., offer a reward of $100 for the detection and conviction of the persons who purloined the fire engine belonging to that town, on Saturday night last—and a further reward of $50 for the recovery of the property, which is supposed to have been carried on a raft to "the Basin," and there sunk.

QUEEN VICTORIA IN CAMP.—The Queen of England has recently been living in camp with the soldiers at Aldershott. She had a good opportunity to try the comfort of living under canvass, as a heavy rain storm prevailed during a part of the time she was there. There were grand reviews and sham fights got up for her to witness, with all the various plans of attack and retreat.

☞ A commercial circular issued at Charleston, S. C., estimates the wheat crop in the region of the Southern States that will make Charleston its market, at 4,500,000 bushels, of which Charleston will receive for sale and shipment 250,000 barrels of flour, and 1,500,000 bushels of wheat, making that port an important grain market.—Not many years ago, Charleston imported from Virginia, Pennsylvania and New York, nearly every barrel of flour consumed in the Southern sections of the State.

DISSOLUTION OF THE TEHUANTEPEC COMPANY.—A telegraphic despatch from New Orleans, dated 5th inst., says:—"The Tehuantepec Company has been dissolved, in consequence of inability to arrange with the owners of the Garay Grant, the impossibility of getting the mail contract, and the discovery of the fact that the Sloo Title is not in this company. The President, Mr. Dasere, and Messrs. Benjamin and Soule, went in the last steamer to Mexico, to make new arrangements.

It is reported that a tubular bridge is to be constructed at Niagara Falls, and take the place of the present suspension bridge, owing to a lack of confidence in the permanence of wire bridges.

☞ The potato rot has begun to show itself in various quarters in New Brunswick. The other crops in the province look promising, but drying and ripening weather is now much needed.

A HEAVY DEFAULTER.—Breslin, the late State Treasurer of Ohio, has been found to be a defaulter to the handsome amount of $728,619.01. He is now in Canada with his family.

☞ One hundred runaway Mormons have arrived in Kansas, and report that 400 others had started for Oregon. They are becoming dissatisfied with the tyranny and brutal corruption of Brigham Young and the elders.

☞ In a history of lotteries in Rhode Island, it appears that there is scarcely a church or religious society in that State which did not, at some period of its existence, derive material aid from them.

The white of an egg has been discovered to be an efficacious remedy for burns. Seven or eight applications soothe the pain and exclude the injured parts from air.

☞ The Oneida Conference, (Methodist) at their recent meeting, passed the following resolutions:

Resolved, That our convictions are increasing of the absolute necessity of a stringent Prohibitory Law to save our land from the great evils of drunkenness.

Resolved, That as ministers of our Lord Jesus Christ, we will continue the discussion of this subject constantly, endeavoring to pour the light of history, philosophy and divine truth upon the enormities of this vice.

WHAT KIND OF MINISTERS?—J. C., a correspondent of the Congregational Journal, wishes for more ministers "to build up waste places," and urges a three years' course for plain, practical men. He says:

"But what ministers does the cause demand? 1. It needs men of sound health. The work is physically exhaustive, and it is useless to send men of feeble nerves and prostrate muscles to do it. 2. It must have men of active habits. The man who listlessly folds his hands and says a little more sleep, a little more slumber, will never meet the demand of this cause. He He must take up the cross and follow Christ into the streets and lanes and hedges of the world, feeling the weight of the commission, "Go into all the world, and preach the gospel to every creature." 3. They must be men of boldness; for they must meet foes who are sworn to defeat the gospel in all its influences. 4. They must be men of prudence, that no occasion of stumbling be found among them.—5. They must have good common sense, to know what the times and circumstances demand. 6. They must have warm piety, that they may endure all things for the elect's sake.

As to their education, what should it be? 1. They should have a competent acquaintance with their mother tongue, that they may make themselves understood by all who hear them. 2. They must have a sufficient familiarity with the rules of logic and rhetoric, that they may reason correctly and consecutively, and put their reasoning in a simple and forcible style. 3. They need a good acquaintance with standard English authors. 4. They need a thorough acquaintance with the doctrines of the gospel, both in their statement and defence; that they be able to state and defend those doctrines which lie at the foundation of the Christian's hope. 5. They need to be men so independent in investigation and opinions, as not to live upon the *dicta of any man*, yet so modest, candid and ingenuous as to gather *truth* and conviction from *every quarter*. 6. Their education must be practical; i. e., such as brings all their knowledge to bear upon their work, and makes that available to those for whom they labor. 7. Finally, their education should all be drawn to one point; i. e., the *salvation of men.*"

☞ The Newburyport Herald of Thursday says:

The gamblers of the "Lone Star," on Wednesday, paid their fines and gave up their appeal to a higher court. By the law those fines, amounting to $70, go into the city treasury. The examination of Pentland, for keeping a nuisance, will be had at 10 o'clock to-day, when he will be defended by Otis P. Lord of Salem, and H. G. Johnson of this city.

"THE LONE STAR."

"Put out the light."—*Shakspeare*

The poets sing the stars on high,
Nor deem they shine below as well—
Yet one gleamed from the nether sky—
"The Lone Star" was the star of "Hell."

When all the heavens were overcast,
And every orb concealed its ray,
"The Lone Star" burned until the last,
Nor paled but at the dawn of day.

When down the dark deserted street
Benighted wanderers groped their way,
"The Lone Star" led their erring feet
Where spirits of the lost held sway.

But "the Lone Star" at last has set—
Its baneful influence now is o'er;
We see the trail behind it yet—
God grant that "star" may rise no more.

AN EX-STATE OFFICIAL IN CUSTODY.—An ex-State Senator of the Coalition period was arrested at Newton Corner, yesterday, for a disturbance of the peace, and carried before Justice Seth Davis, of West Newton, who sentenced him to 30 days' imprisonment in the House of Correction. The prisoner disclosed to the Justice his real name, but that official gave it no credit, considering the statement an attempt on the part of the accused to impose upon him. It is a sad case of the most brilliant talents and prospects blasted by the drunkard's cup.—*Traveller.*

HAIR RESTORATIVE.—We are pleased to record the satisfaction of our patrons, after trial of an article advertised in our columns. We have the satisfaction to know several of our readers who have used Prof. Wood's Hair Restorative, and pronounced it to be just what the advertisement says it is. We have several personal acquaintances, too, who were gray headed, they have tried it, and now their hair is restored to its original color, and they willingly add their testimony to its efficacy, and will give further information to others desiring it. This speaks well for the article, and we advise all who do not wish to appear gray-headed, to use Wood's Hair Restorative.—[Western Patriot.

THERE ARE HUNDREDS OF REMEDIES Sold at every Drug Store, purporting to cure all diseases nameable, each advertised as the very best ever known, till we had lost all faith in them all, but there is one exception.

We speak of Dr. Sanford's Invigorator, which came to us recommended as a cure for Liver Complaints, and all diseases arising from a Diseased Liver. The testimonials of so many of our Physicians in its favor, induced us to try it, and now conviction is certain that it is one of the greatest blessings ever given to Dyspeptics, for it made a complete cure before the first bottle was taken, and now we can cat anything eatable without trouble, while before, nothing but the lightest food would digest, and often would digest, and often that gave pain. Now what we want to say to all our readers is, if Liver Complaint or Dyspepsia trouble you, do not fail to try this, the greatest remedy in the world.

BANK ACCOMMODATIONS.—This time it is the Bank that is be "accommodated"—and not the boot on the other leg, as is usual. The purchasers of the buildings now standing on the site of the new Post Office, &c., having begun active operations in the way of demolishing the whole block,—the Rockingham Bank has been removed to the counting-room of the Chronicle Office—which will probably be thus occupied till the new Bank building is completed.

We regard this as an admirable arrangement; first, because the money can be so well taken care of—we have never had a bit of trouble to take care of all we have had here—and then, we are willing to submit to the temporary inconvenience, in hopes that the current of funds which will stream in here, may keep on coming after the Bankers leave.

☞ Eld. Miles Grant is appointed to preach at the Advent Chapel to-morrow, at the usual hours. Subject, in the afternoon, "The Creation of Man;" in the evening, "Bible proof that the whole man dies, and remains unconscious between death and the resurrection."

The public are respectfully invited to attend.

☞ Rev. Mr. Holman, who was, through mistake, announced to occupy his old pulpit in this city on Sunday last, is to preach at the Methodist church to-morrow.

☞ The old U. S. Frigate Constitution, which now sits up, "dry," in the Dock, at the Navy Yard, is to be hauled up on land early next week. This will be a sight richly worth seeing. We learn that the Vandalia sunk the Dock only about three inches, and the Constitution only seven inches or so.

PRESENTATION OF THE VICTORIA CROSS OF THE "ORDER OF VALOR."—On Saturday last, the ceremony of presenting the Victoria Cross of the "Order of Valor" to Lance Sergeant Philip Smith, of the 17th Regiment, took place in the Citadel barrack yard. The whole Regiment and a detachment of the Royal Artillery were present on the occasion. The decoration was attached by General Trollope to the breast of Sergeant Smith's coat, and when the troops marched past, the gallant recipient occupied a place in front of No. 1 Company, between the Colonel and Major. The honorable distinction of the Victoria Cross, bearing with it an annuity of £10, has been conferred upon Sergeant Smith, for the acts of bravery, during the Crimean war, thus recorded in the Supplement of the London Gazette of February 24th, last:—"For repeatedly going out and bringing in wounded comrades on the front of the Great Redan, under a very heavy fire, after the columns had retired from the assault." His having been selected for this mark of approbation seems to be much appreciated by his regiment, and it ought to be so, as he is the only man of the four Crimean regiments in North America who has been so distinguished.—*Quebec Chronicle, Aug. 4th.*

WOMAN'S SPHERE.—Madame Lucciola, a celebrated female tenor, ruined a beautiful contralto voice, in the attempt to imitate male singing.

Many a sweet voice and gentle influence in the social harmony has thus been lost to the world.

There is nothing more potent than a woman's voice, if heard, not in the field or the forum, but at home. The song bird of Eastern story, borne from its native isle, grew dumb and languished; 'twas seldom that it sung; and only when it saw an exile from its far-off land, or to its drowsy perch there came a tone heard long ago in its own woods.

So with the song that woman sings; best heard and only heard within home's sacred temple. Elsewhere, a trumpet-tone, perhaps; a clarion peal; but the lute-like voice has fled; the mezzo-soprano is hushed in the roar of the world.—*Albany Transcript.*

FANATICISM.—The man who was injured by the fall of a piece of rock upon him from the roof of the Hoosac Tunnel, was an unmarried Irishman, 23 years old, named Patrick McCarty. He died seven hours after. His right arm and leg were so badly crushed as to make speedy amputation imperatively necessary, and the North Adams Transcript says that his life might probably have been saved, had not his fellow workmen refused to allow of surgical assistance for five hours, until after a priest had arrived from Pittsfield.—*Traveller.*

ST. LOUIS, Aug. 7.—Returns from 38 counties give Rollins upwards of 4000 majority.

Clark (Dem.) is elected in the 3rd Congressional district.

The citizens of Haverhill, Mass., hold a meeting on Wednesday, to see what could be done to check the increase of intemperance in that town. Several of the clergymen took part in the meeting, and active measures are to be put into operation.

DUBUQUE, Aug. 6.—Advices from Saint Paul, Minnesota, have just been received to August 4. A destructive fire broke out in Saint Paul, on the morning of August 4th, at two o'clock, in the store of J. Y. Caldwell, Saint Anthony street, and before the flames could be extinguished, the entire square, with the exception of the First Presbyterian Church, was consumed. Seventeen buildings in all were destroyed, involving a loss of $50,000, on which there is $12,000 insurance.

NEW ORLEANS, Aug. 6.—The examination of Blackwood, who brutally murdered a man named Wright, on Saturday, was set down for to-day. A large crowd gathered at the Recorder's office for the purpose of lynching him. His counsel waived an examination, and he was committed to jail without appearing in Court.

Rumors are afloat of the organization of a Vigilance Committee.

LATER ACCOUNTS FROM KANSAS.—Advices from Leavenworth of Monday, state that Woods and Knowlton, the companions of two men hung on Friday, were being tried by the Judges of the Vigilance Committee. The people were intensely excited, and expressed a determination to lynch the prisoners at all hazards. Gov. Walker and Judge Lecompte had addressed the people, but failed to pacify them.

It is told of General Zachary Taylor that when Major Bliss brought him Santa Anna's despatch, proposing that the American army should surrender without further ceremony, the general, who at that moment was busy writing a private letter on his camp-chest, replied, without so much as looking up from his work, "Tell him to go to ——!"—naming a place seldom mentioned except by hard swearers and clergymen. "But," remonstrated the gallant major, "that does not strike me as appropriate language to use in a case of this sort—it's a formal, official despatch, and requires, I suppose, a written answer." "Tell him to go to ——!" reiterated the general calmly—put it in proper diplomatic phrase and all that sort of thing according to your own taste,—but *that* is my answer."—*Boston Post.*

POLITICS THAT PAY.—The Washington correspondent of the "News" says:

Thurlow Weed (who personally is a generous man, his politics alone being damnable,) will make about ninety thousand dollars as his share from the Brunswick Naval Station.

An editress out West, recommending a new medicine, has discovered the first thing, from personal experience, that it is good for "palpitation of the heart." Put woman in what position you may, she always has a palpitation of the heart.—*Charlestown Advertiser.*

THE CROPS.—By the news from Europe, by the steamer Quebec, we hear of a decline of sixpence to one shilling on flour in the English markets. This is the natural and necessary consequence of the bountous harvest crops throughout Europe; and is only the begining of a general and severe decline.

We had intended to publish, as it is usual at this date, an enlarged and comprehensive view of the progress of the crops at this season. But after a careful and thorough examination of the papers from all sections of the country, we have come to the conclusion that all that can be said about the crops can be said in a single sentence. They are universally and throughout the country, unprecedented in quantity and quality. Never was such a prospect of immense and general yield.—*New York Herald.*

Punch says that every family ought to keep a kitton to amuse the children. They should also keep children to amuse the kitten.

Temperance people are called fanatics. What shall we call those who sustain a business which fills a world with dead hopes and dead men?

SIR JAMES CLARKE'S
Celebrated Female Pills.

Prepared from a prescription of Sir JAS. Clarke, M.D., Physician Extraordinary to the Queen.

THIS invaluable Medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject. It moderates all excess, removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES

It is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

Each bottle, Price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

CAUTION.

These Pills should not be taken by females that are pregnant, during the FIRST THREE MONTHS, as they are sure to bring on Miscarriage, but at every other time and in every other case they are perfectly safe.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Fatigue on slight exertion, Palpitation of the Heart, Hysterics, and Whites, these Pills will effect a cure when all other means have failed, and although a powerful remedy, do not contain iron, calomel, antimony, or any thing hurtful to the constitution.

Full directions accompany each package.

Sole Agent for the United States and Canada,
JOB MOSES,
(late I. C. BALWDIN & CO.,) Rochester, N.Y.

N. B.—$1 and 6 postage stamps enclosed to any authorized Agent, will insure a bottle of the Pills by return mail.

For sale, wholesale and retail, by W. R. PRESTON, Portsmouth, and by Druggists in every town in the United States.

AMERICAN HOUSE,
BOSTON.
Conducted on the European Plan.

LEWIS RICE, Proprietor, respectfully announces that in compliance with the very general preference expressed for the European system of hotel management, that the American House will hereafter be conducted solely on that plan. Well furnished parlor and sleeping apartments will be let by the day, or for longer periods. Meals served at the gentlemen's hall at all hours of the day and evening. The ladies' dining hall will be opened in like manner for ladies, and gentlemen accompanied by ladies. The accommodations and conveniences of the house are unsurpassed, and the recent improvements and alterations leave nothing to be desired. Suburban residents will find the arrangement specially convenient. Large or small parties provided with dinners, suppers, &c., at short notice.

Lawrence's Carminative,
—OR—
CHILD'S PAIN-KILLER.

THIS invaluable preparation is a favorite scientific prescription of one of the most eminent of the Medical Faculty in New England, and one who has been successful as any other in the treating of
DISEASES OF CHILDREN,
and has been used with never-failing success.
The Carminative is emphatically
A CHILD'S MEDICINE,
and is the *only* Child's Medicine in this country; intended to do away with the excessive and injurious use of *Paregoric*, a remedy sure to be followed by a "dose of physic."

The ingredients of which the *Carminative* is compounded, are known to the Medical Faculty, and it is now extensively used, and approbated by the physicians living in the vicinity of the Laboratory, where opportunity has been had to test its virtues.

The *Carminative* is offered in full confidence for the rapid cure of
Colic, Pain in the Bowels, Wind in the Stomach and Bowels, Green Stools, Diarrhœa, Nervous Affections, Sore Mouth, Restlessness,
and other disorders incident to Weaning and Teething; sure to regulate derangements of the Stomach and Bowels, which often afflict young children; correct debilitated and sour Stomachs, relieve pain and give tone, energy and strength to the whole system.

Due regard has been taken to have the price of the Carminative so low as to be within the reach of all. Price *only* 25 *cents.*

Parents who value rest should not fail to buy a bottle, as they may depend upon its giving relief to "worrisome children."

Sold by country traders and all Apothecaries throughout the United States and Canada.

Coggswell's Medical Salt,
A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.

INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—has but ONE AIM—accomplishes but ONE THING, to wit: SUBDUES INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. Every *form of inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. Is it asked, *how* it does this?—simply by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely what adheres to the point of a quill dipped into a solution of it, to affect the entire system.

☞ *Of its intrinsic value, the enlightened community, and not the discoverer, must be the judge.*

PRIME COST, $1, 50 per drachm—PRICE $2 per drachm.

LAWS OF NEW-HAMPSHIRE.

Passed June Session, 1857.

Resolved, &c. That the sum of one hundred dollars be and the same is hereby appropriated to purchase books and stationery for the library for the use of the prisoners at the state prison, and that the same be expended by the warden for that purpose, and that his Excellency the Governor be authorized to draw his warrant on the treasury for that amount.
Approved June 27, 1857.

Resolved, &c. That, in the settlement of the account of William Berry, late treasurer of this State, and now deceased, a full year's salary for the political year last past, be allowed his representatives, the same as if he had lived to discharge its duties to the end of the year. App. June 27, 1857.

Resolved, &c. That the treasurer of this State be and he hereby is authorized to borrow on the credit and for the use of the State, at such times, and in such portions as he may consider necessary and proper, a sum not exceeding forty thousand dollars, ($40,000) at the lowest rates of interest at which the same can be procured, not exceeding six per cent. per annum; and the treasurer for the time being is authorized to pay the sum so to be borrowed, and the interest thereon, when the same shall become due, out of any money in the treasury not otherwise appropriated. Approved June 27, 1857.

Resolved, &c. That the selectmen of the several towns and places in this State be directed to insert in their warrants calling the annual town meeting on the second Tuesday of March next, an article which shall require the presiding officer to qualified voters to be taken upon the following question, to wit: "Is it expedient to alter the Constitution?" and the several clerks of such towns and places are directed to make due return of the votes of their respective towns and places to the legislature on or before the first day of the next June session thereof.
Approved June 27, 1857.

Resolved, &c. That the sum of four thousand dollars be and the same is hereby appropriated for the maintenance of the indigent insane persons belonging to the State at the asylum, for such and so many of those persons as His Excellency the Governor shall direct and appoint, and the Governor is authorized to draw said sum from the treasury by warrant. Approved June 27, 1857.

Resolved, &c. That the clerks be instructed to prepare their respective journals for the press with as few paragraphs or break lines as may be consistent with good taste and necessary for a proper understanding of the same; that the yeas and nays of the House be printed in brevier type and arranged in paragraphs, instead of columns, the yeas of each county forming a paragraph, and the nays the same, with side headings. Approved June 27, 1857.

Resolved, &c. That the Governor be authorized, if he thinks proper, to contract with George Bell for as many copies of the Digest of New-Hampshire Reports, in preparation by him, for the use of the State, as are now taken by the State, of New-Hampshire Reports. Approved June 27, 1857.

Resolved, &c. That William W. Eastman be allowed the sum of two hundred dollars in addition to his salary, in full for his services as Warden of the State Prison for the past political year, and that the same be paid out of any money in the treasury not otherwise appropriated. Approved June 27, 1857.

Resolved, &c. That His Excellency the Governor be requested to take such measures in relation to the will of Joseph Hurd and the probate thereof in the commonwealth of Massachusetts, as he may deem proper for the interests of this State.
Approved June 23, 1857.

Resolved, &c. That the sum of three hundred dollars be and the same is hereby appropriated, out o any money in the treasury not otherwise appropriated, for the salary of the chaplain of the State prison the ensuing year, and that His Excellency the Governor is hereby authorized to draw his warrant on the treasury for that amount.
Approved June 27, 1857.

Resolved, &c. That the doorkeepers of the House be allowed two dollars and fifty cents per day for their services the present session, and that the same be paid out of any money in the treasury not otherwise appropriated. App. June 27, 1857.

Resolved, &c. That the sum of five hundred dollars be and the same hereby is appropriated for the contingent expenses of the State, and His Excellency the Governor is hereby authorized to draw that sum, from time to time, from the treasury, for such expenses as to him may appear necessary.
Approved June 27, 1857.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which Messrs. Blake & Co are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from $20 to $100,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published in the Commissioner's report in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

LOTTERIES.

THE Lotteries of Samuel Cobb & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with them is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Cobb & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $50,000; every prize being drawn, and result of drawing forwarded to ticket holders.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. Write your orders plainly, and direct to S. SWAN & Co., Atlanta, Georgia

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m18ly

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

No. 76 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States, also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Inventors who have made into American or Foreign works, to determine the validity or utility of Patents or Inventions.—and legal or other advice rendered on all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT PATENT OFFICE THAN IN WASHINGTON; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he can give good reason to believe, he will prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more ability, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,

Late Commissioner of Patents."

From the present Commissioner.

Agency 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the Office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,

Commissioner of Patents.

Lawrence's Carminative,
—OR—
CHILD'S PAIN-KILLER.
THIS invaluable preparation is a favorite scientific prescription of one of the most eminent of the Medical Faculty in New England, and one who has been successful as any other in the treating of
DISEASES OF CHILDREN,
and has been used with never-failing success.
The Carminative is emphatically
A CHILD'S MEDICINE,
and is the *only* Child's Medicine in this country; intended to do away with the excessive and injurious use of *Paregoric*, a remedy sure to be followed by a "dose of physic."
The ingredients of which the *Carminative* is compounded, are known to the Medical Faculty, and it is now extensively used, and approbated by the physicians living in the vicinity of the Laboratory, where opportunity has been had to test its virtues.
The *Carminative* is offered in full confidence for the rapid cure of
Colic, Pain in the Bowels, Wind in the Stomach and Bowels, Green Stools, Diarrhœa, Nervous Affections, Sore Mouth, Restlessness,
and other disorders incident to Weaning and Teething; sure to regulate derangements of the Stomach and Bowels, which often afflict young children; correct debilitated and sour Stomachs, relieve pain and give tone, energy and strength to the whole system.
Due regard has been taken to have the price of the Carminative so low as to be within the reach of all. Price *only 25 cents.*
Parents who value rest should not fail to buy a bottle, as they may depend upon its giving relief to "worrisome children."
Sold by country traders and all Apothecaries throughout the United States and Canada.

Coggswell's Medical Salt,
A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.
INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—has but ONE AIM—accomplishes but ONE THING, to wit: SUPPURATE INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. Every *form of inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. Is it asked, *how* it does this?—simply by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely what adheres to the point of a pill dipped into a solution of it, to affect the entire system.
☞ *Of its intrinsic value, the enlightened community, and not the discoverer, must be the judge.*
PRIME COST, $1, 50 per drachm—PRICE—$2 per drachm.

S. D. & H. W. Smith,
—MANUFACTURERS OF—
Melodeons, Organ Melodeons,
—and—
PEDAL BASS MELODEONS,
No. 511 Washington St., Boston.
The first premium over all competitors, at the Fair of the Mass. Charitable Mechanic Association, of the National Fair, Washington, D. C., also at the Ohio State Fair, held at Columbus, Ohio, was awarded to these Manufacturers.
By means of a new method of Voicing, known only to themselves, they have succeeded in removing the harsh and buzzing sound which formerly characterized the instrument, and rendering the tones full, clear and organ like. The action is prompt and reliable, enabling the performer to execute the most rapid music without blurring the tones. The swell is arranged to give great expression.
THE PEDAL BASS MELODEONS,
Are designed particularly for Churches, Lodges, Halls, &c. It is arranged with two manuals, or banks of Keys, the lower set running an octave higher than the other, and may be used separately, and thus get in one case two distinct instruments; or by use of the coupler, the two banks of keys may be played at the same time by use of the front set only. This connected with the Pedal Bass, will produce the effect of a large organ, and is sufficiently heavy to fill a house that seats from 1000 to 1500 persons.
THE ORGAN MELODEON
Is designed for parlor and private use. The construction is similar to the Church Instrument, being arranged with two banks of Keys, and when used together, by means of the coupler, is capable of as great volume of power as the Church Instrument when used without the pedals. Also, every variety of MELODEONS for Parlor use.
Purchasers may rely upon instruments from our Manufactory, being made in the most complete and thorough manner. Having removed to the spacious Buildings
511 Washington Street,
We have every facility for manufacturing purposes, and employ none but the most experienced and skilful workmen. In short, we will promise our customers an Instrument equal, if not superior, to any Manufacturer, and guarantee an *entire and perfect satisfaction.*
Music Teachers, Leaders of Choirs, and others interested in musical matters, are respectfully invited to visit our Rooms at any time and examine our stock of instruments on exhibition for sale at their pleasure.
As a still further guarantee to the public as to the excellence of the MELODEONS from our Manufactory, we beg leave to refer, by permission, to the following
Piano Forte Manufacturers of Boston,
who have examined our Instruments, and will give their opinion when called upon:
Chickering & Sons, Hallett & Cumston,
T. Gilbert & Co., Wm. P. Emerson,
Brown & Allen, A. W. Ladd & Co.,
George Hewes, Woodward & Brown,
Newhall & Co.
MELODEONS RENTED.
Persons who wish to hire Melodeons with a view of purchasing at the end of the year, can have the rent credited as part payment of the purchase money. This matter is worthy of special note, as it enables those who desire a fair test of the instruments before purchasing, to obtain it at the expense of the manufacturers, to the extent at least of a year's rent.
Orders from any part of the country or world, sent direct to the manufactory in Boston, with cash, or satisfactory reference, will be promptly attended to, and as faithfully executed as if the parties were present, or employed an agent to select, and on as reasonable terms.

IMPORTANT DISCOVERY.
DR. CHEESEMAN'S PILLS FOR FEMALES.
Prepared by an old Physician of 40 years experience
THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.
These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. CHEESEMAN, Box No. 4,531, Post Office, New York City, can have them sent to their respective addresses by return of mail.

BURDEN'S
Pressed Boat, Ship, Brad & Countersunk
Railroad Spikes
ARE well known in the United States, and are conspicuous for their regularity and finish, their unvarying uniformity of size, and for the excellent quality of iron from which they are made, to which may be attributed their rare strength. They are everywhere considered far superior to the hand-made spike of common English iron, and inferior to nothing of the kind yet introduced to the public.

NEW GRENADA.

The reader will get some new thoughts of government and taxation in reading the following extract from Prof. Holton's book on New Granada.

I saw the Camara in session. It has a strong Conservador majority, while the gobernador is, of course, a Liberal. What I saw here teaches me not to translate the word *Conservador* by *Conservative*: there are no Conservatives in New Granada, except fanatic Papists. All the rest deserve the name of Destructives, and might be classed into Red Republicans and Redder Republicans; and the Redder men may belong to either party, but, except the Golgotas, the reddest I know of are the Conservadores of the province of Mariquita.

This assertion is too important in its general bearing to leave it unsupported with facts. I find in the Imprenta eight vetoes of Uricoechea in twenty-two days. In four cases the bill was passed over the veto, which can always be done by a majority of the one Chamber, the most facile of all legislation except by an absolute monarchy, and worse even than that. I examined these eight cases, and in all I am confident that the gobernador (who seemed too young for his office) was right, and the Camara wrong. One of them deprived the jefes politicos, who are compelled to serve and to reside at the Cabecera de Canton, of their salaries. They tried to change the name of the province to Marqueta, derived from the Marqueton Indians, who once resided there. Mariquita is a diminutive of Mary. The Supreme Court decided that a province could not change its name.

But my strongest facts related to taxes. Direct taxes were unknown. They voted not only to introduce them, but to rely wholly on them at the first experiment.—The excise on spirits was rented out for some years to come, at a good sum, to a man who had unfortunately introduced some ill-judged and costly apparatus that probably would not pay. From the monopoly the province suffered no other inconvenience but that vagabonds must work more or drink less. Well, the Camara ordered the contract to be rescinded without the contractor's consent, preferring to have cheaper rum and less revenue. But the new system, which was invented, not copied (for this is the way with all republics) would not work at all. Next year came another radical change. All direct taxes were repealed, and the whole revenues needed for two years, and for the indemnification of the spirit contractor, were to be raised at once from a tax on the exportation of tobacco. This threw all the burdens of the province on the largest town, Ambalema, the great tobacco mart of New Granada. The utmost they could hope to effect by this would be to drive away the tobacco trade to other provinces, and reduce the population of Ambalema from 9751 to less than 5000. But new difficulties beset them. At the lowest corner of the province, on the Magdalena, stands Nare. Under the new order of things, no tobacco is *exported*, and Nare takes it all. It seems that the Narenos, men, women and children, smoke more than their own weight of tobacco daily! The last achievement of the Conservadores that has reached me is a sumptuary law limiting Nare as to the amount of tobacco it should consume, in order that some might be left for exportation.

I wish I had done with this matter, but, as the hope of all parties here seems to be the abolition of all indirect taxes, I must tell my reader what a *progressive* tax is.—Their theory is philosophical. Taxes are paid out of income, and he that has no income can pay no tax. No more can he whose income shall be insufficient for his wants. Property is not taxed. A poll-tax is feudalism, barbarism, and slavery. A man needs a certain sum—say $100 a year—to live on. He that has less than that can pay no tax. If his income be between $100 and $400, he can spare 5 per cent. of it every well; should it be between $400 and $2000, he can conveniently spare 15 per cent. of it; and if it exceeded $10,000 a year, he could easily spare half of it. This is progressive taxation, only I have copied the figures of no one scheme.

This scheme is designed, you see, for the special protection of vagabonds. The thriftless and improvident shall be exempt from all burdens to government. Nay, were there but one citizen in the province of the wealth of an English duke, they might exempt all incomes of less than $100,000 a year from taxation, and make him alone bear the expenses of government. Such was the scheme recommended by the editor in the "Voz de Tolima," the organ of a Conservador gobernacion; and I saw a similar one recommended by a gobernador of Bogota—a Liberal.

But, insecure as the property of citizens must be under this species of legislation, that of foreigners is not attacked in this way. True, the province has given the constitutional right to raise its revenue on the silver mines instead of the tobacco, but they well knew that such a step would have brought a British fleet before Cartagena, and therefore it was not to be thought of.

Another consequence of this theory is, that vast amounts of property in the hands of the wealthy, escape taxation. Broad leagues of land are held by wealthy families, waiting for another generation to buy and settle them. As they produce nothing they are not subject to taxation. The addition of a *horizontal* tax of one cent an acre on land, and poll-tax of a dollar, would relieve all the embarrassments of the treasury, and the last would be a benefit to the taxed, but it would be an outrage on *theory*.

I speak of these things with reluctance. They are the fruit of speculations drawn almost entirely from French books and Granadinos' brains, wholly uncontaminated by any contact with realities. Do you wonder at their stupidity in not copying our system of taxation? Then why does not New York city enjoy the benefits of a postal system like that of Berlin or London? Why have we never enacted or even examined the bankrupt law of England, while in some states solvent men are ruined every year by grab-laws? Why have we still poorer mint-laws than England adopted in 1816? Because legislators love the rachitic offspring of their own brain too well to adopt the fairest and healthiest progeny of any other.

THE BEECHER GIRLS.—We find this paragraph in the Boston Traveller;

The Puritan Recorder consigns or resigns Mrs. Beecher Stowe to the Unitarians. She may choose to pick her own company.

The Traveller has probably confounded Mrs. Harriet Beecher Stowe, with Miss Catherine Beecher, her sister.

The Keene Sentinel says:

The Puritan Recorder is reviewing the new work of Catherine Beecher, (daughter of the celebrated Rev. W. B. and sister of Henry Ward Beecher and Mrs. Stowe) entitled "Common Sense applied to Religion;" and concludes that "she will hereafter take part with the *Unitarians*." But she does not, as we understand her, give up her belief in the character of Christ; though in reference to the old catechism view, in which she was educated, after a thirty years' struggle she says: "The strong doctrines that used to be so reverently received, are either simply *tolerated* or *quietly rejected*." She has to her own satisfaction at least, settled the "Conflict of ages," by Bible Testimony, without resorting to her brother's scheme of a necessary pre-existing state of probation. The Beechers are a wonderful family.

We have not yet seen Miss Beecher's Book,—but, from a close review of it in the Christian Freeman, we suppose Miss Beecher has adopted views nearly agreeing with what used to be called Arminian.

MRS. PARTINGTON.—Of Shillaber, (the witty Mrs. Partington of the Boston Gazette,) the Transcript says:—

"Mr. Shillaber is tall, and corresponds in some respects to Washington Irving's description of the 'stout gentleman.' His manners and address are very pleasing, and the light of kindness that burns ever in his eyes, speaks unmistakably the honest, noble heart that beats in his bosom.—None that have ever known him can forget his cordial grasp of the hand, and cheerful greeting. He diffuses around him an atmosphere of geniality, and leaves a kind word and a smile wherever he goes. The influence of such a man must be for the good of his fellow-creatures."

Uncle Toby, having just enjoyed a friendly call, thinks Mrs. P's presence refreshing as cold water to a thirsty soul, or as a cup of green tea with loaf sugar in it to a circle of matrons and maidens who never grow old.

NEWBURYPORT ITEMS.—In the case of John Pentland, who was charged with keeping a common nuisance, before the Police Court on Thursday, a *nol pros* was entered, he paying the costs and agreeing to abate the nuisance.

According to our City Marshal's report, published the other day, says the Herald, one-half of all the cases that called for his attention in the four months preceding the first of July, were liquor cases. He names them under the heads of drunkenness, common drunkards, violation of the liquor law, &c. We have not the means of knowing what proportion of the others, such as assaults and batteries, disturbing the peace, &c., are from the same cause, but no doubt one-half of them; so that we may safely say that *three fourths* of all the crime known to the police of Newburyport is from rum-drinking. We wish persons who complain of high taxes, and of the burden of the police department and the watchmen, to remember this fact. One way to reduce taxes would be to reduce the number of tipling shops; and that is the best way to do it, since it would at the same time promote morality.

THE VOTE OF CITIES.—The vote of the leading Northern Cities stands thus:

	Buchanan.	Fillmore.	Fremont.
Philadelphia	38,226	24,084	7,892
New York	40,760	19,307	18,275
Boston	5,429	4,240	7,595
Cincinnati	11,213	4,849	7,754
Total	95,628	52,220	41,567

Mr. Buchanan has in these cities a majority of 905 over the combined vote of Fillmore and Fremont, while the vote of Fremont is 107,345 less than the combined vote of Buchanan and Fillmore. Even in Boston Mr. Fremont is in a minority in the popular vote. In each and all these cities the Republican presses have a wide circulation, wider in proportion than that of their opponents.

We cut the above, some time ago, from some paper which seemed to think it strange that in the cities named the newspapers should be *one* way, and the votes the *other*. But there are in all these cities thousands who *do not read the papers*, many who cannot—yet they all vote.

☞ Two barns containing twenty tons of hay, belonging to Walter Stone of Cabot, Vt., were set on fire by lightning on the 1st inst., and entirely destroyed.

A ROGUE.—A fellow calling himself Wm. Webster, came to Great Falls, a few days since, says the Advertiser, and cut up quite a shine among some citizens. He represented himself as being very wealthy, and contracted largely for real estate; engaged building materials to a large amount, and in short was going to make business ache all over. He had in his possession, checks on various banks, and managed the affair so adroitly, that he was believed to be all he pretended.—Some business men were making arrangements to enlarge their operations in consequence of this great accession, and real estate had an "upward tendency." On Friday last, he hired a horse and carriage at Harthan's Livery stable, and taking a lady with him, went out of town. Not returning as soon as expected, handbills were issued, and search made for him. He was found on Wednesday, at Kennebunkport, Me., by Mr. Ezra Harthan, brought to Great Falls, tried and committed to jail. It is said he was married to the lady who accompanied him, and whose maiden name was Mary J. Fields. She may now have ample opportunity to reflect on the folly of placing too much confidence in strangers.

Webster is supposed by some to be partially insane; but he is most evidently a finished rascal, and possibly a graduate of some state prison. At any rate he played the first part of the scene well, and judging from the quantity of buttons that were "lying round loose" on the sidewalks one would think that somebody had been laughing, and somebody else had been "taken in and done for."

☞ The Westchester, Pa. Village Record gives the particulars of a bloody tragedy at a place called Marlsville, in Chester County. It seems that on Saturday morning last, Constable Lynch and Mr. Milton Layman proceeded to execute a warrant for the arrest of a man named William Baugh, who had been charged with inflicting wounds upon a colored man with a pitch-fork. Baugh was at a wood pile cutting wood, with an axe in his hand, when the officers arrived at his place. While Lynch was reading the warrant, Layman advanced towards Baugh, who raised his axe over his head, and with both hands brought it down upon Layman, aiming at his head, but striking the collar of his coat, and penetrating his neck, inflicting a wound of a ghastly character. After inflicting this wound, he again swung his weapon aloft to deal another blow, when Layman drew his revolver and fired. The ball grazed the shoulder and neck of Baugh, who then rushed on to Layman and a desperate struggle ensued, which resulted in Baugh being secured and handcuffed.

While being conveyed in a wagon to Lionville, Baugh, with the desperation of despair, made an attack on Lynch, who had a loaded pistol in his pocket. He seized Lynch by the throat and attempted to force him from the wagon. Lynch drew his pistol from his pocket and in a struggle which Baugh made to obtain the pistol from Lynch, it was discharged, the contents entering the head of the prisoner above the temple, the ball lodging in his head. The wound was mortal, and Baugh died within an hour after arriving at Lionville. It is doubtful if Mr. Layman recovers from his wounds, and it is considered almost miraculous that he had strength enough to return to Lionville in the wagon. Baugh, the deceased, was about fifty years of age, with a wife and children grown up, and with connexions of great respectability.

☞ Eli Thayer's Settlement in Virginia is to commence with a tract of 5000 acres in Wayne county, purchased by the "homestead aid society." The land lies on a creek about two miles from the mouth of the Big Sandy river, which forms the boundary line between Virginia and Kentucky. There are arrangements making for the building of a city, which is to be the center of the colony. The city is to be called Ceredo. The tract of ground is a splendid wheat growing and pasturage country, is very healthy, and well supplied with timber and coal. It is is well situated for navigation, and from this point, there is constant water communication as far as Kansas. It needs but a railway to the James river and Kanawha canal, and a new outlet for the produce of the West is thus made to Norfolk or Richmond. Gov. Wise sees the importance of such an undertaking to Virginia, and advocates it strongly. The company have already sent out $40,000 worth of engines and machinery, with the intention of making it a manufacturing place for the Virginia market. The first body of settlers will go out the middle of August.

Charles Phillips, the eminent and veteran London barrister, has published a pamphlet, in which he avows the opinion, the result of his long and varied experience, that capital punishment, so far from diminishing, only increases crime, and that its effect is brutalizing to the last degree upon society.

A little boy about ten years old, was devoured a few days since on the marshes near Detroit, by a ferocious black bear. The animal has since been seen by numbers of persons, and by some under disagreeable circumstances. Last Thursday, a German named Heidam, went into the swamp to cut a piece of timber, and while there was startled by the sudden apparition of a large black bear, standing a few feet from him, and eyeing him intently. A large dog which accompanied him, immediately attacked the bear, seizing her by the haunches. Heidam, seeing the bear engaged in defending herself against the dog, approached to strike her with the axe. The bear, on seeing this movement, raised herself upon her haunches, and, as Heidam struck at her, caught the blow with her fore paw, and sent the axe flying through the air, entirely out of reach. Heidam lost his balance, and the bear caught him in her grasp, and held him in a deadly hug that deprived him of every power of motion. The dog, in the meantime, worked manfully for his master, and kept the bear's teeth in constant action, defending herself from his attacks, thus probably saving his master's life. Fortunately, the party which Heidam had just left, was not far distant, and his cries for help, together with the loud growlings of the dog, attracted their attention, and one of the party, seizing a broad axe, hastened in the direction of the noise. The animal, not liking the looks of this reinforcement, let go the man, and made off at full speed, followed by the dog, which soon returned, badly wounded. Parties are in search of this dangerous animal, which has already killed one, and nearly another of the inhabitants of Detroit, within sight of the city.

AWFUL CONDITION OF AFFAIRS.—A correspondent of the New York News, travelling through New York State, writes that nearly all the Post Masters in the country are Black Republicans, and he calls loudly for the exercise of the guillotine.

HAIR RESTORATIVE.—We are pleased to record the satisfaction of our patrons, after trial of an article advertised in our columns. We have the satisfaction to know several of our readers who have used Prof. Wood's Hair Restorative, and pronounced it to be just what the advertisement says it is. We have several personal acquaintances, too, who were gray headed, they have tried it, and now their hair is restored to its original color, and they willingly add their testimony to its efficacy, and will give further information to others desiring it. This speaks well for the article, and we advise all who do not wish to appear gray-headed, to use Wood's Hair Restorative.—[Western Patriot.

THERE ARE HUNDREDS OF REMEDIES Sold at every Drug Store, purporting to cure all diseases nameable, each advertised as the very best ever known, till we had lost all faith in them all, but there is one exception.

We speak of Dr. Sanford's Invigorator, which came to us recommended as a cure for Liver Complaints, and all diseases arising from a Diseased Liver. The testimonials of so many of our Physicians in its favor, induced us to try it, and now conviction is certain that it is one of the greatest blessings ever given to Dyspeptics, for it made a complete cure before the first bottle was taken, and now we can eat anything eatable without trouble, while before, nothing but the lightest food would digest, and often would digest, and often that gave pain. Now what we want to say to all our readers is, if Liver Complaint or Dyspepsia trouble you, do not fail to try this, the greatest remedy in the world.

POLICE COURT.

Before Justice Bennett.—Aug. 5.—James Lee plead guilty to a charge of assault on John H. Slater,—and paid $1 fine; 2.92 costs.

Mary Ann Cochran was charged with being a common drunkard.—Plea not guilty. Case postponed to the 7th.

Aug. 7. Mrs. Cochran did not appear; recognizance forfeited.

Michael Cassidy plead guilty to the charge of being drunk in Ceres street;—and was sentenced to 30 days' labor at the House of Correction; costs 4.80.

THE MORMON LEADERS.—The three counties of Wayne, Ontario, and Munroe, New York, which join each other, contributed the four men who have been the most prominent and successful of the Mormon leaders — Smith, Young, Kimball, and Phelps.

Brigham lived near the line dividing Ontario and Munroe counties, in the town of Victor, at the time he became a Mormon. He had always manifested a proclivity to religious fanaticism, or rather he was a lazy rapscallion, good for nothing except to howl at a camp meeting. He lived in a dilapidated log shanty, with a patient, suffering wife, surrounded by a host of tow-headed children. Occasionally he made up a lot of axe-helves, and traded them off for sugar and tea; in other fits of industry he would do a day's work in the hay-field for a neighbor, hoe the potatoes in his own little patch, or pound clothes for his wife on a washing day.

But his special mission was to go to camp meetings and revivals, where he managed to get his daily bread out of the more wealthy brethren, in consideration of the unction with which he shouted "ga-lo-rah!" On such occasions Brigham took no thought for the morrow, but cheerfully putting on his old wool hat, he would leave his family without flour in the barrel, or wood at the door, and telling his wife that the "Lord would provide," he would put off for a week's absence. Poor Mrs. Brigham managed along by borrowing from her neighbors, with small hope of repaying.

Brigham was just the man for the religion, and the religion seemed expressly adapted to him. He became an exhorter, held neighborhood meetings, ranted and howled his doctrine into the minds of others as weak as himself, and finally went West with the rest of them: where he has developed his powers until the poor miserable rustic loafer is Governor of a Territory, and chief prophet of a great religious sect. He has just the mixture of shrewdness and folly which is required for success in fanaticism or quackery. A wiser man could not hold his place. A man must be a half fool and half knave to be a successful quack.

Heber C. Kimball was a man of more respectability. He was born a fanatic, and if not a Mormon would be something else just like it. In his church—he was a Baptist originally—he was one of those pestilential fellows who want resolutions passed at church meetings withholding fellowship from somebody else, and insist upon having a codicil added to the Bible. We believe he had some property. He has much more talent than Brigham Young, but is inferior to him in the elements of quackery. He has very respectable relatives living in the part of Monroe county, from which he started.

A LITTLE DOG SAVING A BOY'S LIFE.—Geo. F. Berry, a boy 13 years old, living in Kidder's block, went out Monday morning, to pick blue-berries beyond Rock Rimmon. He had been there but a short time, when a six foot snake, of a dark hue and red stripe around his neck, jumped at him from a bush, and wound twice around his body, fastening both his arms in his coils, and squeezed hard enough to prevent a scream or move. The dog, seeing his master's life in danger, rushed to his aid, biting and tearing a strip off the snake's back. The boy got relieved from the deadly grasp and took to his heels; but the snake coiled around the dog, and would have crushed him if he had not fought like a tiger. Both found home safe again. The boy complains not of hurt but of fright.—*Manchester, N. H. American.*

ANOTHER NATURAL BRIDGE, which completely throws in the shade that one which we all remember to have seen pictured in our geographies in our school-boy days, is thus described by the Abingdon Virginian:—

"There is a natural bridge within 62 miles of this place, in Scott Co., Virginia, compared with which, the bridge over Cedar creek is a mere circumstance. The Scott bridge extends across the chasm more than twice 80 feet in width, and is 420 feet deep, at the bottom of which flows a much larger and more rapid stream than Cedar creek. The arch of the Scott bridge is not so perfectly formed as that of Cedar Creek, but it is not less a bridge, with a broad wagon road located upon it. The survey for the Cumberland Gap Railroad passed through the arch of this bridge.—It is perhaps, the wildest and most stupendous curiosity in the United States, and yet is comparatively unknown."

☞Samuel G. Goodrich, has obtained a verdict of $8000 damages, in a New York court, against J. B. Dexter & Co., of London, for getting up books in the name of Peter Parley—Mr. Goodrich's *nom de plume.*

Stray Horse.

STRAYED from a Pasture in Rye, since Friday morning, a dark Bay MARE, 5 years old—of large size; with small star in the forehead, and a little white on both hind feet. The finder shall be suitably rewarded on leaving information at No. 12 Market Street. ASA S. TILTON.
Portsmouth, August 10, 1857.

NEW YORK, Aug. 7.—Mrs. Cunninghanm had a preliminary examination before Judge Davies, at her own house. It was very brief, and in substance as follows:—

Judge Davies—What have you to say in reply to the charge made against you?

Mrs. Cunningham.—I am innocent. I trust that time will show it.

Judge Davies.—Have you anything further to say?

Mrs. Cunningham.—I am too ill to make any further remarks; and, by advice of my counsel, I decline to say anything more at present.

WASHINGTON, Aug. 7.—A Medical Board—consisting of Surgeon Gen. Thomas Lawson, and Surgeons S. P. Morse and C. H. Lant, of the U. S. Army—will convene at West Point on the 28th inst., to examine the physical qualifications of candidates, previous to their admission into the Military Academy.

Fort Gibson having been abandoned as a military post, the War Department has issued orders to surrender it to the Cherokee Nation, in accordance with the terms of the treaty of 1836. It is the intention of the Cherokees to lay off a city on that site.

MISSOURI ELECTION.—*St. Louis, Aug.* 8. Returns from fifty counties give Rollins a majority of 4721, being a gain of 4320 over Fillmore's vote.

KENTUCKY ELECTION.—*Louisville, Aug.* 8.—In the election in this State the third Congressional district is still in doubt, but is claimed for Underwood, American. In the fourth district Talbot, Democrat, is elected.

WASHINGTON, Aug. 8.—Despatches were received to-day from Gov. Walker. He reports everything quiet between conflicting interests, and apprehends no difficulty in the future, but feels the continuance of U. S. troops necessary for the present.

INSTRUCTIVE FACTS FROM ANDROSCOGGIN JAIL.—The Lewiston Journal says:

"The Androscoggin County Jail was opened for the reception of prisoners the 6th of February last, and those prisoners belonging to this County, who had been confined in Cumberland County Jail, were transferred. The seven persons enumerated last week, are at present confined in its cells, and twenty have been imprisoned and discharged—making 27 persons in all—who have paid the penalty of the violated law.

Of these twenty discharged prisoners, fifteen are Irish, and five Americans. If we add to them three Irish, three Americans, and one Englishman, now in Jail, we have for the whole time the Jail has been in operation—a little over five months—eighteen Irish, eight Americans, and one Englishman. Seventeen of the twenty were brought to jail either directly or indirectly by liquor. Four of the seven now in jail, were brought there in the same manner, making *twenty-one* prisoners out of twenty-seven made by rum. Thus liquor, directly or indirectly, has caused seven-ninths of the crime in this County for the past nine months. Is not this a subject in which tax-payers should feel an interest?

The crimes for which these prisoners were held are as follows:—1 murder; 1 debt; 7 larceny and burglary; 11 assault and battery, or riotous conduct; 5 drunkenness; 2 selling liquor—showing that eighteen of the commitments were the immediate effects of liquor.

THE SPANISH FLEET in the Gulf of Mexico at the present time, is rather a formidable one, numbering as it does no less than twenty-five war vessels and seven transports. They are all on a war footing, and therefore ready for instant and effective service, should it be necessary to make an attempt against Mexico. There are 11 steamers, 4 schooners, 5 brigantines, 2 heavy corvotts, 2 frigates, and the flag-ship Isabella Second, a splendid spicimen of modern naval architecture, mounting 86 guns.

MOTHERS! MOTHERS!! MOTHERS!!!
AN OLD NURSE FOR CHILDREN.

DON'T fail to procure MRS. WINSLOW'S Soothing Syrup for Children Teething. It has no equal on Earth. No mother who has ever tried MRS. WINSLOW'S SOOTHING SYRUP for Children will ever consent to let her child pass through the distressing and critical period of teething without the aid of this invaluable preparation. If life and health can be estimated by dollars and cents, it is worth its weight in gold.

Millions of Bottles of MRS. WINSLOW'S SOOTHING SYRUP are sold every year in the United States. It is the only female medicine of the kind ever offered to the public. None genuine unless the fac simile of "Curtis & Perkins" is on the outside wrapper.

PRICE ONLY 25 CENTS A BOTTLE.

AMERICAN HOUSE,
BOSTON.
Conducted on the European Plan.

LEWIS RICE, Proprietor, respectfully announces that in compliance with the very general preference expressed for the European system of hotel management, that the American House will hereafter be conducted solely on that plan. Well furnished parlor and sleeping apartments will be let by the day, or for longer periods. Meals served at the gentlemen's hall at all hours of the day and evening. The ladies' dining hall will be opened in like manner for ladies, and gentlemen accompanied by ladies. The accommodations and conveniences of the house are unsurpassed, and the recent improvements and alterations leave nothing to be desired. Suburban residents will find the arrangement specially convenient. Large or small parties provided with dinners, suppers, &c., at short notice.

Knife Cleaning. Native Talent.

MR. JOHN HANSON enters the kitchen to show us his apparatus for scouring knives. Our knives pass under his skilful manipulations and come forth all that the most fastidious housekeeper could desire.

But our knives were not black enough to satisfy him or suitably to show his art. "Have you a knife as dirty as sixty?" asks Mr. Hanson.—Having none that approximated to that scale of dirt, we were content to see our own ordinarily clean knives receiving a beautiful polish, which quite satisfied us that Mr. Hanson's machine was a machine worthy of a place in the kitchen cabinet. "How long will it take to scour a dozen knives?" is a question propounded. "Half that number of seconds," replies the artist.

Mr. Hanson also prepares a bottle of liquid, which, for cleaning silver, is quite unsurpassed. As he is a native of Portsmouth, everybody with a laudable desire to encourage native talent, will certainly be glad to receive a call from him and patronize his new knife scourer. aug2

AYER'S Cathartic Pills,

(SUGAR COATED.)

SEE WRAPPER.

CLEANSE THE BLOOD AND CURE THE SICK

Invalids, Fathers, Mothers, Physicians Philanthropists, read their Effects, and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach

PITTSBURG, PA., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once. If they will do for others as they do me, the fact is worth knowing.

Yours with great respect, ED. W. PREBLE,
Clerk of Steamer Clarion.

Bilious Disorders and Liver Complaints

DEPARTMENT OF THE INTERIOR,
WASHINGTON, D. C., 7 Feb., 1858.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their tendency to act on the liver is quick and decided, consequently they are an admirable remedy in bilious affections of the organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them.

Fraternally yours, A. LOVEJOY, M. D.,
Physician of the Marine Hospital.

Dysentery, Relax, and Worms.

POST OFFICE, HARTLAND, LIV. CO., MICH., Nov. 16, 1855.

DR. AYER: Your Pills are the perfection of medicine. They have done my wife more good than I can tell you. She had been sick and pining away for months. Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her of dysentery, and of worms (dead) from her body. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had it bad, and my wife cured him with two doses of your Pills, while others around us paid from five to twenty dollars doctors' bills, and lost much time, without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be prized here.

GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those to whom I can refer in visiting the sick. To regulate the organs of digestion and purify the blood they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WARSAW, WYOMING CO., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent cathartic, to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Prominent Physician of New Orleans, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been greatly afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her. ASA BROADFOOD.

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawley, of the Methodist Episc. Church.

PULASKI HOUSE, SAVANNAH, GA., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my joints, which produced an excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until, by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them I am now entirely well.

SAMUEL CRAWFORD, Esqr., Baxter Town, La., 5 Dec., 1855.

DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that had afflicted me for years. VINCENT SLIDELL.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a **Dinner Pill**, they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, and even **Deafness**, and **Partial Blindness**, have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skilful hands, is so dangerous to a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, IN CAPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of the severe complaints have made it already known. Nay, few are the families in any civilized country on this continent without some personal experience of its healing power, or of the consumptives any where which have not among them some living trophy of its victory over the subtle and dangerous diseases of the throat and lungs. This is the most powerful antidote yet known to man for the formidable and dangerous diseases of the pulmonary organs. It is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared. We have abundant grounds to believe the Cherry Pectoral has saved many lives from consumptions it prevents than those it cures. Keep it by you, and cure your colds while they are curable, for we feel them until no human skill can master the determinate market that, fastened on the vitals, ends your life away. All know the dreadful fatality of lung disorders, and as they know too the virtues of this remedy, we need only more than to assure them it can and will make the best it can be. We spare no cost, no care, no toil to produce it the most perfect possible, and thus afford those who rely on it the best agent which our art can furnish for their relief.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FRENCH & Co are the managers, are chartered by the state of Maryland, and a committee appointed by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combination. Prices vary in amount from $20 to $100'000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it has taken place. The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Baltimore Clipper, Sun, the National Intelligencer and Union, of Washington, D.C.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, that parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that Georgians have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every day during the month of the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $20,000; every one being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Mercury*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. Write your address plainly, and direct to S. SWAN & Co., Atlanta, Georgia

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

No. 76 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages not enjoyed elsewhere, in ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS is THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, with his extensive library of legal and mechanical works, and full accounts of patents granted in the United States from the year 1790 to the present time, give him a decided advantage in this important question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, Mr. R. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 17, 1855.—During the time I have held this Office, the business of Messrs. R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

City Hotel, Portsmouth, N. H.

BY WM. S. HADLEY.

THE SUBSCRIBER has the pleasure of announcing to his old patronage, and the travelling public generally, that he has leased this well-known, and commodious and pleasant House, and would invite the friends of others to make "themselves at home" on the premises—promising to spare no reasonable effort which may conduce to the comfort and satisfaction of visitors.

While acknowledging the liberal patronage with which we have been so long favored, in our old quarters; we would solicit a continuance, now that our accommodations are so much increased and improved. WM. S. HADLEY.

Lawrence's Carminative,
—OR—
CHILD'S PAIN-KILLER.
THIS invaluable preparation is a favorite scientific prescription of one of the most eminent of the Medical Faculty in New England, and one who has been successful as any other in the treating of
DISEASES OF CHILDREN,
and has been used with never-failing success.
The Carminative is emphatically
A CHILD'S MEDICINE,
and is the *only* Child's Medicine in this country; intended to do away with the excessive and injurious use of *Paregoric*, a remedy sure to be followed by a "dose of physic."
The ingredients of which the *Carminative* is compounded, are known to the Medical Faculty, and it is now extensively used, and approbated by the physicians living in the vicinity of the Laboratory, where opportunity has been had to test its virtues.
The *Carminative* is offered in full confidence for the rapid cure of
Colic, Pain in the Bowels, Wind in the Stomach and Bowels, Green Stools, Diarrhœa, Nervous Affections, Sore Mouth, Restlessness,
and other disorders incident to Weaning and Teething; sure to regulate derangements of the Stomach and Bowels, which often afflict young children; correct debilitated and sour Stomachs, relieve pain and give tone, energy and strength to the whole system.
Due regard has been taken to have the price of the Carminative so low as to be within the reach of all. Price *only* 25 *cents.*
Parents who value rest should not fail to buy a bottle, as they may depend upon its giving relief to "worrisome children."
Sold by country traders and all Apothecaries throughout the United States and Canada.

Coggswell's Medical Salt,
A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.
INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—has but ONE AIM—accomplishes but ONE THING, to wit: SUBDUES INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. Every *form of inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. Is it asked, *how* it does this?—simply by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely what adheres to the point of a quill dipped into a solution of it, to affect the entire system.
☞ *Of its intrinsic value, the enlightened community, and not the discoverer, must be the judge.*
PRIME COST, $1, 50 per drachm—PRICE $2 per drachm.

S. D. & H. W. Smith,
—MANUFACTURERS OF—
Melodeons, Organ Melodeons,
—and—
PEDAL BASS MELODEONS,
No. 511 Washington St., Boston.
The first premium over all competitors, at the Fair of the Mass. Charitable Mechanic Association, of the National Fair, Washington, D. C., also at the Ohio State Fair, held at Columbus, Ohio, was awarded to these Manufacturers.
By means of a new method of Voicing, known only to themselves, they have succeeded in removing the harsh and buzzing sound which formerly characterized the instrument, and rendering the tones full, clear and organ like. The action is prompt and reliable, enabling the performer to execute the most rapid music without blurring the tones. The swell is arranged to give great expression.
THE PEDAL BASS MELODEONS,
Are designed particularly for Churches, Lodges, Halls, &c. It is arranged with two manuals, or banks of Keys, the lower set running an octave higher than the other, and may be used separately, and thus get in one case two distinct instruments; or by use of the coupler, the two banks of keys may be played at the same time by use of the front set only. This connected with the Pedal Bass, will produce the effect of a large organ, and is sufficiently heavy to fill a house that seats from 1000 to 1500 persons.
THE ORGAN MELODEON
is designed for parlor and private use. The construction is similar to the Church Instrument, being arranged with two banks of Keys, and when used together, by means of the coupler, is capable of as great volume of power as the Church Instrument when used without the pedals. Also, every variety of MELODEONS for Parlor use.
Purchasers may rely upon instruments from our Manufactory, being made in the most complete and thorough manner. Having removed to the spacious Buildings
511 Washington Street,
We have every facility for manufacturing purposes, and employ none but the most experienced and skilful workmen. In short, we will promise our customers an instrument equal, if not superior, to any Manufacturer, and guarantee an *entire and perfect satisfaction.*
Music Teachers, Leaders of Choirs, and others interested in musical matters, are respectfully invited to visit our Rooms at any time and examine or test the instruments on exhibition for sale at their pleasure.
As a still further guarantee to the public as to the excellence of the MELODEONS from our Manufactory, we beg leave to refer, by permission, to the following
Piano Forte Manufacturers of Boston,
who have examined our Instruments, and will give their opinion when called upon:
Chickering & Sons, Hallett & Cumston,
T. Gilbert & Co., Wm. P. Emerson,
Brown & Allen, A. W. Ladd & Co.,
George Hewes, Woodward & Brown,
Newhall & Co.
MELODEONS RENTED.
Persons who wish to hire Melodeons with a view of purchasing at the end of the year, can have the rent credited as part payment of the purchase money. This matter is worthy of special note, as it enables those who desire a fair test of the instruments before purchasing, to obtain it at the expense of the manufacturers, to the extent at least of a year's rent.
Orders from any part of the country or world, sent direct to the manufactory in Boston, with cash, or satisfactory reference, will be promptly attended to, and as faithfully executed as if the parties were present, or employed an agent to select, and on as reasonable terms.

IMPORTANT DISCOVERY.
DR. CHEESEMAN'S PILLS FOR FEMALES,
Prepared by an old Physician of 40 years experience.
THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular: and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics. &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.
These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. CHEESEMAN, Box No. 4,531, Post Office, New York City, can have them sent to their respective addresses by return of mail.

TUESDAY, AUGUST 11, 1857.

AGRICULTURAL.—A friend writing from Monmouth, Me., says:—"I will venture to say that within ten miles square, there has been $20,000 worth of hay completely spoiled by bad weather. Grass that is standing, is very rusty, some not much better than straw. Corn is very backward, but looks well. There will be little or no wheat raised, as the weevils are destroying it badly, and potatoes have begun thus early to show signs of rot. Apples, there will be scarcely any in this section of the country.

There has recently been a considerable excitement among the natives here, of late, concerning pearl-fishing. Men have become rich in a day, or an hour, if reports are true. Numbers have been found in this neighborhood; I secured one that I value at $100, but it may not be worth a 'red.'"

CROPS IN MAINE.—A gentlemen who has travelled extensively in this State, the past few weeks, writes as follows:

"Notwithstanding the hay crop has been considerably injured by the wet weather, still the farmer will secure a very large crop, and if he has met with a loss by some of his hay getting wet, he will receive more than a full remuneration from the fact that the wet weather resuscitated his pastures, and will consequently add richness to his dairy. Apples are a failure; the weevil has nearly destroyed the wheat crop; potato tops give evidence of the commencement of the rot; but oats, rye, barley and corn promise well."

In this vicinity a great deal of the above would apply with truth. The enormous crop of hay could not all be secured in the few days of fine weather, and so hundreds of tons were spoiled. Our corn is small as yet, and we hear of a few cases where the rot has touched the potatoes. The rain which damaged the hay, spoiled our cherries. The hard winter killed our peach trees, and the grape vines from here to Boston, came very near dying;—one which last year bore three bushels, will not yield three quarts the present season. The rainy weather made the strawberries go quicker, though they were large and rather acid, and the same cause probably prevents the immense crop of berries from attaining their usual quota of saccharine properties. A.

Nevertheless, there is a good supply of hay, excellent feed, and a fine prospect of most kinds of vegetables.

LYNCHING AT LEAVENWORTH—A GANG OF ROBBERS AND MURDERERS EXPOSED.—The Missouri Democrat gives an account of the hanging of the two men by the mob of Leavenworth, on Friday and Saturday. It appears that a man named Stephens came from Kansas City to Leavenworth on Friday and presented a check at the bank for $108 and received the money. He was seen to count the money by a man named Quarles, who kept a gambling house in Leavenworth. This man prevailed upon Stephens to go with him to a spring of water near the town, and here they were joined by several members of a gang of murderers.—Stephens was then murdered, robbed, and thrown into the river.

Quarles, on reaching the town, related the above story, adding also that he was robbed at the same time; but his manner of relating the affair, and several inconsistencies in his statement, aroused the suspicions of the citizens, who took him into custody. A large party then proceeded to the scene of the murder, where the victim was discovered. Two more of the gang were at once apprehended and taken into town. One of them, a young man named Payne or Baines, was hanged, together with Quarles, in spite of the attempts of Judge Lecompte to prevent it. Payne confessed the murder, and implicated another man named Knowlton or Knighton, in the crime. He also said they had previously murdered another man, and that Knowlton and Quarles belonged to an organized body of about twenty-five men, who lived and carried on the business of robbing and murdering in Leavenworth City, on the island opposite the city, and in the towns of Lawrence and Topeka.

Among the revealed conspirators was William Woods, the proprietor of the greater part of Leavenworth Island, and regarded by his acquaintances as an honest man and good citizen. A party proceeded at once to arrest him, and after making a thorough search of his house, found twenty-five hundred dollars in counterfeit money, a lot of counterfeiting plates, and other instruments, and a knife and pistol belonging to the murdered man, Stephens.

It is not unlikely that this report, being derived from passengers in the boats, is somewhat exaggerated and inaccurate. Of the fate of Woods and Knowlton, we have no account.

APPLEDORE HOUSE, ISLES OF SHOALS, August, 1857.

"A life on the ocean wave."

The above oft-quoted line sounds very pretty when sung by some angel in the snug back parlor, or whistled on the curb-stone by Sol's ebony-colored assistant; but to realize the beauties of this dreamy life, one must make up his mind, some fine morning during this sultry month of August, to leave the cares and perplexities of business, step on board the splendid yacht Sybil, cast off the bow-line, and away on the deep blue sea, for a few days at the ocean home of the Philosopher of Appledore.

There are, however, some slight drawbacks even for those who wish to enjoy the invigorating atmosphere of this "gem of the sea;" such as a peculiar feeling which usually comes over one unaccustomed to this kind of locomotion. As you leave the Pier and pass down the river, the Navy Yard on the left; the heights on the islands, thrown up during the war of 1812, on the right; the pretty towns of Newcastle and Kittery Point; attract the attention and interest one, so that he has no time to think of the perils of the great deep. You soon pass Fort Constitution (rather a dilapidated looking old trap) on one side, and Fort McClary on the other; Whale's Back heaves in sight—and you are sensible of a werry disagreeable feeling, not in any particular place, but sort of all-overish. You try to put on a bold face and keep up a stiff upper lip, but it is no go—the knowing ones begin to look sideways at a poor fellow, his countenance suddenly presents the appearance of a white-washed mummy, things in general look rather mixed up—and I was a goner for the rest of the trip. S. said we had a splendid sail—I think it quite likely; but he is a regular old shell back (though I believe never out of sight o' land.)

There have been but few changes since we were here last summer. Neptune's Hall remains *in statu quo*, as B. would say; Fish Gut Alley, at Star Island, still sends up to heaven its everlasting perfume; the sea forever beats on the cliffs of Star and White Islands, as the rickety-looking sheep skip from the presence of civilized life; at Appledore the fine sea breeze smells as fragrant as in days gone by; the silver moon casts the same long shadows on the sea;—the fisherman dips his nets by moonlight, reminding one of the disciples of old on the the sea of Galilee. In a clear night, the lights of a score of light-houses can be seen from the cupola of the Appledore, guiding the mariner on his midnight travels; while by day, the wings of the vessels within sight can scarce be counted.

Our Hon. host looks the same as before; he still sits on the same old chair, in the same corner of his piazza; and in his quiet, unostentatious way, warmly welcomes you to his sea-girt isle. Like Crusoe of boyhood days,

He is monarch of all he surveys,
As his rights there is none to dispute.

Those who know him best will always be pleased, at least once a year, to shake him by the hand, to hear his jovial laugh, and listen to his words of wisdom and kindess. May he live a thousand years, and *his shadow never be less.*

All those who resort to the Isles of Shoals for peace and quiet, will be perfectly satisfied with the solitude that reigns.—Not a step is heard; hardly a voice breaks the stillness of the too quiet hours; three times a day the jingle of the merry bell calls the weary ones, o'er land and sea, to the bountiful table of Appledore House.—And here you find the secret of the success of our Host, as a caterer for the inner man. No tough steaks and aged hens; but the fish of the sea, caught at the door, and served up in a style that would do honor to Parker or Delmonico. To be sure it *is* fish. But oh! such fish! I think I could live here two hundred years, with the same bill of fare as at to-day's dinner. Suffice it to say that after living here one week, a person makes nothing of two or three red coats at a sitting; besides one hundred kinds of fish cooked four hundred ways.

S. is beginning to expand quite extensively, and if he should stop through the season, I think in bulk he would fill a certain chair, vacated once a year, in Ward one, quite up to the turtle-soup mark—that is, allowing the Ides of March are favorable to S.'s kind of used-up party.

The number of visitors at the Shoals this season has been full up to the mark. Visitors come here to enjoy themselves as they think best, each in his own peculiar way—with no one to molest or make afraid.

I am about proceeding to catch some cunners. Yours, CAPUT.

☞ In a New York hotel last week, a gentleman from Savannah was plucked by gamblers of $576 and a gold watch worth $200, which belonged to his sister. He thinks his liquor was drugged.

NOTTINGHAM SQUARE, N. H., Aug 9th.

Messrs. Editors.—Situated nearly 500 feet above the level of the sea, the inhabitants of this place enjoy an air which would soon put vigor into the lungs of a consumptive person. The day is fine, and as I sit in the belfry of the old church, scanning the varied scenery, my heart instinctively rises up in praise of the maker of all. I feel as I suppose the birds must, when on a fine morning their gratitude wells up in a melodious tribute of song.—The church, in which no meetings are now held, was raised July 4th, 1804, and is a fair specimen of the old style. Rev. Benj. Butler was settled here in 1758, and dismissed in 1770, since which time the church has been vacant. The bell is a fine-toned one presented by Bradbury Cilley, and bears the inscription "Peace and Good Neighborhood."

In order to effect an entrance it was necessary to obtain the key. To the request for that instrument the keeper replied, "Sha'n't let ye have it.." "Why not?" "Cos I sha'n't." Things began to assume rather a dubious aspect, when the old man explained that in consequence of the destruction of inside work by visitors, he could trust the key with no one, but would willingly go and unlock the door.—He told us the Selectmen had ordered him to spike a plank over the door; but as they made no provision for his egress in case he should do so, he ventured to disobey the mandate.

Looking westward, close at hand is Pawtuckaway Mountain with its triple-hump, below it the pond and river of the same name almost buried in the forest, while far over them a succession of hills may be seen, fading into mist in the distance. Northward the villages of Deerfield and Northwood lie full in sight, but it requires a clear day and a sharp eye to discern the White Mountains which stand in the background. Easterly, Squanamagonick in Rochester, and Agamenticus in York, are conspicuous landmarks, while on the south Great Bay is seen, and when clear Portsmouth may be seen through a glass.

The Square is a flat spot, 100 rods by 50, at the top of a very high hill, on which there are quite a number of houses and other buildings. The N. H. Turnpike formerly passed through N.; but railroads have diverted much of the travel.—The names of Cilley, Bartlett, and Butler, are still perpetuated by descendants of those revolutionary worthies. On the square is a flag-staff surmounted by a tin reflector, the whole erected in honor of Franklin Pierce. But though the reflector when new flashed forth its brilliant rays, its lustre dimmed as his administration drew toward its close, and it ceased to shine as he left the high office he had occupied.

Bog iron ore is found here in great quantities; and it is said there are inexhaustible quantities of ore in the mountains.—Crystals and Crystalline spars are found here; and ochres in small quantities. The mountains were formerly the haunts of beasts of prey; the fox and wild cat only remain. Rattlesnakes are still to be found there. Fishing is said to be good in Pawtuckaway river.

Rather a singular incident occurred here night before last: the return of an old pensioner, whose death was reported thirty-six years ago. Joseph French enlisted under Col. Joseph Cilley in 1813, was wounded in the hand and thigh at Williamsburgh, and on his return drew a pension for four years. He then disappeared, and the report of his death came to his friends. On Friday night he returned, having been in Westmoreland, Penn., while in the meantime his pension money has accumulated to near $5000, although a pension has been paid to his *widow*, (?) notwithstanding he never was married, and an investigation will be made into the fraud. CYPHAX.

BROOKLYN, N. Y.—The Deputy Superintendent of Police has submitted his report for the quarter ending on the 30th ult.;—and from it we learn that the following arrests were made during the quarter:

Arrests for disorderly conduct	163
" " drunkenness and disorderly conduct,	236
" " gross intoxication,	2
" " habitual intoxication	20
" " intoxication,	587
Total	1004

Of the offences not included in the above table, at least two-thirds were committed in consequence of rum—so that the grand total of rum arrests for the quarter may be stated at 1316.

At Coxzens' Hotel, West Point, the child of a boarder fell into a pool twelve feet deep. Several were called for help, but Mary Mulligan, a waitress, ran up, plunged in and rescued it. The boarders and guests in consequence, presented her with $300.

GOV. WALKER OF KANSAS.—The Dover Gazette of August 3, says:—"not only the Executive, but the Democracy of the whole country placed the most implicit confidence in Gov. Walker.—The Democracy of the whole country stand ready to defend him to-day. * * * When the people understand the correct motives of Gov. Walker and the administration, we have no fears of the result."

☞ Hon. Wm. H. Seward chartered a vessel at Quebec last week, manned and provisioned it for a voyage, and with his son and daughter-in-law, set sail for a trip down the gulf.

HEALTHFUL.—The Manchester Mirror says:—Not a death has occurred in this city the last week. This is the most healthy summer we have ever known in Manchester."

☞ The French government has given the widow of Charles Morey, the American, improperly shot by a guard in a Paris prison, $15,000, as indemnity.

A GOOD TIME COMING, when flour, potatoes and sugar will be cheap, and that is the tendency of things now, and with the abundant crops and small demand, will continue to be. No speculations in breadstuffs can cover the crops of this year, which are as good in Europe as here; and those holding sugar and molasses for better prices are in poor way to make money.

The most remarkable case on record is that of the Yankee soap man, who, in a violent storm at sea, saved himself from death by taking a cake of his own soap and *washing himself ashore.*

Rev. R. S. Hitchcock, of the Fifth Presbyterian Church in Baltimore, has been broken from his pastoral relations upon the charge of drunkenness.—*Boston Visitor.*

NEW MEDICAL SALT; *A perfect substitute for the Lancet, Leeches and Blisters!*—Another:—"One of our physicians turns up his nose at it, in the face of a Neuralgic cure in my own family, which he witnessed. He says, *faith* wrought the cure. I told him, faith or no faith, the Salt has done what he could *not* do."

HAIR RESTORATIVE.—We are pleased to record the satisfaction of our patrons, after trial of an article advertised in our columns. We have the satisfaction to know several of our readers who have used Prof. Wood's Hair Restorative, and pronounced it to be just what the advertisement says it is. We have several personal acquaintances, too, who were gray headed, they have tried it, and now their hair is restored to its original color, and they willingly add their testimony to its efficacy, and will give further information to others desiring it. This speaks well for the article, and we advise all who do not wish to appear gray-headed, to use Wood's Hair Restorative.—[Western Patriot.

THERE ARE HUNDREDS OF REMEDIES Sold at every Drug Store, purporting to cure all diseases nameable, each advertised as the very best ever known, till we had lost all faith in them all, but there is one exception.

We speak of Dr. Sanford's Invigorator, which came to us recommended as a cure for Liver Complaints, and all diseases arising from a Diseased Liver. The testimonials of so many of our Physicians in its favor, induced us to try it, and now conviction is certain that it is one of the greatest blessings ever given to Dyspeptics, for it made a complete cure before the first bottle was taken, and now we can eat anything eatable without trouble, while before, nothing but the lightest food would digest, and often would digest, and often that gave pain. Now what we want to say to all our readers is, if Liver Complaint or Dyspepsia trouble you, do not fail to try this, the greatest remedy in the world.

And sold by Druggists throughout the United States and British Provinces.

SOUTH SIDE LIFE.—Elisha Keene, a man of some note in Pittsylvania County, Va., was shot by a free negro, named Tom Long, whose wife and children were slaves. He had sent them off to the North, and it is supposed that his assault on Mr. Keene was committed in order that their escape might be made more sure. Long went to Keene's house and awoke him, asking relief for a sick child. Keene arose and started for the cabin with some medicine, when he was accosted by Long and immediately fired on, mutilating his left hand and fixing several shot in his breast. Fortunately, however, none of the shot penetrated the body far enough to be dangerous. Long and his family succeeded in evading pursuit.

If Stewart, the pro-slavery Democratic candidate for Governor in Missouri, is chosen—as he probably is, in spite of the supremacy of Rollins in the present returns—he has succeeded by only a small majority; for which, not unlikely, he is indebted to divisions among his opponents in St. Louis. The majority against him there should have been 4000 to 5000, instead of 2000, as it is. At least 2000 emancipationists there did not vote, because Rollins was not sufficiently "straight-out" to satisfy them. In the interior counties Mr. Rollins runs better than was expected, apparently, by either friend or foe.—*Trav.*

LOCAL.

THE FIREMEN'S TURN-OUT.—Tiger Engine Company No. 1, of New Market, is expected to visit Portsmouth and the Navy Yard to-day. They will come in the Newmarket Packet, and land near Noble's Island,—probably at the wharf of Messrs. Jones & Chesley, about — o'clock. They are not expected to bring their tub, as it is the best in the place, and it may not be deemed prudent to spare it; but they will be accompanied by the Newmarket Band, which bears an excellent reputation wherever it has been heard.

The Tigers are to be the guests of Laconia Engine, No. 2, for whom the Portsmouth Cornet Band will furnish music.

His Honor the Mayor, will receive the visitors, when they land; and the two Companies will march through Market, Deer, Bridge and Middle streets, to the Engine House of Atlantic Engine Company, No. 6, on State street—the Sixes having politely tendered them a Collation.

Thence they will march to the Navy Yard,—and on their return, will dine, with other invited guests, at the City Hotel. If the weather is favorable, we have no doubt the turnout will be a creditable one, and afford considerable pleasure to our citizens generally; and we wish all concerned, a merry day.

YOUNG AMERICA IN THE FIELD.—A Republican Convention of Young Americans is to be held at Newmarket Junction, on Wednesday, August 12th. The "Fremont Light Guards" in this city, a boys' company from Kittery, and also one from Dover, have accepted an invitation to be present on the occasion. Tickets 20 cents, to be had at J. H. Bailey's, and at Jas. F. Shores' Bookstore.

LEAKAGE.—Those who crossed Market Square early Monday morning had to step carefully for fear of mudding their feet, some mischeivous person having let the water on in the reservoir and then left it to overflow.

THE LATE DENTAL CONVENTION.—Among the active members of the late Dental Convention, in this City, we saw none whose energy and ability impressed us more favorably than that of a New Hampshire practitioner, Dr. Frank Fuller, of Portsmouth. One of the most ready debaters and eloquent speakers, his remarks were listened to with close attention, and elicited the warmest commendations from leading members in attendance. His masterly manner of using up the fabsurd and exploded theory of an "alkaline" cotemporary, was the subject of general and hearty congratulation. Dr. Fuller is a gentleman of fine abilities, and makes an excellent impression wherever he appears. *Boston Bee.*

ST. LOUIS, August 8.—Advices from Kansas state that Governor Walker evacuated Lawrence on the 3d inst., with all but forty of the troops. The ostensible cause of this is the Indian attack on Fort Riley, which is regarded here as a ruse to get the troops away. The vote in Lawrence on the Topeka Constitution was six hundred and fifty-two in favor of it, to two hundred against it. The Free State ticket for minor officers has been elected.

Col. W. Williams of New Orleans commenced on the 20th ult., to eat one thousand eggs in one thousand hours, on a wager of one thousand dollars between himself and G. W. Hutchinson. The Colonel is confident of success, and has prepared his internal capacity by a rigorous training. Forty-one days and sixteen hours will be required to complete the operation.

We have a not-very-large dog that can beat the Col. all hollow at egg eating.—We will bet on his devouring the thousand eggs in half the time named, and not think he has done anything worth bragging of either.—*Portland Argus.*

DISTINGUISHED CONVICTS.—The Liverpool Times of July 24, says:

Notice has been given at Lloyd's that Her Majesty's government required a ship immediately to carry 400 male convicts from England to Fremantle, Western Australia. Perhaps a more remarkable set of convicts never left the country at one time than will go out in this ship. Among the 400 will be found Sir John Dean Paul, Strahan & Bates, the fraudulent bankers, Robson, the Crystal Palace forger, Redpath, who committed the forgeries on the Great Northern Railway Company, and Agar, who committed the great gold robbery on the South Eastern Railway. The notorious bank forger, Barrister Saward, alias Jem the Penman, the putter up of all the great robberies in the metropolis for the last twenty years; also goes out in this ship, which will leave England on the 25th proximo, embarking the convicts at Deptford, the little Nore, Portsmouth, Portland and Plymouth, England.

POTATOES—BRING 'EM ALONG. Last week we acknowledged the receipt of a nice lot of potatoes from a good democratic friend. The other day another friend of ours, began to boast of potatoes a fortnight earlier, and thought we were very green to be taking of early potatoes then. If he had sent us a bushel, we might have believed him. "Seeing is believing."—*Nashua Telegraph.*

LATER FROM EUROPE.

FOUR DAYS LATER BY THE INDIAN.

QUEBEC, August 9.

The screw steamship Indian, Capt. Jones, from Liverpool Wednesday, 29th ult., arrived at this port to-day. Her news is four days later than that by the Persia.

General News.—Baron Rothschild was returned to Parliament from London without opposition.

A spicy debate ocurred in the House of Commons, originating in an address to the Queen, promising every support to the government in the Indian difficulty.

J. E. P. Gastman, a Greek merchant in London, had suspended payment; liabilities over a quarter million pounds.

The yacht Charter Oak had arrived at Liverpool, from New York, with only two men on board.

Ledru Rollin and others, indignantly denounce the charge in the Moniteur that they were engaged in the recent conspiracy.

India.—Dates from Calcutta are 21st June, Madras 28th, and from Bombay July 1.

The mutiny was spreading among the troops of the Bengal Army.

The ex-King of Oude has been arrested and imprisoned, together with his Minister. Proofs of their complicity in the revolt have been obtained.

China.—Hong Kong dates are of June 10th. In two engagments the Chinese had fought with unexampled obstinacy.—The British had 83 killed and wounded.—The Chinese fleet was entirely destroyed.—Major Kearney was among the killed. All was quiet in the North of Chiua. The price of tea had advanced at Loo Choo and Shanghai.

The London Times remarks that as Canton is now in the power of Britain, there seems no substantial reason why this should not obtain for England all the objects of the expedition without further bloodshed or military operations.

LIVERPOOL, July 29.—*Cotton.*—Newspaper reports state the market steady and unchanged, but Richardson, Spence & Co. quote an advance of 1-16d. Sales for the three days 26,000 bales, 2500 to speculators, and 2500 to exporters.

Breadstuffs.—Wheat quiet, with a declining tendency. Flour in better demand at former rates. Corn is quiet, white has advanced 1s. Richardson, Spence & Co. quote as follows:—Flour—Western Canal 30a30s 6d, Philadelphia and Baltimore 31s, Ohio 32s; Wheat—red 8s 3d a 9s, white 9s 3d a 9s 9d; Corn—mixed and yellow 38s 6d a 39s, white 43s a 45s.

PETERSBURG, Va., Aug. 9.—But few returns have been received from North Carolina. The first and sixth districts are closely contested. In the first it is thought that Smith (American) is elected over Shaw (Democrat.) In the sixth Scales (Democrat) is probably elected over Pruryean (American.)

WASHINGTON, Aug. 9.—The President returns on Tuesday. He expresses disapprobation of Walker's isothermal speech, but says he must be supported. There will be six or eight anti-Walker Senators, but the President declares that the people of Kansas shall vote on the Constitution, whatever may be the consequences.

DUBUQUE, Ia., Aug. 8.—Returns from 26 counties foot up 6665 for the new Constitution, and 3398 against it. The counties to hear from will probably increase the majority for the Constitution.

For incest, one Joshua Goodrich, living in the town of Newbury, was arrested on Saturday night by Deputy Sheriff Smith, assisted by Marshal Westcott. It is thought there will be no trouble in proving not only the connection with his own daughter, a girl of sixteen years, from which she was with child, but the double crime of rape and incest. The brute deserves the halter —*Newburyport Herald.*

AMERICAN HOUSE,

BOSTON.

Conducted on the European Plan.

LEWIS RICE, Proprietor, respectfully announces that in compliance with the very general preference expressed for the European system of hotel management, that the American House will hereafter be conducted solely on that plan. Well furnished parlor and sleeping apartments will be let by the day, or for longer periods. Meals served at the gentlemen's hall at all hours of the day and evening. The ladies' dining hall will be opened in like manner for ladies, and gentlemen accompanied by ladies. The accommodations and conveniences of the house are unsurpassed, and the recent improvements and alterations leave nothing to be desired. Suburban residents will find the arrangement specially convenient. Large or small parties provided with dinners, suppers, &c., at short notice.

Knife Cleaning, Native Talent.

MR. JOHN HANSON enters the kitchen to show us his apparatus for scouring knives. Our knives pass under the skillful manipulations and come forth all that the most fastidious housekeeper could desire.

But our knives were not black enough to satisfy him or suitably to show his art. "Have you a knife as dirty as sixty?" asks Mr. Hanson.—Having none that approximated to that scale of dirt, we were content to see our own ordinarily clean knives receiving a beautiful polish, which quite satisfied us that Mr. Hanson's machine was a machine worthy of a place in the kitchen cabinet. "How long ought it take to scour a dozen knives?" is a question propounded. "Half that number of seconds," replies the artist.

Mr. Hanson also prepares a bottle of liquid, which, for cleaning silver, is quite unsurpassed. As he is a native of Portsmouth, everybody with a laudable desire to encourage native talent, will certainly be glad to receive a call from him and patronize his new knife scourer. aug2

PAYER'S Cathartic Pills,

(SUGAR COATED,)

ARE MADE TO

CLEANSE THE BLOOD AND CURE THE SICK

Invalids, Fathers, Mothers, Physicians Philanthropists, read their Effects, and judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach

PITTSBURG, PA., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to act on the stomach, which they cleanse at once. If they will do others as they do me, the fact is worth knowing.

Yours with great respect, ED. W. PREBLE, *Clerk of Steamer Clarion.*

Bilious Disorders and Liver Complaints

DEPARTMENT OF THE INTERIOR, WASHINGTON, D. C., 7 Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable premedical preparation for the organ. Indeed, I have seldom found a case of bilious disease so obstinate that it did not readily yield to them.

Fraternally yours, ALONZO ELLIS, M. D., *Physician of the Marine Hospital.*

Dysentery, Relax, and Worms.

POST OFFICE, HARTLAND, LIV. CO., MICH., Nov. 16, 1855

DR. AYER: Your Pills are the perfection of medicine They have done my wife more good than I can tell you She had been sick and bedridden nearly for months. Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her by expelling large quantities of worms (dead) from the body. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had it bad, and my wife cured him with two boxes of your Pills, while others around us paid from five to twenty dollars doctors bills, and lost much time, without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be prized here.

GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I visit, for the last three years. To regulate the organs of digestion and purify the blood they are the very best remedy I have ever known, and I can confidently recommend them to my friends. J. V. HIMES.

WARSAW, WYOMING CO., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the best cathartic with all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her. ASA MORGRIDGE

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawkes, of the Methodist Episc. Church.

PLANTER HOUSE, FAYETTEVILLE, GA., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until, by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them I am now entirely well.

RENATE CHAMBER, BAINS ROUGE, LA., 5 Dec., 1855.

DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that had afflicted me for years. VINCENT SLIDELL.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as **a Dinner Pill**, they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, and even **Deafness**, and **Partial Blindness**, have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skillful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, IN CIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it already known. Nay, few are the families in any civilized country on this continent without some personal experience of its effects; and fewer yet the communities any where which have not among them some living trophy of its victory over the subtle and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared. We have abundant grounds to believe the CHERRY PECTORAL saves more lives by the contagious diseases it prevents in those it cures. Your life may, and cure your child while they are curable, nor neglect them until no human skill can master the inexorable canker that, fastened upon the vitals, will sever life away. All know the dreadful fatality of lung disorders, and as they know too the virtues of this remedy, we need not do more than to assure them it is still made on the best of its power no cost, no care, no toil to produce it the most perfect possible, and thus afford those who rely on it the best agent which our skill can furnish for their cure.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FRANCIS & Co are the managers, are chartered by the state of Maryland, and a commissioner appointed by the people, who is present to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Tenary combinations. Prizes vary in amount from $50 to $100 000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ Tickets in the schemes of Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, Gazette, Republican, and National Intelligencer and Union, of Washington, D.C.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for honest, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $60 to $20,000; every prize being cash, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount of prize each ticket is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. Write your address plainly, and direct to S. SWAN & Co., Atlanta, Georgia

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

No. 76 State st, oppo. Kilby st, Boston,

ATTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice tendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington free of charge.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that what is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would say that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents, which, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond competition, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, is, in the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office, and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in recommending inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in the form to secure them a legal and favorable consideration at the Patent Office.

EDMUND BURKE,

Late Commissioner of Patents."

From the present Commissioner of Patents.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the laws, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,

Commissioner of Patents.

MARRIAGE GUIDE,

BY DR. WM. YOUNG.

YOUNG'S GREAT PHYSIOLOGICAL WORK, THE GREAT MEDICAL BOOK, Every Body *His Own Doctor*, by WM. YOUNG, M. D. It is written in plain language for the general reader, and is illustrated with upwards of one hundred Engravings. All young married people, or those contemplating marriage, and having the least impediment to married life, should read this book. It disclosures secrets that every one should be acquainted with. Still it is a book that must be kept locked up, and not lie about the house. It will be sent to any one on the receipt of twenty five cents. Address Dr WM. YOUNG, No. 1½ SPRUCE street, above Fourth, Philadelphia.

THE EMANCIPATION CONVENTION.—The call for the National Convention, in behalf of the contemplated emancipation of slaves at the South, is now out, and is as follows:

"The undersigned, belonging to different political parties, being persuaded that it is very desirable that some practical and equitable plan should be brought forward, by which the people of the North may co-operate, in a generous and brotherly spirit, with the people of the South, and share with them the expense necessary to the extinction of slavery, would respectfully and earnestly invite those of all parties and sections of the Union, who entertain the same opinion, to meet in National Convention, personally or by delegation, in the city of Cleveland, Ohio, on the 25th, 26th, and 27th of August next, there to discuss and develope some plan of emancipation which shall fully recognize the principle and policy of a fair and honorable compensation to the slaveholders for the manumission of their slaves."

This movement is the result of the recent labors of Elihu Burritt, and he has procured the signatures of 285 different persons, citizens of sixteen different States, to the call. Among these Rev. Mark Hopkins of Williams College, the venerable Rev. Timothy M. Cooley of Granville, and E. Little of Massachusetts; Governor Fairbanks of Vermont; Governors Ellsworth, Cleveland, and Minor, and Rev. Drs. Hawes and Bacon of Connecticut; Rev. Drs. Nott and Bethune, Rev. Dudley A. Tyng, Gerrit Smith, etc., radicals and conservatives, clergymen, politicians, statesmen, business men, in gratifying union.

We do not suppose any immediate practical results can come from this movement. But we welcome it as one among many developments of the growing anti-slavery convictions of the country. The North can do nothing practically for emancipation until slaveholders are ready to move first at home. Whenever any Southern State indicates its readiness to extinguish slavery within its borders, and desires pecuniary aid to compensate its slaveholders for what they relinquish, it will find the people of the North ready to meet it with any reasonable sacrifice. The anti-slavery feeling of the free States is not an emotion or a sentiment, but a deep moral, business, and political conviction. It knows that the country would be better off, in every material sense, without slavery, than with it; and it is ready when the South is ready, to go practically into the question of abolition as a business operation.

A proposition to give to Missouri all the public lands within her borders, whenever she desires them to aid in the work of emancipation, will doubtless be introduced into the next Congress by one of her own representatives. There can be no reasonable opposition except that which is founded upon the conviction that slavery is *per se* a blessing, and that a State should not be encouraged in its own efforts to throw it off, but that it should be forced upon a community, as the national government for the last two years has been doing in Kansas.—*Traveller.*

HOW WESLEY REGARDED REVENUE FROM SPIRITS.—In a letter to the Hon. William Pitt, in September, 1784, re-published in the Wesleyan Magazine for February, 1850, John Wesley thus treats the revenue question:—"Servants of distillers inform me that their masters do not pay for a fortieth part of what they distill.* And this duty last year (if I am rightly informed) amounted to only £20,000; but have not the spirits distilled this year cost 20,000 lives of His Majesty's liege subjects? Is not then the blood of these men vilely bartered for £20,000? not to say anything of the enormous wickedness which has been occasioned thereby; and not to suppose that these poor wretches have any souls. But (to consider money alone) is the King a gainer or an immense loser? To say nothing of many millions of quarters of corn destroyed, which, if exported, would have added more than £20,000 to the revenue,—be it considered, 'Dead men pay no taxes.' So that by the death of 20,000 persons yearly, (and this computation is far under the mark,) the revenue loses far more than it gains. But I may urge another consideration to you. You are a man. You have not lost human feelings. You do not love to drink human blood. You are a son of Lord Chatham. Nay, if I mistake not, you are a Christian. Dare you then sustain a sinking nation? Is the God whom you serve, able to deliver you from ten thousand enemies? I believe he is. Nay, and you believe it. Oh may you fear nothing but displeasing Him!"

*Uncle Toby remarked as he read this, that those were very *responsible* men, who paid one fortieth part of their taxes, and swore to a false return of their business.

When Lord Byron rose into fame, Curran constantly objected to his talking of himself, as the great draw back on his poetry. "Any subject," said he, "but that eternal one self; I am weary of knowing once a month the state of any man's hopes or fears, rights or wrongs. I should as soon read a register of the weather, the barometer up so many inches to-day, and down so many inches to-morrow. I feel skepticism all over me at the sight of agonies on paper, things that come as regular and as notorious as the full of the moon. The truth is, his lordship *weeps for the press, and wipes his eyes with the public.*"

SCHOOL MEDALS.—There are hundreds of thoughtful persons who will agree with the writer of the following article, and thank him therefor.

We were present at the School Festival in Faneuil Hall on Tuesday last. We will whisper a confession into the ear of the public, that we have doubts and misgivings—growing with our growth and strengthening with our strength—as to the whole system of medals, Franklin and City; and as to the wisdom of selecting a few boys and girls out of a school for these conspicuous decorations, and leaving the rest unnoticed.

We doubt whether the intellectual advantages, especially in the case of girls, are not counterbalanced by injurious moral influences; and even in an intellectual point of view, we question whether the effect be not to stimulate the quick and bright, who need it not, and to depress the slow and timid, who need encouragement. But for a Boston editor, or a Boston man to hint any doubts upon the subject of the Franklin medals, is like speaking disrespectfully of the equator, or suggesting an inquiry whether the sun and moon are not beginning to break up a little, and to show a failure in their faculties; and we therefore say what we have said timidly and deprecatingly.—*Boston Courier, 24th.*

PURE AIR.—Whatever renders the blood impure, tends to originate consumption. Whatever makes the air impure,—makes blood impurer. It is the air we breathe which purifies the blood. And as, if the water we use to wash our clothing is dirty, it is impossible to wash the clothing clean, so if the air we breathe is impure, it is impossible for it to abstract the impurities from the blood.

What then are some of the more prominent things which render the air impure? It is the nature of still water to become impure. It is the nature of still air to become impure. Running water purifies itself. Air in motion, drafts of air, are self-purifiers. Thus it is that the air of a close room becomes impure inevitably. Thus it is that close rooms bring consumption to countless thousands. Hence all rooms should be so constructed as to have a constant draft of air passing through them. The neglect of it murders myriads. A man of ordinary size renders a hogshead of air unfit for breathing, consumes its blood-purifying qualities every hour, so perfectly, that if a man could re-breathe a full breath of his own the next instant after its expiration, without any intermixture with the outer air, he would be instantly suffocated. Hence, sleeping in close rooms, even though alone, or sitting for a very short time in a crowded vehicle, or among a large assembly, is perfectly corrupting to the blood. Close bed-rooms make the graves of multitudes.—*Hall's Book of Consumption.*

Lawrence's Carminative,
—OR—
CHILD'S PAIN-KILLER.
THIS invaluable preparation is a favorite scientific prescription of one of the most eminent of the Medical Faculty in New England, and one who has been successful as any other in the treating of
DISEASES OF CHILDREN,
and has been used with never-failing success.
The Carminative is emphatically
A CHILD'S MEDICINE,
and is the *only* Child's Medicine in this country; intended to do away with the excessive and injurious use of *Paregoric*, a remedy sure to be followed by a "dose of physic."
The ingredients of which the *Carminative* is compounded, are known to the Medical Faculty, and it is now extensively used, and approbated by the physicians living in the vicinity of the Laboratory, where opportunity has been had to test its virtues.
The *Carminative* is offered in full confidence for the rapid cure of
Colic, Pain in the Bowels, Wind in the Stomach and Bowels, Green Stools, Diarrhœa, Nervous Affections, Sore Mouth, Restlessness,
and other disorders incident to Weaning and Teething; and to regulate derangements of the Stomach and Bowels, which often afflict young children; correct debilitated and sour Stomachs, relieve pain and give tone, energy and strength to the whole system.
Due regard has been taken to have the price of the Carminative so low as to be within the reach of all. PRICE *only 25 cents.*
Parents who value rest should not fail to buy a bottle, as they may depend upon its giving relief to "worrisome children!"
Sold by country traders and all Apothecaries throughout the United States and Canada.

Coggswell's Medical Salt,
A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.
INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—has but ONE AIM—accomplishes but ONE THING, to wit: SUBDUES INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. Every *form of inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. Is it asked, *how* it does this?—simply by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely what adheres to the point of a quill dipped into a solution of it, to affect the entire system.
☞ *Of its intrinsic value, the enlightened community, and not the discoverer, must be the judge.*

IMPORTANT DISCOVERY.
DR. CHEESEMAN'S PILLS FOR FEMALES.
Prepared by an old Physician of 40 years experience
THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.
These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. CHEESEMAN, Box No. 4,531, Post Office, New York City, can have them sent to their respective addresses by return of mail.

HAVE WE MADE ANY PROGRESS?

NO. VI.

In No. 5, we spoke at some length on the great progress of temperance among ministers, amounting to a change of usage almost entire; and promised to speak of trainings in another chapter. Before doing so, we will say another word about ministers, in connection with moral suasion. We introduce this work, by an extract from the New Hampshire Patriot of February, 1856:

By moral suasion the whole host of noble lecturers who formerly travelled throughout the country, were reclaimed from a life of drunkenness; and they, in return, and by the same means, reclaimed hundreds of thousands. The time was, and it is within the memory of the older inhabitants, when a minister visiting among his people, would consider himself slighted and insulted, were he not invited to take a social glass. Now if such a thing was done, it would excite as much wonder as if an angel from Heaven had made his appearance.

This is almost literally true; it confirms quite a number of our previous statements, and induces us to add one or two more.

The first is, that the heads of ministers generally, are much clearer now, than they were when muddled with wine and gin-toddy; that their hands are stronger and their hearts bolder. Having had moral courage enough to forsake or avoid in their own persons, one form of sin or folly, they are the bolder and the better qualified to rebuke that sin and others, in their fellow sinners.

The second is, that the "host of noble lecturers—who were reclaimed from drunkenness," with perhaps a dozen eminent exceptions, have been silent as lecturers for several years past; as some of them returned to their cups and made shipwreck of their character; and as many others, very many, though temperate and excellent citizens, have for a long time been satisfied, that they could not be sustained as lecturers, nor be very useful as such, after a certain period of excitement had passed.

A third is, that the same class of men, and in many instances the same individual men, who labored in the anti-rum movements of 1827—30,—and who aided and in many cases directed the Washingtonian efforts in 1840—1842,—are now the hardest laborers in the same cause, as it stands to-day.—And that, while some are more, and others less, sanguine, as to the benefits of prohibitory liquor laws,—we know of no one of them of any *eminence*, who now opposes such laws, or has the least desire to see a return to the system of license.

A fourth is, in strict accordance with the extract from the Patriot, that the ministers were reformed by *moral suasion*, as well as the hundreds of thousands of others. Very true; and so it must be still. And as the orators from the gutter are mostly gone; the work of salvation from intemperance, must be carried on, for the present, by the orators in the pulpit, where he should give his trumpet a certain sound. It can be done; it is done by many; it should be by all; it has served in the past, to keep alive some proper interest in the subject, when other and ephemeral means had died out or become stale. This means is *not ephemeral*. Its usefulness, in some periods of apathy, within our remembrance, has been beyond question. And some remarkable cases of reformations, within our own knowledge, have been the results of temperance sermons or appeals by parish ministers in this neighborhood. In this connexion, we may be allowed to repeat the statement that Hawkins himself was waked up to effort by a sermon by Elder Jacob Knapp.

Fifthly, as the temperance effort, in its *moral* phase is left in the hands of ministers, it is a glorious fact, that they are so generally clean from the impurity of tippling. So that when they speak on this subject, the hearer cannot say "Physician, heal thyself."

Now for Trainings. The transition from the church to the training field was not formerly considered abrupt or violent. The old North Church in Portsmouth used to stand on the *Parade*; so did Greenland meeting house; Deerfield and Barnstead meeting-houses, all were on the several parades; and the green on the South side, (then the front,) of the old meeting house in Newington, was surveyed and laid out by metes and bounds as a training field.

In some regiments, it was formerly the custom to form a hollow square, about the middle of the afternoon, with the Chaplain and Staff in the centre, when and where the Chaplain would offer prayer. The late William Ladd used to tell a story of one of the regiments, which got so stupidly and generally drunk, that it was deemed necessary "to omit the manœuvre and the ceremony."

We never saw *that* regiment. But we have seen the glorious *first*—afid I ave distributed grog to a part of it. And years before we were strong enough to lift a bucket of that delectable beverage, we have seen Portsmouth Plains not merely lined, but crowded with spectators and frolickers, who pressed upon the regimental lines in a body so solid, that from the high chaise where we looked upon the scene, it appeared one sea of heads, with a narrow military current through the centre.

In this sea, drunkenness and semi-drunkenness were the rule; sobriety was the exception; total abstinence had not been discovered or thought of. Refreshments were abundant, especially drinks. The staff officers dined at the Globe Tavern; the company officers with their several companies. In these company tents, a substantial dinner of beef and bread was furnished, and lots of grog as part of the ration. Liberal captains or liberal companies often added lemons and sugar, converting the grog into punch. Of these drinks, all partook; not only soldiers, but hundreds of boys who had friends in the ranks. Besides those rations, strong drinks of every variety then known, were sold on the field, and in adjoining fields and houses, in at least forty places, so that whosoever would, might get drunk, either with money or without; and as treating was the order of the day, the drunken ones were neither few nor far between. As a natural consequence, quarrels and fights, great and small, were quite common. We have seen more on that field in a single training day, before sundown, than we ever have seen elsewhere in a lifetime. And after the sun had declined, and the regiment had left the field, we used to hear of drinking, brawling and fighting, which lasted into the night. This picture of a day, is a fair likeness of many such days. Those days, (let everybody be thankful,)—have departed,—and better days have come, in this respect.

Portsmouth does not see, among her American born citizens, so much gross, open, unblushing drunkenness in her streets during a whole year now, as was usually seen on the day when five hundred of her people played soldier, and when twice as many more played the fool.

KANSAS yet furnishes bloody pastimes.—The latest accounts from Leavenworth report the hanging of two men by the mob, and the endangering of two others, for the murder of one Stephens. It was done in the most approved manner of the California Vigilance Committees, and the execution may or may not have been deserved. The Republican papers, whose correspondents describe the affair in glowing terms, have nothing to say in denunciation, for they were "border ruffians" hung by free State men—by men from New England and not from Missouri—and it makes all the difference in the world whose ball it was that did the mischief.

Exactly so. There are in Kansas two governments—one the bogus *territorial*—the other the *democracy*, the great body of the *people* acting exactly as they did in California, and nearly for the same reason, viz: because the nominal government either did nothing or worse than nothing.

☞ Mr. John J. Nourse, who died in Andover, Mass., on the first inst., aged 48, was formerly a seaman and quite slender. A few years ago he experienced a severe fever, and after recovering continued to increase in flesh until his last sickness, weighing at that time four hundred pounds. For three months previous to his death he took but very little nourishment, and at times was a great sufferer. He was probably the largest man in the state.

☞ Godey's Lady's Book for September, opens with a beautiful engraving of Grandfather teaching the little girl how to knit. The reader will perceive this was an *old* fashion. The next picture is a *new* fashion plate, of four ladies who never knit stockings, and who probably do not wear any, for no such things are visible.

Looking along through the pages, we read "Heel and Toe," the tale to illustrate the frontispiece, or the tale which the frontispiece illustrates,—we don't know which, but no matter—they are both first-rate.

☞ The Andover Congregational Association, in a half-playful notice of an article by the Puritan Recorder, ridiculing the prevalent rage for "great sermons," said that the three causes of little sermons were, "want of piety, want of study, and want of brains."

☞ The United States sloop-of-war Portsmouth, Capt. Foote, left Singapore for Siam, on the 21st of May, conveying W. C. Bradley, with the ratification of the treaty between the United States and Siam.

☞ Joshua Goodrich, the monster of crime in Newburyport, is said by the Herald to be a native of Alfred, Me., for some years a resident of Topsfield, and now of Newbury. He was charged by his daughter with incest and with rape, though the latter was not alleged in the official complaint.

Goodrich is a man of large size, and strong, powerful limbs, 37 years of age; with a wife, who was by his side, disbelieving the charge, though she admitted to the officers that she had suspected him, and for charging the offence had been personally abused by him—much harder looking, and some years his senior. They are said to be industrious, and well-to-do in the world: though both are of the lowest cast of mind, and did not seem to realize the enormity of the offence and the disgrace of the affair.

The suffering daughter had been kept almost a prisoner, and threatened with death by the unnatural father if she dared to reveal the iniquity. There is also evidence of other crimes of the same nature, committed by him.

Goodrich was committed to jail on the partial but sufficient testimony of his daughter, in default of $2500 bail, to take his trial at the Court of Common Pleas at Lawrence, in October next.

It is probable that they will prosecute him for crimes enough to keep him in the State Prison for life.

A VERY ROMANTIC YOUNG LADY.—The Paris correspondent of the New York Times gives circulation to the following story in relation to an affair *de cœur* of Carpentier, the great French railway robber, who has just been taken back to France to answer the penalty for his crime. "It seems that while in this country, Carpentier," so relates the correspondent, "inspired, (by what caprice of woman's heart I am unable to tell,) a romantic affection in the breast of a young Pennsylvanian lady, the daughter of a rich merchant, who has resolved to marry him. Opposed naturally by her parents in so fantastic a project, the young lady, it is said, took to flight, and in imitation of her idol or perhaps ideal, put her hand into the strong box which contained her father's riches, and carried off in advance her share of the paternal heritage. The Fulton, on her last trip from New York to Havre, is believed to have brought to France this interesting passenger."

PRICE OF POTATOES IN CINCINNATI.—The Cincinnati Gazette contradicts the report that potatoes are selling in Cincinnati at 25 cents a bushel. The Gazette says, "the best article retailed yesterday at 70 cents; previously prices were as low as 40 to 50, but they have not been, and we doubt whether they will be, for a year to come at least, as low as 25 cents.

"NOTHING TO WEAR."—The imports of foreign dry goods at New York during the past week were large, being nearly $4,000,000, and within a fraction of $2,000,000 larger than the amount imported in the corresponding week of last year. The aggregate imports of dry goods for this year, so far, amount to $63,914,828—showing an excess this year over last, of nearly $6,000,000.—*N. Y. Mirror.*

"Mr. French, the Vice-President of the Agricultural Society of the United States," who made a speech at a late dinner of the Royal Agricultural Society of England, is Judge Henry F. French, of Exeter, N. H., of the Common Pleas Court of this State. He is a good lawyer, a good farmer, and a good speaker.

☞ Dr. Whedon, editor of the Methodist Quarterly Review, in a recent reference to the Methodist Episcopal church South, speaks of it as German Silver Methodism.

☞ "The Sheaf, six favorite melodies arranged in an easy manner for the Piano," by Geo. Byron Ware. No. 3, Lucrezia Borgia; and No. 6, La Traviata, received from Chas. C. Harvey, Book and Music Store, Exchange Buildings.

The lynching of two murderers at Leavenworth, Kansas, is another of the fruits of Administration mismanagement in that Territory. When Judge Lecompte undertook to make the populace wait for the action of the Courts, he was interrupted with hoots and sneers, and one man made the suggestive remark, "We don't want any more Fugit trials." Another said—"A prisoner got clear here the other day by paying $3." The people of Leavenworth might well suppose that a Judge who was corrupt enough to connive at the murder of Free State men by Missouri ruffians, would not hesitate to release non-political offenders.—*Trav.*

SHOOTING CASE.—John G. Webster, of Moultonboro', N. H., discharged a gun on Sunday last, at some boys who were on his cherry trees, and wounded a boy named Horn severely in the arm. Webster has been arrested and held for trial in $500. He is a man addicted to intemperance, and is said to have been under the influence of liquor at the time of the occurrence.—*Lowell News.*

AMESBURY.—The Villager says that the amount of town tax for 1857 is $7500, State and county tax $3629. The rate of taxation is $8,20 on $1000.

Mr. Moses Wilson, of Salisbury Plains, has a fine field of wheat which is pronounced by experienced farmers to be unequalled in that section. It is entirely free from rust, blight, or "red gum," and it is estimated will yield from 20 to 25 bushels to the acre when harvested.

The Salisbury Mills Co. have determined to build gas works, and light the mills with gas.

The Band of Hope recently organized in Amesbury, is prospering finely, and much interest is manifested in attending its meetings by the children. Two hundred names are already enrolled on the pledge.

A Boston paper, giving a puff to a new minister in that city, says: "His prayer at the close of his sermon was the most eloquent that was ever addressed to a Boston audience."

We find the above in one of our exchanges. Uncle Toby, when he read it, was heard to say, it had been in the newspapers now and then, ever since he was a youngster.

A USEFUL MAN.—The Exeter News Letter notices the death, in Canandaigua, N. Y., Aug. 5, of William Wood, Esq., aged 81—and says he was "the founder of the Mercantile Libraries of London, Liverpool, Boston and New York, and well known in Exeter, from the interest taken by him many years since in planting the elms, which now add so much to the beauty of Exeter, and making the side-walks, which contribute so much to our comfort."

Mr. C. C. Tracy, of the Newsboy's Lodging House, New York, left the city on Friday afternoon, with a company of twenty-five or thirty children, from the Children's Aid Society, bound for the West.

NEW MEDICAL SALT, *A perfect substitute for the Lancet, Leeches and Blisters!*—Another: "A child of mine dangerously sick with Scarlet Fever, was quickly cured with the Salt."

The Agent in Portsmouth is Jos. H. Thacher. See advertisement.

SPECIAL NOTICES.

Use Lawrence's Carminative for your child, when its stomach is sour, or for Diarrhea. Try it, and tell your neighbors the result.

No medicine has been introduced in this country that is giving such universal satisfaction as Dr. Wilson's Dysentery Powders. They immediately check the disease without danger of producing inflammation or fever. Dysentery, Diarrhea, Cholera Morbus, and Summer Complaint are cured with one Powder, if taken when first attacked with the disease. Give them one trial and you will not be without them. a6 3w

☞ Mr. Asa S. Tilton at his Union Store, No. 12 Market street, sells the following Medicines at reduced prices:—Dr. Larookah's Indian Vegetable Pulmonic Syrup, warranted to cure coughs, colds, whooping-cough, asthma, bronchitis, croup, catarrh, consumption, and disease of the throat and lungs. Price 75 cents per bottle.

Also, Kennedy's Medical Discovery, Kennedy's Salve, and Holman's Nature's Restorative.

HAIR RESTORATIVE.—We are pleased to record the satisfaction of our patrons, after trial of an article advertised in our columns. We have the satisfaction to know several of our readers who have used Prof. Wood's Hair Restorative, and pronounced it to be just what the advertisement says it is. We have several personal acquaintances, too, who were gray headed, they have tried it, and now their hair is restored to its original color, and they willingly add their testimony to its efficacy, and will give further information to others desiring it. This speaks well for the article, and we advise all who do not wish to appear gray-headed, to use Wood's Hair Restorative.—[Western Patriot.

THERE ARE HUNDREDS OF REMEDIES Sold at every Drug Store, purporting to cure all diseases nameable, each advertised as the very best ever known, till we had lost all faith in them all, but there is one exception.

We speak of Dr. Sanford's Invigorator, which came to us recommended as a cure for Liver Complaints, and all diseases arising from a Diseased Liver. The testimonials of so many of our Physicians in its favor, induced us to try it, and now conviction is certain that it is one of the greatest blessings ever given to Dyspeptics, for it made a complete cure before the first bottle was taken, and now we can eat anything eatable without trouble, while before, nothing but the lightest food would digest, and often would digest, and often that gave pain. Now what we want to say to all our readers is, if Liver Complaint or Dyspepsia trouble you, do not fail to try this, the greatest remedy in the world.

LOCAL.

☞ The Firemen made a fine display, on Tuesday. The Tigers, from Newmarket, with their Brass Band, arrived in good season, per packet; and were received by the Mayor, Chief Engineer, Laconia Engine Co. with the Portsmouth Cornet Band, and other firemen, at the wharf. Some members of Engine Co. No. 6 furnished a collation for the Companies and Bands; after which they visited the Navy Yard.

On their return all sat down to a capital dinner at the City Hotel, as guests of Laconia Co. We promised ourselves the pleasure of accepting the invitation to be at the feast, but *other* business prevented.

The turn-out was creditable, and contributed to make up a lively day. The Newmarket *Brass* Band played finely, but the difference between their instruments and the German Silver of our Cornet Band was very apparent.

Burglaries.—On Monday night, the store of John H. Wells, in Market street, was entered through a back window, and the money-drawer relieved of $50 or $60.

The store of Thatcher Emery, in Pleasant street, was also entered by the back way, and from $100 to $125 stolen. Nothing else was taken in either store; but a little cheese from Mr. Wells'. At Mr. Emery's, the thieves left a chisel and a long iron drill,—signifying, perhaps, that they mean to retire from the business.

☞ We learn that Capt. John Pope has received the appointment of Commandant at the Portsmouth (N. H.) Navy Yard.—He was in this city on Tuesday; but being on duty with the Naval Court of Inquiry, at Washington, D. C., he will not assume the care of the Yard, probably, for several weeks. Meantime, Capt. Pickering, an efficient and popular officer, is Acting Commandant.

Capt. Pope will be recollected by some, as First Lieutenant on the Yard, twenty years ago or upwards.

☞ We were told, a few days ago, that rum had carried another man down to ruin, from our very midst. The captain of the schooner ——, of ——, Me., which came here with a load of lumber, was the victim. He is reported to have drunk freely in Portsmouth; and on going to his vessel, lying in the Lower Harbor, to have allowed all hands to go below, saying he would stand watch. Soon after, the mate heard him fall overboard; but owing to the darkness his life could not be saved, nor his body be found. After a vain search of three days, the schooner sailed without his body being recovered.

☞ We learn that Mr. E. O. Laughton, the well known telegraph operator, has sold his interest in the Commercial Telegraph Company, at New Bedford, Mass.; and is again to take charge of the office in Portsmouth. Miss Ellen A. Laughton, his daughter, a skilful telegraph operator, (or operatress,) will resume her old position here, on the first of September.

Young America in the Field.—A Republican Convention of Young Americans is to be held at Newmarket Junction, on Wednesday, August 12th. The "Fremont Light Guards" in this city, a boys' company from Kittery, and also one from Dover, have accepted an invitation to be present on the occasion. Tickets 20 cents, to be had at J. H. Bailey's, and at Jas. F. Shores' Bookstore.

Editors Loose.—B. P. Shillaber, Esq., the genial humorist and poet, now connected with the Boston Saturday Evening Gazette; and Jas. W. Ricker, Esq., the gentlemanly associate editor of the Boston Daily Ledger, are rusticating for a few days about old Portsmouth, the home of their boyhood.

☞ The old U. S. Frigate Constitution was drawn up on land, from the Dry Dock, at the Navy Yard here, on Tuesday morning. She can now be seen in all her huge proportions, as she lies high and dry.

Body Recovered.—The body of the boy who was drowned on Wednesday last, near Salter's Island, was recovered on Sunday.

☞ The Minister's Conference of the Rockingham Q. M. of the Free Will Baptists will meet at South Berwick, Me., on Tuesday, August 18, at 2 o'clock P. M.

☞ The Haverhill Gazette says that Mr. George H. Hoyt has in his possession a pitcher said to have been once owned and used by Washington. It is very large, and has imprinted on it several masonic emblems, and "1710" in large figures, probably the year in which it was made. It has been for a number of years in the possession of a Masonic Lodge in Portsmouth.

ONE DAY LATER.

New York, August 10.—The steamer Fulton arrived at this port from Havre, July 30, at 3 o'clock this afternoon.

She brings London papers of July 29.

In the London money market on the 28th, there was quite a panic, owing to rumors of another attempt to assassinate Louis Napoleon, and the unsatisfactory advices from India. Consols, which opened at 91 1-2 for money, fell to 90 7-8 a 91, and after official hours there was a farther fall of 1-8. There was an active demand for money, and a steady withdrawal of bullion from the Bank. The Paris Bourse closed on the 28th, at a slight decline.

Lawrence Beneham, President of Maynooth College, Ireland, is dead.

Sugar was active in the London market, at an advance of 6d a 1s.

New York.—The new week was commenced by another brutal murder, in which Mr. Theodore L. Tompkins, a young man of highly respectable family, resident in Hoboken, was the victim. It appears that the deceased, with two friends about his own age, came over to New York to spend the evening, and in their course of perambulations entered a low drinking house, where disreputable women are kept, at No. 3 Mulberry street. Some dispute about treating the women led to hard words, and finally a party of Germans who were present assaulted the Jerseymen, the result being that all three were badly beaten and kicked in the street. Young Tompkins, with a fractured skull, made his way alone to the ferry, was taken home, and died at four o'clock Sunday morning.—His companions, Webb and Frazer, less severely wounded than he was, went to the Hospital, and thence home.

Justice Crane, of Hoboken, as acting coroner, commenced an investigation on Sunday, and elicited such testimony as induced him to come over to the city on Sunday afternoon, when with the assistance of Sergent Hicks, of the Six Ward, the barkeeper of No. 3—one Ferdinand Simon—the keeper of the den, Mrs. Mitchell, and a boarder there, Tresa Markler, were arrested on charge of murder. Mrs. Mitchell was taken by some mistake to Hoboken on Sunday night. The other two were locked up in the Sixth Ward Station House. This is the second fatal occurrence with which the Tompkins family have been afflicted, lately, as it was in front of their residence that young De Granval was shot by Frederico Cueva, a few weeks since. The murder has created a great sensation in Hoboken, as the deceased was a young man of much promise, and warmly beloved by all who knew him. The coroner's investigation is adjourned until Tuesday afternoon. *N. Y. Express, 3d.*

St Louis, August 11.—59 counties give Rollins, (the Emancipation candidate,) a majority of about 3000, but returns are so conflicting, that accurate figures cannot be given. Rollins, however, is probably elected by 1500 majority.

Iowa Election.—Returns from 34 counties in Iowa, give a majority for the Constitution of 4550.

St. Louis, August 9.—Gov. Walker had returned to Lawrence with his troops, the rumored Indian attack on Fort Riley proving groundless.

The officers of the Lawrence City Government met on the 7th, and proceeded to perfect the ordinances.

The election returns indicate a nearly unanimous vote in favor of the Topeka Constitution.

Mr. Mason requests leave to remain in Paris until he can pay his debts there out of his salary; if some of our foreign ministers were permitted to do this, they would hold their offices till death.

☞ The wife of Gen. Leslie Coombs of Kentucky, died at Lexington, on Monday, August 10th.

AMERICAN HOUSE,
BOSTON.
Conducted on the European Plan.

LEWIS RICE, Proprietor, respectfully announces that in compliance with the very general preference expressed for the European system of hotel management, that the American House will hereafter be conducted solely on that plan. Well furnished parlor and sleeping apartments will be let by the day, or for longer periods. Meals served at the gentlemen's hall at all hours of the day and evening. The ladies' dining hall will be opened in like manner for ladies, and gentlemen accompanied by ladies. The accommodations and conveniences of the house are unsurpassed, and the recent improvements and alterations leave nothing to be desired. Suburban residents will find the arrangement specially convenient. Large or small parties provided with dinners, suppers, &c., at short notice.

Musical Notice.

HAVING made extensive alterations and repairs on my Store, I would announce that in future I shall keep a much more
EXTENSIVE & COMPLETE ASSORTMENT
—of—
SHEET MUSIC,
Musical Instruments & Merchandise,
than heretofore.

The services of the talented musician Mr. H. P. CRANE, have been engaged, who will more particularly superintend the Musical Department of the establishment.

A large assortment of all new and popular music constantly on hand. New Music received from Boston and New York daily. Any music not on hand, procured at a few hours' notice, without additional expense.

A large variety of Musical Instruments may always be found at reasonable prices.

Chickering & Sons' Piano-Fortes.

Having received the agency for the sale of Chickering's Piano-Fortes, for Portsmouth and vicinity, an assortment may be found at all times, which will be sold at the same prices as can be purchased at their Ware Rooms.

All of Chickering's Piano-Fortes, whether purchased at this Agency or at their Ware Rooms, will be delivered at the residence of the purchaser, and be tuned one year, as often as required, without additional expense.

PRINCE'S & CO'S MELODEONS.

The large number of these Instruments that have been sold in this city for the past two years, are a sufficient guarantee of their excellence and superiority over any other Melodeons.

Those who wish to Hire, with a view of purchasing, can make arrangements to have the rent go towards the purchase money.

Piano-Fortes Tuned & Repaired.

Mr. H. P. CRANE having had several years' experience in tuning Piano-Fortes, offers his services to his friends and the public. All orders promptly attended to, and satisfaction guaranteed.

Absent from thee, what would life be.
And cans't thou bid my heart forget.
Calm be thy rest, and sweet thy dreams.
A Cot by the Mountain Side. Emma's Grave.
Friendship. Forty years Ago. Fly my Skiff.
Fare thee well, 'tis meet we part.
Home of the free. I see her still in my dreams.
The Inquiry. A Kiss and a Smile.
Kiss me quite, and go. The Maiden's Resolution.
No Night There;—*Duett or Trio.*
O, had I the voice of a bird. O, will I remember.
Oh, wert thou but mine own. love. The streamlet.
The world is full of beauty, when the heart is full of love. Thy name come o'er me like a spell.
'Tis better late than never. To the beloved.
There was a time in early life.
Thou has sworn at the altar. Thine was the spell.
Who'll have me.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FRANCIS & Co are the managers, are authorized by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from $20 to $100,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.
☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun and Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.
Address T. H. HUBBARD & CO.,

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $50,000; every prize being drawn, and result of drawing forwarded to all purchasers.
☞ A list of the numbers that are drawn from the wheel, with the amount each number is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. Write your address plainly and direct to S. SWAN & Co., Atlanta, Georgia
Prizes paid in full—no percentage deducted from prizes as in other lotteries.
All communications strictly confidential. m18 1y

(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)
No. 76 State st, oppo. Kilby st, Boston,
AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters concerning the same. Copies of the claims of any Patent furnished by remmitting One Dollar. Assignments recorded at Washington.
This Agency is not only the largest in New England, but through it Inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.
All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $50,000; every prize being drawn, and result of drawing forwarded to all purchasers.
☞ A list of the numbers that are drawn from the wheel, with the amount each number is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. Write your address plainly and direct to S. SWAN & Co., Atlanta, Georgia
Prizes paid in full—no percentage deducted from prizes as in other lotteries.
All communications strictly confidential. m18 1y

INTERESTING INCIDENT.—A correspondent of the Presbyterian relates the following incident which occurred during a recent visit to Philadelphia of the venerable Rev. Mr. Waldo, late Chaplain to Congress:

Mr. Waldo was invited by the Chaplain of the United States Naval Asylum, to preach there to the officers and sailors. He gave his hearers an able and instructive discourse from Luke viii. 24:—"And they came to him, and awoke him, saying, Master, Master, we perish. Then he arose and rebuked the wind and the raging of the water; and they ceased, and there was a calm." At the conclusion, he remarked, that he had preached that very sermon *forty-five years* ago, on board the United States ship Constitution in 1812, then under the command of Commodore Hull; and that he had a curiosity to know whether amongst his present hearers there were any who were then on that ship. If there were, he would be pleased if they would make themselves known to him. After the services, Commodore Stover, the Governor of the Asylum, came forward, and told Mr. Waldo that he himself was a midshipman on the Constitution at that time. Three old tars then came forward and took the venerable old man by the hand, and told him they were then boys on that ship. The meeting seemed highly gratifying to both parties, and was witnessed with much interest by all present. May the old patriarch's bow still abide in strength.

WANTED, ANOTHER HOLIDAY.—We are glad to notice that our cotemporaries are agitating the observance of the sixth of September, the birth-day of Lafayette, as a national holiday. This is right and proper and just. While marble and bronze are entrusted to skilful craftsmen, for the immortalizing of the noble dead who were born on our soil, a day of relaxation from toil could not be more fitly chosen than the anniversary of that which witnessed the birth of the young and gallant foreigner, who perilled life and fortune in the cause of strangers. But it is too late to speak in honor of him who is honored and will be till the end of time with a nation's homage. Yet an annual tribute of respect should be paid his memory, and we call upon the State of Massachusetts to set an example, which the other states of the confederacy will be sure to follow.—*Boston Sat. Eve. Gaz.*

Good—we always did have a great respect for the memory of Lafayette, and shall not be backward in devoting a day to prove the sincerity of our regard.—Give us a few more holidays—say about a dozen a year.

WHOLESOME BREAD.—Dr. Wm. A. Alcott, the celebrated investigator as to what man should eat and drink, states his opinion that the use of hop, or other "rises," in making bread, are useless and pernicious. Here is his simple recipe—try it:

Wet the meal or flour (the whole or unbolted is best) so as to thoroughly moisten the whole, with pure soft water, at 160° Fahrenheit, or scalding hot. The mass should be firm and not sticky—then roll, and cut into strips which shall not be more than 1-4 inch in thickness, and 1-2 an inch in breadth.

Bake quickly in a hot oven, until the dough has acquired a soft fine brown color, or until the water has nearly all evaporated, and you have your meal nicely parched. Other forms, geometrical or fanciful, may be chosen, but this is perhaps the best.

☞ Mr. Reuben Vining, of Durham, Me., committed suicide on Thursday last, by cutting his throat with a jack-knife, in consequence of trouble in the school district of which he was agent. He had taken some steps in the management of the district which were not generally satisfactory. He was a worthy and respectable citizen. He was about 58 years old, and leaves a wife and six children.

☞ Daniel Lyon, an Irishman belonging in Bluehill, committed a gross and most brutal outrage on the person of a respectable and well connected American girl of 15 on Saturday. Lyon commenced the outrage in the field, and the girl fled to the house; the family being absent, Lyon pursued, and she did not have time to fasten the doors, before he entered. She caught up a hammer, and struck him a number of blows, but he overpowered her. He was committed for trial. For a time it was feared that the people would lynch him.

In Chicago, James H. Temple, who seduced his ward, Regnet Lawson, and Dr. James Swansey, who assisted him in a forcible operation which eventually caused her death, have been fully committed for trial for manslaughter.

Some of the grain buyers of Springfield, Illinois, are making contracts for wheat at $1 a $1.10 per bushel, delivered in that city during the month of August.

☞ A little girl about six years of age, daughter of Mr. William Leavitt of Bangor, has been much troubled with an affection of the back. Dr. Seavey, upon making examination, discovered, as he thought, some foreign substance under the flesh between the seventh and eighth ribs and near the spine. Upon incision and drawing it out, it was found to be a needle nearly two inches long, which the child swallowed a year ago.

FATAL MISTAKE.—A few days since Mr. Lyon, Warden of the Almshouse in Marlboro', Mass., feeling a little unwell, drank from a bottle which he supposed to contain peppermint. It proved to be bed-bug poison. When the mistake was discovered, efforts were made to relieve him, but without avail. The poison was not immediate in its effects, as he lingered several days, but death came at length to his relief.

One evening last week, seven young ladies residing in Waterville, Me., were bathing, and four found a watery grave.—The bank is quite steep, and it is supposed that one or two of them ventured beyond their depth, and the others were drowned in attempting their rescue. The alarm was instantly given, and three of the bodies were found a short distance from the spot, floating on the surface of the water, and the other was found in the stream.—They were not in the water over thirty minutes, and although efforts were made for several hours to resuscitate them, they proved fruitless.

The place where the accident happened is a secluded one, and the young ladies have been in the habit of bathing there for several years.

FEMALE APPAREL.—A young lady can only look charming at so much per yard. A pretty miss in calico is a lovely woman in silk, and a charming girl in muslin is an angel in satin. At least she thinks so, and as she is accustomed to say, who would dare to contradict a lady? More than once I have tried to get my wife to purchase a handsome article of calico, and have it made into an elegant fitting dress, and then accompany me to church in it, but to no purpose. She would consider it a desecration of the Sabbath.

Mrs. Ellen Shehan and Mrs. Ellen Landy have been bound over to appear at the October term of the C. C. P. in Lawrence, on a charge of entering and stealing from the house of John H. Silsbee, Esq., on the 19th of June. In default of bail they were committed. It is said that these women have been imposing upon the sympathies of our citizens, by sending their children begging, until they have some hundreds of dollars in the bank.—*Salem Register.*

At Cleveland, Susan Brown, a half breed, refused to live with her husband Bill, a colored deck hand; the latter entered the room where she was sleeping with another woman, at 4 A. M., by means of a ladder and the window, and inflicted a mortal wound with an axe.

The wife of Montgomery Lanpt, of Kiskatum, Greene County, N. Y., a few days since, presented her liege lord with three fine boys at a single birth. This is the third time within three years that she has given birth to three, thus having nine children in three years.

D. Hunt was asked by a lady, at dessert, if he would not venture on an orange. "Madam," he replied, "I should be happy to do so, but I am afraid I should tumble off."

Rev. Dr. Malcolm has resigned the presidency of the University at Lewisburg, Pa., on account of the loss of his voice.

Lawrence's Carminative,
—OR—
CHILD'S PAIN-KILLER.
THIS invaluable preparation is a favorite scientific prescription of one of the most eminent of the Medical Faculty in New England, and one who has been successful as any other in the treating of
DISEASES OF CHILDREN,
and has been used with never-failing success.
The Carminative is emphatically
A CHILD'S MEDICINE,
and is the *only* Child's Medicine in this country; intended to do away with the excessive and injurious use of *Paregoric*, a remedy sure to be followed by a "dose of physic."
The ingredients of which the *Carminative* is compounded, are known to the Medical Faculty, and it is now extensively used, and approbated by the physicians living in the vicinity of the Laboratory, where opportunity has been had to test its virtues.
The *Carminative* is offered in full confidence for the rapid cure of
Colic, Pain in the Bowels, Wind in the Stomach and Bowels, Green Stools, Diarrhœa, Nervous Affections, Sore Mouth, Restlessness,
and other disorders incident to Weaning and Teething; sure to regulate derangements of the Stomach and Bowels, which often afflict young children; correct debilitated and sour Stomachs, relieve pain and give tone, energy and strength to the whole system.
Due regard has been taken to have the price of the Carminative so low as to be within the reach of all. Price *only 25 cents.*
Parents who value rest should not fail to buy a bottle, as they may depend upon its giving relief to "worrisome children."
Sold by country traders and all Apothecaries throughout the United States and Canada.

IMPORTANT DISCOVERY.
DR. CHEESEMAN'S PILLS FOR FEMALES.
Prepared by an old Physician of 40 years experience.
THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.
These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. CHEESEMAN, Box No. 4,581, Post Office, New York City, can have them sent to their respective addresses by return of mail.

Morning Chronicle.

THURSDAY, AUGUST 13, 1857.

RAILROAD COURTESY.—Rev. Dr. Prime, editor of the New York Observer, recently published an article reflecting severely upon the rudeness and incivility of the Superintendent of the New York and New Haven Railroad, as manifested to himself on a late occasion. Having denied the use of his columns for a reply, the Superintendent publishes a very damaging statement in the New York Times, to the effect that the "rudeness and incivility" referred to, was the result of his denying the reverend editor and his lady the use of two whole seats, while the cars were crowded full and several passengers were standing in the passage way. If this is true, the editor had better reflect upon his own "rudeness and incivility" before calling upon the railroad directors to remove a good officer merely because he did his duty.—*Boston Bee.*

We have known Dr. Prime for many years, editorially, as one of the most inveterate of all the old fogies, "behind all the ages," as was once said of a certain Boston critic and divine, who edited a paper something like the Observer. But we had supposed, till now, that Prime might be in private life a gentleman, for a' that.

DRUGGING A PEDESTRIAN.—Jas. A. Lambert, who is attempting to walk 2000 miles in 1000 hours at Stewart's Gymnasium, over Boylston market, having been drugged by some individual who generously presented him with some brandy, a few days since, Dr. Hayes, the State Assayer has reported to Mr. Stewart that the brandy contained 1st, tartar emetic (double tartrate of potash and antimony) and 2d, a colored drug, resembling in its general chemical characteristics Ipecacuana. These drugs rendered the brandy poisonous, according to the opinion of Dr. Hayes, and his report has been submitted to the Chief of Police. Lambert is now allright.—*Boston Post.*

Pedestrians had better not drink brandy at all. Most intoxicating fluids now, seem to be poisons.—It is as true now as in the days of Solomon, that Wine is a mocker; that strong drink is raging; and that whoso is deceived thereby is not wise; i. e. he is a fool.

SENATOR TOOMBS AND 1860.—Senator Toombs of Georgia, in a recent speech to a portion of his constituents, threatened the rejection of Walker's appointment as Governor of Kansas by the U. S. Senate, but said:—

"There was hope for the South in no other than the Democratic party. He did not know that it could save us from disaster. He sometimes had fears. The future threatened. He thought the decisive contest would be fought in the Presidential election of 1860. It behooved us to act wisely in view of that contest. We could not submit to defeat. If our enemies should triumph our rights would be at an end. We could no longer expect anything in the Union, and he for one was for making the election of a Black Republican to the Presidency the time for quitting it."

NEWBURYPORT.—The Herald says:

The gathering of the friends of temperance, near the Mall on Sunday evening, was conducted with more than usual zeal. The auditory was large and the most perfect order was observed. The speakers, Rev. Dr. Lamson of Portsmouth, Rev. Mr. Douglas of Providence, and Rev. Mr. Paulson and Benjamin Stanton, Esq., of Newburyport, were listened to with interest.—We understand the Young Men's Society, under whose auspices this meeting was held, is accomplishing much good. We are glad to hear this, and hope they will continue active until every tippling shop in the city is closed. The open air meetings are to continue.

Newburyport is evidently waking up in this matter. It is not so rummy as Boston, where a temperance lecture on the Common is branded as a nuisance.

☞ Mrs. Clark, one of the women who were connected with the man at Palmer who was tarred and feathered last winter, has received a communication from the spirits, telling her to change her name. In consequence of this injunction, she has issued the following circular, which we find in the Palmer Journal:

The body that was Mary Clark's has received a new name. It is hereafter to be called none other than Boundless Love.—Since the body arose a spiritual body, *a new dress* has been placed upon it; that is, a starry crown upon the head, beset with diamonds and gems of immortality; upon the breast a plate of righteousness; the feet are shod with gospel grace, and a sword of truth is placed in the right hand.—*Miss Boundless Love.*

HEAVY RECEIPTS OF CORN.—Owing to the detention caused by recent canal breaks the receipts of corn per North River boats for two days have been very large. On Monday, the arrivals amounted to over 200,000 bushels, which, added to those of Saturday, made the supply afloat upwards of 300,000 bushels. The Western Transportation Company alone had 100,000 bushels afloat at the docks.

GOOD MOVEMENT.—The Morning Star says:

On Sunday, week, Rev. Mr. Bapst, pastor of the Roman Catholic Church in Bangor, made an earnest and forcible appeal to his congregation, setting forth the terrible effects of intemperance, and calling upon the congregation to unite themselves into a society, under the sanction and authority of the church, for the suppression of the evil. The result of the appeal was that the congregation remained after the services, and about one thousand persons received the pledge in the most solemn manner.

Such a movement in Portsmouth, could it be carried out, would be one of the best we can think of.

RUNS IN THE FAMILY.—A correspondent of the N. Y. Tribune asserts that the trick undertaken by Mrs. Cunningham was successfully performed by her sister Sarah in 1827, and that another sister aided and assisted in the fraud, her own illegitimate offspring being represented as Sarah's child by her deceased husband.

BLUNDERING CRITICISM.—In the last number of the Quarterly Review is a review of Mrs. Stowe's "Dred," in which the writer takes upon himself to designate some of the magnificent imagery of the prophetic writing as "nonsense." It is at page 334 that the following passage occurs: "In some of his (Dred's) rhapsodies, he crosses the narrow line which separates the sublime from the ridiculous. In others he passes the broad one which separates sense from nonsense. What is the meaning of 'the line of confusion and the stones of emptiness?' or of 'the bow is quite naked, according to the oaths of the tribes?'" Readers of the Bible know that the first expression, so confidently pronounced "nonsense," is found in Isaiah xxxiv. 11: "But the cormorant and the bittern shall possess it; the owl also and the raven shall dwell in it; and He shall stretch out upon it the line of confusion and the stones of emptiness." The other expression is borrowed from the poetry which constitutes the third chapter of the prophet Habakkuk, at the ninth verse: "Thy bow was made quite naked, according to the oaths of the tribes, even thy word. Thou didst cleave the earth with rivers."

So the Quarterly Reviewer simply exposes his own ignorance.

ELEGANT EXTRACTS from a communication in the N. H. Patriot.

"But if any person at a distance, unacquainted with the guardians of the public peace in this vicinity, needs the services of a set of bipeds who will shrink from no work on account of its nastiness, whose nostrils joyfully snuff up the effluvia which would knock a decent man endwise, who will lie night after night on their bellies in a pig-pen," &c.

"Aware of this amiable trait, the old whig gentry, who make up the bulk of our opponents, do not soil their aristoteratic hands with the foul work so necessary to keep their party in existence, but with a show of great generosity, encourage modest merit, by turning it over to the 'cow boys,'" &c.

"It is an uncontroverted fact, that as a delver in dirty work, a grubber in the underground drains of political cese-pools, and general pack-horse of disreputable drudgery, there is no animal equal to a renegade Democrat."

OREGON.—A majority of this territory are said to be Missourians, who have emigrated from that State. This accounts, perhaps for the large pro-slavery vote in Oregon, and the diminished pro-slavery vote in Missouri.

☞ Counterfeit gold dollars are being circulated in Baltimore in large numbers. They are made of tin, of the size of the new emission, and galvanized, and are easily bent with the fingers.

☞ John S. Loomis, of Brooklyn, N. Y., has been arrested and held to bail in Albany, for obtaining by false pretences, about $15,000 worth of lumber, from nine dealers in that city.

WEST KILLINGLY, (CONN.,) seems to be a place where the rumseller does his business killing indeed. The Telegraph is fully warranted in styling it "a little remarkable:"

A poor drunkard, named Christopher Potter, was found dead in the barn of Russel Smith, in West Killingly on Saturday week. Several winters since, he lay out all night, on a drunken spree, and froze both his legs so badly that they had to be amputated. He has hobbled to the grog shops, where soulless liquor dealers would take the last cent from the poor cripple for rum. Says the Windham County Telegraph—"It is a little remarkable that within a few rods of the center of our village, within the past six or seven years, there have been as many as ten deaths under circumstances similar to above stated.

☞ The N. Y. Evening Post has the following:

The other evening, during a conversation on Mrs. Cunningham's affair, Jones remarked that the attempt was a decided failure, and had resulted in nothing but cholera morbus. 'Poh!' said Brown, 'You are altogether wrong, it was a decided case of cholera infantum.'

He is the best accountant who can cast up correctly the sum of his own errors.—*Nevins.*

PRO-SLAVERY ADMINISTRATION.—Col. Orr, of South Carolina, the probable Democratic Speaker of the next House of Representatives has been spending some time in Kansas, to organize, as supposed, the pro-slavery party there for their present effort to maintain possession of the government, and introduce the Territory as a slave State, with pro-slavery members of Congress. Since his return home, a letter has appeared in the South Carolina journals, which is reasonably supposed to be from his pen. This confesses that the South has failed in Kansas for want of men. The Southern States have contributed large amounts of money in support of their cause, but their emigrant aid societies and other proselyting agencies have not succeeded in throwing into Kansas more than 5000 voters, while the Northern Free State vote is 17,000, or more than three to one. He says there are in the Territory exactly 153 slaves.

These admissions, considering their high Southern source, are of importance. Col. Orr very clearly places the pro-slavery vote too high, for when the party elected delegates to their constitutional convention, only 1600 votes in all were thrown, and among these were some who claim to be free State men. With such an admitted immense supremacy against them, why is it that it the contest is longer maintained by a slavery party? Why need there longer be any trouble in the Territory? A single full and fair vote of the people would settle everything. Why will not the government permit such a vote?—*Traveller.*

Sheriff Carey, in charge of the House of Correction in Lawrence, states that delirium tremens is becoming more *unmanageable* than formerly. It is attributed to the immense amount of strychnine used in the manufacture of liquors at the present time. By using poison, distillers get about fifty per cent. more liquor from a bushel of corn than they formerly did. In Ohio, the use of strychnine in the manufacture of whiskey, has become so great, that the Legislature, a short time since, had to pass a law, making the offence a crime punishable by two years confinement in the penitentiary. Mr Carey says that the usual remedies for delirium utterly fail to relieve patients, and that those who, by a long course of abstinence and careful treatment in the House of Correction, get over their troubles and are weaned from their appetite for rum, and again return to their habits after being set at liberty, are pretty sure of speedy death, from the return of the malady in a malignant form.—*Lawrence Courier.*

"LOST AND FOUND."—On the northern border of the "great pond" in North Andover, Mass., a house of entertainment is kept for those who resort thither for fishing or boat riding. The host and hostess of this establishment a few days since, had a falling out, and the woman, to revenge her real or supposed wrongs, threatened to drown herself. Her liege lord did not, however, at first feel greatly alarmed at the announcement, as the presumption is quite strong, that he had heard the like before, without witnessing its consummation. At length, she disappeared; soon her bonnet and shawl were discovered at the water's edge, the alarm spread throughout the neighborhood, and diligent search was instituted to recover the mortal remains of the departed. Several persons were engaged in dragging the pond, and grappling irons were brought into requisition, but to no purpose.

A day and night elapsed, the mystery was not revealed, all efforts proved abortive, and the anxious ones were about to give up in despair, when lo and behold, the lost one appeared, safe and sound. She had been seated in a thicket overlooking the whole affair, and congratulated herself on having come it over them.

The first instalment of the 10,000 Africans, for the French government, to be apprenticed in Martinique and Guadaloupe, have been shipped from Fernando Po, in the French ship Phœnix. If this is allowed to proceed, there appears to be little doubt that it is the commencement of the slave trade in a new form.—The reply of the British ministry to an address upon this subject, is far enough from showing that England will do anything to suppress it. If it be no violation of treaties to supply Gaudaloupe with negroes, it will not be to supply South Carolina in the same way.—The cotton and sugar regions of the United States need labor as much as the English and French West Indies, and they would be foolish indeed to be paying from ten to fifteen hundred dollars for first class field hands, when there are Yankees enough, if this is allowed, who will land them in Charleston or New Orleans for half the money. Such a construction of treaties re-establishes not only the slave trade, but slavery itself, wherever men wish to carry on the trade or to hold slaves.—*Newburyport Her.*

ASSAULT WITH INTENT.—PECULIAR TERMINATION.—On Friday forenoon as a respectable woman was crossing the Western Railroad bridge in this city, she was set upon by a burly Irishman, who attempted to ravish her, but she fought him and screamed till her cries brought a party of men to her rescue, whereupon the fellow let her go and beat a retreat. His pursuers chased him through the bridge when he took to the river and waded in up to his chin, but they followed and dragging him out administered justice upon the spot. It being unanimously decided to *kick* him, a ring was formed and the scoundrel was "booted," by a dozen pair of sturdy legs, till they could kick no more.—*Springfield Republican.*

HEAVY FAILURE.—*New York, Aug.* 12. N. H. Wolfe &Co., extensive operators in Flour and Western produce, suspended today.

Thirty years ago a school mistress, in a rage, caught hold of the arm of a little girl not in fault, gave it a violent jerk, and with a swing threw her to the other side of the room. To-day that little girl is a wife, a mother, the accomplished mistress of a princely mansion, happy in her social position, happy in her husband who is one of the best of men—but that arm hangs powerless at her side as it has done from her childhood.

Two years ago a beautiful young girl just budding into womanhood, was going to school in mid-winter. Not knowing any better, she sat on a stone step in the sun, and daily did so. Thus, coming from a warm school-room, and remaining still in the open air, until most thoroughly chilled, she acquired a permanent cough. She sleeps in the graveyard now. How many bright hopes have been blasted; how many an only child has been sent to an early grave, by ignorant, careless and incompetent teachers, is frightful to think of.—*Hall's Journal of Health.*

WASHINGTON, August 11.—Capt. McKean has been appointed Governor of the Naval Asylum at Philadelphia, to relieve Commodore Storer, on the 20th inst.

Ex-Mayor Powers, of this city, died today, after an illness of seven weeks' duration.

[Tribune Correspondence.] — Secretary Stanton of Kansas will probably be appointed Superintendent of Indian Affairs. Gov. Cummings' resignation takes effect on the 12th of August. Reports from Kansas indicate Gov. Walker's determination to collect taxes under the bogus laws, by military force. The danger of a collision between him and the Free State men is not over.

He who imagines that he can do without the world, is much deceived—but he who fancies that the world cannot do without him, is still more deceived.

HAIR RESTORATIVE.—We are pleased to record the satisfaction of our patrons, after trial of an article advertised in our columns. We have the satisfaction to know several of our readers who have used Prof. Wood's Hair Restorative, and pronounced it to be just what the advertisement says it is. We have several personal acquaintances, too, who were gray headed, they have tried it, and now their hair is restored to its original color, and they willingly add their testimony to its efficacy, and will give further information to others desiring it. This speaks well for the article, and we advise all who do not wish to appear gray-headed, to use Wood's Hair Restorative.—[Western Patriot.

THERE ARE HUNDREDS OF REMEDIES

Sold at every Drug Store, purporting to cure all diseases nameable, each advertised as the very best ever known, till we had lost all faith in them all, but there is one exception.

We speak of Dr. Sanford's Invigorator, which came to us recommended as a cure for Liver Complaints, and all diseases arising from a Diseased Liver. The testimonials of so many of our Physicians in its favor, induced us to try it, and now conviction is certain that it is one of the greatest blessings ever given to Dyspeptics, for it made a complete cure before the first bottle was taken, and now we can eat anything eatable without trouble, while before, nothing but the lightest food would digest, and often would digest, and often that gave pain. Now what we want to say to all our readers is, if Liver Complaint or Dyspepsia trouble you, do not fail to try this, the greatest remedy in the world.

ROCKINGHAM FAIR AND CATTLE SHOW IN PORTSMOUTH.—*Dear Sir.*—As many of the citizens of Portsmouth and Greenland, are desirous to have this fair held in your city, thinking that it would be better to have it changed in different parts of the county every year, I would suggest the propriety of having it held in Portsmouth this fall.—What think you of it Mr. Editor—it would not only be something new in Portsmouth, but it would give life and profit to your place. Can you stir up your citizens to have it there? The only thing necessary to be done is—for them to put their hands in their pockets, and make the arrangements.

MRS. CUNNINGHAM.—*New York, Aug.* 11.—In the Supreme Court to-day, a writ of *certiorari* was granted in behalf of Mrs. Cunningham, returnable to-morrow.

A friend gives what we consider a very sufficient reason for the dearth of visitors at the various watering places. There has so much rain fallen at home as to render it needless to go abroad in search of a watering place.—*Charlestown Adv.*

3 DAYS LATER FROM EUROPE.

HALIFAX, Aug. 11.

The royal mail steamship Canada, Capt. Lang, from Liverpool Saturday 3 P. M., Aug. 1st, arrived at this port at 3.30 this P. M.

GREAT BRITAIN.—In the House of Commons Wednesday night, government was in a minority of sixty upon a division for the second reading of the Superannuation bill, motion for second reading having been carried. On the following evening Lord Palmerston said government would offer no further opposition to the bill.

The new divorce bill was debated. Strenuous opposition was shown to it, but it was ordered to a second reading.

In the House of Lords, Lord Ellenborough attacked and Lord Granville defended the present Governor General of India, stating that Lord Canning was proving himself quite equal to the emergency.

The royal assent had been given to the bill incorporating the Atlantic Telegraph Company.

All the vessels comprising the expedition for laying the Atlantic Telegraph cable had arrived at Cork.

It was intended they should leave that port for Valentia on the 31st of July or 1st of August, and that, weather permitting, the shore rope should be landed and the vessels commence sinking the cable on the 3d or 4th inst.

It is intended strictly to avoid giving priority of information, or affording facilities for jobbing or speculation during the laying of the cable. A house was being constructed at the terminus into which would be introduced the end of the cable, and during the process of laying no person will have admission there excepting the Secretary of the Company and assistants, and they will avoid all communication with persons outside. Progress will be reported daily to all parts of Europe.

The paying out experiments from the Agamemnon between Dover and Queenstown were perfectly successful.

LATEST.—Mr. Field telegraphs to the agent of the associated press at Liverpool as follows: "Queenstown, July 31.—The submarine cable on board Niagara and Agamemnon, over 2500 miles long, was joined together last evening, and messages sent through the entire length in less than a second. Everything works beautifully and all are in high spirits."

The American horses, Prior and Prioress, made their appearance on the English turf in the race for Goodwin Cup, and were beaten. Fourteen horses ran, and the Americans came in fifth and sixth. The first favorite and two other horses fell, so that the race can scarcely be called a criterion.

Prince Napoleon visited Victoria at the Isle of Wight, and the Emperor and Empress of France are expected there about the 5th of August.

Rumors are current that the government intend to send ten thousand additional troops to India.

There had been a great political demonstration at Rochdale, composed principally of non-electors.

Resolutions were passed, declaring that it is the right of every man who has arrived at the age of 21 years, to vote in elections of members of Parliament—to have protection of ballot in the exercise of that right, and that there ought to be a distribution of the constituencies throughout the United Kingdom, equalized in proportion to the population.

Journals from the Southern and Middleward districts of Ireland state that the greatest anxiety began to prevail with regard to the potato crop; although it was generally admitted that the disease had only partially manifested itself.

INDIA.—Details of Indian news reached London on Friday night. Rumors were very prevalent that Delhi had been taken, but according to the latest authentic accounts, dated June 17th, it was still in possession of the insurgents. It was very generally believed in London on Friday evening, on the strength of a communication from the East India House, that Delhi had fallen. After the close of official hours, an advance took place in Consols on the strength of the rumor.

The Bombay Times of July 1st says:—"Rebellion is universal in the Bengal army, and even the 70th Native Infantry, which was publicly thanked by the Governor General in person for its loyalty three weeks before, had been disarmed."

In Calcutta and neighborhood there had been great excitement, and a conspiracy for a general rising, on the part of the Musulman population, had been discovered, and a regular plan for the capture of the city seized.

The ex-King of Oude and his Minister were found to be at the bottom of the conspiracy, in conjunction with the pensioned King of Delhi, and, it is asserted, with other Mohamedan princes. These discoveries led to the disarming of all the native troops in Calcutta and vicinity, with the exception of the Body Guard, which is composed of picked, well-tried men.

Many of the disarmed men have since deserted.

The defence of Calcutta had become a subject of great anxiety to the Europeans. Government had yielded to the pressure, and consented to the enrolment of corps of volunteer guards, to patrol the streets at night. The inhabitants keep themselves armed, and public buildings, hotels, and other principal places are garrisoned by sailors, belonging to ships in the river.

CHINA.—Further details of the naval operations in Canton river, state that on May 27, thirteen junks were destroyed, and on the 28th twenty-seven heavily armed junks were captured. On the 8th of June, 2000 of the British naval force were engaged, and captured a fort and took or destroyed 127 junks, mounting over 900 guns and 9000 men. The British lost 3 officers and 8 men, and had 56 wounded, some mortally.

FRANCE.—Letters from France say the harvest surpasses expectation.

Paris papers report the death of Lablache, the famous Italian singer.

It is reported in Paris that the result of election proved so unsatisfactory, that modification of universal suffrage is contemplated.

ITALY.—The grain crops are magnificent. At Genoa, wheat which sold a month ago at 33f had fallen to 23.

LIVERPOOL BREADSTUFFS MARKET, Aug. 1.—Breadstuffs are generally quiet and steady. The weather has been favorable for the crops, and the harvest is promising. Richardson, Spence & Co. report:—Flour steady. Wheat dull and easier, but prices are unchanged. The quotations are:—Flour—Western Canal 30s a 30s 6d; Philadelphia and Baltimore 30s 31s; Ohio 32s. Wheat—Red 8s 3d a 8s 9d; white 9s 3d a 9s 9d. Corn—Mixed 38s 6d; yellow 38s 9d; white 45s a 46s. Richardson, Spence & Co. report Wheat declined 1 a 2d.

The Great English Remedy.
SIR JAMES CLARKE'S
Celebrated Female Pills.

Prepared from a prescription of Sir Jas. Clarke, M.D., Physician Extraordinary to the Queen.

THIS invaluable Medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject. It moderates all excess, removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES

it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

Each Bottle, Price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

CAUTION.

These Pills should not be taken by females that are pregnant, thinking the FIRST THREE MONTHS, *as they are sure to bring on Miscarriage, but at every other time and in every other case they are perfectly safe.*

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Fatigue on slight exertion, Palpitation of the Heart, Hysterics, and Whites Pills will effect a cure when all other means have failed, and although a powerful remedy, do not contain iron, calomel, antimony, or any thing hurtful to the constitution.

Full directions accompany each package.

Sole Agent for the United States and Canada,
JOB MOSES,
(late I. C. BALWDIN & CO.,) Rochester, N. Y.

N. B.—$1 and 6 postage stamps enclosed to any authorized Agent, will insure a bottle of the Pills by return mail.

For sale, wholesale and retail, by W. R. PRESTON, Portsmouth, and by Druggists in every town in the United States.

Coggswell's Medical Salt,
A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.

INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—has but ONE AIM—accomplishes but ONE THING, to wit: SUBDUE INFLAMMATORY DISEASE—whatever its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. Every *form of inflammation* (but no other disease) is subdued, as it usually is by the application of cold by water. Is it asked, *how* it does this?—simply by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely what adheres to the point of a pin dipped into a solution of it, to affect the entire system.

☞ *Its intrinsic value, the enlightened community, and not the discoverer, must be the judge.*

PRIME COST, $1, 50 per drachm—PRICE $3 per drachm.

AMERICAN HOUSE,
BOSTON.
Conducted on the European Plan.

LEWIS RICE, Proprietor, respectfully announces that in compliance with the very general preference expressed for the European system of hotel management, that the American House will hereafter be conducted solely on that plan. Well furnished parlor and sleeping apartments will be let by the day, or for longer periods. Meals served at the gentlemen's hall at all hours of the day and evening. The ladies' dining hall will be opened in like manner for ladies, and gentlemen accompanied by ladies. The accommodations and conveniences of the house are unsurpassed, and the recent improvements and alterations leave nothing to be desired. Suburban residents will find the arrangements specially convenient. Large or small parties provided with dinners, suppers, &c., at short notice.

An Act to amend chapter 1828 of the pamphlet laws, passed July 12, 1856.

Be it enacted, &c., Sec. 1. That section one of said act be amended by striking out the word "Hart's" in the list of towns and places in the county of Coos, and inserting instead, the word "Haile's," and that taxes be hereafter assessed upon Haile's Location, accordingly.

Sec. 2. This act shall take effect upon its passage. Approved, June 26, 1857.

An Act in relation to the House of Reformation.

Sec. 1. *Be it enacted, &c.*, That the sum of fifteen thousand dollars be and the same is hereby appropriated to the House of Reformation for Juvenile and Female Offenders against the Laws: to be expended in paying any sums now due for the erection of said House of Reformation, and for finishing and furnishing the building now erected, and preparing the same for the reception of juvenile and female offenders against the laws.

Sec. 2. It shall be the duty of the commissioners for the erection of said House of Reformation, and they are hereby authorized, to complete the building now erected and furnish the same in the most economical manner, agreeably to the act passed July, 1856, having reasonable regard to its original design and purpose. The sum so expended for land and buildings not to exceed forty-five thousand dollars.

Sec. 3. The governor is hereby authorized and empowered to draw, from time to time, by his warrant, said sum from the treasury of the State; and the treasurer is authorized, under the direction of the governor, to borrow all or such part of said sum, at such times, and in such portions, as may be necessary, at the lowest rate of interest at which the same can be obtained, not exceeding six per cent. per annum, payable at different times within five years; and the treasurer for the time being is authorized to pay said sum or sums so borrowed, and the interest thereon, when the same shall become due, out of any money in the treasury not otherwise appropriated.

Sec. 4. *And be it further enacted*, That in the reception of offenders in said House of Reformation, the number to which any county may be entitled shall be determined on the basis of population; and whenever any county shall have, at said House of Reformation, offenders exceeding its population determined as aforesaid, the expense of supporting such excess of numbers shall be paid by the county furnishing the same.

Sec. 5. This act shall take effect from and after its passage. Approved, June 27, 1857.

An Act to incorporate the New Hampshire State Agricultural Society.

Be it enacted, &c., Sec. 1. That Ezra J. Glidden, George W. Blodgett, William F. Estes, David Buffum, Brooks Shattuck, William S. Curtice, James O. Adams, Frederick Smyth, Josiah C. Eastman, Joseph Sawyer, Richard Bradley, Chandler E. Potter, John T. Coffin, Samuel S. Wilcox, John H. White, Sampson W. Buffum, Moody Hobbs, Milan Harris, Zachariah Batchelder, Augustus Rollins, Abial Rolfe, A. B. Closson, John S. Walker, Geo. W. Nesmith, Nathaniel White, David Clement, and Jacob H. Els, and their associates and successors forever, be, and hereby are, made a body politic and corporate, by the name and style of the New Hampshire State Agricultural Society.

Sec. 2. The object of this society being to improve the condition of agriculture, horticulture, manufactures, the domestic and mechanic arts, they shall be, and hereby are, for this purpose only, allowed to have, hold, purchase, receive and enjoy, real and personal estate, and to sell, grant, convey, and dispose of the same; may have and use a common seal, and may sue and be sued, appear, prosecute and defend to final judgment and execution.

Sec. 3. The society shall have power to appoint such officers as they may deem expedient, and to make, ordain, and establish, and put in execution, such by-laws and regulations as shall be necessary and convenient for the government and management of the society, and shall possess the power, and be subject to the liabilities and provisions common to other similar corporations by the existing laws of the State.

Sec. 4. Ezra J. Glidden, James O. Adams, and Frederick Smyth, or any two of them, may call the first meeting of said society, at such time and place, and in such manner as they may deem expedient, giving at least ten days notice, for the purpose of choosing the first board of officers, making and establishing by-laws, and transacting any business necessary and proper to carry into effect the provisions and intention of this act.

Sec. 5. This act shall take effect and be in force from and after its passage; and may at any time be altered, amended or repealed by the legislature, whenever the public good shall require it.

Approved, June 27, 1857.

An Act for the relief of stockholders and creditors of the White Mountains Railroad.

Sec. 1. *Be it enacted &c.*, That the trustees to whom the railroad, franchise, and corporate property of the White Mountains Railroad are mortgaged with power to sell the same, may sell the said railroad, franchise, and corporate property so mortgaged to them, in the manner and agreeably to the terms of the mortgages of the same heretofore executed on the 19th day of February, Anno Domini 1853, and on the 17th day of December, Anno Domini, 1853; which said mortgages are hereby ratified and confirmed, and shall be deemed and taken to be valid, according to the tenor thereof:—*Provided*, however, that any sale under said mortgages shall be made under the directions of the supreme judicial court, who shall have power to decree a sale by shares or otherwise; and further, that nothing in this act contained shall affect any proceedings at law or in equity now pending, and providing further that notwithstanding any such sale, said White Mountains Railroad shall exist as a corporation, as long as may be necessary after such sale, for the purpose of settling up its affairs, and for no other purpose.

Sec. 2. Whenever said railroad, franchise, and corporate property mortgaged as aforesaid, shall have been sold as aforesaid, the purchasers thereof shall be a corporation, with its capital stock all paid in, with all the franchises, rights and privileges hereto-fore conferred by law upon the said White Mountains Railroad, and with all powers necessary to carry into effect this act; and if said purchasers shall not have been organized as a corporation at the time of such purchase, they may, at a meeting called by any of said purchasers having an interest in said purchase to the amount of one-third thereof in value, which call shall be published in some newspaper published in Grafton county, at least fifteen days prior to said meeting, or at any subsequent meeting, adopt a corporate name and seal, make reasonable by-laws not repugnant to the laws of this State, and choose or provide for the choice of all necessary officers. And the capital stock of said corporation so organized shall consist of not more than twenty-five hundred shares of one hundred dollars each.

Sec. 3. All corporate rights acquired by virtue of this act, shall be subject to existing laws in regard to such corporations, and to such other laws as may be hereafter enacted.

Sec. 4. This act shall take effect from its passage. Approved, June 27, 1857.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. Franck & Co are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from $20 to $100'00. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union of Washington, D.C.

LOTTERIES.

The Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $500; every prize being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York *Weekly Day Book*. Write your address plainly, and direct to S. SWAN & Co., Atlanta, Georgia

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,

(*Late Agent of U. S. Patent Office, Washington, under the Act of 1837.*)

No. 76 State st, oppo. Kilby st, Boston,

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not necessarily equalled to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office as Solicitor of Patents. I here now know, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the less few informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

Agency U. S., 1856.—During the time it have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

A PICTURE.

BY B. F. SHILLABER.

There's a little low hut by the river's side,
Within the sound of its rippling tide;
Its walls are gray with the mosses of years,
And its roof all crumbly and old appears,
But fairer to me than a castle's pride
Is the little low hut by the river's side.

That little low hut was my natal nest,
Where my childhood passed—life's spring-time blest—
Where the hopes of ardent youth were formed,
And the sun of promise my young heart warmed,
Ere I threw myself on life's swift tide,
And left the dear hut by the river side.

That little old hut, in lowly guise,
Was lofty and grand to my youthful eyes,
And fairer trees were ne'er known before
Than the apple-trees by the humble door,
That my father loved for their thrifty pride,
Which shadowed the hut by the river side.

That little low hut had a glad hearth-stone,
That echoed of old with a pleasant tone,
And brothers and sisters, a merry crew,
Filled the hours with pleasure as on they flew;
But one by one have the loved ones died
That dwelt in the hut by the river side.

The father revered and the children gay,
The grave and the world have called away,
But quietly all alone there sits
By the pleasant window, in summer, and knits,
An aged woman, long years allied
With the little low hut by the river's side.

That little old hut to the lonely wife
Is the cherished stage of her active life;
Each scene is recalled in memory's beam,
As she sits by the window in pensive dream,
And joys and woes roll back like a tide
In that little old hut by the river's side.

My mother!—alone by the river's side,
She waits for the flood of the heavenly tide,
And the voice that shall thrill her heart with its call
To meet once more with the dear ones all,
And form, in a region beatified,
The band that erst met by the river's side.

That dear old hut by the river's side
With the warmest pulse of my heart is allied,
And a glory is over its dark walls thrown
That a atellier fabrics have never known;
And I shall still love, with a fonder pride,
That little old hut by the river's side.

The Old North Mill Pond.

CHARADE.

Down, down the deep cavern,
The car speeds its way,
Wrapt round by my *first*,
To perform night and day.
By Nebuchadnezzer
I plainly was seen,
And the sturdy old farmer
Hangs me to his team.
My next is a turn
That Eve took of old,
Coquetting with Satan
Fair Eden she sold.
My whole o'er the South sea,
The North sea, the West,
And o'en to the East,
Where the sun lifts his crest.
By winning the victory,
Our foes I made frown,
As the annals of history
Record with renown.

Lawrence's Carminative,
—OR—
CHILD'S PAIN-KILLER.

THIS invaluable preparation is a favorite scientific prescription of one of the most eminent of the Medical Faculty in New England, and one who has been successful as any other in the treating of
DISEASES OF CHILDREN,
and has been used with never-failing success.
The Carminative is emphatically
A CHILD'S MEDICINE,
and is the *only* Child's Medicine in this country; intended to do away with the excessive and injurious use of *Paregoric*, a remedy sure to be followed by a "dose of physic."
The ingredients of which the *Carminative* is compounded, are known to the Medical Faculty, and it is now extensively used, and approbated by the physicians living in the vicinity of the Laboratory, where opportunity has been had to test its virtues.
The *Carminative* is offered in full confidence for the rapid cure of
Colic, Pain in the Bowels, Wind in the Stomach and Bowels, Green Stools, Diarrhea, Nervous Affections, Sore Mouth, Restlessness,
and other disorders incident to Weaning and Teething; sure to regulate derangements of the Stomach and Bowels, which often afflict young children; prevent Vomiting and sour Stomachs, relieve pain and give tone, energy and strength to the whole system.
One regard has been taken to have the price of the Carminative so low as to be within the reach of all. Price *only 25 cents.*
Parents who value rest should not fail to buy a bottle, as they may depend upon its giving relief to "worrisome children."
Sold by country traders and all Apothecaries throughout the United States and Canada.

S. D. & H. W. Smith,
—MANUFACTURERS OF—
Melodeons, Organ Melodeons,
—and—
PEDAL BASS MELODEONS,
No. 511 Washington St., Boston.

The first premium over all competitors, at the Fair of the Mass. Charitable Mechanic Association, of the National Fair, Washington, D. C., also at the Ohio State Fair, held at Columbus, Ohio, was a warded to these Manufacturers.
By means of a new method of Voicing, known only to themselves, they have succeeded in removing the harsh and buzzing sound which formerly characterized the instrument, and rendering the tones full, clear and organ like. The action is prompt and reliable, enabling the performer to execute the most rapid music without blurring the tones. The swell is arranged to give great expression.
THE PEDAL BASS MELODEONS,
Are designed particularly for Churches, Lodges, Halls, &c. It is arranged with two manuals, or banks of Keys, the lower set running an octave higher than the other, and may be used separately, and thus get in one case two distinct instruments; or by use of the coupler, the two banks of keys may be played at the same time by use of the front set only. This connected with the Pedal Bass, will produce the effect of a large organ, and is sufficiently heavy to fill a house that seats from 1000 to 1500 persons.
THE ORGAN MELODEON
Is designed for parlor and private use. The construction is similar to the Church instrument, being arranged with two banks of Keys, and when used together, by means of the coupler, is capable of as great volume of power as the Church Instrument when used without the pedals. Also, every variety of MELODEONS for Parlor use.
Purchasers may rely upon instruments from our Manufactory, being made in the most complete and thorough manner. Having removed to the spacious Buildings
511 Washington Street,
We have every facility for manufacturing purposes, and employ none but the most experienced and skilful workmen. In short, we will promise our customers an instrument equal, if not superior, to any Manufacturer, and guarantee an *entire and perfect satisfaction.*
Music Teachers, Leaders of Choirs, and others interested in musical matters, are respectfully invited to visit our Rooms at any time and examine or test the instruments on exhibition for sale at the Manufactory.
As a still further guarantee to the public as to the excellence of the MELODEONS from our Manufactory, we beg leave to refer, by permission, to the following,
Piano Forte Manufacturers of Boston,
who have examined our Instruments, and will give their opinion when called upon:
Chickering & Sons, Hallet & Cumston,
T Gilbert & Co, Wm. P. Emerson,
Brown & Allen, A. W. Ladd & Co.,
George Hewes, Woodward & Brown,
Newhall & Co.
MELODEONS RENTED.
Persons who wish to hire Melodeons with a view of purchasing at the end of the year, can have the rent credited as part payment of the purchase money. This matter is worthy of special note, as it enables those who desire a fair test of the instrument before purchasing, to obtain it at the expense of the manufacturers, to the extent at least of a year's rent.
Orders from any part of the country or world, sent direct to the manufactory in Boston, with cash, or satisfactory reference, will be promptly attended to, and as faithfully executed as if the parties were present, or employed an agent to select, and on as reasonable terms.

IMPORTANT DISCOVERY.
DR. CHEESEMAN'S PILLS FOR FEMALES.
Prepared by an old Physician of 40 years experience.

THE combination of ingredients in these Pills, they are mild in their operation, and certain for restoring nature to its proper channel. In every instance the result of a long and extensive practice; they are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and sickly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among the female decline, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.
These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. Cheeseman, Box No. 4,831, Post Office, New York City, can have them sent to their respective addresses by return of mail.

FRIDAY, AUGUST 14, 1857.

ELECTION IN MISSOURI.—A correspondent of the New York Courier, in commenting upon the current rumor that Rollins, the candidate of the emancipationists, had been elected Governor of Missouri, remarks that whatever attempts were made to disguise it, emancipation was the only issue in the late Missouri election; and the conservators and champions of slavery have been defeated. This is one of those revolutions which derive momentum from progress, and cannot go backward. It may reach its goal by slow or rapid advances, but the end is in view, and will not for a moment be lost sight of. The agitation of this great social and political problem in Missouri saves both Kansas and Oregon from the inroads of the slavery propagandists.

The Traveller remarks that "there seems to be no reason to doubt the election of Major Rollins, the anti-slavery candidate for Governor, in Missouri. He was 3000 ahead, with but a dozen small counties to hear from; and intelligent Missourians now in Boston represent that these cannot materially vary the figures. No other State officers, save three Judges of the Supreme Court, were voted for at this election. Two Democrats, present incumbents of seats on the bench, are re-elected as judges; and the third man chosen is new to the place, and an American. They were all sustained by the supporters of Rollins."

If these figures are true, and if this view of the election is correct, then the result in Missouri is no victory of a party, but something far better, a victory of liberty, in a very important quarter. Well do we remember the Missouri controversy, the bugbears about dissolving the Union, the compromise, and all that great ado to obtain an extension of slavery. And now, almost at the end of 40 years, that extension is seen to be worse than nothing.

Just at this precious nick of time, too, comes this democratic anti-slavery move in Missouri,—just after the famous Taney opinion, that the restrictive clause of the Missouri bill is unconstitutional.

Well: it is a hard matter to say where any true National slavery men can be found now!

If the secessionists don't make haste out of the Union, they may lose Virginia,—nothing seems safe but Carolina and Georgia.

A VICTIM OF THE DIVORCE LAW.—The trial of the "Talbot Divorce Case" in the English House of Lords, created much sensation two or three years ago. Mrs. Talbot was the mother of children, a lady of refinement, of unassuming manners, and domestic habits. It was alleged that during the absence of her husband she indulged in illicit intercourse with an ignorant groom of the stable. Two or three servants swore to knowledge of her guilt, but the principal witness against her was the family clergyman, Mr. Sargeat. He testified we believe, to having caught her in the act of adultery. The woman was insane at the time of the trial, and the clergyman expressed the belief that when she committed the act she was in the incipient stages of insanity. Much sympathy was felt for the "unfortunate husband," and though many believed the lady to be a victim of conspiracy, the high character of the clergyman carried through the bill for divorce. Recently he has delivered himself up to the authorities, acknowledging that he perjured himself. In the meantime the victim of the conspiracy has deceased. We are not perfectly assured of what became of her husband, a "sprig of nobility," but believe that he married soon after obtaining the divorce.

SUICIDE IN EAST ABBINGTON.—On Monday last Jacob Barrowsville, a shoemaker, in East Abington, committed suicide by hanging himself with a leather strap to a tree in the edge of the wood not far from his house, where he was discovered some two hours afterwards by two little girls who were going out to pick berries. Barrowsville was a French Canadian by birth, but had lived in Abington eight or ten years. His age was about twenty-eight years. He was usually an industrious man, but was occasionally addicted to hard drinking, and since the 4th of July had had rather a severe season of excess, which had left him in a very depressed state of mind. An inquest was held by Levi Reed, Justice of the Peace, and the jury returned a verdict of suicide, "while suffering from the effects of the immoderate use of intoxicating liquors."—*Trav.*

NEW YORK, Aug. 12. The writ of certiorari in the Cunningham case was argued this morning before Judge Daly and discharged, and the motion to admit Mrs. C. to bail denied.

The famous Cunningham baby and mother will, it is said, be exhibited at Barnum's Museum on and after to-morrow.

SIGMA, PARKER PILLSBURY, AND THE BOSTON COURIER.—A writer in the Boston Transcript of Tuesday evening, writes thus:

I am confident that you do not wish or intend to allow the Transcript to be made the vehicle of calumnious charges against any man's good name. Yet the statement in an article signed "Sigma," in your paper of Saturday evening, that "Parker Pillsbury, some years ago, performed in public the ceremony of baptizing three dogs, in the name of the Father, Son, and Holy Ghost," is of this character; and I appeal to your sense of justice, right, and honor, to allow me, as a friend of Mr. Pillsbury, so much use of your columns as is needful, to pronounce the above words of "Sigma" *false in every respect.* The charge was originally made by a reckless reviler, and has been, again and again, publicly denied and disproved.

The Boston Courier of the next morning says, editorially:

We observe a communication in our neighbor, the Transcript, the writer of which, in no measured terms certainly, offers an "emphatic denial" to what he pronounces calumnious charges, made by another correspondent of that paper, against the "good name"—Heaven save the mark! of Parker Pillsbury!

* * * the most sensitive persons in the world about what they call their "good name," when they find themselves once in a while, held up in their true colors to a discerning public, &c.

We know nothing about the horrible offence charged by "Sigma" upon Pillsbury,—but everybody knows that a great many of that set are in the habit of saying and doing things which show a state of heart and mind capable of almost any atrocity.

If you know nothing about the matter in hand, why undertake, in a flippant article, to condemn any man unheard? Surely this is beneath the dignity of men of letters, or of gentlemen who are not learned.

We *do know* something of the offence charged by Sigma on Pillsbury, viz: the baptism of *three dogs.*

First, there was *no dog* there, at all.

Secondly, Pillsbury only supposed a case, viz: that *if he*, as a minister, should perform the baptismal right on a dog, in the usual form of words, Christian people would say he was a blasphemer.

Thirdly, he said ministers perform this right, and use those words, on a slave, who is then, by these very ministers, or their hearers, beaten like a dog, and his wife and children separated and sold from him, with no more scruple than if they were all dogs. And this, quoth he, is greater blasphemy.

This statement of his was misreported, not by Sigma, but by somebody who meant to deceive the public, and did not stick at a lie. The false report was published, and republished all over the land. Sigma saw, read, believed and repeated the lie,—having probably never seen the *contradiction*, as very few papers would take the trouble to do justice to Parker Pillsbury.

And now a paper with the high professions and claims of the Boston Courier, speaks of holding up a man in his *true* colors to a discerning public!—tho' the "true color" referred to was proved to be a lie, long ago,—and tho' the editor confesses he knows nothing about it!

Such poor, flippant criticism would disgrace Parker Pillsbury; we do not see how it can honor or benefit the Courier or its readers.

A WHISKEY BONFIRE.—The Plymouth, Illinois, Locomotive thus tells how the folks of Augusta, in that State, made a bonfire:—

"The nuisance of liquor selling had got to be intolerable (as it ought to be everywhere in the eyes of all men,) and a large number of the most respectable citizens determined to abate it, at all hazards.—Accordingly a committee visited the several groggeries—three in number—and represented to their owners the determination that had been made, and offered to buy them out at fair prices, on condition that would enter into bonds to sell no more. They agreed; but as might have been expected of liquor sellers, two of them afterwards backed out, unless a higher price was offered than had been agreed upon.

To this demand the committee assented—the money was raised and paid over (in all about $140)—the liquor consisting in part of bad whiskey, and partly of other worse whiskey, colored and compound, and marked "brandy," was rattled out, the torch applied, a bonfire raised, and the stench of three Augusta groggeries ascended to heaven.

At the Main street elevator, in Buffalo, two Irishmen were sent up to shovel a bin of heated corn, into the funnel; the corn, in its heated state, had become piled up about the opening in the floor, some twelve feet high, and the two men went into the open space, instead of staying at the back and shoveling into it. The corn closed over them, and before they could be rescued Hanlin was dead, and Fails barely escaped with life.

SHARON SPRINGS.—The crowd has been so severe at Sharon, that Rumor—the lying rogue—says that the ladies have been obliged to take out their dresses and sleep in their huge Saratoga trunks, for want of bedroom. The story has an air of truth, because Saratoga trunks are now full big enough for little ladies to sleep in.—*N. Y. Express.*

EXETERIANA.

EXETER, Thursday, Aug. 13.

Dear Chronicle:—"Blessings on him who invented sleep," but none on him who concocted, (and patented, probably,) the lethargy in which our whole village has been plunged for the last month. Everybody hereabouts has been in a deep snooze, except a few Greeks who *wake* up now and then when a little whiskey is on hand to top off the ceremony with: everybody was slumbering in blissful unconsciousness until the booming tones of an awful squib from your sheet aroused the whole community Thursday morning.

Please not permit that rash fellow, who so brazenly suggested the frightful idea of having the "Exeter Fair and"—the "Rockingham Fair and Cattle Show," we would say,—held down in the corner of the County, at Portsmouth; please not permit him, we urge you, to set foot in Exeter. It is with great trepidation that we pen this short piece of advice, as it is expected that in a few hours the whole town will be in an uproar. The axiom that this show can be held no where else than at Exeter is as well understood, or ought to be, as the fact that all the learning, talent and enterprise of the United States is centered at Boston, Mass. Let not the faith of our good people in this axiom, then, be undisturbed. We hope you will just assure us, and Exeter people generally, that you really don't mean anything by your insinuation of this (Thursday) morning. If you do thus, you may rest assured that the present circulation of the Chronicle in Exeter will be sustained; serious consequences will be averted, and the well-known good-feeling between our town and your city be kept up and even strengthened.

We can announce the following with a *reasonable* degree of certainty:—

The Annual Fair and Cattle Show of this County will be held (at Exeter!) on the —— day of ——next. Great attractions will be presented.

Please let us sleep in peace until the Fall trade commences.

Yours, dreamily, T. G.

A correspondent of the Chicago Tribune says that being in Rock County, in Illinois, one day last week, he "went up on top of a hill called Mt. Zion, six miles from Janesville, and counted on the surrounding plain, *one hundred and fifty four horse* power reaping machines, busily cutting down wheat. There were one thousand men, women and boys following after, binding and shocking up the golden sheaves. It was a sight worth seeing, to behold the grain falling and being gathered up at the rate of two hundred acres per hour."

In Philadelphia, there is a widow lady who has twenty-five children, all living at home and none of them married.

NEW YORK, Aug. 13.—Advices from the South state that Gen. Walker is making some progress in the collection of funds for his new movement in Nicaragua, but not to the extent that he and his friends anticipated.

Yesterday, Ellen, aged six years, slave of Miss Louisa Kerr, of Savannah, Ga., was declared free by Judge Robertson, in Westchester, N. Y. Ellen is daughter of John Bull, alias Dimmock, the person who claims to have been taken a prisoner board the English sloop-of-war Peacock, in 1812, and subsequently sold into slavery. Miss Kerr, in her testimony, says she had long since heard of Dimmock's having been on board the Peacock, when she was taken by the Hornet, and she believed the story to be true.

A gentleman from Savannah, Ga., at present stopping at a hotel in New York city, was allured into a gambling circle, last Friday evening, and while stupefied with drugged liquor, was robbed of $576 in cash, and a gold watch worth $200. He says he can forgive the loss of the money, because he had no business in such a place; but he mourns the loss of his watch, which was the gift of a sister.

The total abstinent, who takes no liquor, is the only man who is safe from drugged liquors: and ordinarily he is not found among the gamblers nor shakers down.

HAIR RESTORATIVE.—We are pleased to record the satisfaction of our patrons, after trial of an article advertised in our columns. We have the satisfaction to know several of our readers who have used Prof. Wood's Hair Restorative, and pronounced it to be just what the advertisement says it is. We have several personal acquaintances, too, who were gray headed, they have tried it, and now their hair is restored to its original color, and they willingly add their testimony to its efficacy, and will give further information to others desiring it. This speaks well for the article, and we advise all who do not wish to appear gray-headed, to use Wood's Hair Restorative.—[Western Patriot.

THERE ARE HUNDREDS OF REMEDIES Sold at every Drug Store, purporting to cure all diseases nameable, each advertised as the very best ever known, till we had lost all faith in them all, but there is one exception.

We speak of Dr. Sanford's Invigorator, which came to us recommended as a cure for Liver Complaints, and all diseases arising from a Diseased Liver. The testimonials of so many of our Physicians in its favor, induced us to try it, and now conviction is certain that it is one of the greatest blessings ever given to Dyspeptics, for it made a complete cure before the first bottle was taken, and now we can eat anything eatable without trouble, while before, nothing but the lightest food would digest, and often would digest, and often that gave pain. Now what we want to say to all our readers is, if Liver Complaint or Dyspepsia trouble you, do not fail to try this, the greatest remedy in the world.

LOCAL.

MUNICIPAL.—*Thursday evening, Aug. 13.* In Board of Aldermen, the petition of the Cornet Band for $200, to be appropriated toward paying for their instruments, was granted, on condition the instruments be conveyed to the city for the use of a Band resident here.

The proposition of Robert Gray relative to widening the sidewalk in Vaughan st., from C. C. Jackson's premises to School st., was acceded to.

Alderman Raynes introduced the following order, which was adopted:

Ordered, that the Com. on Fire Department be empowered to buy a hose carriage for Engine No. 3, not to exceed $50.

The affair of Wibird's Hill was brought up again, and laid over until next year.

The request of Capt. Lambert for sidewalk in State street was granted.

The petition of John S. Harvey for relaying sidewalk, was referred to Com. on Streets, Roads and Bridges, with power to act.

Various bills were approved and ordered to be paid, and several orders accepted and several bills referred to different committees.

Alderman Raynes introduced the following order, which was referred to Com. on Streets, Roads and Bridges:

Ordered that the entrance to the sewer running through Vaughan st. to Hanover, be covered with an iron grating to protect travellers.

The subject in regard to the right of the contractors to remove sidewalk in front of the site of the new Custom House was referred to the same Com.

Jeremiah Sanborn asks to encumber State st. for building.

A message was received from the Com-Council relative to the appropriation for the Cornet Band, and concurred with.

The Common Council met at a Call of the Mayor.

Received a petition for $200 for Cornet Band, provided a like sum be subscribed by citizens; endorsed by Wm. P. Jones, L. D. Spalding, and others. The resolution having been favorably considered by the Joint Committee on Finance, the sum asked was granted, provided the instruments were conveyed to the city free of incumbrance, and that the Band give two public concerts a week, during August and September of the present year.

The proposal of Robert Gray was referred to the Committee on Streets, &c.

Mr. Hatch offered resolutions, which were laid on the table, and gave notice that he should call them up at the next meeting, condemnatory of the recent act of the Legislature, whereby the wards of this city were altered.

☞ The pleasure travel was certainly never greater, in this region, than during the present season. The Rye Beach houses are full and more too; and there are doubtless more boarders at the "private houses" in their vicinity than at the hotels. In five of the chief of those last, there are about two hundred boarders!

The shoals are also numerously visited. The Sibyl carried out about sixty passengers on Thursday; and had a large return party.

☞ A party of five young men started from this city, on Saturday morning last, to walk to the White Mountains. This they could doubtless do well enough, had they not "made jackasses of themselves" at the start, by each shouldering a pack weighing fifteen or twenty pounds! We've "been there," and know how much a pound weighs when you've walked with it for a couple of hundred miles.

☞ It will be observed by our advertising columns, that Joseph B. Adams, Esq., has taken the spacious and eligible store in Congress Block, so long known as the "City Sales Rooms;" and will continue the auction and commission business there.

SHAKING DOWN.—In Boston, on Wednesday night, a man named Marcellus Chandler, who stated that he belonged in Portsmouth, N. H., sauntered into North street, and while in that locality, visited several places where very poor liquor is retailed. While in one or these places, he formed the acquaintance of Maria Hannon, and as a matter of course, wishing to display a little of the Granite State gallantry, stood several treats. While in one of these places, Maria abstracted his wallet, containg $35. When he missed his valuables, of course there was a row, the police were called, and Maria was arrested to answer to the charge of robbing Marcellus, locked up in the station house; as was also Marcellus, to appear against her as a witness. So says the Traveller.

☞ The alarm of fire on Thursday afternoon was caused by the burning of some bushes a little way out of the city.

☞ After reading the pleasant poem below, read the "Picture" on the first page. We intended to have inserted the two pieces together—but accident prevented. All acquainted with the localities sufficiently to appreciate the allusions, will enjoy them highly. The devoted "mother" referred to, now upwards of four-score years of age, "alone by the river's side still waits for the flood of the heavenly tide." She still entertains many visitors with the tales of long ago, which she delights alike herself and hearers by relating.

THE OLD NORTH MILL-POND.

BY B. P. SHILLABER.

Rippling, rippling on memory's shore,
Comes the sound of waters evermore—
Comes in the dreams of quiet night,
Comes in the day's effulgent light,
Comes with the thoughts of years bygone,
Thrilling my heart with its monotone,—
Thrilling my heart with emotions fond,
As I think of the dear old North Mill-Pond.

There are lakes which glow 'neath warmer skies,
There are waves which shine in grander guise,
There are mightier seas and loftier streams
Than this meandering through my dreams;
But none for me have a stronger claim
Than the humble one with its humble name,
That has drawn my muse from its flight beyond,
To bathe its wings in the North Mill-Pond.

I've passed far on life's devious track,—
Onward—still onward—but, looking back
O'er a weary landscape of cares and tears,
A boy by a silvery stream appears,
Who smiles as he stands in the sun's bright ray,
As I smiled in glad boyhood's day,
Ere the bitter lesson of life I conned
And left the side of the North Mill-Pond.

Oh, blessed alchymy of youth,
Thrt holdest the mirror up to truth,
And all that makes the young heart blest
Is on the polished plate impressed;
Each scene by young affection traced
Its vivid still and undefaced,
Drawing me back with a loving bond
Again to the bank of the North Mill-Pond.

The grave yard lies o'er the water blue,
The old grave yard which my boyhood knew;
The white stones gleam by the hillocks green,
And nameless mounds strew the space between;
And sweetly they rest in their dreamless sleep
Whom the graves in their motherly bosoms keep,
Recalled and held in affection fond,
As they rest beside the North Mill-Pond.

'Twas beautiful when the eve was still,
To list to the drone of the distant mill,
As it rose and fell on the summer air,
In the dewy darkness resting there;
Its tones were words to my youthful ear,
My heart was soothed with their better cheer,
And was borne away to scenes beyond
The margin green of the North Mill-Pond.

And when in the north the lightning shone
From out the gathering tempest's throne,
In the hush of the winds ere they woke from rest,
To foam o'er the water's placid breast,
I loved to stand mid the shadows dark,
The muttering thunder's voice to hark,
And my soul to its music did respond,
As I sat by the side of the North Mill-Pond.

'Tis here again with its early note,
Again on its tenuteous tide I float;
I bathe once more in its crystal bright,
And sport with the skaters in rapid flight,
And fish for minnows beneath its waves,
From the broad flat stone which the water laves,
All, all are here in remembrance fond,
And my heart is glad for the North Mill-Pond.

Thus rippling, rippling on memory's shore,
Comes the sound of waters evermore!
Oh, sound of delight, my spirit hears
And treasures the words of those distant years—
Ere care had deadened or sorrow pressed
To ruffle my buoyant bosom's rest—
When hope was bright nor knew despond,
By the smiling and beautiful North Mill-Pond.

Portsmouth N. H.

A CARD.

The officers and members of Laconia Engine Co. No. 2 take this method to return their sincere thanks to Capt. Goodwin, for a pass over Portsmouth Bridge and back, on their visit to the Navy Yard, with their friends, on the 11th.

Also to the members of Atlantic Co. No. 0, and Piscataqua No. 4, for refreshments furnished them on their march through the city.

Also to the popular landlord of the City Hotel, William S. Hadley, Esq., for the bountiful dinner supplied on that occasion.

Also to the Portsmouth Cornet Band, for the beautiful selection of music furnished through the day.

And to His Honor the Mayor and the Chief Engineer, for the interest they manifested on that occasion.

Per order of the Company.

JOSEPH H. GARDINER, Clerk.

City Phalanx, Attention!

THE Officers and Members of the City Phalanx, are notified that a Meeting of the Company will be held at the Armory, in Ladd street, on WEDNESDAY EVENING, Aug. 19th, for the choice of Officers, and the re-modelling of the Company agreeably to the New Militia Law of the State—and to make other arrangements to apply for a new charter and commissions.

Every member is requested to be present; and others interested are invited.

Per order of the Captain

JAS. R. MORRISON, Clerk.

AMERICAN HOUSE,

BOSTON.

Conducted on the European Plan.

LEWIS RICE, Proprietor, respectfully announces that in compliance with the very general preference expressed for the European system of hotel management, that the American House will hereafter be conducted solely on that plan. Well furnished parlor and sleeping apartments will be let by the day, or for longer periods. Meals served at the gentlemen's hall at all hours of the day and evening. The ladies' dining hall will be opened in like manner for ladies, and gentlemen accompanied by ladies. The accommodations and conveniences of the house are unsurpassed, and the recent improvements and alterations leave nothing to be desired. Suburban residents will find the arrangement specially convenient. Large or small parties provided with dinners, suppers, &c., at short notice.

LAWS OF NEW-HAMPSHIRE.

Passed June Session, 1857.

An Act for the preservation of pike in Spofford's Lake.

Be it enacted, &c.: SEC. 1. That from and after the passage of this act, it shall not be lawful for any person to fish for or take with a spear or spears or any similar instrument, any pike, in any of the waters of Spofford's Lake, so called, in Chesterfield, in the county of Cheshire, for and during the term of three years.

SEC. 2. Any person or persons offending against the provisions of this act, shall be subject to a fine not exceeding the sum of twenty dollars, to be recovered before any court competent to try the same; or to imprisonment in the common jail in said county, for a term not exceeding twenty days.

SEC. 3. All acts and parts of acts, inconsistent with the provisions of this act, be, and the same are hereby repealed. Approved, June 27, 1857.

An Act to enable the town of Claremont to establish a high school.

SEC. 1. *Be it enacted, &c.,* That there shall be kept and maintained in the town of Claremont, a high school, in addition to the district schools in said town, for the benefit of the more advanced scholars in said town.

SEC. 2. Said town shall annually choose, by ballot, a committee consisting of not less than three nor more than nine persons, to be denominated the high school committee, who shall hold their office until the next annual town meeting, and until others are chosen in their place; and when any vacancy occurs in said committee, the same may, at any time, be filled by appointment by the selectmen.

SEC. 3. Said Committee shall chose a chairman and secretary, and shall receive and appropriate the money assigned to said high school, shall examine and contract with the teachers thereof, fix and pay their salaries, provide all necessary fuel and apparatus for the school, regulate the admission of scholars, prescribe the branches of study to be pursued, and the class-books to be used, and transact all other business relating to the regulation and government of said school

SEC. 4. Said committee shall, on or before, the first day of March, annually, make a report to the selectmen, containing an account of their receipts and expenditures, and also, at the annual town meeting, shall lay before the town a report, giving a general view of the condition of said school.

SEC. 5. The selectmen shall annually assign and pay over to the high school committee, such portion of the school money of said town as they shall think sufficient for the support of said school, or as the town shall direct.

SEC. 6. Said town, at its annual meeting, or at any meeting called for the purpose, shall raise so much money as is necessary for erecting, enlarging, repairing, purchasing, removing or hiring a school house or other buildings, for the accommodation of said school, and furnishing the same with necessary furniture, and the selectmen shall assess such sum upon the polls and ratable estate within said town, and shall cause the same to be collected like other town taxes, and shall appropriate the same for the purposes for which it was raised.

SEC. 7. All the provisions contained in the general laws of the State relating to schools, shall be in force in the town of Claremont, except so far as the same are herein modified or rescinded.

SEC. 8. This act shall be in force from its passage, but shall not take effect in said town until adopted by a vote thereof, at a meeting called for that purpose.

SEC. 9. Any town, at its annual meeting, or at any meeting lawfully called for the purpose, may adopt the provisions of this act, which shall therein extend and apply to such town as fully as to the said town of Claremont.

Approved, June 26, 1857.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FRANCE & Co are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from $20 to $100 '00. All orders for tickets or packages will receive a prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers: The Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

Address T. H. HUBBARD & CO.,
No 20 Fayette st., or box No. 40,

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $50,000; every prize being drawn, and result of drawing forwarded to all purchasers.

☞ The drawn numbers of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. Write your address plainly, and direct to S. SWAN & Co., Atlanta, Georgia

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m18ly

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

No. 76 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense extension of the subscriber dd during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office as solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

AUGUST 11, 1856.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

A CURIOUS PIECE OF ROMANCE.—The New Orleans exchange papers are full of a singular piece of romance that is now on the tapis in that city. The particulars are follows:

A young milliner girl, with whose charms a young Spaniard had been smitten, was presented by him with a ticket in the Havana lottery, on the condition that if it drew a prize they should share the money and get married. The girl smilingly consented to the arrangement, and the amorous Spaniard left.

The next arrival from Havana brought the drawing of a lottery, and what was the astonishment of the pretty milliner and her beau to find that the three eights held between them, were of the number which drew the capital prize, and poured at their feet, as if by magic, the pleasing little pinch of $18,750, (less the discount for cashing.) The young man lost no time in coming to an understanding with his sweetheart. He held her to her bargain; she held to it also, and, in an ecstacy of happiness, the lover set about making arrangements for the marriage.

A fine house on Bienville street—whether purchased or rented we did not learn—was procured and fitted up sumptuously for the coming nuptials and the honeymoon which was to follow. The bride (that was to have been) made a lavish use of the money placed at her command; provided herself with a wardrobe rich enough for a queen, and made other preparations for the coming event; whilst the bridegroom (that was to have been) in his ecstacy, presented her with a case of jewelry worth $2,500.

Everything being ready on his part, he called upon his intended to see how she was getting along. She received him coldly—avoiding conversation about the wedding,—and finally gave him to understand, in a manner which he could not misunderstand, that she had changed her mind, and wouldn't marry him, notwithstanding Dame Fortune's command, and the complicated state of the case between them in regard to the money, jewelry, etc. She had undergone one of those reverses of feeling which are so common in sudden accessions to fortune, and there was no use in the Spaniard talking to her about marriage.

The discarded lover did not shoot or drown himself, but went straitway and entered legal proceedings against her. He was making his preparations on Saturday to institute a suit at law, against his faithless fair one, for the recovery of the money used by her, or the articles purchased therewith, and what loose change she might have besides. He insists, with the tenacity of a Shylock, upon the young lady's fulfilment of the bond to the very letter—else not one picayune will he abate of his just demand.

GOV. WALKER'S LIQUOR BILL.—The City Council of Leavenworth have refused to pay the Governor's liquor bill. The facts of the case are stated in the report of the committee to whom the bill was submitted. We subjoin it:

LEAVENWORTH CITY, July 28.

The committee to whom was referred the bill presented to the city council against the city of Leavenworth, for the entertainment of Gov. Walker and suite, ask leave to make the following report:

We find, on examination, that upon the arrival of his excellency Robert J. Walker, in our city on the 25th of May last, that the city council passed a resolution tendering the hospitality of the city to the new governor, believing that the then acting council contemplated giving his excellency an entertainment suitable to the occasion and creditable to our young city. At two o'clock of the same day the Governor was requested to address the citizens, who had gathered in large numbers in front of the Planter's House; he refused to address them, but in lieu thereof had bottles of brandy and champagne to the value of two hundred and ten dollars ($210) distributed amongst the crowd that were present; and this bill is now presented by the proprietors of said Planter's House for payment.

We are first opposed to the allowance of this bill because it was not contemplated by the city council that the hospitality of this city, so generously tendered to his excellency, should be thus abused.

And in the second place, that it would establish a dangerous and pernicious precedent.

And in the third place, we will not give our influence nor open the city treasury for the encouragement of intemperance, the mother of crime.

We therefore recommend that the bill be laid on the table. All of which is respectfully submitted.

S. N. LATTA,
[Signed] HENRY FOOT,
N. M. SATTING.

HOW TO GET GOOD SHIRTS.—The Providence Transcript well remarks:

"A New York editor thinks, from the manner in which shirts are made in that city, there should be an "inspector of shirts." He says he put on a new one the other day, and found himself, when he awoke in the morning, crawling out between two of the shortest stitches. The editor was unfortunate. But instead of an "inspector of shirts," we suggest that our brother of the quill, the next time he wants a garment of the kind described, buy the cloth, take it to a seamstress, and pay her a fair price for making it up.—We do not believe he would have occasion to complain. What kind of stitches can be expected at the prices which are paid for the work? If those who have occasion to purchase articles would employ the sewers themselves, or patronize only those establishments where remunerative wages are paid, there would be no complaint about the quality of the work. Extortion would be discouraged, and justice done to a very worthy class of industrious and ill-paid females."

PECULATION.—A young man named Stewart B. Adams, who has been for the past seven or eight years employed as bar-keeper of the Howard Hotel, corner of Broadway and Maiden Lane, New York, has been arrested, charged with embezzling from his employer, at various times, different sums of money, amounting in the aggregate to many thousand dollars. During the time mentioned, a large business was done at the bar, but yet the receipts were comparatively small. Mr. Lamb, the proprietor, wondered much at this, but could not bring himself to believe that his bar-tender was playing false. At length, he employed a person to remain one day in the bar-room, and keep a record of the number of glasses of liquor sold. The result was that a discrepancy of $20 was discovered between the number of drinks sold, and the receipts accounted for. Ex-police officer Farley was then set to watch Adams, and soon ascertained that he associated with sporting men and fast women, and that he frequently spent at houses of ill resort more than his month's salary; that one of his female favorites had recently purchased the house in which she lived in Thompson street, and that there was reason to believe that the purchase money was obtained from the gay bar-tender. Further inquiries were made, when a young man, named Schiller, who had acted as an accomplice with Adams, revealed all he knew of the transaction. Adams was thereupon fully committed to prison. He is said to have pocketed $20,000.

Lawrence's Carminative,
—OR—
CHILD'S PAIN-KILLER.

THIS invaluable preparation is a favorite scientific prescription of one of the most eminent of the Medical Faculty in New England, and one who has been successful as any other in the treating of

DISEASES OF CHILDREN,

and has been used with never-failing success.

The Carminative is emphatically

A CHILD'S MEDICINE,

as it is the only Child's Medicine in this country; intended to do away with the excessive and injurious use of *Paregoric*, a remedy sure to be followed by a "dose of physic."

The ingredients of which the *Carminative* is compounded, are known to the Medical Faculty, and it is now extensively used, and approbated by the physicians living in the vicinity of the Laboratory, where opportunity has been had to test its virtues.

The *Carminative* is offered in full confidence for the rapid cure of

Colic, Pain in the Bowels, Wind in the Stomach and Bowels, Green Stools, Diarrhœa, Nervous Affections, Sore Mouth, Restlessness,

and other disorders incident to Weaning and Teething; sure to regulate derangements of the Stomach and Bowels, which often afflict young children; correct debilitated and sour Stomachs, relieve pain and give tone, energy and strength to the whole system.

Our regard has been taken to have the price of the Carminative so low as to be within the reach of all. Price *only 25 cents*

Parents who value rest should not fail to buy a bottle, as they may depend upon its giving relief to "worrisome children"

Sold by country traders and all Apothecaries throughout the United States and Canada.

Coggswell's Medical Salt,
A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.

INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—has but ONE AIM—accomplishes but ONE THING, to wit: REMOVE OVERABUNDANT DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. Every *form of inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. Is it asked, *how* it does this?—simply by restoring the lost balance between the fluids and solids. Such is the potency, that like vaccine matter, it requires merely what adheres to the point of a pin all dipped into a solution of it, to affect the entire system.

☞ *Of its intrinsic value, the enlightened community, and not the discoverer, must be the judge.*

IMPORTANT DISCOVERY.
DR. CHEESEMAN'S PILLS FOR FEMALES.
Prepared by an old Physician of 40 years experience.
THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restore health and regularity to the system, in every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever any obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.
These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to DR. C. L. CHEESEMAN, Box No. 4,581, Post Office, New York City, can have them sent to their respective addresses by return of mail.

J. F. SHORES, No. 1 Congress Block, has just received
One Box of Belcher's Curtain Fixtures.
These Fixtures are a decided improvement on any other in the market. The arrangement is very simple, the curtain rising or falling as you wish, with a slight movement of the cord on the side;—and the cord cannot get over the end as it often does with "Putman's."
One in operation can be seen at my store.—Price 37½ cents each, including cord and tassel.

SATURDAY, AUGUST 15, 1857.

GOUGH IN ENGLAND.

John B. Gough is in Liverpool, defining his position. In a speech at Liverpool he commences by quoting his own letter :

The cause in this country is in a *depressed* state. The Maine-law is a *dead-letter* everywhere ; more liquor sold than I ever before knew in Massachusetts, and in other States it is about as bad.

Mr. Dow can tell, better than any other man, the state of the Maine-law here, and of the cause of the *present universal failure* of the law to produce the desired result.

In his explanatory speech there Mr. Gough says :

I did not say the "Maine-law was a dead failure." I did not say the cause is in an "extremely distressed state."

If the reader will just compare this denial with the extract just above, he will see something very like a quibble.

In the same speech at Liverpool he says:

I have always advocated law for the tempter. Long before the Maine-law was heard of I advocated the enforcement of our old law.

After Mr. Gough's speech, a gentleman wished to know if the Maine-law was a failure, or had it only failed when *not* put into execution.

Mr. Gough replied that if the law was *enforced*, it was impossible that it *could* be a failure, for it prohibited both the sale and manufacture of liquors.

Rev. Mr. Taylor moved the following resolution :

That this meeting cordially thank Mr. Gough for the explicit and conclusive evidence collected by him in vindication of the statements incidentally made in a private letter recently sent by him to England, and, instead of feeling discouraged at the facts respecting America submitted by Mr. Gough, are persuaded that their publication cannot fail to be productive of great good, inasmuch as they are calculated to demonstrate the importance of the abstinence principle as the *best cure* for intemperance, and as the only safe *basis* for healthy legislation.

This resolution was passed, after some debate. On the resolution the Alliance Weekly News remarks as follows :

What logic is here? Do not the adopters of this resolution see, that if Mr. Gough's statements *prove anything*, (our point being, that even if absolutely accurate, they *prove nothing*,) they prove that "the abstinence principle is" not "the best cure for intemperance"—since in Massachusetts, notwithstanding Mr. Gough's efforts, it has failed in its result. If "more liquor be sold in Massachusetts than Mr. Gough ever knew before," where is total abstinence and where the abstainers? Has the Maine-law made them non-abstainers? Mr. Gough will not say so, though some who cheered his statements will. And how then can "total abstinence," proved inefficacious, "form the only safe basis for healthy legislation?" How can that which has failed support that which is failing?—The absurdity of the position is obvious.—We repudiate such logic. *Neither has failed nor is failing.* Total abstinence will yet, in America as in England, achieve some of its noblest triumphs; and prohibition will sustain and protect it in the work which it can commence, but which, in the face of the the terrrible temptations of the traffic, it can hardly defend.

We trust neither Mr. Gough nor his advisers will be so indiscreet as to force the friends of prohibition into any attitude unfriendly to himself;—to his mission they never can be made so. As the matter stands, we only express the feelings of every member of the Alliance when we say to Mr. Gough,—"Don't defend a mistake ; you have never been accused of anything but hasty judgment, and therfore mistake. Go on to your work, conscious that the heart of every prohibitonist will rejoice in every triumph which may mark your progress!"

SPECULATION IN THE NEW CROPS OF WHEAT.—Great competition, the New York Courier says, exists in that city, in buying up the new crop of southern wheat, which has resulted in prices being paid higher in proportion than present prices of flour, and as the general expectation on 'Change is, that flour must decline when the new crop begins to come in this movement excites much comment, for it is felt that no effort of speculators can sustain prices in the absence of a foreign demand and with a full crop. The abundance of the present season cannot be controlled by speculators, no matter how much they may be favored by the paper credit system.

☞ "The Instructor for Beginners on the Organ,—for the formation of the legato style of playing," composed by Ch. H. Rink. In two books. Book First just published by Russell & Richardson, Boston; and for sale by Chas. C. Harvey, Portsmouth. An excellent work.

IOWA.—Contrary to the first report, the new convention of Iowa turns up successful. The vote in its favor will be two to one. The overthrow of border ruffianism in that State is complete.

ENGLISH RACE GROUNDS.

The London correspondent of the Morning Star says, in a recent letter :

The Earl of Derby, the greatest horse-racer in this country, has lately been reading a lesson to the members of the Jockey Club on the morality of the turf. He thinks that it ought to be improved ; and upon this point there will not be two opinions. But we know of one method only by which *such* a fraternity can be improved. "If you wish to get rid of the rooks, cut down the rookery." From gamblers who play with loaded dice, this is the only effectual deliverance. A reformation which shall reach the root of the mischief is the only one that will do. In England, the races are both the cause and occasion of an enormous amount of evil.—The turf is one of the most productive sources of systematic iniquity in our land. Directly or indirectly, the moral and social evils of which it is the parent, pervade all classes, even those most remotely associated with it. The sins and sorrows consequent upon a "Derby day," were it possible to drag them to the light, and present them in detail, would fill the public with consternation.

After the burning of Convent Garden Theatre, one of our journals justly remarked, that, had the fire occurred two hours earlier, when the drunken masqueraders were at the height of their revel, London would have lost the flower of its scoundrelism. The pith and truthfulness of the remark arrested attention at the time, and we apply the same thought in saying that the moral aimosphere of the metropolis is wonderfully purified on a "Derby day," when myriads of scoundrels of all classes, carry their pestilential influence to Epsom Downs. Were such a community doomed to exist alone, its existence could be but of short duration, from the simple fact, that at least some degree of integrity, trust, and purity, is essential to the very existence of society.

Again and again has the British government tried to put down betting-houses, but it has not succeeded, and never will, while the prolific abomination of the Turf remains, and we can only hope that recent exposures of jockey villany will induce men like Lord Derby, to consider the grievous evils they inflict on society by the countenance and support they give to sport with which these abominations are identified.

Ex-President Tyler, in his recent speech at the Jamestown, Va., Celebration, in alluding to the operations of Dunmore in Va., just previous to the War of Independence, said :

"He proclaimed emancipation to negroes, and invited them to join his standards. They did so in large numbers ; and humanity, to this day, weeps over their cruel suffering. Many were sent to the West Indies, while others were sent to New York to be forwarded elsewhere.—From an aged citizen of Staten Island, (Mr. Isaac Bell,) I learned a few years ago that the marble mercantile palace of A. T. Stewart is built upon the burial place of 3,000 of these unfortunates.

☞ Ship Red Rover, at San Francisco 4th ult., was 23 days from New York to the equator in the Atlantic, and 49 days to Cape Horn ; off the Cape was 11 days making 90 miles west, with strong SW gales ; had very light winds from the Cape to the equator in the Pacific ; crossed in lon 110 W, 98 days out ; from thence had light NW winds ; and was becalmed off San Francisco seven days. She had on deck the materials for building a lighthouse, the iron of which caused an attraction of the ship's compass sufficiently great at times to render it entirely useless.

LIGHTNING.—At East Cambridge, Mass., on Thursday evening, about 9 o'clock, while the thunder and lightning storm was prevailing, a bolt of lightning descended on a barn occupied by B. Rafferty, situated in the rear of several dwelling houses, near Willow place, Cambridge street. In an instant, the barn was in flames, which directly extended to another stable near by. The fire was raging fiercely before an alarm could be raised, and immediately extended to a wooden building occupied as a cooper's shop by Mr. Rafferty, which, together with its contents, was enveloped in flames, and soon destroyed, as were also two dwelling-houses.

GOOD COWS.—Mr. Albe Morrill of South Weare, N. H., writes to the Manchester American that he has two cows, one the mother of the other, which gave, through the best of feed, from forty-one to forty-three pounds of milk per day each. One gave, in seven days, ending June 20th, 280 pounds of milk, which made thirteen pounds and two ounces of butter. These cows were kept in a common parture with no extra feed of any kind.

☞ The English government have determined to send their consumptive soldiers to cold instead of warm climates, hereafter, deeming a cold climate the best for consumptives, as shown by the difference in the condition of the soldiers in Canada and those in the tropical Indies.

CHARLESTON, Aug. 13.—Steamship Isabel has arrived with Havana dates to the 10th. The banks at Havana resumed payment on that day, and confidence was restored.

☞ In the case of Mrs. Cunningham, motions to admit to bail, have been overruled in the Second District Police Court, the Court of Common Pleas, and Court of General Sessions. It is probable, however, that her counsel will apply to one of the Judges of the Supreme Court. The Grand Jury for the county of New York having adjourned, no indictment can be found against her until September. It will be seen by our telegraphic report that Mrs. Cunningham is now enjoying quiet in the "Tombs."

REVOLUTION IN ST. DOMINGO—FIGHTING. The schooner Castillian, arrived at New York from Port au Platte, reports that a revolution broke out at Santiago, South side of St. Domingo, on the 10th of July, against President Bayes, and that a battle had taken place in the interior, during which 150 men were killed. The President had 1000 men before the city of St. Domingo.

COSTLY DIAMOND FOUND IN ILLINOIS.—One of the workmen engaged in boring an artesian well for Mr. Van Wert, in Stryker, a village on the Air Line Railroad, about 90 miles from Toledo, found a pure diamond last week, at a depth of about 100 feet. The diamond is of the size of an ordinary marble, and competent judges say it is worth at least $1000. Mr. Van Wert waived all claim to the valuable, and the lucky finder, a poor and honest Irishman, named Michael Shehan, no doubt believes he was "born to good luck."

☞ The editor of the Plymouth Memorial has not seen a mosquito in that town the present season. The Charlestown Advertiser adds : "We presume they have mosquito screens placed at each end of the town, to keep them out."

CARRYING OUT THE LIQUOR LAW.—The C. C. P. at Fitchburg, Mass., Judge Briggs presiding, on Thursday sentenced five persons to fine and imprisonment for violating the liquor law. Four of the parties kept groggeries in Worcester.

PROGRESS.—The Boston Courier of the 13th says :

Our belief is that radical, destructive Abolitionism is making progress ; but that this progress, far from being in the direction of emancipation or amelioration of slavery, is towards disunion and political anarchy.

ESSEX COUNTY.—The Salem papers speak favorably of the new temperance movement in that city. The Register says "on Monday evening last, at Howard street Chapel, a good audience was present, and the meeting was hearty and interesting.—New names are coming in every day to the pledge, and many were present who have been addicted to the use of intoxicating drinks. Promises are made for still further and important additions to the society."

The Newburyport Herald adds :

We notice by the other county papers, that there is a similar waking up in this whole region. Lynn, Marblehead, Beverly and Danvers have had frequent meetings during the summer ; and Haverhill, Andover and Amesbury, in the northern section of Essex, are following the same example. The Young Men's Temperance Society in this town are moving in their Sunday evening field meetings, and for the next Sabbath have engaged several able speakers.

BEEF CATTLE.—The N. Y. Tribune says: The price of beef cattle has now reached a point that must either have the effect to produce a greater supply, or the inhabitants of cities must lessen the consumption of meat. We have chronicled, during the last six months, many most extraordinary sales of bullocks in our regular reports of the Cattle Market, and noted days when all the cattle in the market sold for prices such as the oldest butchers in the city never dreamed of, and which no one supposed would be equalled. In this all were mistaken. 2000 head of bullocks sold yesterday higher, probably, than beef of the same quality was ever sold in America. Droves of Ohio steers, right from the grass, in fair condition to commence feeding to make stall fed beef, sold for prices equivalent to 12½ cents a pound for the beef ; while the best cattle offered sold for 13 and 14 cents a pound for the beef. What are we coming to ?

STRUCK BY LIGHTNING.—The house of Rev. J. C. Forbush, in Ashland, was struck by lightning Thursday morning.—One end of the house was taken off, and a complete wreck was made of the inside. There were five persons in the house at the time, all of whom escaped without injury.

Recently a misistor in Senaca Falls, New York, hired a livery horse and wagon, was gone two days, swapping horses six times, and came back to the stable with the same horse he took out, having made one hundred dollars by the operation.

When Cræsus, in Herotodus, suggested to Cyrus the means of making the Lydian subjects harmless for warlike purposes, he advised him to teach them sing, and to dance, and to open retail shops, as the surest the of all methods for destroying their pristine manliness.

GOOD.—It is seldom that a medicine meets with such general favor among all classes, and especially among the educated, as the Oxygenated Bitters. These Bitters are free from alcohol, and are a never failing cure for dyspepsia.

SPECIAL NOTICES.

☞ We are happy to announce that the best of cheese may be had at 12 1-2 cents per pound, Molasses for 48 cents per gallon ; sugars at reduced prices ; potatoes at $1 per bushel, and all family groceries at equally low prices for cash, at the store of F. W. ROGERS, on the corner of Vaughan and Congress streets,—where Fancy Soaps of various kinds, and many other articles may be found, but no spirits except Camphone and Burning Fluid. au13 tf

No medicine has been introduced in this country that is giving such universal satisfaction as Dr. Wilson's Dysentery Powders. They immediately check the disease without danger of producing inflammation or fever. Dysentery, Diarrhea, Cholera Morbus, and Summer Complaint are cured with one Powder, if taken when first attacked with the disease. Give them one trial and you will not be without them. a6 3w

HAIR RESTORATIVE.—We are pleased to record the satisfaction of our patrons, after trial of an article advertised in our columns. We have the satisfaction to know several of our readers who have used Prof. Wood's Hair Restorative, and pronounced it to be just what the advertisement says it is. We have several personal acquaintances, too, who were gray-headed, they have tried it, and now their hair is restored to its original color, and they willingly add their testimony to its efficacy, and will give further information to others desiring it. This speaks well for the article, and we advise all who do not wish to appear gray-headed, to use Wood's Hair Restorative.—[Western Patriot.

☞ Mr. Asa S. Tilton at his Union Store, No. 12 Market street, sells the following Medicines at reduced prices :—Dr. Larookah's Indian Vegetable Pulmonic Syrup, warranted to cure coughs, colds, whooping-cough, asthma, bronchitis, croup, catarrh, consumption, and disease of the throat and lungs. Price 75 cents per bottle.

Also, Kennedy's Medical Discovery, Kennedy's Salve, and Holman's Nature's Restorative.

THERE ARE HUNDREDS OF REMEDIES Sold at every Drug Store, purporting to cure all diseases nameable, each advertised as the very best ever known, till we had lost all faith in them all, but there is one exception.

We speak of Dr. Sanford's Invigorator, which came to us recommended as a cure for Liver Complaints, and all diseases arising from a Diseased Liver. The testimonials of so many of our Physicians in its favor, induced us to try it, and now conviction is certain that it is one of the greatest blessings ever given to Dyspeptics, for it made a complete cure before the first bottle was taken, and now we can eat anything eatable without trouble, while before, nothing but the lightest food would digest, and often would digest, and often that gave pain. Now what we want to say to all our readers is, if Liver Complaint or Dyspepsia trouble you, do not fail to try this, the greatest remedy in the world.

New Piano Forte Cheap.

HAVING received orders to close off immediately a consignment of Piano Fortes, I will sell the last one at a greatly reduced price if taken without delay. It is a superior instrument, 6½ octaves, of Boston, manufacture, with sliding desk, full iron frame, clear and brilliant tone, and *warranted* in every particular. It can be seen at my store for a few days. Any one who is in want of a good Piano Forte at a very low price, will do well to look at this chance.

LOCAL.

☞ The repeated depredations committed by boys and others at the Bath House on Noble's Island, has induced the Directors to prosecute an offender, who was detected in the act. On Friday, a boy was fined in the Police Court, for trespassing on these premises; and others will be similarly dealt with, unless they desist from invading the bath-house. Buy keys, or keep off.

☞ "A Map of Auburn street Cemetery, or the Proprietors' Burying Ground, Portsmouth, N. H.,—laid out by the South Church Charity Fund in 1831. Printed at the Portsmouth Journal Office. This is a very handsome plan of the lots, tombs, lawns, pond, and bounds of the South Burying Ground,—or the older portion of it. It is beautifully printed, and gives the names of the Avenues, the number of the Walks and Lots, and the names of the proprietors. Copies may be had of Mr. Foster, Mr. Shores or at the Journal office; and at least every owner of a lot in the grounds, should have one.

☞ Rev. Austin Damon will preach at Hanover Street Chapel, to-morrow.

A SMALL MISTAKE.—Our brother of the Ellicotts Mills Southerner, (Maryland,) labors under quite a mistake in saying that Dr. F. Coggswell of this city, is a "*self-styled M. D.*" This statement does great injustice to that unassuming and popular physician. He was a college class mate of Rev. George Punchard, late of the Boston Traveller, and Hon. S. P. Chase, now Governor of Ohio, and graduate at Dartmouth College in 1826. The Doctor subsequently received his medical degree at Berkshire Medical College in this State. We hope our brother, and papers copying the error, will insert this correction as an act of justice to the above named distinguished gentleman. We have known Dr. C. for fifteen years, and can vouch for him as a gentleman of high standing as a phyeician, and of the first respectability—*Boston American Patriot.*

Mr. Isidore, the Queen's coiffeur, who receives £2,000 a year for dressing her Majesty's hair twice a a day, had gone to London in the morning, meaning to return to Windsor in time for toilette, but on arriving at the station, was just five minutes too late, and saw the train depart without him. His horror was great, as he knew his want of punctuality would deprive him of his place; so he was obliged to take a special train; and the establishment, feeling the importance of his business, put on extra steam, and whisked him eighteen miles in eighteen minutes for £18.—*News, Manchester, Eng.*

SOUTHERN SECTIONALISM. — *Knoxville, Tenn., August* 11.—The Southern Commercial Convention, in session here, have adopted resolutions urging the government to withdraw the *squadron from the coast of Africa*, and to fortify the harbors of Port Royal, S. C., and Mobile.

Resolutions were offered and referred to a committee, endorsing Dudley Mann's steamer scheme, advocating government patronage for Southern steamers, and the repeal of the fishing bounties.

A cow near the Beverly depot, on Monday, tried her speed upon the railroad track with the first train from Newburyport. The train gaining upon her, she turned to see if she could head off the engine; but, instead, the engine took off her horns, broke a leg, and threw her on the Gloucester track, just as the train was passing there, and that engine gave her another toss that finished her.

The wife of Capt. Patten of the ship "Neptune's Car," for whom a fund is now being raised, as a reward for her faithful devotion to her husband while sick, has been consigned to an immortal fame, for her heroism, in one of the most beautiful passages of Mr. Everet's eulogy on Washington.

SAME THING AT HOME.—Wife—"Won't you, Charley, really? Won't you take me to the country this summer?"

Charley—"No, my dear, I can't afford to this summer; but I will tell you what I will do. I will have the gas and Croton cut off, and we'll sleep in the back attic, which will be just as nice."

HEALING OF THE DIVISION IN MINNESOTA. *St. Paul, Min., August* 13.—The Republican Constitutional Convention, to-day, passed unanimously Judge Sherburne's resolution to appoint a Committee of Conference, composed of members of both Conventions. The resolution was rejected on Saturday in the Democratic Convention, but they will probably pass it to-morrow.

FLOUR HOUSE FAILURE—MRS. CUNNINGHAM IN JAIL.—The liabilities of A. H. Wolfe & Co. are stated at upwards of $1,000,000. The immediate cause of their failure is said to be the stoppage of a house at Rochester, for which they had accepted a large amount.

Mrs. Cunningham was committed to the Tombs Thursday afternoon, her daughter Helen accompanying her.

The Great English Remedy.

SIR JAMES CLARKE'S

Celebrated Female Pills.

Prepared from a prescription of Sir Jas. Clarke, M.D., Physician Extraordinary to the Queen.

THIS invaluable Medicine is unfailing in the cure of all those painful and dangerous disorders to which the female constitution is subject. It moderates all excess, removes all obstructions, and a speedy cure may be relied on.

TO MARRIED LADIES

it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

Each bottle, Price One Dollar, bears the Government Stamp of Great Britain, to prevent counterfeits.

CAUTION.

These Pills should not be taken by females that are pregnant, during the FIRST THREE MONTHS, *as they are sure to bring on Miscarriage, but at every other time and in every other case they are perfectly safe.*

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Fatigue on slight exertion, Palpitation of the Heart, Hysterics, and Whites, these Pills will effect a cure when all other means have failed, and although a powerful remedy, do not contain iron, calomel, antimony, or any thing hurtful to the constitution.

Full directions accompany each package.

Sole Agent for the United States and Canada, JOB MOSES, (late I. C. BALWDIN & CO.,) Rochester, N. Y.

N. B.—$1 and 6 postage stamps enclosed to any authorized Agent, will insure a bottle of the Pills by return mail.

AMERICAN HOUSE,

BOSTON.

Conducted on the European Plan.

LEWIS RICE, Proprietor, respectfully announces that in compliance with the very general preference expressed for the European system of hotel management, that the American House will hereafter be conducted solely on that plan. Well furnished parlor and sleeping apartments will be let by the day, or for longer periods. Meals served at the pentlemen's hall at all hours of the day and evening. The ladies' dining hall will be opened in like manner for ladies, and gentlemen accompanied by ladies. The accommodations and conveniences of the house are unsurpassed, and the recent improvements and alterations leave nothing to be desired. Suburban residents will find the accommodations especially convenient. Large or small parties provided with dinners, suppers, &c., at short notice.

S. D. & H. W. Smith,

—MANUFACTURERS OF—

Melodeons, Organ Melodeons,

—and—

PEDAL BASS MELODEONS,

No. 511 Washington St., Boston.

The first premium over all competitors, at the Fair of the Mass. Charitable Mechanic Association, of the National Fair, Washington, D. C., also at the Ohio State Fair, held at Columbus, Ohio, was awarded to these Manufacturers.

By means of a new method of Voicing, known only to themselves, they have succeeded in removing the harsh and buzzing sound which formerly characterized the instrument, and rendering the tones full, clear and organ like. The action is prompt and reliable, enabling the performer to execute the most rapid music without blurring the tones. The swell is arranged to give great expression.

THE PEDAL BASS MELODEONS,

Are designed particularly for Churches, Lodges, Halls, &c. It is arranged with two manuals, or banks of Keys, the lower set running an octave higher than the other, and may be used separately, and thus get in one case two distinct instruments; or by use of the coupler, the two banks of keys may be played at the same time by use of the front set only. This connected with the Pedal Bass, will produce the effect of a large organ, and is sufficiently heavy to fill a house that seats from 1000 to 1500 persons.

THE ORGAN MELODEON

Is designed for parlor and private use. The construction is similar to the Church Instrument, being arranged with two banks of Keys, and when used together, by means of the coupler, is capable of as great volume of power as the Church Instrument when used without the pedals. Also, every variety of MELODEONS for Parlor use.

Purchasers may rely upon instruments from our Manufactory, being made in the most complete and thorough manner. Having removed to the spacious Buildings

511 Washington Street,

We have every facility for manufacturing purposes, and employ none but the most experienced and skilful workmen. In short, we will promise our customers an instrument equal, if not superior, to any Manufacturer, and guarantee an *entire and perfect satisfaction.*

Music Teachers, Leaders of Choirs, and others interested in musical matters, are respectfully invited to visit our Rooms at any time and examine or test the instruments on exhibition for sale at their pleasure.

As a still further guarantee to the public as to the excellence of the MELODEONS from our Manufactory, we beg leave to refer, by permission, to the following

Piano Forte Manufacturers of Boston,

who have examined our Instruments, and will give their opinion when called upon:

Chickering & Sons, Stallett & Cumston,
T. Gilbert & Co., Wm. P. Emerson,
Brown & Allen, A. W. Ladd & Co.,
George Hewes, Woodward & Brown,
Newhall & Co.

MELODEONS RENTED.

Persons who wish to hire Melodeons with a view of purchasing at the end of the year, can have the rent credited as part payment of the purchase money. This matter is worthy of special note, as it enables those who desire a fair test of the instruments before purchasing, to obtain it at the expense of the manufacturers, to the extent at least of a year's rent.

Orders from any part of the country or world, sent direct to the manufactory in Boston, with cash, or satisfactory reference, will be promptly attended to, and as faithfully executed as if the parties were present, or employed an agent to select, and on as reasonable terms.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. Franck & Co are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state.

A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from $20 to $100,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

Address T. H. HUBBARD & Co.,
No. 39 Fayette st., or box No. 40,

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; five, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $50,000; every prize being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York *Daily Dun Book*. Write your address plainly, and direct to S. SWAN & Co., Atlanta, Georgia

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m181y

American and Foreign Patents.

R. H. EDDY, solicitor of Patents,

(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

No. 76 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, specifications, assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, it just immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond a question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

Agency 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

The Medicine THAT NEVER FAILS!

IS DR. WILSON'S

DYSENTERY POWDER,

Which cures Dysentery, Diarrhœa, Cholera Morbus, and all the affections of the Bowels attended with Pain and frequent Discharges.

This Medicine is now being introduced into all parts of the United States and British Provinces, and great success attends its use everywhere.—These Powders are now offered to the world as a PERFECTLY SAFE AND EFFEUTUAL MEDICINE, for the purposes they are recommended, and in nine cases out of ten

ONE POWDER WILL CURE THE WORST CASE,

when they are taken in the first stages, and almost invariably *two will effect a permanent Cure;*—and unlike all other preparations, which, it they check the disease, leave the person in a condition that requires physic after it, which is not the case with the Dysentery Powders, for they *regulate the Bowels*, tone up the system, and leave it in a healthy state.

These Powders are put up in boxes, with full directions on each box, and sold for 50 Cents.

Please try them; if they do not give *perfect satisfaction*, return them and take your money.

Lawrence's Carminative,
—OR—
CHILD'S PAIN-KILLER.
THIS invaluable preparation is a favorite scientific prescription of one of the most eminent of the Medical Faculty in New England, and one who has been successful as any other in the treating of
DISEASES OF CHILDREN,
and has been used with never-failing success.
The Carminative is emphatically
A CHILD'S MEDICINE,
and is the *only* Child's Medicine in this country; intended to do away with the excessive and injurious use of *Paregoric*, a remedy sure to be followed by a "dose of physic."
The ingredients of which the *Carminative* is compounded are well known to the Medical Faculty, and it is now extensively used, and approbated by the physicians living in the vicinity of the Laboratory, where opportunity has been had to test its virtues.
The *Carminative* is offered in full confidence for the rapid cure of
Colic, Pain in the Bowels, Wind in the Stomach and Bowels, Green Stools, Diarrhea, Nervous Affections, Sore Mouth, Restlessness,
and other disorders incident to Weaning and Teething; sure to regulate derangements of the Stomach and Bowels, which often afflict young children; correct debilitated and sour Stomachs, relieve pain and give tone, energy and strength to the whole system.
Due regard has been taken to have the price of the Carminative so low as to be within the reach of all. Price *only 25 cents.*
Parents who value rest should not fail to buy a bottle, as they may depend upon its giving relief to their children.
Sold by country traders and all Apothecaries throughout the United States and Canada.

Coggswell's Medical Salt,
A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.
INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—but that ONE MALADY—accomplishes but ONE THING, to wit: SUBDUES INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. Every *form of inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. Is it asked, *how* it does this?—simply by restoring the lost balance between the fluids and solids. Such is its efficacy, that like vaccine matter, it requires merely what adheres to the point of a quill dipped into a solution of it, to affect the entire system.
☞ *Of its intrinsic value, the enlightened community, and not the discoverer, must be the judge.*
PRIME COST, $1, 50 per drachm—PRICE $2 per drachm.

S. D. & H. W. Smith,
—MANUFACTURERS OF—
Melodeons, Organ Melodeons,
—AND—
PEDAL BASS MELODEONS,
No. 511 Washington St., Boston.
The first premium over all competitors, at the State of Mass. Charitable Mechanic Association, of the National Fair, Washington, D. C., also at the Ohio State Fair, held at Columbus, Ohio, was awarded to these Manufacturers.
By means of a new method of Voicing, known only to themselves, they have succeeded in removing the harsh and buzzing sound which formerly characterized the instrument, and rendering the tones full, clear and organ like. The action is prompt and reliable, enabling the performer to execute the most rapid music without blurring the tones. The swell is arranged to give great expression.
THE PEDAL BASS MELODEONS,
Are designed particularly for Churches, Lodges, Halls, &c. It is arranged with two manuals, or banks of keys, the lower set running an octave higher than the other, and may be used separately, and thus get in one case two distinct instruments; or by use of the coupler, the two banks of keys may be played at the same time by use of the front set only. This connected with the Pedal Bass, will produce the effect of a large organ; and is sufficiently heavy to fill a house that seats from 1000 to 1500 persons.
THE ORGAN MELODEON
Is designed for parlor and private use. The construction is similar to the Church Instrument, being arranged with two banks of keys, and when used together, by means of the coupler, is capable of as great volume of power as the Church Instrument when used without the pedals. Also, every variety of MELODEONS for Parlor use.
Purchasers may rely upon instruments from our Manufactory, being made in the most complete and thorough manner. Having removed to the spacious Buildings
511 Washington Street,
We have every facility for manufacturing purposes, and employ none but the most experienced and skilful workmen. In short, we will promise no more than our Instruments shall equal, if not superior, to any Manufacturer, and guarantee an *entire and perfect satisfaction.*
Orders addressed to the Subscribers, will receive prompt attention.

Prepared by an old Physician of 40 years experience
THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are a safe, sure and speedy remedy, certain to restoring nature to its proper channel, in every instance have the Pills proved successful. They are certain to open those obstructions to which females are subject, and bring nature into the proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.
These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. CHEESEMAN, Box No. 4,631, Post Office, New York City, can have them sent to their respective addresses by return of mail.

ELECTIONS.

Of the eight Members of Congress elected as Democrats" in Kentucky, at least three were staunch Clay Whigs—namely: James B. Clay, (son of Henry,) J. W. Stevenson, and Albert G. Talbott. Each of these three conservative Southern States has gone against the "National American party" by fully ten thousand majority. Two U. S. Senators will be chosen by the victors—in place of John B. Thompson, of Ky, and James C. Jones, of Tenn.—both Whigs of old, but only Mr. Thompson is now an "American." Of the twenty six Members of the House from these States, but five to eight are "Americans." A new Governor in Tennessee and a Legislature in that State and in Kentucky are among the fruits of the triumph.—Candor compels us to add that we do not regard these results, emphatic as they are, as primarily induced by hostility to "Americanism." That they crush out the "American party" is true, but that is an incident, not their main purpose. It is the Slave Power dominant in those States which recognizes the ascendency or subordination of Slavery in the National councils as the great political issue of the day, and distrusts, not the disposition, but the power, of the "American party." On the other hand, it recognizes in the "National Democracy" unfailing devotion to its cause, united with ability to uphold it so long as it can be upheld at all. It chooses to fight under the banner of a strong party rather than that of a weak one. Such is the real meaning and scope of the Southern Elections.

CLAIMS AGAINST SPAIN.—Whilst Spain is urgent in enforcing payment of her claims against Mexico, it is somewhat inconsistent that she should be so indolent and backward in satisfying admitted claims of the United States against herself.

The President, in his annual message to Congress, of December 31, 1855, reported as follows: "In consequence of a destructive hurricane which visited Cuba in 1844, the supreme authority of that island issued a decree, permitting the importation, for the period of six months, of certain building materials and provisions free of duty; but revoked it when about half the period only had elapsed, to the injury of citizens of the United States, who had proceeded to act on the faith of that decree. The Spanish government refused indemnification to the parties aggrieved until recently, *when it was assented to, payment being promised to be made as soon as the amount due can be ascertained.*"

And the President, in his annual message to Congress, of December 2, 1856, referring to the same subject, reports that "with Spain no new difficulties have arisen *nor has much progress been made in the adjustment* of pending ones."

It is likely that in the next message of the President, of December, 1857, he will only have to repeat what has been said a year before, simply substituting the word ANY for the word "much."

These are some of the facts in the case. Several of the claims of the class in question, with vouchers, and the amounts "ascertained," were transmitted to Spain in the month of January, 1855,—two and a half years ago. The bulk of the remainder, also with indisputable vouchers, and the amounts exactly "ascertained," were transmitted more than a year ago. Some half a dozen claims for which the vouchers originally issued by the Cuban authorities were erroneous and required correction, not obtainable without delay, were sent on in the early part of the present year. The claimants are in number about seventy (70,) and the aggregate amount of the claims is about one hundred and eighty thousand dollars.

Although *all* the claims, with the amounts "ascertained," have been long in the hands of the Spanish Government, nothing now is heard of "payment," nor is any good reason assigned for withholding it. Such delay is equivalent to a refusal to do justice.

It remains to be seen how long the American Government will submit to such treatment.

Correspondence of the Cincinnati Gazette.

LAWRENCE, Aug. 3, 1855.

Gov. Walker, having remained watching the people of Lawrence till in his sober moments he became heartily ashamed of himself, has been for several days casting about him for some means to get out of his miserable scrape. Four days ago a passenger was dispatched by him to Fort Riley—for what purpose nobody knew—but last night a courier came from the fort to Walker's camp with despatches, and this morning the famous camp near Lawrence was broken up, and he and all his troops started up the river, leaving the people of Lawrence to commit treason unpunished. It is reported that the courier brought news that the commander of the fort was afraid the Cheyenne Indians would attack him, and asked Walker for his aid, but the messenger himself (I saw him this morning,) did not think the fort in any danger.

The whole thing is understood here as an invention to give Walker an opportunity to withdraw gracefully from Lawrence. Ashamed of his exploit, he is glad to retreat back into the interior of that Territory, away from newspaper reporters, and out of sight and hearing of Lawrence.

Col. Titus arrived here last night. He has gone up the river with the Governor.

The vote in Lawrence on the Topeka Constitution was 652 in favor of it to 2 against it.

The Free-State ticket for minor officers has been elected.

STATE TEACHERS' ASSOCIATION.—This Association commenced its Fourth Annual Meeting at Concord, Tuesday. A good number of the teachers of the State were present at the opening. The President, Jonathan Tenney, of Boscawen, occupied the chair. The following officers were elected for the ensuing year.

President.—Prof. Edwin D. Sanborn, of Manchester.

Vice Presidents.—J. F. Patten, Rockingham Co.; Ephriam Knight, Merrimack; S. H. McCollister, Cheshire; David Crosby, Hillsborough; John D. Lyman, Strafford; William C. Fox, Carroll; James W. Patterson, Grafton; E. T. Rowe, Sullivan.

Secretaries.—Henry E. Sawyer, Concord; Wm. A. Webster, Manchester.

Treasurer.—Benj. F. Wallace, Manchester.

Counsellors.—Cyrus S. Richards, Meriden; M. C. Stebbins, Nashua; A. M. Payson, Portsmouth; E. T. Quimby, New Ipswich; Geo. W. Gardner, New London; N. F. Carter, Exeter; M. N. Root, Francestown.

A resolution of thanks to the President of the Association, Mr. Jonathan Tenney, for his services for the past two years was passed, and an interesting discussion on "The Means and Modes of Sel-Culture, and of Recreation most useful to teachers," closed the exercises of the afternoon session.

In the evening, Rev. Lyman Whiting of Portsmouth, delighted the Association by an Address upon "The Pleasures and Comforts of School-Keeping." After the delivery of this address, the following resolution was passed:—

Resolved, That the thanks of this Association be given to Rev. Lyman Whiting, for the sweet flowers and fragrant leaves that he has strewn along our weary path, in his address this evening, and that a copy be requested for publication.

Morning Chronicle.

MONDAY, AUGUST 17, 1857.

POLITICAL.—In what are properly the Southern States there is but one party which dares to show itself in the party of slavery. At the West (says the Newburyport Herald) the aspect is different. Major Rollins, the emancipation candidate of Missouri, is elected; and two Democrats and one American, sustained by the Rollins party, are chosen Judges of the Supreme Court. Kansas is a free state even to desperation; and the democrats there are about as numerous as the Republicans in Virginia. In Nebraska there were three democratic candidates and one republican. Chapman, the present delegate, asked a re-election as the regular nominee, but found himself behind the republican candidate, in the race; and *he* was just behind a successful rival, Fenner Ferguson, formerly of Michigan. Iowa has adopted a new constitution, which is set down as a Republican triumph. Minnesota is forming a state constitution, and the republicans there are in the ascendancy.—In Ohio, Salmon P. Chase is re-nominated for governor. He is a growing man, of real worth and sterling integrity, every day becoming more popular, and will undoubtedly be elected. The Republicans have everything to encourage them in the West, as the democrats have everything in the South.

SOUTH CAROLINA REBUKING VIRGINIA.—The Richmond Enquirer sustains the President in his instructions to Walker, and the proposition to submit the constitution of Kansas to the people. The Charleston Mercury rebukes it as follows:

But, secondly, it makes a slight mistake when it talks of the "pretty figure of a half a dozen impracticable Secessionists will cut in Congress." It has to learn that the bulk of Democracy in the Cotton States denounces alike Gov. Walker, and the new Administration endorsing him.—Georgia, Mississippi, South Carolina, Alabama and Louisiana, are united in the maintenance of Southern Rights, and on this platform they will be found in 1860. The time has come when no man or party can serve at the same time the North and South of this Confederacy. To attempt it, is to fall powerless between the two.—Their views and wishes are irreconcilable. Mr. Buchanan's mistake has been that of expedient party compromise, instead of adherence to constitutional principles.—Time-serving is no longer statemanship, and the Cotton States are opening their eyes to the fact. A half a dozen *States* will be found where the Enquirer looks for a dozen impracticable Secessionists. Perhaps a "Virginian Congressman *would* as soon jump from the Long Bridge into the Potomac, with a dozen bags of shot attached to his honorable person, as to refuse to cooperate with the National Democracy." The Cotton States are begining to believe it, and to feel and act on the belief. Yet Virginia Congressmen must not be surprised in that case to find themselves classed with the Northern Democracy, with anti-slavery filibuster Walker, and the Free Kansas Administration, however national they may all be.

POSTAGE STAMPS NOT REDEEMED.—The Assistant Postmaster General, H. King, writes July 25, that—

There is no provision to the Post Office act authorizing the use of stamps as currency; nor is there, for that reason, any provision for their redemption by the department, when, by such use, they accumulate in inconvenient quantities in individual hands. If persons receive them as remittances, they must rely for reimbursment on the sale of them.

Very true; they are not an authorized currency; but they are very convenient, and will be used for remittances of odd change.—And where decent people have them for sale, in good order, respectable postmasters will buy them; as they can do with safety. They are just as much of a currency as they ought to be.

☞ A gentleman has presented us a fine specimen of Iron Ore brought from St. Mary's Bay, Digby, N. S. It is 80 parts iron, and was dug by a party who are employed in prospecting for the best place to erect a smelting forge. There is one forge of the kind now in operation in the eastern part of the island. The specimen which we have, is attached to a piece of quartz large as itself,—and was broken off within four feet of the surface.

MILITARY.—Some of the citizens of Nashua, says the National (Claremont) Eagle, in view of the inducements held out by the new militia law, are making a move towards starting a new company. Corporal Beard, editor of the Telegraph, full of military inspiration, as he always has been and is, thinks it will not pay for time and labor to go into it.

POLICE COURT, MANCHESTER, August 13. Before Judge Upton.—Thomas Welsh was accused of keeping for sale liquor, on the 26th of June last. He keeps a place at the corner of Concord and Chestnut streets. He plead not guilty. The officers searched his place on the 26th of June and found there rum, gin, brandy, tumblers and a few other things. The officers were not able to find Welsh till yesterday. He was bound over in the sum of $300 to answer at a higher Court.

Horace Bonney and Jacob Whittier were complained of for keeping liquor for sale. Officers I. W. Farmer and E. W. Clough testified to searching their place yesterday, and finding various kinds of liquors, some bottles, tumblers, &c., there. They were put under $400 bonds each, to answer to a higher Court.—*Mirror.*

Wilbur Fiske Noyes, a member of the the Senior Class of Wesleyan University, at Middletown, died on Thursday last, after a short illness. His disease was *congestion on the brain.* He was in his 14th year, and had been a member of the College about two years.—*Ex.*

Died of congestion of the brain! (says the Newburyport Herald.) What boy would not, who was in the senior class in college before he was fourteen years old? and had reached the senior class in two years? The parents of that boy deserve no sympathy for his loss—they have killed him, and should be punished—not for violence, for they probably loved him, but for their folly. Too many parents are pursuing the same course—hurrying their children to school six years at least before they should see the inside of a school house; and then keeping them in school as prisoners; pressing them with studies; and hurrying them forward to the ruin of head and heart—muscle and mind! For one half of the children below twelve years of age, a "quarter" at the Four Rocks, Devil's Den, Common Pasture, and Plum Island, would be worth a whole year of schooling.

Henry Ward Beecher is said to be a patron-spirit of boys. The boys of Brooklyn, it is said, would all make him the President of the United States to-morrow, if it depended on their vote. He saves them from the police—he pays their fines when they break windows—he tells them he used to like to do it himself. The evening before the fourth of July, the usual Plymouth Church prayer meeting was somewhat disturbed by the firing of crackers in the entry and under the windows. Most ministers would have put on a very solemn look and given peremptory orders to drive away the boys; but Beecher smiled and said, "That's somewhat annoying to us, but I presume the boys enjoy it; indeed, I remember a time when I used to enjoy such things myself."

Lord Palmerston is the busiest man in the world just now. Having just emerged from a war with Persia, he is deep in a contest with China; he has to grapple with disaffection in the Ionian Islands;—he has to put down a revolt in India; and the last news from Australia shows that country in the heart of a political crisis, which may eventuate in its declaring itself independent one of these days, and claiming rank among the nations of the earth as the Republic of Australia. It has been said that Palmerston delights to move in troubled waters. Troubled enough they are now, and at boiling point, too.

Cardinal Wiseman says in one of his sermons that the Roman Catholic Church has ever held that, religious duties duly performed, the Christian Sunday is to be regarded and used by all and especially by the great bulk of the people, as a day of innocent amusement and recreation, and that such should be afforded to them by the State by every means in its power. This, he thought it right to declare publicly, was and is the mind of the Church of Christ (Roman Catholic) on the subject.

James M. Mason, Senator of Virginia, has written a letter to "The South" newspaper, denying a report that he had said he expected Kansas to become a free State, and emphatically asserting that at the time of passing the Kansas Nebraska bill he expected it would have been a slave State. Mr. Mason spoke on Bunker Hill on the 17th of June.

GOOD REPORT.—"You are very stupid, Thomas," said a country teacher to a little boy eight years old. "You are like a donkey, and what do they do to cure him of his stupidity?"

"Why, they feed him more, and kick him less," said the urchin.

Mr. Croose used to relate how the Dean of St. Paul's once commenced a charity sermon as follows:—"Benevolence is a sentiment common to human nature. A never sees B in distress without wishing C to relieve him."

Professor Park, of Andover, being at Plymouth, Mass., in warm weather, was lodged in a bed that resembled Pekin, in being more populous than comfortable, and he remarked in the morning that he never before knew what was meant by "*live geese feathers.*"

☞ The Judges of the Supreme Court of Maine, have decided in favor of the right of colored men to vote in the elections of that state.

ÆSOP'S LAST.—Two donkeys quarrelled over a peck of "oats," and while kicking and braying about the division, the steady old horse quietly helped himself.

Wheat is now imported into Ireland from the vicinity of Jerusalem.

A South Carolina paper mentions a religious revival among the negroes, slaves and free, and several hundred had been baptized, mostly by immersion, in one day, in a single locality. So it seems they are considered fit for *Christian men*, though as the decree saith, "Possessing no right which a white man ought to respect!"—*Keene Sentinel.*

SUICIDE.—We are informed that Franklin Horton of Surry, aged about 50, committed suicide on Thursday last, by drowning himself in a small pond.

Another victim of bad liquor.—*Keene Sentinel.*

VACCINATION BY THE TONGUE.—"So sensitive, so porous, and so powerfully absorbent is the human tongue, that were not the idea repulsive, the application of a quill of vaccine virus to that organ for one minute, would as *perfectly* vaccinate a person, as if it had followed the lancet into the arm."

So says our medical friend Dr. Coggswell, of Boston, the discoverer of the Antiphlogistic Salt, which he introduces into the system *through the tongue*, thereby subduing inflammations of every form, as he claims it will do.—*York Pennsylvanian.*

READING IN THE CARS.—Says a writer in the Medical World, in treating of the eyes, "scarcely any practice has a more deleterious effect upon the eyes, than reading in the cars, when riding in them. The jar of the vehicle by the wheels, the noise of the moving machine, and more especially the sudden transition of light and darkness, seriously affect the organs of vision."

NEW MEDICAL SALT, *A perfect substitute for the Lancet, Leeches and Blisters!*—Another editor says:—"Our town clerk has had the Spine Complaint for 6 years—has used only one box and is well—and a member of his family was cured of Inflammation of the Kidneys, by the same box."

No medicine has been introduced in this country that is giving such universal satisfaction as Dr. Wilson's Dysentery Powders. They immediately check the disease without danger of producing inflammation or fever. Dysentery, Diarrhea, Cholera Morbus, and Summer Complaint are cured with one Powder, if taken when first attacked with the disease. Give them one trial and you will not be without them. a6 3w

HAIR RESTORATIVE.—We are pleased to record the satisfaction of our patrons, after trial of an article advertised in our columns. We have the satisfaction to know several of our readers who have used Prof. Wood's Hair Restorative, and pronounced it to be just what the advertisement says it is. We have several personal acquaintances, too, who were gray headed, they have tried it, and now their hair is restored to its original color, and they willingly add their testimony to its efficacy, and will give further information to others desiring it. This speaks well for the article, and we advise all who do not wish to appear gray-headed, to use Wood's Hair Restorative.—[Western Patriot.

☞ Mr. Asa S. Tilton at his Union Store, No. 12 Market street, sells the following Medicines at reduced prices:—Dr. Larookah's Indian Vegetable Pulmonic Syrup, warranted to cure coughs, colds, whooping-cough, asthma, bronchitis, croup, catarrh, consumption, and disease of the throat and lungs. Price 75 cents per bottle.

Also, Kennedy's Medical Discovery, Kennedy's Salve, and Holman's Nature's Restorative.

THERE ARE HUNDREDS OF REMEDIES Sold at every Drug Store, purporting to cure all diseases nameable, each advertised as the very best ever known, till we had lost all faith in them all, but there is one exception.

We speak of Dr. Sanford's Invigorator, which came to us recommended as a cure for Liver Complaints, and all diseases arising from a Diseased Liver. The testimonials of so many of our Physicians in its favor, induced us to try it, and now conviction is certain that it is one of the greatest blessings ever given to Dyspeptics, for it made a complete cure before the first bottle was taken, and now we can eat anything eatable without trouble, while before, nothing but the lightest food would digest, and often would digest, and often that gave pain. Now what we want to say to all our readers is, if Liver Complaint or Dyspepsia trouble you, do not fail to try this, the greatest remedy in the world.

STEPHEN SMITH.—We learn from the Traveller of Saturday evening, the death of Stephen Smith, of Mason, N. H. He died at the McLean Lunatic Asylum in Somville on Thursday. He has been agent of the Columbian Manufacturing Company at Mason and New Ipswich since 1843, when he removed to Mason. He was the principal founder, in 1846, of the Congregational Society at Mason, and was elected by the people of the district Executive Councillor of the State during Gov. Baker's term, and the first year of Gov. Metcalf's.

He was always foremost in good works, especially in the cause of education, temperance and anti-slavery.

LOCAL.

☞ There was a slight alarm of fire at 6 o'clock on Friday evening, which proceeded from house No. 10 Penhallow street, occupied by a number of families. The high wind which arose at that time blew the smoke from the chimney into the garret, creating considerable consternation among the inmates, exhibited by the alacrity with which cradles and other such necessary evils were ejected from the windows. S.

☞ We learn that John Christie, Esq., has the offer of his old position as clerk to the Commandant at this Naval Station.—Mr. Christie had occupied this clerkship for upwards of thirty years, previous to the appointment of Gordon Newton, Esq., the the present incumbent, son of the late Commandant; and his acceptance of the office, and consequent return to become one of our citizens, would be a subject of congratulation to a very large circle of friends and the public generally. Mr. C. has been in Kansas for the last few months; but has probably started on his return journey ere this.

PICNIC.—There is to be a public Picnic Excursion to Candia, on Tuesday (to-morrow) morning. Cars leave the P. & C. Depot at 7 o'clock. Tickets 37 1-2 cents. Dinner may be had on or near the grounds for 20 cts., or each person can "pic-nic" on his own account.

WASHINGTON, Aug. 10.—Lieut. Hood of the 2d Cavalry, with 17 men, had a desperate fight with a band of 55 Lippans and Camanches, July 20th, at the head of Devil River. 9 Indians were killed, and 10 wounded. Lieut. Hood had one killed, one missing, and he and 3 men were wounded.

The death of Gen. Rusk produced a profound sensation in Texas.

The Galveston News complains of drouth, saying the like was never known before.

The Victoria Advocate says the planters on the river were exultant at the prospect of a large cotton crop. The accounts of the crops from the back country were generally good.

A PRISONER.—John Slattery, confined in a cell at the East Boston police station, for drunkenness, hung himself with his handkerchief about half past nine o'clock last Friday evening. Lieut. Drew discovered him and cut him down, and after considerable effort, succeed in resuscitating him.

TORNADO IN READING.—A violent tornado visited the towns of Reading and Melrose on Thursday evening, about 9 o'clock, doing serious damage to numerous buildings, orchards, &c., within the range of its influence. It was accompanied by heavy rain, thunder and lightning. A school house at "Hill End" was raised from its foundation, and carried some four feet from the spot. The residence of Mr. George C. Conley, near by, was partially demolished by a large tree which was blown against it, and an orchard of trees near the house was entirely destroyed.

A CRISIS MET IN HAVANA.—Under date of August 8th, a correspondent of the New York Journal of Commerce states that Havana had just passed through a financial revolution. In the early part of the last week of July, business men began to remark that the specie circulation was perceptibly decreasing. Gen. Concha had also been apprised of the fact, and promptly but quietly prepared himself to meet the emergency of any popular dissatisfaction which might be created by the deficiency, the cause of which was immense operations in stocks. The retail traders began to withdraw their deposits from the best institutions; and on the 3d inst., a rush having been made on the banks, a partial suspension occurred. As a step towards restoring confidence, Gov. Concha convened a meeting of merchants and capitalists, who adopted his views. The Spanish Bank was selected as the institution to afford relief, and by evening, $8,530,200 were subscribed to protect the bank in making advances to the four suspending banks, and enabling them to settle their deposit accounts, amounting to about $8,000,000. The result was, that by Saturday all appearance of panic had subsided, the demand for specie had ceased, and depositing in the banks had been resumed. There were only half a dozen failures, and those were of parties who had been operating in fancy stocks.

SUSPENDED.—Messrs. S. P. and G. H. Ely, well-known millers of Rochester, have suspended, not because of any losses in their legitimate business, but of large investments in the Lake Superior mineral regions. Among other investments was $350,000 in a railroad from Mrquetta to the mines. They had sold this road for $300,000, but the purchasers have failed to meet their engagements. The high credit of the firm, and the cause of their embarrassments, will make their creditors hopeful and lenient.—*Albany Eve. Jour.*

"Rough gambling" is defined in the South-west to be "cutting trunks off from behind stages, and such like."

COLLISION.

On Friday night, on Long Island Sound, a collision occurred, says the Traveller, near New Haven and Falkland Island, between the propeller J. N. Harris, running from Norwich to New York, and the steamboat Metropolis, on the way from Fall River to New York with a large number of passengers.

The account received states that the Metropolis ran into the propeller, which was so much injured that it went down soon after went down, when twelve persons on board of her were drowned.

The lost of the passengers are the wife and child of A. L. Smith of Brooklyn; three children of Capt. Smith of the propeller; a gentleman, his wife and child, whose names are unknown. The lost of the crew are—Stephen Prentice of New London, mate of propeller; Geo. Allen, deck-hand; Mary Withers, chambermaid; Ann Willis, cook. Capt. Smith was badly injured at the moment of the collision, and was taken to New York in the Metropolis.

A passenger of the Metropolis died very suddenly, it is supposed from fright when the collision occurred.

The accident occurred in consequence of the Metropolis taking the propeller for a schooner, she having sails set and showing no headlight.

EXPLOSIONS.—The Pottsville Journal says on Saturday afternoon three distinct explosions of fire-damp occurred at the Price Wetherill Colliery, Pennsylvania, worked by D. P. Brown & Brother. The explosions were caused by a quantity of gas which had accumulated in three inside breasts; by closing the outside stopping and drawing the gas out in too great a body over the open furnace. Upon the first explosion taking place, several of the miners attempted to escape up Slope No. 2; but the second explosion blew them back.—One of them was blown to the bottom, a distance of one hundred yards. The men killed by the explosion are James Kennedy, an Irisman, 22 years of age; and Jacob Baker, 42 years old. Several others were wounded, but not dangerously. The three explosions occurred within the space of five minutes, the first one injuring the engine house, and blowing the timbers of the air shaft at the surface, fifty feet into the air.

POWDER MAGAZINE EXPLOSION. — *Halifax, August* 14.—Merchant's powder magazine, containing the whole stock of Halifax, exploded with a terrific concussion, shortly after midnight last night. One man was killed and fifteen injured; five houses were demolished and ten others partially destroyed. The government magazines and the new barracks were much shattered, and nearly all the windows in the north part of the city were broken.—The damage is estimated at $100,000. It is supposed to have been the work of an incendiary.

The most intense excitement prevailed throughout the city for hours. Many persons were thrown from their beds, and others, bewildered, rushed to the streets for safety, imagining an earthquake had occurred.

WASHINGTON, August 14.—[Tribune correspondence.]—The mission to St. Petersburg has been tendered to James W. Buchanan. It is said that instructions have been finally sent to Gov. Walker, ordering him to collect the taxes under the decrees of the mob Legislature, whatever the consequence. He is authorized to employ all the force necessary to carry but these instructions.

AMERICAN HOUSE,
BOSTON.

Conducted on the European Plan.

LEWIS RICE, Proprietor, respectfully announces that in compliance with the very general preference expressed for the European system of hotel management, that the American House will hereafter be conducted solely on that plan. Well furnished parlor and sleeping apartments will be let by the day, or for longer periods. Meals served at the gentlemen's hall at all hours of the day and evening. The ladies' dining hall will be opened in like manner for ladies, and gentlemen accompanied by ladies. The accommodations and conveniences of the house are unsurpassed, and the recent improvements and alterations leave nothing to be desired. Suburban residents will find the arrangement specially convenient. Large or small parties provided with dinners, suppers, &c., at short notice.

AYER'S Cathartic Pills,
(SUGAR COATED,)
AM MADE TO

CLEANSE THE BLOOD AND CURE THE SICK
Invalids, Fathers, Mothers, Physicians Philanthropists, read their Effects, and Judge of their Virtues.

FOR THE CURE OF

Headache, Sick Headache, Foul Stomach

PITTSBURG, PA., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once. If they will do others as they do me, the fact is worth knowing.

Yours with great respect, ED. W. PREBLE,
Clerk of Steamer Clarion.

Bilious Disorders and Liver Complaints

DEPARTMENT OF THE INTERIOR,
WASHINGTON, D. C., 7 Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of the organ. Indeed, I have seldom found a case of *bilious disease* so obstinate that it did not readily yield to them.

Fraternally yours, ALONZO ALLI, M. D.,
Physician of the Marine Hospital.

Dysentery, Relax, and Worms.

POST OFFICE, HARTLAND, LIV. CO., MICH., Nov. 14, 1855

DR. AYER: Your Pills are the perfection of medicine They have done my wife more good than I can tell you She had been sick and pining away for months. Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her by expelling large quantities of worms (dead) from her body. They afterwards cured her and our two children of bloody dysentery. One of our neighbors had it bad, and my wife cured him with two doses of your Pills, which others around us paid from five to twenty dollars for doctor bills, and lost much time, without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be prized here.

GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WARSAW, WYOMING CO., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountains of the blood.

JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her. ASA MORRISHUS

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawks, of the Methodist Episc. Church.

PULASKI HOUSE, SAVANNAH, GA., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the aid of physicians, the disease grew worse and worse, until, by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them I am now entirely well.

SIMON CHAMBER, BATON ROUGE, LA., 5 Dec., 1855.

DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that has afflicted me for years. VINCENT SLIDELL.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a Dinner Pill, they are agreeable and effectual.

Fits, Suppression, Paralysis, Inflammation, and even **Deafness, and Partial Blindness,** have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a pill, from the dreadful consequences that frequently follow its improper use. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL

FOR THE RAPID CURE OF

COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, IN CIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it already known. Nay, few are the families in any civilized country on this continent without some personal experience of its effects; and fewer yet the communities any where which have not among them some living trophy of its victory over the subtle and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared. We have abundant grounds to believe the CHERRY PECTORAL saves more lives by the consumptions it prevents than those it cures. Keep it by you, and cure your colds while they are curable, nor neglect them until no human skill can master the tenacious leaks that fastened on the vitals, eate your life away. All know the dreadful fatality of lung disorders, and as they know too the virtues of this remedy, we need not dwell more than to assure them it is still made the best it can be. We spare no cost, no care, no toil to produce it the most perfect possible, and thus afford those who rely on it the best agent which our skill can furnish for their use.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FRANCIS & CO. are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Tertary combination. Prizes vary in amount from $20 to $100 000. All orders for tickets or packages will receve prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $50,000; every prize being drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. Write your address plainly, and direct to S. SWAN & Co., Atlanta, Georgia

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m18 1y

(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

No. 76 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by transmitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few if any persons acting in that capacity, who had so much business before the Patent office; and there were none who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their application in the strongest form to them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

ABNER LEWIS, Esq., says the firm I have held the Office of Commissioner of Patents, R.H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules and practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

Lawrence's Carminative,

—OR—
CHILD'S PAIN-KILLER.
THIS invaluable preparation is a favorite scientific prescription of one of the most eminent of the Medical Faculty in New England, and one who has been successful as any other in the treating of
DISEASES OF CHILDREN,
and has been used with never-failing success.
The Carminative is emphatically
A CHILD'S MEDICINE,
and is the *only* Child's Medicine in this country; intended to do away with the excessive and injurious use of *Paregoric*, a remedy sure to be followed by a "dose of physic."
The ingredients of which the *Carminative* is compounded, are known to the Medical Faculty, and it is now extensively used, and approbated by the physicians living in the vicinity of the Laboratory, where opportunity has been had to test its virtues.
The *Carminative* is offered in full confidence for the rapid cure of
Colic, Pain in the Bowels, Wind in the Stomach and Bowels, Green Stools, Diarrhœa, Nervous Affections, Sore Mouth, Restlessness,
and other disorders incident to Weaning and Teething; sure to regulate derangements of the Stomach and Bowels, which often afflict young children; correct debilitated and sour Stomachs, relieve pain and give tone, energy and strength to the whole system.
Due regard has been taken to have the price of the Carminative so low as to be within the reach of all. Price *only 25 cents.*
Parents who value rest should not fail to buy a bottle, as they may depend upon its giving relief to worrisome children!
Sold by country traders and all Apothecaries throughout the United States and Canada.

Coggswell's Medical Salt,

A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.
INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—has but ONE AIM—accomplishes but ONE THING, to wit: SUNDRY INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. Every *form of inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. Is it asked, *how* it does this?—Simply by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely what adheres to the point of a quill dipped into a solution of it, to affect the entire system.
☞ *Of its intrinsic value, the enlightened community, and not the discoverer, must be the judge.*
PRIME COST, $1, 50 per drachm—PRICE $2 per drachm.

S. D. & H. W. Smith,

—MANUFACTURERS OF—
Melodeons, Organ Melodeons,
—and—
PEDAL BASS MELODEONS,
No. 511 Washington St., Boston.
The first premium over all competitors, at the Fair of the Mass. Charitable Mechanic Association, of the National Fair, Washington, D. C., also at the Ohio State Fair, held at Columbus, Ohio, was awarded to these Manufacturers.
By means of a new method of Voicing, known only to themselves, they have succeeded in removing the harsh and buzzing sound which formerly characterized the instrument, and rendering the tones full, clear and organ like. The action is prompt and reliable, enabling the performer to execute the most rapid music without blurring the tones. The swell is arranged to give great expression.
THE PEDAL BASS MELODEONS,
Are designed particularly for Churches, Lodges, Halls, &c. It is arranged with two manuals, or banks of keys, the lower set running an octave higher than the other, and may be used separately, and thus get in one case two distinct instruments; or by use of the coupler, the two banks of keys may be played at the same time by use of the front set only. This connected with the Pedal Bass, will produce the effect of a large organ, and is sufficiently heavy to fill a house that seats from 1000 to 1500 persons.
THE ORGAN MELODEON
Is designed for parlor and private use. The construction is similar to the Church Instrument, being arranged with two banks of keys, and when coupled together, by means of the coupler, is capable of as great volume of power as the Church Instrument when used without the pedals. Also, every variety of MELODEONS for Parlor use.
Purchasers may rely upon instruments from our Manufactory, being made in the most complete and thorough manner. Having removed to the spacious Buildings
511 Washington Street,
We have every facility for manufacturing purposes, and employ none but the most experienced and skilful workmen. In short, we will promise satisfactory instruments in every equal, if not superior, to any Manufacturer, and guarantee an *entire and perfect satisfaction.*
Music Teachers, Leaders of Choirs, and others interested in musical matters, are respectfully invited to visit our Rooms at any time and examine or test the instruments on exhibition for sale at their pleasure.
As a still further guarantee to the public as to the excellence of the MELODEONS from our Manufactory, we beg leave to refer, by permission, to the following
Piano Forte Manufacturers of Boston,
who have examined our Instruments, and will give their opinion when called upon:
Chickering & Sons, Hallett & Cumston,
T. Gilbert & Co., Wm. P. Emerson,
Brown & Allen, A. W. Ladd & Co.,
George Hewes, Woodward & Brown,
Newhall & Co.
MELODEONS RENTED.
Persons who wish to hire Melodeons with a view of purchasing at the end of the year, can have the rent credited as part payment of the purchase money. This matter is worthy of special note, as it enables those who desire a fair test of the instruments before purchasing, to obtain it at the expense of the manufacturers, to the extent at least of a year's rent.
Orders from any part of the country or world, sent direct to the manufactory in Boston, with cash, or satisfactory reference, will be promptly attended to, and as faithfully executed as if the parties were present, or employed an agent to select, and on as reasonable terms.

IMPORTANT DISCOVERY.
DR. CHEESEMAN'S PILLS FOR FEMALES.
Prepared by an old Physician of 40 years experience
THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. In all cases of painful menstruation, or nervous and spinal affections in the back and limbs, lowness of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, commonly called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. Warranted purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.
These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to DR. C. L. CHEESEMAN, Box No. 4,581, Post Office, New York City, can have them sent to their respective addresses by return of mail.

LIFE IN THE WEST.

OSAWKIE, KANSAS TERRITORY, June 7, 1857.

We left Leavenworth on the 13th of May, in the regular stage, and arrived at Lawrence that evening, where we remained until Friday, the 15th. While there I called on Gov. Robinson. I also saw a young man from Portsmouth, who accompanied us to various points of interest, and gave us much information in regard to the abominable transactions of last year. We visited the fortifications erected last summer, walked over the ashes of Gov. Robinson's house, visited the site of the hotel destroyed by the border ruffians, and saw and heard other interesting matters and things. We stopped at the Whitney House in Lawrence. This is a new house, and is finished so far as being lathed, but is not plastered; the house was crowded, and the only division betwen the sleeping apartments was the studs and lathing. Everything there was uncomfortable.

On Friday, the 15th of May, we again took stage for Wyandotte, where we arrived in the afternoon: where we took up our quarters on board an old steamboat, that has been fitted up as a hotel, offices, store-house, &c.

On Saturday morning we took passage on an up-river steamboat for Leavenworth, where we arrived before night. After breakfast on Sunday morning, May 17, we started on foot for this neighborhood. We walked about 13 miles, and stopped at what is called the Easton House, in the afternoon, situated in the village of Easton. We got our dinner this day on the road, at a very comfortable and neat log house.—The Easton House, where we supped and lodged, is also a log house, and furnished excellent fare.

On Monday morning we again started, in a wagon drawn by two mules; which, by the way, are used in the West very extensively. In the afternoon we arrived at a cabin about a mile from ours, where we boarded two days. This cabin is perhaps eighteen by twenty feet in one apartment, has a door, a window, and is floored. The family (excellent people) consisted of a man and wife and two small children, and two boarders beside our ourselves. On the first night there were eight or nine lodgers; and on the second, ten.

On our arrival we commenced our inquiries respecting claims for sale, and on Wednesday bargained for the one on which we are now located. These lands are called the Delaware Trust Lands, and are held by the U. S. Government in trust for the Delaware Indians; and are to be sold on the 15th of July, or rather the sale is to commence on that day—and the proceeds are to be paid to the Delawares by the Government. The lands are all taken up by squatters, who, previous to the public sale, dispose of their claims, if they please, to whomsoever will buy. The claim we purchased is a quarter section (160 acres) and had on it an unfinished log cabin, twelve by fourteen feet

We removed our quarters to a cabin on an adjoining claim, and occupied by a family of which the person we purchased of is a member, where we boarded a fortnight. Here we saw and enjoyed squatter life to our hearts' content. The cabin in which we slept has neither door, window, nor floor. We had, however, a good bed and bed-clothes; so that we were perfectly comfortable, although the air came in on all sides. The apertures for the doors and widows were covered at night with a bed quilt. Although from five to seven or eight persons, old and young, slept in this apartment, no annoyance for want of pure air was experienced.

The main cabin, to which the one we occupied is an appendage, consists of two apartments, and likewise is minus doors, windows and floors. I will give you an idea of a log cabin. The logs are piled one on another, and notched into each other at the corner, so as to render the structure sufficiently strong. As the logs do not touch each other, the spaces between them are filled with stones or pieces of wood, and then pointed with mud, or lime mortar, outside, and if desired on the inside also. Our last boarding place had no pointing whatever in our lodging apartment; the other building was pointed on the outside with mud.

On Wednesday last, we removed to our cabin, which is quite a princely residence for a squatter. We have finished it with a pine floor, a pannelled door, and a window of six panes. The pointing with lime mortar, outside and in, including the roof, is nearly finished. Our furniture consists of a good table, three chairs; a small cook stove, with the necessary boilers, pans, kettles, &c.; a wash tub, two pails; three hammocks, with beds stuffed with the dry prairie grass, and the necessary blankets; six plates, six cups and saucers, six knifes and forks, three quart bowls, one-half dozen iron spoons, one-half doz. do. tea spoons, one-half dozen tumblers, a broom, large wooden bowl, a sieve; a bottle for molasses, one for vinegar, &c.

Our trunks are nicely stowed on wooden pins driven into the timbers, and our shelves for crockery, &c., are fixed up in the same manner. Our provisions consist of a sack of flour, one of corn meal; a jug of molasses, one of vinegar; some bacon, salt mackerel, lard, crackers, sugar, tea, coffee, rice, beans, dried apples. We have a dozen fowls, and perhaps may buy a cow.

Thus far, I have acted as cook, and think I have succeeded wonderfully well. I have made coffee, tea, bread, griddle cakes; have fried bacon, boiled bacon and greens, and boiled rice; can set a table, and wash dishes in very good style, already.

Our hammocks are very pleasant to sleep in, and very convenient on account of our lack of room. During the day they are nicely triced-up to the rafters, and are thus entirely out of the way. One reason why we have taken this course, is, it is necessary that the claims should be occupied until the public sale; and another is, we wish to be in a situation where we can at our leisure observe whatever may transpire, and be ready to make any other investment that shall appear desirable.

We expect this week, to have a piece of ground broken up, for corn, beans, melons, cucumbers, squashes, &c.

The weather now is very pleasant, and the appearance of the country is beautiful.

☞ The lives lost by the sinking of the propeller J. N. Harris, in Long Island Sound, are now supposed to be about 20.

Nothing was saved by the crew or passengers of the lost propeller, excepting what they had on.

After the rescue of the survivors, some excitement was occasioned on board the steamer by cries of distress from a distance, and a boat was sent out. The passengers waited in suspense for the recovery of another person, when the boat returned with a cat, which was found floating on a crate.

The passengers on board the Metropolis held a meeting shortly after the disaster, and a subscription was opened for benefit of those who were needy among the survivors and families of the lost. The following gentlemen were appointed as the committee: Lowell Mason, Jr., New York; Rev. R. W. Clark, Brooklyn; W. P. Jones, Portsmouth, N. H.; J. K. Frothingham, Boston. About five hundred dollars was collected.

The propeller was named after John N. Harris, Mayor of New London, who was part owner. She was three years old, and of 207 tons burthen. Her cargo consisted of flour, feed and provisions of different kinds, some furniture and other articles, and forty tons of iron. She left New York at 5 o'clock Friday. The clerk desired to be in New London same night, and took the last New Haven train, thereby, in all probability, saving his life.

A remarkable casualty occurred on board the Metropolis about half an hour after the collision. George Tappan of New Bedford, who was eagerly discussing with several persons the possibility of danger to the steamer, and mentioning instances of the loss of vessels from very slight leaks, fell down, dead. His wife immediately went into hysterics, upon recovering from which she seemed to have lost all sense and realization of the death of her husband,—her senses seemed to be gone, and no recollection of the death seemed to remain. The commiserating passengers did not distress her by a reminder, and she remained, on Saturday, unconscious of Mr. Tappan's death. Mr. Tappan was subject to the heart disease, and his sudden death was owing to the excitement occasioned by the accident. He was about 50 years of age, and was a native of Newburyport.

Ex-Senator Keyes of Norfolk county, who was committed to the House of Correction for disturbing the peace, the other day, is about to be removed to the Insane Asylum. Rum did the business.—He was a man of fine talents and many estimable traits of character, but rum, that curses and injures all who use it, did the business for him, as it is doing it for thousands of others.—*Newburyport Herald.*

The Montreal Advertiser announces the death of Mr. Benjamin Pickard, at Paris, Canada, at the age of one hundred and one years. He was the last survivor of the famous corps of Butler's Rangers, in which he served as a drummer through the American Revolutionary war. He was generally and deservedly respected, and was for sixty years a member of the Wesleyan Methodist Church.

THE MISSOURI ELECTION.—The Lowell Advertiser, of course, disbelieves that Rollins, the American and Emancipation candidate, is elected Governor, and says that it shall wait until the returns are all in, before it announces to the public that a slaveholder, after all the "agitation" in Missouri on the emancipation question, has succeeded in defeating a democratic candidate for governor, who is not an owner of slaves. Fearing, however, the worst, the editor says:

If Rollins is elected, the fact of his being a slave1 older, without doubt, contributed to his election. Elected or not, that fact increased the number of his votes. When taunted with being what is called in Missouri an emancipationist, he pointed to the slaves he owned in refutation of the charge, and insisted that Stuart, his democratic competitor, did not own, nor did he dare to own, a single slave. *Stuart was denounced as an abolitionist.*

The News replies:

Now our neighbor knows and ought to know that this is all—no such thing. The following extract from an address at St. Louis, on the eve of the election, will tell upon what grounds Rollins fought the battle. He said:

Now, in regard to my opinion on the subject of "emancipation," I hear it said occasionally that Missouri is destined to be a free State. Very well, I am in favor of leaving that question to higher than human laws, and I am favor of submitting that question to the laws of climate, of emigration, [good! good! good! strong enthusiasm,] of labor, and of production, which, first or last, affects the destinies of man and commonwealths, and to the clear guidance of Him who does all things well. [Renewed marks of enthusiasm.]

Now, I am in favor of encouraging labor in our State; protecting the labor of this great city, and of the great commonwealth in which we live. I am in favor of inviting and encouraging emigration to the State of Missouri from every part. [Cheers.]

I say let us throw wide open our doors and invite men of the North, of the South, and men of every tongue and kindred upon the habitable globe. [Applause.] Invite them here to cultivate our prairies, to till our land, to aid in developing our mineral resources, to aid us in filling up our great cities, and in making Missouri the proudest and noblest commonwealth in this sisterhood of States; and if, my friends, this cordial system of emigration in the course of years bring about such a disproportion between the white and the black races, that it is no longer the interest of Missouri to continue a slave State, I say, "then let it go." [Tremendous cheering.[

VIRGINIA MATTERS.

The Wellsburg, Va., Herald, favors Mr. Thayer's free labor colony, and says, "Let but a fraction of the same kind of feeling spring up in Western Virginia as now exists in some sections of Missouri, and land that now sells at nominal prices, will speedily take a position in the market, population will pour in, the hills and hollows will be populated with free white men, and in a very short time Western Virginia will assume the importance not only in the councils of the State, but of the nation, to which she is entitled, and will, perhaps, drag the balance of the Commonwealth into like prosperity. Roll along the free labor ball."

But the Richmond Whig says:

Such is the clear and unmistakable language employed by a Virginia journal in favor of Thayer's colonization scheme.—Such is the bold ground taken in behalf of the grent "free labor ball," which is to revolutionize Virginia, undermine her ancient institutions, and make of her a free State in the interest of the Abolition propaganda of the North. Western Virginia is the theatre to be resorted to first by Thayer, his confederates and abettors; and after establishing themselves there, driving out negro slavery, and constituting it a possession forever for the Yankees, these humane and philanthropic colonizationists from the Abolition purlieus of New England, propose to turn their footsteps towards Eastern Virginia, and introduce their peculiar civilization and institutions amongst us. In other words, having first Abolitionized Western Virginia, it will be their aim "to drag the balance of the Commonwealth" into the adoption of the free labor system, which will put an end to slavery in Virginia, and lead to its ultimate extermination in all the present border States, and perhaps involve the rest in a similar fate.

What a *dreadful fate!*—"Ye that have tears, prepare to shed them *now*:"—there is really some danger that free labor will prevail in Virginia. Why don't somebody in New Hampshire get up a howl over a case so sad?

Lately, a gentleman of Chicago was accompanying two ladies to the panorama, when, in crossing Market street, he stepped on a hogshead hoop, which flew up (as hoops will do) and struck him across his not very handsome nose. "Good gracious, ladies!" he exclaimed, "which of you dropped that?"

The charm of novelty and the charm of long habit, opposite as they are, equally conceal from us the faults of a friend.

No medicine has been introduced in this country that is giving such universal satisfaction as Dr. Wilson's Dysentery Powders. They immediately check the disease without danger of producing inflammation or fever. Dysentery, Diarrhea, Cholera Morbus, and Summer Complaint are cured with one Powder, if taken when first attacked with the disease. Give them one trial and you will not be without them. a6 3w

HAIR RESTORATIVE.—We are pleased to record the satisfaction of our patrons, after trial of an article advertised in our columns. We have the satisfaction to know several of our readers who have used Prof. Wood's Hair Restorative, and pronounced it to be just what the advertisement says it is. We have several personal acquaintances, too, who were gray headed, they have tried it, and now their hair is restored to its original color, and they willingly add their testimony to its efficacy, and will give further information to others desiring it. This speaks well for the article, and we advise all who do not wish to appear gray-headed, to use Wood's Hair Restorative.—[Western Patriot.

☞ Mr. Asa S. Tilton at his Union Store, No. 12 Market street, sells the following Medicines at reduced prices:—Dr. Larookah's Indian Vegetable Pulmonic Syrup, warranted to cure coughs, colds, whooping cough, asthma, bronchitis, croup, catarrh, consumption, and disease of the throat and lungs. Price 75 cents per bottle.

Also, Kennedy's Medical Discovery, Kennedy's Salve, and Holman's Nature's Restorative.

THERE ARE HUNDREDS OF REMEDIES Sold at every Drug Store, purporting to cure all diseases nameable, each advertised as the very best ever known, till we had lost all faith in them all, but there is one exception.

We speak of Dr. Sanford's Invigorator, which came to us recommended as a cure for Liver Complaints, and all diseases arising from a Diseased Liver. The testimonials of so many of our Physicians in its favor, induced us to try it, and now conviction is certain that it is one of the greatest blessings ever given to Dyspeptics, for it made a complete cure before the first bottle was taken, and now we can eat anything eatable without trouble, while before, nothing but the lightest food would digest, and often would digest, and often that gave pain. Now what we want to say to all our readers is, if Liver Complaint or Dyspepsia trouble you, do not fail to try this, the greatest remedy in the world.

LOCAL.

☞ Rev. Thomas Holmes, formerly pastor of the Pleasant Street Church, and who has been in Europe for more than two years, has returned to this country, and spent the last Sabbath in this city. Mr. Holmes is one of the Professors of Antioch College, and went out to Germany for the better prosecution of some studies.

On Sabbath evening, in Hanover street Chapel, he gave many interesting facts, illustrating the moral, religious, and social condition of the country where he has resided.

He speaks in high terms of the courtesy, deference, and honesty of the German people; while he deplores their manner of keeping the Sabbath, so unlike that of New England. He describes the shops all open on Sunday morning, and doing more business on Sunday morning before 10 o'clock; than during all the rest of the week; public worship at 10, being the only religious assemblage for the day; coffee drinking, social, public, universal, at 4 P. M.; and balls, concerts, and theatres on Sabbath evening, with wine and beer for drink.

The children, protestant no less than catholic, are sprinkled in infancy, and confirmed at 15 years of age; and as almost everybody belongs to the church, they have immense bodies of communicants, so that it is common, in some places, to keep the Lord's Supper on two successive Sundays in the same church, because all the communicants cannot get in at once; though on other Sundays not half so many come.

Mr. Holmes expects to preach in this city next Lord's day.

PERSONAL.—Dr. John C. Bennett, formerly Quarter-master General of the State of Illinois, and now Postmaster of Polk City, Iowa, is in town for a few days, the guest of Dr. Frank Fuller. Dr. Bennett was favorably known a few years since, in this section, as a surgeon of commanding skill and ability, and a medical practitioner of high rank and large experience. He speaks with much enthusiasm of his present location, a few miles from the flourishing city of Des Moine; the richness of the soil, the luxuriance of vegetation, and the certain fortune which awaits all energetic settlers, whether agriculturalists, mechanics or professional men. The Doctor, leaves this city to-day.

Messrs. Editors.—I would inquire through the columns of your paper if there is no law which will reach those rascals who make it a point to visit the outskirts of our city about one night in a week, and pull down stone walls, fences, gates, &c., take away field bars and carrying them off, throw them over in some field or pasture, thereby exposing the field to the road, where cattle can have ingress or egress?—If there is one, it will be enforced on them; if not, a sort of junior Vigilance Committee will be formed, and if they succeed in catching them, they (the depredators) will probably have cause to regret their proceedings of the last two or three weeks. s.

☞ A sad sight indeed it is, says Uncle Toby, to see an old man of sixty winters, grey headed, without a hat, with a coat dirty as if he had laid on the ground during the night, going to the window of a hospitable groggery at sunrise, knocking, and having an entrance granted, to a place where he can be so supplied as to sink still deeper in sin and sorrow.

☞ Mr. John S. Harvey, who has long been known in this city and vicinity as a reliable business man, now devotes his entire and exclusive attention to Fire, Marine and Life Insurance, the purchase and sale of real estate, and business of a like character. He is agent for some of the staunchest and most popular Insurance Companies in the country; and from his thorough acquaintance with the value of property, is well qualified to trade in real estate. He may be found at the Bookstore of Chas. C. Harvey.

☞ House builders, owners or occupants, in this city or neighborhood, who wish anything in the Plumbing line, cannot do better than to call on Messrs. Lockwood & Lumb at their establishment in Congress Block. For fitting water-works, or anything of the sort, their workmen can't be beat; and they will be found gentlemanly and reasonable to deal with.

☞ Owing to the rainy weather, the Picnic which was to come off to-day, is postponed to the first fair day.

Portsmouth Steam Factory.

THE PROPRIETORS of the PORTSMOUTH STEAM FACTORY are hereby notified that their Annual Meeting will be holden at the Court House in Portsmouth, on TUESDAY, the 1st day of September next, at 11 o'clock, A. M., for the choice of Directors and Proprietors' Clerk, and for any other business that may legally come before said meeting.

aug18 J. N. HANDY, Proprietors' Clerk.

4 DAYS LATER FROM EUROPE.

NEW YORK, Aug. 17.

The steamer Columbia from Liverpool, arrived at this port, this morning.

The Liverpool Cotton market is quiet; sales for three days 13,000 bales; closing quiet but firm.

Breadstuffs were dull, with a slight decline on all sorts. Weather very fine.

Provisions quiet.

The general news is interesting.

Lord Panmure had introduced a bill authorising the embodyment of Militia without calling Parliament together, and announced the intention of considerably increasing the rank and file of the army.

Lord John Russell's motion, in the House of Commons, for a committee to inquire if Jews cannot be admitted on affirmation under existing acts was agreed to.

Mr. Delane, formerly manager of the Times, and Eugene Sue are dead.

The India Company, it is understood, have made a requisition for 6000 additional troops.

The Indian loan of 5 to 10,000 is spoken of again.

PARIS, Aug. 4.—The Emperor and Empress will quit the Chateau of St. Cloud to-morrow, on their way to Osborne, the residence of the Queen of England. Their majesties will set out on their return on Monday next.

Dartmouth, Tuesday.—The passengers and mails have been landed here from the Swiftsure, Capt. Price, which has made the passage in 96 days from Melbourne, and brings 60,000 ounces of gold.

The admiralty has issued a circular, directing the commanders of Her Majesty's ships to make periodical returns of all merchant vessels they may meet at sea, signalizing their names by means of the code of signs, authorized by the Board of Trade.

SOUTHERN CONVENTION.—*Knoxville, Aug. 12.*—The Business Committee in the Southern Convention, reported to-day against free trade and direct taxation; against the South receiving goods from States not upholding the Fugitive Slave law; against any discrimination of the government in favor of owning mail lines from Northern ports; in favor of the exemption of one slave to each slaveholder from seizure for debt; in favor of erecting Arizona into a territory; in favor of recovering certain lands lost by the treaty with Mexico.

They also reported that the time had not arrived for the calling of a convention in reference to the African Slave trade.

Resolutions in favor of Montgomery as the next place of meeting for the convention, and in favor of the withdrawal of the squadron from the African coast, were adopted.

FROM BRITISH INDIA VIA WASHINGTON.—*Washington, August 15.*—Mr. Huffnagel, our Consul at Calcutta, called at the State Department this morning. He has come straight from his post, and says the affairs in India are most critical. The number of insurgents at Delhi he states to be 48,000 men, and not 15,000, as the British papers have reported; and says they are well supplied with artillery, arms and munitions of war, besides some two millions and a half of money, which they found in the treasury. The British force that can be brought against them, when Gen. Barnard receives the reinforcements he was waiting for, will be between 6000 and 7000 men.

ALBANY, August 15.—A locomotive upset this morning on the Albany and Northern Railroad, at Troy, in consequence of the breaking of an axle. The engineer and fireman were killed. No further particulars.

BALTIMORE, August 16.—An explosion of the Gas Works in this city occurred this afternoon. The roof of the purifying house was blown off, and two men were knocked down, but fortunately no one was killed.

RUNAWAY SLAVE.—It is reported that the slave of a gentleman, who is or was with his daughter, at Rye Beach in this State, ran or walked away, on the 5th instant.—The name of the slave is Jacob, and he says his master owns 600 slaves in Charleston, S. C. The said Jacob was seen at South Newmarket and he has, probably, before this time, found his way to the spot in the dominions of Queen Victoria, where many others who have escaped from slavery, are located. Jacob is described as quite a good looking mulatto, well formed and not dark in complexion. Such is the report we have heard, and we publish it as a report. If it is all true, we shall doubtless know more respecting it.—*Exeter News Letter.*

TRACT SOCIETY.—The Charleston, S. C. Mercury, comes down upon the American Tract Society, for its late action, and says:

The Southern people are quite able to support and establish a similar society for the promotion of religion and morality in the South.—By all means let us have one, free from the fosterings and impertinences of Abolitionism. Let the presses of such a Society be put up in Richmond, Charleston or New Orleans. We will then be able to keep the religious tracts circulated in the South, to the one great object of promoting true religion and the salvation of men's souls; and select and control the colporteurs and agents who shall gratuitously circulate them throughout the South.

AN OLD NURSE FOR CHILDREN.

DON'T fail to procure Mrs. Winslow's Soothing Syrup for Children Teething. It has no equal on Earth. No mother who has ever tried Mrs. Winslow's Soothing Syrup for Children will ever consent to let her child pass through the distressing and critical period of teething without the aid of this invaluable preparation. If life and health can be estimated by dollars and cents, it is worth its weight in gold.

Millions of Bottles of MRS. WINSLOW'S SOOTHING SYRUP are sold every year in the United States. It is an old and well tried remedy.—None genuine unless the fac simile of "Curtis & Perkins" is on the outside wrapper.

AYER'S Cathartic Pills,
(SUGAR COATED,)
ARE MADE TO
CLEANSE THE BLOOD AND CURE THE SICK
Invalids, Fathers, Mothers, Physicians Philanthropists, read their Effects, and judge of their Virtues.
FOR THE CURE OF

Headache, Sick Headache, Foul Stomach.

SYRACUSE, Pa., May 1, 1855.

DR. J. C. AYER. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach, which they cleanse at once. If they will do others as they do me, the fact is worth knowing.

Yours with great respect, ED. W. PREBLE,
Clerk of Steamer Clarion.

Bilious Disorders and Liver Complaints

DEPARTMENT OF THE INTERIOR,
WASHINGTON, D. C., 7 Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, consequently they are an admirable remedy for derangements of the organ. Indeed, I have seldom found a case of bilious disease in which no obstinate fault did not readily yield to them.

Fraternally yours, ALONZO BALL, M. D.,
Physician of the Marine Hospital.

Dysentery, Relax, and Worms.

POST OFFICE, HARTLAND, LIV. CO., MICH., Nov. 16, 1855

DR. AYER: Your Pills are the perfection of medicine. They have done my wife more good than I can tell you. She had been sick and pining away for months. Went off to be doctored at great expense, but got no better. She then commenced taking your Pills, which soon cured her, by expelling large quantities of worms (dead) from her body. They afterwards cured her of dysentery, and our two children of bloody dysentery. Four of our neighbors had it bad, and my wife cured him with two doses of your Pills, while others around us paid from five to twenty dollars doctors bills, and lost much time, without being cured entirely even then. Such a medicine as yours, which is actually good and honest, will be prized here.

GEO. J. GRIFFIN, *Postmaster.*

Indigestion and Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston.

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in distress. To regulate the organs of digestion and purify the blood they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WARSAW, WYOMING CO., N. Y., Oct. 24, 1856.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the fountain of the blood.

JOHN G. MEACHAM, M. D.

Erysipelas, Scrofula, King's Evil, Tetter, Tumors, and Salt Rheum.

From a Forwarding Merchant of S. Louis, Mo., 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of ulcerous sores upon her hands and feet, that had proved incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her. ASA MORRISS.

Rheumatism, Neuralgia, and Gout.

From the Rev. Dr. Hawks, of the Methodist Episc. Church.

PULASKI HOUSE, SAVANNAH, GA., Jan. 5, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and brought on excruciating neuralgic pains, which ended in chronic rheumatism. Notwithstanding I had the best of physicians, the disease grew worse and worse, until, by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them I am now entirely well.

SENATE CHAMBER, BATON ROUGE, LA., 5 Dec., 1855.

DR. AYER: I have been entirely cured by your Pills of Rheumatic Gout—a painful disease that had afflicted me for years. VINCENT SLIDELL.

For Dropsy, Plethora, or kindred Complaints, requiring an active purge, they are an excellent remedy.

For Costiveness or Constipation, and as a Dinner Pill, they are unequalled as an effectual, gentle, and safe aperient.

Fits, Suppression, Paralysis, Inflammation, and even Deafness, and Partial Blindness, have been cured by the alterative action of these Pills.

Most of the pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow the incautious use. These contain no mercury or mineral substance whatever.

AYER'S CHERRY PECTORAL
FOR THE RAPID CURE OF
COUGHS, COLDS, HOARSENESS, INFLUENZA, BRONCHITIS, WHOOPING COUGH, CROUP, ASTHMA, IN CIPIENT CONSUMPTION,

and for the relief of consumptive patients in advanced stages of the disease.

We need not speak to the public of its virtues. Throughout every town, and almost every hamlet of the American States, its wonderful cures of pulmonary complaints have made it already known. Nay, few are the families in any civilized country on this continent, without some personal experience of its effects; and fewer yet the communities any where which have not among them some living trophy of its victory over the subtle and dangerous diseases of the throat and lungs. While it is the most powerful antidote yet known to man for the formidable and dangerous diseases of the pulmonary organs, it is also the pleasantest and safest remedy that can be employed for infants and young persons. Parents should have it in store against the insidious enemy that steals upon them unprepared. We have abundant grounds to believe the CHERRY PECTORAL saves more lives by the consumptions it prevents than those it cures. Keep it by you, and cure your colds while they are curable, and neglect them until no human skill can master the inexorable wanker that, fastened on the vitals, eats your life away. All know the dreadful fatality of lung disorders, and as they know too the virtues of this remedy, we need not do more than to assure them it is still made the best it can be. We spare no cost, no care, no toil to produce it the most perfect possible, and thus afford those who rely on it the best agent which our skill can furnish for their cure.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FRENCH & Co are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets sent, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from $20 to $100 000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $20; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $20 to $50 000; every prize ticket drawn, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers: New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. Write your address plainly, and direct to S. S. SWAN & Co., Atlanta, Georgia.

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m18 1y

American and Foreign Patents.
R. H. EDDY, solicitor of Patents,
(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

No. 76 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through its members has advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials here given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that the business of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and other documents relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent office, who were more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."
From the present Commissioner.

AUGUST 17, 1855.—During the time I have held the Office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

The Sibyl is commanded by Capt. RUFUS A. PREBLE, a thorough seaman, who will give every attention to the comfort and enjoyment of his passengers.

The Sibyl has a magnificent cabin, water closets, tanks, and every accommodation which a first class Packet requires.

The advantages this purely Ocean Retreat possesses over all others are well known. Resting on the broad bosom of the Atlantic—free from heat, dust and noise—it is peculiarly fitted to restore health to the invalid, and rest to the careworn and weary. j22 THOMAS B. LAIGHTON.

VOL. 11. PORTSMOUTH, N. H., WEDNESDAY, AUG. 19, 1857. NO. 16.

CONGREGATIONAL CHURCHES OF MASSACHUSETTS.—We gather some interesting facts, concerning the Orthodox denomination in Massachusetts, from the Congregationalist of last week. By a statement in that paper, it appears that on the 1st of January, 1857, there were 472 churches of Orthodox faith in the State, and only twenty-six towns in the Commonwealth without a church of the order, as follows:

Bellingham, Bolton, Brewster, Cheshire, Clarksburg, Duxbury, Florida, Hancock, Hull, Leyden, Lexington, Monroe, Mt. Washington, Nahant, New Ashford, Pembroke, Russell, Savoy, Somerset, South Scituate, Tyngsboro', Tyringham, Wales, Weston, Westport, Winthrop.

The various churches have 350 pastors, and 60 stated supplies. There are 150 ministers reported without pastoral charge—making 560 clergymn in all. These churches have a male membership of 21,057; a female, of 45,548,—total, 67,656—an average of 143 to each church. There are 70,187 reported members of the Sabbath Schools—or an average of 147 to each school. The largest four Sabbath schools are the following: Pine street Church, Boston, 730; Winthrop Church, Charlestown, 552; Maverick Church, East Boston, 526; Winnisimmet Church, Chelsea, 502.

The oldest four churches the following: West Barnstable, gathered at Southwark, London, 1616; Tabernacle Church, Salem, August 6, 1629; 1st Church, Lynn, 1632; South Marshfield, 1632.

The largest four churches are the following: Park street Church, Boston, 705; Mt. Vernon Church, 666; 1st Church, Pittsfield, 635; John street, Lowell, 518; or deducting absent members—respectively: 585, 489, 315, and 388.

The ministers who have been settled a half a century or more in one place, are as follows: Dr. Cooley, of East Granville, settled February 3, 1796; Dr. Snell, of North Brookfield, settled June 27, 1798; Mr. Braman of Georgetown, settled June 7, 1799; Mr. Emerson, of South Reading, settled October 17, 1804; Dr. Emerson, of Salem, settled April 24, 1805; Mr. Kimball, of Ipswich, settled October 8, 1806; Dr. Ely of Monson, settled December 17, 1806.

AFFECTING SCENE.—A few days since, a middle-aged man, a tin-plate and copper worker, who formerly held a good position in the community, but for several years past has given himself up to his appetite, was taken by his wife in a carriage to the Home for the Fallen, suffering from a severe attack of delirium tremens. At the Home he was skillfully attended by Dr. Ayer, and received every attention from the attendants; but died from the effects of the disorder last night, in presence of his wife and mother and seven or eight of the inmates of the Home. The inebriates present were deeply affected in view of the terrible scene. We understand that the Home has now ten inmates. Through the exertions of the Managers and the zeal of Mr. Wm. Adams, Jr., the Financial Agent, much good has already been accomplished, and if the charitably disposed but second their efforts, much still will be done in the future.—*Boston Traveller.*

A pleading and bewild'ring swarm
Of children stood around their *ma'am*,
And urged her earnestly to make
A nice, large huckleberry cake.
She yielded, she could not withstand
The wishes of that tender band,
And set about forthwith to bake
The expected huckleberry cake.
—*Household Lyrics.*

Coggswell's Medical Salt,
A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.
INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—but but ONE AIM—accomplishes but ONE THING, to wit: SUBDUE INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. *Every form of inflammation* (but no other disease) is subdued, by COGGSWELL as the extinguished by water. Is it asked, *how* it does this?—simply by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely what adheres to the point of a pin, dipped into a solution of it, to affect the entire system.
☞ *Of its curative value, the enlightened community, and not the discoverer, must be the judge.*
PRIME COST, $1, 50 per drachm—PRICE $2 per drachm.
A few boxes of this popular and extraordinary medicine for sale by J. H. THACHER,

Lawrence's Carminative,
—OR—
CHILD'S PAIN-KILLER.
THIS invaluable preparation is a favorite scientific prescription of one of the most eminent of the Medical Faculty in New England, and one who has been successful as any other in the treating of
DISEASES OF CHILDREN,
and has been used with never-failing success.
The Carminative is emphatically
A CHILD'S MEDICINE,
and is the *only* Child's Medicine in this country; intended to do away with the excessive and injurious use of *Paregoric*, a remedy sure to be followed by a "dose of physic."
The ingredients of which the *Carminative* is compounded, are known to the Medical Faculty, and it is now extensively used, and approbated by the physicians living in the vicinity of the Laboratory, where opportunity has been had to test its virtues.
The *Carminative* is offered in full confidence for the rapid cure of
Colic, Pain in the Bowels, Wind in the Stomach and Bowels, Green Stools, Diarrhœa, Nervous Affections, Sore Mouth, Restlessness,
and other disorders incident to Weaning and Teething; sure to regulate derangements of the Stomach and Bowels, which are an affliction to young children; correct debilitated and sour Stomachs, relieve pain and give tone, energy and strength to the whole system.
Due regard has been taken to have the price of the Carminative so low as to be within the reach of all. Price *only 25 cents.*
☞ Parents who value rest should not fail to buy a bottle, as they may depend upon its giving relief to "worrisome children."
Sold by country traders and all Apothecaries throughout the United States and Canada.

IMPORTANT DISCOVERY.
DR. CHEESEMAN'S PILLS FOR FEMALES.
Prepared by an old Physician of 40 years experience
THIK combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions and premature deaths. Headache, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case the Pills will invariably remedy all these evils. all cases of painful menstruation, or nervous and spinal affections in the back and limbs, owing to the use of spirits, hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, or only called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. They are purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.
These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. CHEESEMAN, Box No. 4,531 Post Office, New York City, can have them sent to their respective addresses by return of mail.

VIRGINIA AND NEW YORK.

The New York Mirror draws a true, and very sad, picture of the morals of New York City.

The Portsmouth, Virginia, Transcript copies the Mirror's picture, and offers these remarks:

Such is a glimmering at the true condition of public morals under the boasted system of anti-slavery (1) anti-black slavery—though socially or in fact, there is as much *distinction* in the different classes of *whites* at the North, as can be found among the freemen and the bondmen of the South. (2.)

Now, from such an admission of facts as the extract above makes, we claim that one of two propositions remains; our general system of government concedes too much to the masses; (3) or, the Black Republican hobby of "free society"—that is, the co-equality of races,—is only the offspring of false philosophy. (4) Calm reason will adopt the latter as the true solution of the question at issue, because here in the South, where the African race is in a state of servitude, we find a high state of morality pervading all classes, (5) —a small per centage of lawlessness and crime; very few, if any instances, of want, and certainly no case of starvation; while at the North, where *caste* is not recognized (6) vice runs riot and is a great devouring sore, socially and politically. (7)

We submit this as the true basis for practically testing the merits of the dispute between the pro-slavery interest and the Black Republican party. (8)

We propose to examine the above extract, step by step, appending Notes.

1. New York city Anti-Slavery? why, its political influence is as strongly pro-slavery as possible: see No. 8.

2. This statement, No. 2,—there is as much distinction, &c., is directly and exactly contradicted by No. 6, where we read that caste is *not* recognized.

3. That is, our general government is too democratic, gives too much liberty to white men.

4. We suppose the writer means here, that the black is inferior to the white;—well, be it so, for the present, but we will look at this thought again.

5. This high state of morality, we presume, in both whites and blacks, is supposed to be a consequence of the fact, that the former buy and sell, and own and work the latter.

6. And the deplorable condition of morals in New York city is a consequence! is it? of the fact that the Five Pointers, Dead Rabbits, drunkards, and rowdies, cannot be sold and held as slaves? or is it because there is no caste, as No. 6 asserts? or because there is as much distinction between classes of whites, as the same piece says at Number 2?

7. It is very true that vice, when it runs riot, is a great devouring sore, socially and politically; and this is true of New York City, at this moment.—But what are the politics of New York City? Are they Black Republican? are they anti-slavery? The Transcript knows, and everybody knows, to the contrary. Pro-rum, and pro-slavery, rule the hour there, so completely that the State Government, and the metropolitan police, are almost powerless!

And here, let us ask, who are these low and wicked free people who make New York so disorderly just now? What color are they? black or white? No one pretends, we believe, that the thousands of free blacks in New York city, have joined at all, in the late riots. No, no: the men who made the riots, were the *white* foreign and American friends and partisans of Mayor Wood.

Now let us take a look back at No. 4, where the Transcript's *true* philosophy says the races are *not equal*.

Do we see the free black in New York behaving better than the free white in the same place? If so, which is the superior? Or do we look at No. 3, and ask, "Does our general government concede too much to these [rowdy] masses" in New York City?

8. It is remarkable that the Transcript does not say one word here about the Democratic party, but speaks of the pro-slavery interest, on the one side, and the Black Republican party on the other; which arrangement of parties may interest some of our free readers in New Hampshire, who are not anxious to be slaves, or to have caste established here by law.

PRISONERS' FRIEND.—A discourse was delivered on Sunday evening, at Bleecker street Church, New York, by Rev. C. Spear, of Boston, who has recently visited many prisons in the United States. As the result of his investigations, he recommended that the clergy should pay more attention to the inmates of our prisons.

We have just received the Prisoners' Friend for June, July and August, being the close of vol. 9. A very interesting number.

LIFE IN THE WEST.

CEDAR CREEK, FOUNTAIN VALLEY, Wisconsin, July 7, '57.

We have got a splendid place, have built a nice house, and are living in it. We work when we have a mind to, and play when we please. There are plenty of coons and all sorts of small game on our lot; and since we have been clearing, we have killed striped snakes enough to make a mile of telegraph wire; and have seen at one time, pigeons enough on the lot, if roosting upon the wire as thick as they could pack, to fill it. When a flock flew over us, unawares, it would make us dodge—their wings made such a whirr. They are all gone now, into the woods, to hatch.

S. took the old shooting iron, and said he guessed he could kill a barrel of pigeons; but when he had shot both barrels at a little bunch, they were so tough he only got eight dozen! Most of the time they flew too high for us to shoot. We killed a plenty of ducks when we first came out.

Wisconsin is a most beautiful country. We are not troubled with anything but hot days; and then the wind blows, as it has ever since we have been here, not excepting one day—a beautiful whole-sail breeze; but the flies "blow," too. A little piece of mutton that we got to keep Fourth of July with, we hid in the wash-boiler, covered over, and an India rubber coat over that; and yet the flies covered it as you never saw meat covered with spawn. S. and I don't speak to one another, for fear of getting fly-blown inside.

Our valley we call Fountain Valley, from our beautiful springs—of which we have more than twenty of the best water in the world, some on each side of the Creek, which runs directly through the centre of our paradise. We have only one boxed up, but that one would supply the city of Portsmouth better than it is supplied now. It is two feet square, and I will pay the price of two fire engines, if the two will suck it.

There is a good deal said about bad water, by down-easters who come West and get scared and go home again; but let me tell you, you would be astonished to drink our spring water, it is so clear and cool and nice. Horses that have got the heaves, when watered here, have no more heaves. There is great pains taken in raising horses here, and we shall soon beat the world in that line. In our travels we saw a great many; all looked well—the finest lot, take all together, I ever saw in any country—all owing to the water. It don't hurt us, although the spring from which we drink would put ice-water to the blush; it comes up through a bed of limestone. Whoever drinks this water in the dark, never need be fearful of getting an eel in his pipes, as there are none of that delicate fish west of Niagara Falls or the Alleghanies.

The mosquitoes here are about the same as in New Hampshire. We are so near to the woods, that considerable many get into the house; but as we go to bed, we make a smudge by cramming green hickory leaves into the stove, and shutting the flue, and taking off all the covers, when she smokes most gloriously; after which

Not a hum is heard,
Not a musical note,
As out through the cracks they hurry;
But a shout is raised,
Of hickory praised—
The 'skeeters are in a flurry.

Rats, we are not troubled with here; the only place in the State where there are any, is Milwaukie. If you had one of our big bull frogs in your market, you would see the rats hurry out and never come back, as flies and mosquitoes do; they are about the size of a man's foot, and roar so as to be heard a considerable distance.

We are well and hearty, and I guess we are doing well for people that don't do any more work than we do; we work only as much as we like, have got no debts on our backs, live in our own house; but have not got much money left. Money brings 12 per cent. here quick—often more. This winter we calculate to get up a barn, a frame barn.

When we get our boat built, we can start from the bridge, (which is for the road, which is our Southern line, and where we cross the creek) and go north half a mile into Little Cedar Lake, two miles long, and three-fourths of a mile wide—full of fish and birds,—and most all wild country around it; then up another inlet, to Big Cedar Lake, just as good for fish and birds, and about the size of your Great Bay, and all entirely wild country. There are but two houses on the river; our house, which is the Fountain House, and one other. Yours, S. & M.

NOT HEARD FROM.—Four boys who left Portland on Monday on a sailing excursion, had not been heard from on Friday evening, and the probabilities are that they are lost.

☞ The Morning Star states that 24 members have recently been admitted to the Freewill Baptist Church in Dover, N.H.

A RASCAL.—We mentioned last week, some capers of a fellow calling himself Wm. Webster, who has been cutting shines in Great Falls and other places. It now appears that the scene of a part of his "operations" was Cape Neddick—where we learned the following particulars. Webster, while in Great Falls, as previously stated, negotiated largely in the real estate trade; and his high-sounding talk tickled the ears of a young lady who chanced to hear him, in a counting-room. The result was, he hired a horse and wagon there, and took the lady to the Cape Neddick House. Here he made application to a Justice to marry them; but having no certificate of recorded intention of marriage, &c., the Justice declined accommodating him.—However, another Justice was found, and the nuptial knot tied—though this latter official must be liable to a heavy fine for informality, in thus performing the ceremony.

Next day, Webster (who claimed close relationship with Daniel) after making application to Mr. Freeman to furnish accommodations for his brothers and other relatives, and to board a couple of horses, which he said he should bring there; and being denied—Mr. F. not liking his appearance and talk—he tried to hire Mr. F.'s horse to go to Wells, "to telegraph to Great Falls for the baggage belonging to himself and wife."

Not being able to "make much" out of mine host of the Cape Neddick House, Webster soon took himself off. Mr. Freeman having started to drive to mill, Webster watched him with apparently suspicious anxiety; and as soon as he was out of sight, he slipped his horse out of the stable, harnessed him, and was off for Wells in a jiffy. 'Tis singular how suddenly Webster's hostlery knowledge was acquired—for only the night previous to this, he was asked to assist in untackling a lot of horses, at the same stable; and on being told that he had unbuckled the harness entirely wrong, he replied that "he was not used to that business."

He told his wife that he should soon return; but as he did not come back, the visitors at the house advised her to examine certain papers he had put in her care. It soon appeared that what she cherished as the deeds of a lot of mills, &c., was merely a roll of blank paper, and not worth a mill.

The girl, whose name was Mary J. Fields, was sent to Great Falls; where Webster is in jail for stealing the team.—He is said to belong in Cohasset, Mass., and to have a wife and three children in Maine. He is not so "finished" a scamp, after all; for in filling a bank check, he wrote the number of dollars he wanted (1500) over the denominator 100, the place for the number of odd cents. He said his funds were in the Great Falls Bank, but the Portsmouth bankers would know him and honor his draft. But his story didn't go down with Mr. Farwell, the stage-driver, any more readily than at the banks or the Hotel.

MATTITUCK, L. I., August 17.—Some fishermen on the Sound shore at Mattituck Creek, on Saturday evening last, about eight o'clock, heard a loud report, and immediately saw flames from what appeared to be a vessel. They supposed a steamer of some kind burst her boiler and then burned. Yesterday a quantity of timber, window-frames, doors, etc., which had the appearance of being part of a steamboat, also twenty-six barrels of floor, a lot of oars and other articles, came ashore.

The Bee says, as there is no account of any missing steamer, probably the articles alluded to were a portion of the cargo and fragments of the Propeller J. N. Harris.

MAN DROWNED.—The Lowell Citizen says, that on Saturday morning, the body of a drowned man was found in the pond on the South Common in only some fifteen inches of water. There were no marks of violence. Coroner Shed was called; during the forenoon, it was ascertained that the deceased was Cornelius Sullivan, an Irishman of about forty-five years of age, belonging somewhere in New York, where he has a wife and four children. He was on a visit to Lowell, where he has a brother, and was very drunk yesterday afternoon. While in this drunken state, doubtless, he fell into the pond, and was too helpless to extricate himself.

There is one quality about women, though from not being of a glaring kind, it generally escapes observation, which is highly essential to the character of a good wife.—This quality can be best expressed by negatives. Not to possess perfness, or what is called repartee. Not to pretend to wit; much less to that which is the result of great learning and experience, the affectation of which in a young woman, is as absurd as any of the affectations of the age. Not to deal in dictatorial sentiments, judicial opinions, or profound criticisms; and when in company with men, not to assume the forwardness of a teacher, but attend with all the modesty of a learner.—*Fielding.*

LOOKING DOWN A DANDY.—"I was dining at a hotel in Philadelphia," writes a gentleman of Knoxville, Tennessee, "and sitting nearly opposite Gideon Henderson, of this city, a well known merchant, who was on his semi-annual tour to the North to buy goods. He had two young ladies from this State under his charge, and one of them was sitting on each side of Mr. Henderson at table. Directly in front of him sat a dandy, who, having finished his soup, raised his eye-glass and stared steadily, first at one and then at the other of the ladies. Mr. H. seized a heavy glass tumbler, and I thought was about to spoil the fellow's profile, by hurling it at his head: but, instead of that, he brought it to his own eye and looked deliberately through the bottom of it, at the top of the scamp in front of him. The attention of the company was fixed upon the fellow; a general giggle began and grew, till he was compelled to quit the table and room, in the midst of the jeers of the guests."

HEAVEN BROUGHT DOWN TO US.—At the Yale commencement, Mr. Perkins of Vermont ridiculed the idea of those who anticipate heaven only as a *glorified Fifth Avenue*. And this reminds us of a tender mother, who was endeavoring to convey to the inquiring mind of her little child an idea of heaven, and the necessity for being a good boy, in order to obtain admission there hereafter. She pictured to his imagination the happiness of the blest, and as an additional inducement for him to lead a correct life, said that he would be "like the angels, who have harps in their hands." "Mamma," responded the urchin, wistfully gazing into his mother's eyes; "mamma, *if it makes no difference to God*, I'd rather have a jews-harp." The astonished parent rang the bell, and the nurse removed the polite little stripling to his crib.

No medicine has been introduced in this country that is giving such universal satisfaction as Dr. Wilson's Dysentery Powders. They immediately check the disease without danger of producing inflammation or fever. Dysentery, Diarrhea, Cholera Morbus, and Summer Complaint are cured with one Powder, if taken when first attacked with the disease. Give them one trial and you will not be without them. a6 3w

HAIR RESTORATIVE.—We are pleased to record the satisfaction of our patrons, after trial of an article advertised in our columns. We have the satisfaction to know several of our readers who have used Prof. Wood's Hair Restorative, and pronounced it to be just what the advertisement says it is. We have several personal acquaintances, too, who were gray headed, they have tried it, and now their hair is restored to its original color, and they willingly add their testimony to its efficacy, and will give further information to others desiring it. This speaks well for the article, and we advise all who do not wish to appear gray-headed, to use Wood's Hair Restorative.—[Western Patriot.

Price 75 cents per bottle.

Also, Kennedy's Medical Discovery, Kennedy's Salve, and Holman's Nature's Restorative.

THERE ARE HUNDREDS OF REMEDIES Sold at every Drug Store, purporting to cure all diseases nameable, each advertised as the very best ever known, till we had lost all faith in them all, but there is one exception.

We speak of Dr. Sanford's Invigorator, which came to us recommended as a cure for Liver Complaints, and all diseases arising from a Diseased Liver. The testimonials of so many of our Physicians in its favor, induced us to try it, and now conviction is certain that it is one of the greatest blessings ever given to Dyspeptics, for it made a complete cure before the first bottle was taken, and now we can eat anything eatable without trouble, while before, nothing but the lightest food would digest, and often would digest, and often that gave pain. Now what we want to say to all our readers is, if Liver Complaint or Dyspepsia trouble you, do not fail to try this, the greatest remedy in the world.

POLICE COURT.

SATURDAY, August 15.

Before Justice Odell.—Charles Hurley, for assault on John Sullivan, was fined $3, costs 6.91: to give $30 bonds to keep the peace. Exon. issued.

Within a few days, a boy has been sent to the House of Correction for 10 days, for truancy; and two men paid,—one $10.54: and the other $7.97, fines and costs, for assault, in a family quarrel. Rather expensive amusements.

☞ It was sad to see the old man of 60 years, who had laid drunk on the ground; and quite as sad to see the young man of 21 years, picked up from the ground and put in the lock up. Yet so it was;—and the account he gives of himself, that he belongs in Philadelphia, is a carpenter, and has no money, does not sound well. He is such a citizen as we don't want.

Watchmen, who take up such a man, should report him, and have him put on the Farm for 30 days, where he can do the City some service! The loafersim is quite an auxiliary to the petty thefts; and with the drinking, to the broils and assaults.

☞ Notice the large sale of Linen and other goods, at H. F. Wendell's Auction Room, 70 State street, commences this day at 10 o'clock.

☞ The Rockingham Association of Universalists will hold its next annual meeting in New Market, N. H., on Wednesday and Thursday, Aug. 26th and 27th.

The Cheshire Association annual council will assemble in the Universalist Church in Paper Mill Village, N. H., on Wednesday and Thursday, Sept. 2d and 3d.

The Grafton Association of Universalists will hold its annual meeting at East Canaan, N. H., on the first Wednesday and Thursday (2d and 3d) in Sept.

SAD AFFAIR—*A Girl Frightened to Death.* On Monday Aug. 1, there occurred in Denmark an affair of the most painful character, resulting in the death of a little daughter of Mr. John Blake, by fright. In the morning a man named Grover passed the house, and a little dog belonging to Blake ran out and barked at him. This aroused his anger, and in the afternoon he came along with a gun, and shot the dog, close by the little girl. She was immediately seized with nervous spasms, continually clinging to her father, and crying out that she should be shot, &c. This continued till Tuesday morning, when she fell into an insensible condition, which continued until afternoon, when she died. There is no doubt in the minds of those competent to judge, who saw the child, that her death was caused by fright from the shooting of the dog by her side. Grover has been arrested and committed to jail.—*Oxford (Me.) Democrat.*

NEWBURYPORT OPEN AIR MEETINGS.—The Herald says:

The Temperance Meeting on the Mall, Sunday evening, was attended by some twelve or fifteen hundred persons, who gave quiet attention to the addresses. Rev. Messrs. Barnaby, Spalding and Pike spoke with unusual eloquence and power; and we understand that quite a number of persons were thereby induced to sign the pledge yesterday. The side of the pond is one of the finest places for out-door speaking in the world. The speakers can be heard upon every side, and we have no doubt, if it were desireable, that a stand could be so placed as to allow twenty thousand persons to hear with great ease. We were much interested in listening to the addresses; but could not help thinking that should tongues be lent them, more powerful speeches would come from the Court House, the Jail, and the Grave yard, now silent but most instructive upon the topic.

DEATH OF DR. DICK.—The venerable Thomas Dick, the author of the "Caristian Philosopher," and several astronomical works of great merit and popularity, expired at Broughty Ferry, on the banks of the river in Scotland, in the 84th year of his age.

The will of Jesse W. Goodrich, of Worcester, is contested on the ground of his insanity, which is sustained by Dr. Chandler, of the Worcester Asylum. The opinion is based partially upon an eccentric advertisement for a wife which he published some years ago. He had replies from over a hundred women, and carried on a correspondence with them on the subject.

No wonder the man was crazy.

AN EXPLOSION.—A Waltham constable sent to an Irish house last week, to serve a warrant; the occupants supposing him in search of liquor, hid a jug of aum—their whole stock—in the stove oven, which was hot enough to bake biscuits. While the constable was searching for the prisoner, bang! went the cooking-stove and contents about the room, filling the house with smoke; but fortunately the explosion did no other injury than the loss of the stove and the rum.—*Lowell News.*

NEW YORK, Aug. 18.—The steamship Tennessee, arrived this morning from Greytown and Aspinwall with the remainder of Walker's troops.

WASHINGTON, Aug. 17.—The Secretary of the Treasury has, on appeal, confirmed the decision of the Collector of Philadelphia, that cotton fabrics, cords and corduroy, velveteens, dreadnoughts, repellant moleskins and ginghams, were properly charged twenty-four per centum. He also confirmed the decision of the Collector of New York that walnuts were properly charged twenty-four and almonds thirty per centum.

Although the jury in the case of Doyon, one of the alleged election rioters, were confined in to their room four days, they were this morning discharged, being unable to agree upon a verdict. The court then adjourned for the term.

Gen. Walker left here this afternoon for Nashville.

Mr. Stephens of Georgia announces himself a candidate for Congress, and decidedly but courteously condemns Gov. Walker's course in Kansas, and thinks he should be recalled.

HANOVER, N. H., Aug. 15.—The thunder shower yesterday, from 3 to 4 P.M., was very powerful. From appearances in Connecticut River, it must have been much more so at the North, the river having risen here seven feet. Such an occurrence is not unusual at this season, and would not be worth note but for the melancholy destruction of the flotilla of the College. Seven boats with the boat-house in which and to which they were moored, carried away with the flood, and over the falls two miles below, and dashed to pieces—a total wreck! not a boat that is not a total wreck! The Una, the Ino, the Frank, the Casta Diva, the Billy, the Sprite, the ——, (name not remembered), all gone! One solitary boat, the Pet, moored in a different place, alone escaped. Loss five hundred dollars, no insurance.—*Boston Courier.*

MISSOURI ELECTION.—*St. Louis, August 17.*—The official returns from 80 counties, together with the reported vote in the remainder, reduce Rollins' majority to such an extent that nothing but the full official returns will enable us to declare the result. Chapman (Dem.) is elected to Congress from Nebraska.

JOHN H. SLACK.—Recent papers contain a record of the death, in Loudoun Co., Va., of John H. Slack, Esq., at the age of 68. He was a native of New-London, in Merrimack County, and graduated at Dartmouth College with the class of 1811. He studied law with John Harris, Esq. of Hopkinton, and opened an office in Andover, and perhaps one or more places in this State, but was more notorious for his practices than his practice. He was a person of good address and the utmost immobility,—for no reproaches bestowed upon him, however keen, made the least impression upon his countenance. He became an imposter, and newspapers of this State published him as such. But he went on with his frauds, without deigning to change his name. He had at one time the address to procure a letter from the Rev. Dr. Harris, of Dunbarton, in which the writer expressed the opinion that Mr. Slack was qualified for the ministerial office, and also the hope that he would not long delay the exercise of his gifts in that holy office. Some years after that, he procured a letter, signed by Rev. Drs. Harris, and Wood, of Boscawen, commending Slack to the public regard as a collector of funds for establishing a literary institution in Canada,—a scheme concocted by Slack with which to fill his own pockets,—in which he was successful, until the newspapers made too loud clamor for him. The last he was heard of by New Hampshire people, he was inhabiting a building in Georgetown, D. C., of which he obtained possession by fraud, and from which he was dislodged only by a tedious process.—*Concord Statesman.*

MISSOURI.—Mr. Stewart, the Democratic candidate, is probably chosen Governor of Missouri. There were eight counties to be heard from on Friday. These counties gave Mr. Buchanan 1116 majority, and as Mr. J. S. Rollins, the anti-slavery candidate for Governor, was only 342 ahead upon approaching them, it is more than probable his opponent, Mr. Stewart, is elected. The contest is so close, however, the result may not be known until the official return is made.

S. D. & H. W. Smith,
—MANUFACTURERS OF—
Melodeons, Organ Melodeons,
—and—
PEDAL BASS MELODEONS,
No. 511 Washington St., Boston.

The first premium over all competitors, at the Fair of the Mass. Charitable Mechanic Association, of the National Fair, Washington, D. C., also at the Ohio State Fair, held at Columbus, Ohio, was awarded to these Manufacturers.

By means of a new method of Voicing, known only to themselves, they have succeeded in removing the harsh and buzzing sound which formerly characterized the instrument, and rendering the tones full, clear and organ like. The action is prompt and reliable, enabling the performer to execute the most rapid music without blurring the tones. The swell is arranged to give great expression.

THE PEDAL BASS MELODEONS,

Are designed particularly for Churches, Lodges, Halls, &c. It is arranged with two manuals, or banks of Keys, the lower set running an octave higher than the other, and may be used separately, and thus get in one case two distinct instruments; or by use of the coupler, the two banks of keys may be played at the same time by use of the front set only. This connected with the Pedal Bass, will produce the effect of a large organ, and is sufficiently heavy to fill a house that seats from 1000 to 1500 persons.

THE ORGAN MELODEON

Is designed for parlor and private use. The construction is similar to the Church instrument, being arranged with two banks of Keys, and when used together, by means of the coupler, is capable of as great volume of power as the Church Instrument when used without the pedals. Also, every variety of MELODEONS for Parlor use.

Purchasers may rely upon instruments from our Manufactory, being made in the most complete and thorough manner. Having removed to the spacious Buildings

511 Washington Street,

We have every facility for manufacturing purposes, and employ none but the most experienced and skilful workmen. In short, we will promise our customers an instrument equal, if not superior, to any Manufacturer, and guarantee satisfaction and perfect satisfaction.

Music Teachers, Leaders of Choirs, and others interested in musical matters, are respectfully invited to visit our Rooms at any time and examine or test the instruments on exhibition for sale at their pleasure.

As a still further guarantee to the public as to the excellence of the MELODEONS from our Manufactory, we beg leave to refer, by permission, to the following,

Piano Forte Manufacturers of Boston,

who have examined our Instruments, and will give their opinion when called upon:

Chickering & Sons, Hallett & Cumston,
T. Gilbert & Co., Wm. P. Emerson,
Brown & Allen, A. W. Ladd & Co.,
George Hewes, Woodward & Brown,
Newhall & Co.

MELODEONS RENTED.

Persons who wish to hire Melodeons with a view of purchasing at the end of the year, can have the rent credited in payment of the purchase money. This matter is worthy of special note, as it enables those who desire a fair test of the instruments before purchasing, to obtain it at the expense of the manufacturers, to the extent at least of a year's rent.

Orders from any part of the country or world, sent direct to the manufactory in Boston, with cash, or satisfactory reference, will be promptly attended to, and as faithfully executed as if the parties were present, or employed an agent to select, and on as reasonable terms.

LOTTERIES.

The well-known Maryland Consolidated Lotteries, of which R. FRENCH & Co are the managers, are chartered by the state of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Another fact which the managers call attention to, is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day of the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1 to $20. No tickets are, however, sent unless the money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from $30 to $100 000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over.

☞ The drawn numbers of the Maryland Lotteries are published by the State Commissioner in the following papers, viz: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D.C.

Address T. H. HUBBARD & CO.,

LOTTERIES.

THE Lotteries of Samuel Swan & Co. are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as if they were present. The Manager would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co. are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2.50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mystify the buyer. Prizes vary from $40 to $600; money for prizes, with lists of drawings, and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount each prize is entitled to, will be published after every drawing, in the following papers:—New Orleans *Delta*, Mobile *Register*, Charleston *Standard*, Nashville *Gazette*, Atlanta *Intelligencer*, and New York Weekly *Day Book*. Write your address plainly, and direct to S. SWAN & Co., Atlanta, Georgia.

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

All communications strictly confidential. m18 1y

American and Foreign Patents.
R. H. EDDY, solicitor of Patents,
(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)

No. 76 State st, oppo. Kilby st, Boston,

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britian, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent issued, forwarded, remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantage for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below show what I have done. I MORE SUCCESSFULLY AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate.—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

Testimonials.

"During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston, did business at the Patent Office, as Solicitor of Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and he was one of those who conducted it with more skill, fidelity, and success. I regard Mr Eddy as one of the best informed and most skilful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents."

From the present Commissioner.

ABBOTT LAWRENCE, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a Solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse. Commissioner of Patents.

DYSENTERY POWDER,

Which cures Dysentery, Diarrhœa, Cholera Morbus, and all the affections of the Bowels attended with Pain and frequent Discharges.

This Medicine is now being introduced into all parts of the United States and British Provinces, and great success attends its use everywhere.—These Powders are now offered to the world as a PERFECTLY SAFE AND EFFECTUAL MEDICINE, for the purposes they are recommended, and in nine cases out of ten

ONE POWDER WILL CURE THE WORST CASE,

when they are taken in the first stages, and almost invariably *two will effect a permanent Cure;*—and unlike all other preparations, which, if they check the disease, leave the person in a condition that requires physic after it, which is not the case with the Dysentery Powders, for they *regulate the Bowels*, tone up the system, and leave it in a healthy state.

These Powders are put up in boxes, with full directions on each box, and sold for 50 Cents.

Please try them; if they do not give *perfect satisfaction*, return them and take your money.

HAYING AND BUMBLE-BEES.

BOGDALE, August 18th, 1857.

I don't exactly know what started me to seek a retreat in the beautiful(?) village of Bogdale, but ascribe it to my poetical aspirations, and a natural love of rural scenery, together with the recollection of the time when I made an annual visit to the country, and regaled myself on as many apples, pears, peaches, plums, melons, cucumbers, strawberries, gooseberries, blackberries, huckleberries, raspberries, cranberries, &c., &c., as prudence and ill health would allow. These, with a few other little items, prompted me to take a trip to the above mentioned village, and devote a week to haying and loafing, which terms are far from being synonymous.

Accordingly I gathered a few old clothes, and rode one dark night to the intended place of labor. The next morning I was up betimes, and as it was a fair day, I took a scythe and started for the hay-field. I was not the first one there, however, but on the contrary, two men had preceded me, and out quite a large portion of the field. After exchanging the usual salutations, I commenced mowing, one of the men having advised me to try a certain spot of lodged grass, which advice I unsuspectingly accepted, and banged away at the grass, using all the strength which I was capable of exerting, when my attention was arrested by an awful buzzing sound immediately under my feet, and before I had time to inquire the cause, about half-a-dozen bumble-bees were using their best endeavors to secure a good spot on my face on which to leave their regards. But I, having no spare room on my phiz, for such animals, took to my heels, and run till I reached the other side of the field, beating the bees all the while with my hat, when I stopped, and had resolved to fight them, if I perished on the spot! when on looking round, saw nothing of my enemies, and putting on my hat, was walking to the seat of war, when I felt a *stinging* sensation on the top of my head, and doffing my hat in three or four seconds less than no-time, a detestable bee flew away in great triumph.

This was decidedly unpleasant, and tended to lower my dignity a notch or two.—However, I took up my scythe, after several ineffectual attempts to recover it, on account of its close proximity with the bumble-bees' nest; and commenced mowing again, but had not mowed more than two rods, before I was greeted by another swarm. I repeated the feat of running across the field in 2:40 time; but returned again, and being again driven away by the bees, grow disgusted with haying, where bumble-bees were prevalent. I was not long in resolving to "leave," and accordingly went up to the house, where I hung up my scythe, and have been constantly engaged in loafing ever since; which is much more agreeable than being chased on a hot day by a swarm of bees, especially those which have the expressive word *bumble* prefixed.

P. S.—I am inclined to think that the good folks at the house will not indulge me in this unprecedented and inexcusable laziness much longer; so you will not be surprised to find this persecuted victim back in the city, soon. Yours, &c.,

RUSTICUS.

RULES FOR GROWING OLD.—At the late commencement of Yale College, the Rev. Daniel Waldo, as the oldest graduate present, (of the class of 1788) thus closed a speech to the assembled Alumni:—

I am now an old man. I have seen nearly a century. Do you want to know how to grow old slowly and happily? Let me tell you. Always eat slow—masticate well. Go to your food, to your rest, to your occupations, smiling. Keep a good nature and a soft temper everywhere. Never give way to anger. A violent tempest of passion tears down the constitution more than a typhus fever. Cultivate a good memory, and to do this you must always be communicative; repeat what you have read; talk about it. Dr. Johnson's great memory was owing to his communicativeness. You young men, who are just leaving college, let me advise you to choose a profession in which you can exercise your talent the best, and at the same time *be honest*. The best profession is the ministry of the Gospel. If you have not talent enough to be a minister, be a lawyer—but be an honest lawyer. Pope's line should be altered to read:—

"An honest lawyer is the noblest work of God."

Coggswell's Medical Salt,
A PERFECT SUBSTITUTE
FOR THE
LANCET, LEECHES AND BLISTERS.

INSTEAD of being a panacea for all maladies, it has control over but ONE MALADY—has but ONE AIM—accomplishes but ONE THING, to wit: SUBDUE INFLAMMATORY DISEASE—whatever be its form or locality—whether in the head, throat, chest, abdomen, extremities or skin. Every *form of inflammation* (but no other disease) is subdued, by it as easily as fire is extinguished by water. Is it asked, *how* it does this?—simply by restoring the lost balance between the fluids and solids. Such is its potency, that like vaccine matter, it requires merely what adheres to the point of a quill dipped into a solution of it, to affect the entire system.

CHILD'S PAIN-KILLER.

THIS invaluable preparation is a favorite scientific prescription of one of the most eminent of the Medical Faculty in New England, and one who has been successful as any other in the treating of
DISEASES OF CHILDREN,
and has been used with never-failing success.

The Carminative is emphatically
A CHILD'S MEDICINE,
and is the only Child's Medicine in this country intended to do away with the excessive and injurious use of *Paregoric*, a remedy sure to be followed by a "close of physic."

The ingredients of which the *Carminative* is compounded, are known to the Medical Faculty, and it is now extensively used, and approbated by physicians living in the vicinity of the laboratory, where opportunity has been had to test its virtues.

The *Carminative* is offered in full confidence for the rapid cure of
Colic, Pain in the Bowels, Wind in the Stomach and Bowels, Green Stools, Diarrhœa, Nervous Affections, Sore Mouth, Restlessness,
and other disorders incident to Weaning and Teething; sure to regulate derangements of the stomach and bowels, which often afflict young children; correct debilitated and sour Stomachs, relieve pain and give tone, energy and strength to the whole system.

Due regard has been taken to have the price of the Carminative so low as to be within the reach of all. Price *only 25 cents*.

Parents who have not should not fail to buy a bottle, as they may depend upon its giving relief to worrisome children.

Sold by country traders and all Apothecaries throughout the United States and Canada.

IMPORTANT DISCOVERY.
DR. CHEESEMAN'S PILLS FOR FEMALES.
Prepared by an old Physician of 40 years experience

THE combination of ingredients in these Pills, is the result of a long and extensive practice; they are mild in their operation, and certain to restoring nature to its proper channel. In every instance have the Pills proved successful. They are certain to open those obstructions to which females are liable, and bring nature into its proper channel, whereby health is restored, and the pale and deathly countenance changed to a healthy one. No female can enjoy good health unless she is regular: and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health immediately begins to decline, and the want of such a remedy has been the cause of so many consumptions wrongly called Female Complaints, pain in the side, palpitation of the heart, loathing of food, and disturbed sleep, that most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils. All cases of painful menstruation, or nervous and spinal affections in the back and limbs, owning to hysterics, &c. Nor are they less efficacious in the cure of Leucorrhœa, or only called the "Whites." These Pills should never be taken during pregnancy, as they would be sure to cause a miscarriage. They are purely Vegetable, and free from anything injurious to life or health. Full and explicit directions which should be read, accompany each box.

These Pills are put up in square, flat boxes.—Persons residing where there are no Agencies established, by enclosing One Dollar in a letter, *prepaid*, to Dr. C. L. CHEESEMAN, Box No 4 581, Post Office, New York City, can have them sent to their respective addresses by return of mail.

Pendulum Curtain Fixtures.

J. F. SHORES, No. 1 Congress Block, has just received
One Box of Belcher's Curtain Fixtures.

These Fixtures are a decided improvement on any other in the market. The arrangement is very simple, the curtain rising or falling as you wish, with a slight movement of the cord on the side;—and the cord cannot get over the end as it often does with "Putnam's."

One in operation can be seen at my store.—Price 87½ cents each, including cord and tassel.

BURDEN'S
Pressed Boat, Ship, Brad & Countersunk Railroad Spikes

ARE well known in the United States, and are conspicuous for their regularity and finish, their unvarying uniformity of size, and for the excellent quality of iron from which they are made, to which may be attributed their rare strength. They are everywhere considered far superior to the hand-made spike of common English iron, and inferior to nothing of the kind yet introduced to the public.

POSTAL CONVENTION.—A Postal Convention has been concluded between the United States and Hamburg. The mails are to be exchanged by means of United States or Hamburg steamers running direct between New York and Hamburg. The postage between the United States and Hamburg, under the new arrangement, is 10 cents the single letter of half an ounce or under; prepayment optional; and on newspapers 2 cents, prepayment required. The rate to all countries and places beyond Hamburg, whether upon letters or printed matter, are identically the same in all respects as the rates charged via Bremen, under the United States and Bremen Postal Convention.

BREACH OF PROMISE CASE IN BOSTON.—Moses Inglee of New York has sued Dr. Geo. Hayward and wife for $25,000 damages, suffered by him in consequence of the non-fulfilment on the part of Mrs. Hayward of a promise she made while she was the widow of the late Amos Binney. Mr. Inglee and Mrs. Binney met in Italy, and there became engaged, according to the plaintiff's declaration, but upon her return to Boston, she gave up Mr. Inglee, and married Dr. Hayward. Dr. Hayward and wife are now in Europe. Rufus Choate and P. W. Chandler have been retained as their counsel.

☞ Advices in the New Orleans papers from Plaquemine state that cane was growing rapidly. The new crop of sugar would be in the market by the middle of October, three weeks earlier than usual. The corn was larger than ever before. Rice is abundant; the harvest would commence in two weeks.

Cotton in the vicinity of Baton is injured by rain. In Caddo vicinity cotton promises a fair turn-out.

☞ Considerable sensation has been created in Portugal by the discovery of extensive frauds in the wine trade. Government had seized a large quantity of mixtures brought from England to Oporto, and intended to be taken back as veritable Port wine. About 3000 pipes of these mixtures, which comprise bad alcohol with molasses and the essence of tar, are said to be now in London.

☞ The present Newfoundland line of telegraph is to be abandoned. It has cost more than a million of dollars. A road was cut for it with immense labor through 400 miles of dense wilderness, and it is now found impracticable to keep it up through the storms and ice of a Newfoundland winter. The company's agents are now making soundings of the coast, with the intention of running the Atlantic cable down from the banks of Newfoundland to some point in Nova Scotia.

☞ A North American Temperance Convention is to be held at Chicago on the 10th of November next. Its object is to secure unity of action among all Temperance organizations. Dr. Jesse C. Peck, E. C. Delavan and Peter Sinclair will be present.

☞ A party of seven counterfeiters of English sovereigns and other pieces, have been caught near Oporto, Portugal. One of them was a Catholic priest. A second priest, the leader of the gang, escaped.

A San Francisco correspondent writes: "Our newspapers carry sad accounts of murders and suicides committed in our own midst, within the past few days;—rum, rum, at the bottom of all."

DEATH FROM HEAT.—It appears that eight persons died in New York city on Friday and Saturday in consequence of the heat.

FATAL ACCIDENT.—At Rockport, on Saturday, a derrick boom, at the quarry of A. C. Pearce, fell, breaking the neck of Geo. Stewart. He lived but a few moments after the accident.

NEW YORK CITY.—The Courier and Enquirer of Monday, says:

Thirty-five persons have been indicted by the Grand Jury for selling liquor on Sunday, in violation of the law, and were on Saturday arrested, and taken before Justice Brennan, who held them to bail in the sum of $300 each to appear before the Court of sessions to-day. Others were directed to be present at the District Attorney's office this morning, prepared to give bail, or be committed in default.

PRESENTATION.—One evening last week, Mrs. Isaac Adams, at Rock Farm, Newbury, presented her husband with three children at one birth.

WHAT KIND OF CHRISTIANS?—The Congregational Journal says "We believe that souls have been born again here, and in all other places where revivals have occurred! but at the same time we believe that multitudes, in all revivals, are pronounced converts who never have experienced regenerating grace. We reason *a posteriori*; i. e., we judge of the cause from the effect. * * * What, then, are our reasons for doubting the genuineness of the conversion of many who are gathered into the churches as the fruits of revivals? The following are some of them:—1. The manifested aversion of the heart to holiness, both in the character of God and the character of his people. 2. Living for self instead of that self-denial for the sake of Christ and his cause, which the gospel demands of every Christian, allowing no compromise with the claims of the world. 3. An easy and habitual conformity to the world with respect to conversation, reading, amusements, business habits, and all the little things which go to make up character, and a disposition to justify such conformity. 4. A general neglect of the duties of religion, or their mere formal observance. 5. The positive influence of at least a negative piety against the progress of religion, and, 6, The numerous instances of defection from their former professions among those church members who have emigrated from the East to the West. * * * All past experience and observation shows that the building up of churches with unconverted materials, is not building up the kingdom of Christ on earth; but, on the contrary, is furnishing the most abundant materials for opposing its progress, and for making religion a hiss and a bye-word among men."

LIBERTY IN TENNESSEE.—An account was recently published of the brutal treatment of two slaves by order, or with the consent of one Col. Netherland of Rogersville, Tennessee. It was condensed from a supplement of nine or ten columns of the Knoxville Presbyterian Witness. We have since learned from an exchange that Rev. Mr. Sawyer, who published the statement, had twelve hundred copies struck off, one hundred of which were in his own possession, and the rest at the printing office. Col. Netherland heard of the paper and went with his lawyer to the office, and by dint of threats made the printer destroy the eleven hundred he had, and sent him to Mr. Sawyer for the other hundred.—Mr. Sawyer refused to give them up, after taking the advice of a lawyer, and mailed them immediately—one of them we have seen. Mr. Sawyer will preach his farewell sermon to that brave church soon, and it is to be hoped that he will give to his people some ideas on the subject of freedom and *pluck*. He takes charge of a church at Mount Etna, Indiana, after leaving Rogersville.

The white mechanics and working men—masons, carpenters, painters, &c.,—are having an emute at Wilmington, North Carolina, denying the right to employ slaves in their trades. It is all nonsense! If capitalists have slaves they must be allowed to follow those occupations where they will be most profitable. Make the most of them, and slaves at their present prices will not pay in North Carolina, except they be of the most intelligent character, suited to mechanical empoyments, or good and trusty house servants; and there is as great a transportation of slaves from the old Atlantic States to-day, to the new south-western, cotton and sugar States, as there is of whites from the north-east to the west. Even the South Carolina papers tell of their going in droves from that State; and serious fears are entertained by the lovers of the patriarchal institution, that God, by the laws of nature and the degress of providence, is sweeping the old slave states of black laborers. These mechanics of Wilmington are nothing but abolitionists in disguise; for, carry out their theory that slavery is a color and not a class, and the institution will be abolished.—*Newburyport Herald.*

ARREST OF BROADWAY WINE MERCHANTS. In reference to the arrest of Julian LeGoupil and J. S. Josenz, of the firm of Le Goupil, Josenz & Co., wine merchants, doing business at No, 343 Broadway, New York, the Sun says: "Some weeks ago, it appears, one Eugene Descazes was arrested for swindling various firms out of large amounts of goods, by means of forged orders and worthless checks. He now makes affidavit that Le Goupil & Josenz employed him at this business, and have done so for nearly two years. The plan of operation was for Descazes to call upon various wine and other importers, buy goods of them on forged orders of reputable firms, or worthless checks, have the goods taken to different parts of the city, and there deposited on the sidewalk. These goods would soon after be taken up by the carman of Le Goupil & Josenz, and conveyed to their store, the unfortunate sellers of the goods finding out, too late, that they had been swindled, but not knowing where to look for their goods. The accused were taken before Justice Welsh, and held to bail in $1000 each to answer. Le Goupil, it is stated, was arrested a year or more ago, charged with seducing a German girl, and afterwards procuring an abortion upon her. He is now, it is further stated, under bonds to answer that Complaint.

REV. DUDLEY A. TYNG'S SUCCESSOR IN PHILADELPHIA.—The Church of the Epiphany at Philadelphia has procured a new pastor, Rev. O. W. Prentiss of South Carolina, in the room of Dr. Tyng, who was dismissed last fall for preaching against slavery. The reverend gentleman who takes the place of Dr. Tyng, according to one of our exchanges, is a slaveholder, from a district which, by the census of 1850, contains a white population of 7403, and a slave population of 31,771. Among the whites there are 728 who cannot read or write.

OPEN AIR SPEAKING.—On Sunday last a favorite speaker was prevented from addressing a large congregation on Boston Common, by the police; while a clergyman was permitted to speak from the same locality. Mr. John C. Cluer has the same legal right to speak on the Common as a clergyman, and we can see no reason why the police should interfere with either of the speakers.

Mr. Cluer came to America an unknown man, and by his talents and progressive ideas he attracted the attention of the lovers of progress in Boston and New England. He has spoken in conventions and in the open air, hundreds of times, to the delight of thousands and tens of thousands. We have listened to his glowing words and his convincing arguments with pleasure and profit. To call, and to try to convict Mr. Cluer of being a public nuisance, is most monstrous and villainously absurd. Mr. Cluer's speeches are always of the highest moral tone, and his words are those of temperance, progress, love, and good will to all mankind.

That his words of fire often reach the hearts of drinking policemen is most true, and here is the head and front of his offending. If lazy, drinking policemen find his words so true that they cannot bear them, let them reform, and they will then have less to fear from his burning periods.

Mr. Cluer was prevented from speaking on Sunday evening to an audience of some ten thousand people, by the interference of a few policemen. No disturbance was made, unless it was made by the police, and a more quiet and orderly assemblage we never saw.

The question of open air speaking is one in which the whole people are interested, and one which will not be easily lost sight of. The great heart of a great people beats in response to the efforts of all men who speak for the good of the people and against bigotry, high priced preaching, and exclusive churches. Preaching should be as free and as pure as the air we breathe, and at the same price.

Mr. Cluer was arrested on Sunday evening by a band of Phillistines, but finally allowed to go to his residence. He was again taken before the Police Court, on Monday, and held in $200 for his appearance on Thursday for examination. In order to show that Mr. Cluer is sustained by a great party, and by our most talented and influential citizens, we may mention that bail to the amount of a million dollars was offered by some of the best men in the city, for Mr. Cluer's appearance—who unasked, desired to become his bail.—*Boston Sunday Dispatch, Aug. 2.*

CIRCUMSTANTIAL EVIDENCE.—Dr. Fletcher, of Finsbury Chapel, London, has lately related his experience regarding Eliza Fenning, who was hung in front of Newgate for poisoning her mistress. Dr. Fletcher was convinced of her innocence, but the lady had evidently been poisoned, and the cook seemed the only person who could have done it, and who had any provocation for doing it. Since then upon his dying bed, the baker confessed having done the deed out of spite.

☞ Putnam's Monthly for September, is received by A. Williams & Co., Boston, and by J. F. Shores, jr., Portsmouth. It contains 19 articles, and numerous illustrations. A circular on the cover, says:

The extraordinary increase in the circulation of Putnam, under the new management, demands from the publishers a particular acknowledgement.

In their hands the Monthly resumes its original character of a purely literary Magazine.

It will be profusely illustrated in a manner worthy of the present high state of wood engraving.

It will aim to be fresh, and entertaining; and to promote good morals, good manners, and good humor.

INTERESTING SUIT.—The Irish band has brought a suit against one of the most prominent Democrats in the city, for its services on the night of the great Buchanan torch-light procession in October last. It is most ungrateful in our Democratic friends not to pay this bill, as, without the aid of the Hibernians, they would have made a very sorry display of numbers at that time. It was well understood then, that this patriotic portion of our fellow citizens refused to participate in that grand demonstration unless their favorite band was employed.—*Providence Journal.*

NEW MEDICAL SALE, *A perfect substitute for the Lancet, Leeches and Blisters!*—"It has cured the most virulent form of Salt Rheum."

HAIR RESTORATIVE.—We are pleased to record the satisfaction of our patrons, after trial of an article advertised in our columns. We have the satisfaction to know several of our readers who have used Prof. Wood's Hair Restorative, and pronounced it to be just what the advertisement says it is. We have several personal acquaintances, too, who were gray headed, they have tried it, and now their hair is restored to its original color, and they willingly add their testimony to its efficacy, and will give further information to others desiring it. This speaks well for the article, and we advise all who do not wish to appear gray-headed, to use Wood's Hair Restorative.—[Western Patriot.

BUY AND TRY IT!!

SMITH'S CURATIVE CLEANSING COMPOUND, which has been sold extensively in Portsmouth and vicinity, for a few weeks past, by the proprietor, for the cure of pains, &c., may be had of Wm. R. Preston, Brackett Hutchings, Asa S. Tilton, Jenkins & Goodrich, F. Dupray, C. E. Laighton, Oliver F. Gerrish, Joseph Harvey & Son, Thomas S. Gammon, in Portsmouth.

None genuine unless bearing my trade mark (J.S.) attached to the autograph on the wrapper.

Prepared by JOSEPH SMITH, Haverhill, Mass. 1y july27

☞ Mr. Asa S. Tilton at his Union Store, No. 12 Market street, sells the following Medicines at reduced prices:—Dr. Larookah's Indian Vegetable Pulmonic Syrup, warranted to cure coughs, colds, whooping-cough, asthma, bronchitis, croup, catarrh, consumption, and disease of the throat and lungs. Price 75 cents per bottle.

Also, Kennedy's Medical Discovery, Kennedy's Salve, and Holman's Nature's Restorative.

THERE ARE HUNDREDS OF REMEDIES Sold at every Drug Store, purporting to cure all diseases nameable, each advertised as the very best ever known, till we had lost all faith in them all, but there is one exception.

We speak of Dr. Sanford's Invigorator, which came to us recommended as a cure for Liver Complaints, and all diseases arising from a Diseased Liver. The testimonials of so many of our Physicians in its favor, induced us to try it, and now conviction is certain that it is one of the greatest blessings ever given to Dyspeptics, for it made a complete cure before the first bottle was taken, and now we can eat anything eatable without trouble, while before, nothing but the lightest food would digest, and often would digest, and often that gave pain. Now what we want to say to all our readers is, if Liver Complaint or Dyspepsia trouble you, do not fail to try this, the greatest remedy in the world.

LOCAL.

NAVAL.—Commander John M. Berriam has been ordered to Portsmouth, N. H., Navy Yard, to relieve Commander Pickering—who we learn is to report for sea-service in September.

☞ The old buildings on what is to be the site of the new Post Office and Custom House, "over the way" from our office windows, are almost entirely demolished—hardly one stone, brick or timber left upon another. The old and staunch vault of the Rockingham Bank is a tough piece of masonry, and won't come in pieces without some labor—and as there is now no money inside of it to incite the demolishers, of course it comes down harder.

☞ Mr. Allen Freeman has sold out his Oyster and Ice Cream Saloon, in this city, and is to open a similar institution in Portland. Messrs. White & Patch, the new proprietors of the establishment here, will no doubt conduct it in as good shape as heretofore. The stand is good, and saloon one of the largest and best in the city. To those not acquainted with the new firm, we recommend them as worthy the patronage of ladies and gentlemen.

☞ The "Huckleberry Party," or Pic Nic Excursion, to Candia, on Tuesday, was attended very largely. Three passenger cars on the P. & C. Railroad were filled, crowded, crammed; and the baggage cars almost ditto, with passengers standing.—The day was favorable, and the occasion well improved by the hundreds who went up.

A few ladies and gents, who did not care to stand up for a thirty-mile ride or more, waited for the regular train, about eleven o'clock; but their excursion tickets were rejected by the Agent of the Road, and the holders staid at home—though not without a little growling.

ELECTRIC PHENOMENON.—During the heavy thunder shower which prevailed in this vicinity last Thursday evening, an electric ball was seen to descend from the clouds and to approach within twenty or thirty feet of a stable of Mr. C. H. Ferson, situated near the dividing line between Chelsea and Malden. It exploded with a great noise, scattering the fire in every direction. The Chelsea Pioneer and Telegraph says:

"Providentially this electric globe was not permitted to reach the stable before its explosion; for, had it done so, great loss of life, it is feared, would have been the result, there being at the time some twelve men and five horses inside the stable. As is was, some of the men were knocked down, but not materially injured; articles of furniture and clothing were scattered about in dire confusion, and the room was filled with a dense and suffocating smoke. The people in the adjoining house also felt the shock but escaped injury."

KILLED BY LIGHTNING.—Mr. Eli W. Simmons and his wife, formerly of Long Meadow, Mass., were killed by a stroke of lightning, at Owatona, Minnesota, a short time since. They were sitting at an open window during a thunder shower, and both were instantly killed by the same bolt, while their infant, eight months old, in the arms of Mrs. Simmons, escaped unhurt.

One of the most prominent citizens of Missouri—the owner of twenty-one grown up slaves, besides their progeny—has offered to emancipate all provided general emancipation could be secured. He knows and says that the rise in real estate, consequent upon the abolition of slavery in Missouri, would four-fold pay for the slaves.

FRANCE.—The silk harvest is from one third to one-fourth under a fair ordinary crop. The new wheat is of excellent quality and bulk, and realizes 1 a 2 francs per hectolitre advance upon the old.

DOCTRINE.—The report of the Yearly Meeting of the Progressive Friends, held at Long Wood, Chester county, Penn., fifth month 1857, gives the following rousing testimony against the use of tobacco:

"We desire to do what in us lies for the discouragement and suppression of another vicious and widely prevailing habit—the use of that narcotic weed tobacco: a habit which is essentially vulgar, filthy, injurious to mind and body, annoying to all lovers of purity a heavy pecuniary tax, and too generally allied with the wine-cup and other demoralizing allurements; a habit which is more to be dreaded, because of the amazing tenacity with which it clings to its victims—the appetite for spiritous liquor being less clamorous and exacting. The increasing use of tobacco in the land is an alarming evil, which calls for active and uncompromising efforts for its extirpation; and let no one consider himself a consistent friend of progress who does not by word and deed, bear a decided testimony against it."

SUDDEN DEATH.—Tuesday forenoon, a man named Lawrence Mehan entered the store No. 148 Endicott street, Boston, and had been there but a few moments when he sank upon the floor and died instantly. Deceased resided in Thacher avenue, and was of intemperate habits.—*Trav.*

COUNTRY TRADE.—We are glad to see indications of a return of traffic to this city. We say return, because the first movement after the building of railroads was to carry everything to Boston. The people who were unaccustomed to large places could not get rid of the idea that the larger the town or city, the cheaper they could purchase groceries, dry goods, &c.; and they all rushed to the city. They have tried the experiment and found it to fail—proved that it was to their advantage and to the advantage of all to make purchases near home, and employ mechanics near home; and the consequence is a return to our local traders and manufacturers. It is very reasonable that the merchants in this town, with the low rents and smaller cost of living, can sell cheaper than many whom they have patronized farther away, and the trial will prove it to be so. Those of this city and the surrounding towns are losing their time and the cost of travelling when they pass Newburyport for any larger place, in search of what may be had in the retail trade here.—*Newburyport Herald.*

We suppose the same may be said, as truly, of the traders in Portsmouth.

☞ The lost by the Sound collision of the steamer Metropolis with the propeller J. N Harris, are now ascertained to number sixteen.
